Date amendment comes into effect	30 September 2021

Updates

Update to graded qualification specifications

We are constantly listening to customer feedback to ensure the services we provide are consistent across all our centres. In support of this, we are in the process of updating all graded qualification specifications with the below text.

External Quality Assurance

Summatively assessed and internally quality assured grades for at least one completed unit must be submitted via the Portal, prior to an EQA review taking place. Following the EQA review, the unit grades will either be accepted and banked by your external quality assurer or, if they disagree with the grades, they will be rejected. If a grade is rejected, centres must reassess, re-grade, internally quality assure and resubmit the new unit grade in line with EQA actions.

This guidance applies to all graded qualifications and should be followed in the 2021–2022 session and future sessions. EQAs must receive grades for at least one completed unit ahead of the EQA review to be able to select learners for sampling and to make a judgement on whether the grading criteria has been applied in line with the qualification specification.

Update to learner's evidence tracking log (LETL) and evidence and grading tracker (EGT)

We are constantly listening to customer feedback to ensure the services we provide are consistent across all our centres. In support of this, we will be removing specific qualifications LETLs and EGTs from qualification pages and will now provide centres with a blank template which can be used in the delivery of our qualifications.

These blank templates can be found in the support guides area within the policies and documents area of QualHub here: www.qualhub.co.uk/policies-documents/support-guides/

Update to qualification factsheets

Following the launch of the new NCFE brand, some changes have been made to the name and design of old brand qualification factsheets, key facts and in the know documents. These have now been converted into a new qualification factsheet and can be found on the qualification pages on [QualHub](#).
