Qualification overview

Introduction

We want to make your experience of working with NCFE as pleasant and easy as possible. This Qualification Specification contains everything you need to know about this qualification and should be used by everyone involved in the planning, delivery and assessment of the Level 3 Diploma in Skills for Business: Retail.

All information contained in this specification is correct at the time of publishing.

To ensure that you're using the most up-to-date version of this Qualification Specification, please check the version date in the page headers against that of the Qualification Specification on the NCFE website.

If you advertise this qualification using a different or shortened name, you must ensure that learners are aware that their final certificate will state the full regulated qualification title.

Things you need to know

Total Qualification Time (TQT)

Total Qualification Time is the number of notional hours which represents an estimate of the total amount of time that could reasonably be expected to be required in order for a learner to achieve and demonstrate the achievement of the level of attainment necessary for the award of a qualification.

Total Qualification Time comprises:

- the Guided Learning Hours for the qualification
- an estimate of the number of hours a learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training, including assessment, which takes place as directed by – but not under the immediate guidance or supervision of – a lecturer, supervisor, Tutor or other appropriate provider of education or training.

Credit

The credit value is equal to the Total Qualification Time divided by ten, rounded to the nearest whole number.

About this qualification

This is a regulated qualification. The regulated number for this qualification is 601/2651/6.

This qualification forms part of a suite of qualifications which have been developed to form the substantial qualification element of Study Programmes and meet the Teaching Agency's requirements for high-quality, rigorous qualifications in education.

This qualification may be eligible for funding. For further guidance on funding, please contact your local funding provider.

This qualification is suitable for use within a Study Programme.

UCAS points

This qualification has been allocated UCAS points. Please refer to the UCAS website for further details of the points allocation and the most up-to-date information.

Qualification purpose

This qualification provides transferable skills, knowledge and understanding that can be applied in any business setting. The units in Group A are aligned to National Occupational Standards for business and represent the core attributes required by employers in a range of business settings. The units in Group B specialise in retail.

This qualification will:

- focus on the study of the skills for business in the retail sector
- offer breadth and depth of study, incorporating a key core of knowledge
- provide opportunities to acquire a number of practical and technical skills.

Qualification objectives

The objectives of this qualification are to provide learners with:

- an understanding of the essential skills required to work successfully in a business environment
- the skills required to solve problems in a business environment
- an understanding of business culture and responsibilities
- the ability to successfully communicate and work with others in a business environment
- the opportunity to develop the skills required to manage and improve their own performance in a business environment.
- an understanding of the retail industry
- the skills required for visual merchandising in a retail environment
- an understanding of buyer behaviour in sales situations
- an understanding of the receipt and storage of goods in retail
- knowledge of promotion and branding in a retail business.

Achieving this qualification

To be awarded the Level 3 Diploma in Skills for Business: Retail, learners are required to successfully complete 6 **graded** units from Group A and 4 units from Group B.

Group A

Unit number	Unit title	Graded
Unit 01	Business culture and responsibilities	Yes
Unit 02	Deliver customer service in a business environment	Yes
Unit 03	Produce documents in a business environment	Yes

Unit 14	Promoting and branding in retail business	No
Unit 15	Understanding the receipt and storage of goods in retail	No

The learning outcomes for each unit are provided in Section 2.

The units above may be available as stand-alone unit programmes. Please visit the NCFE website for further information.

To achieve the Level 3 Diploma in Skills for Business: Retail, learners must successfully demonstrate their achievement of all learning outcomes of the units as detailed in this Qualification Specification.

This qualification is graded. For further information about grading and submitting these grades to NCFE, please see Section 4.

Learners who aren't successful can resubmit work within the registration period; however, a charge may apply. A partial certificate can be requested for learners who don't achieve their full qualification but have achieved at least one whole unit.

Essential skills

While completing this qualification, learners may develop the knowledge, understanding and essential skills employers look for in employees. These range from familiar 'key skills' such as team working, independent learning and problem solving, to more tricky-to-measure skills such as:

- an appreciation for appropriate behaviour and dress
- appropriate interpersonal skills
- communicating with professional colleagues/peers and/or hierarchical seniors
- supporting other aspiring employees
- personal manners and deportment
- understanding work practices and how different roles and departments function within an organisation.

Barred units, equivalencies and exemptions

This qualification may contain barred units, equivalencies or exemptions. These will be identified in the summary for each unit.

Unit	Equivalent unit
Visual merchandising in a retail environment (D/505/9768)	Visual merchandising in retail (L/502/5504)
Understanding the receipt and storage of goods in a retail (M/505/9774)	Understanding the receipt and storage of goods in a retail environment (A/500/4938)

Recognition of Prior Learning (RPL)

Centres may recognise prior learning at their discretion if they are satisfied that the evidence provided meets the requirements of a qualification. Where RPL is to be used extensively (for a whole unit or more), advice must be given by a qualified RPL Advisor.

Credit transfer

Where a learner has already achieved a unit with credit, NCFE will recognise that prior learning and will allow the credit to be transferred onto a new qualification, provided that the units have the same Ofqual reference number.

Direct Claim Status

For more information about Direct Claim Status, please contact our Customer Support team on 0191 239 8000.

Qualifications and awards with simulation and assessment in a Realistic Work Environment (RWE)

Where the assessment guidance for a unit/qualification allows, it is essential that organisations wishing to operate a RWE do so in an environment which reflects a real work setting and replicates the key characteristics of the workplace in which the skill to be assessed is normally employed. This will ensure that any competence achieved in this way will be sustained in real employment.

Entry guidance

This qualification is designed for learners aged 16 and above and is suitable for use within a Study Programme.

There are no specific recommended prior learning requirements for this qualification. However, learners may find it helpful if they've already achieved a Level 2 qualification.

Entry is at the discretion of the centre. However, learners should be aged 16 or above to undertake this qualification.

Centres are responsible for ensuring that this qualification is appropriate for the age and ability of learners. They need to make sure that learners can fulfil the requirements of the learning outcomes and comply with the relevant literacy, numeracy and health and safety aspects of this qualification.

Learners registered on this qualification shouldn't undertake another qualification at the same level with the same or a similar title, as duplication of learning may affect funding eligibility.

Registration is at the discretion of the centre, in accordance with equality legislation, and should be made on the Portal.

Progression opportunities

Learners who achieve this qualification could progress to:

- Level 3 Diploma in Skills for Business
- Levels 3 and 4 Diplomas in Business Administration
- Levels 3 and 4 Diplomas in Customer Service
- Levels 3 and 4 Diplomas in Management
- Foundation degree in a business-related discipline
- Level 4 Retail Management.

Progression to Higher Level Studies

This qualification aims to provide learners with a number of progression options, including higher level studies at university or FE colleges. The skills required to progress to higher academic studies are different from those required at Levels 1 and 2. Level 3 qualifications enable the development of these skills. Although there is no single definition of higher level learning skills, they include:

- checking and testing information
- supporting your points with evidence
- self-directed study
- self-motivation
- thinking for yourself
- analysing and synthesising information/materials
- critical thinking and problem solving
- working collaboratively
- reflecting upon learning and identifying improvements.

Level 3 criteria can require learners to **analyse**, **draw conclusions**, **interpret** or **justify**, which are all examples of higher level skills. This means that evidence provided for the portfolio will also demonstrate the development and use of higher level learning skills.

Qualification dates

Regulated qualifications have operational end dates and certification end dates.

We review qualifications regularly, working with sector representatives, vocational experts and stakeholders to make any changes necessary to meet sector needs and to reflect recent developments.

If a decision is made to withdraw a qualification, we will set an operational end date and provide reasonable notice to our centres. We will also take all reasonable steps to protect the interest of learners.

An operational end date will only show on the Ofqual Register of Regulated Qualifications register.ofqual.gov.uk and on our website if a decision has been made to withdraw a qualification. After this date, we can no longer accept learner registrations. However, certification is allowed until the certification end date so that learners have time to complete any programmes of study. The certification end date will only show on the Ofqual Register once an operational end date has been set. After this date, we can no longer process certification claims.

Staffing requirements

Centres delivering any of NCFE's qualifications must:

- have a sufficient number of appropriately qualified/experienced Assessors to assess the volume of learners they intend to register
- have a sufficient number of appropriately qualified/experienced Internal Quality Assurers to internally quality assure the anticipated number of Assessors and learners
- ensure that all staff involved in assessment and internal quality assurance are provided with appropriate training and undertake meaningful and relevant continuing professional development
- implement effective internal quality assurance systems and processes to ensure all assessment decisions are reliable, valid, authentic, sufficient and current. This should include standardisation to ensure consistency of assessment
- provide all staff involved in the assessment process with sufficient time and resources to carry out their roles effectively.

Assessors and internal quality assurance

Staff involved in the assessment and internal quality assurance of this qualification must be able to demonstrate that they have (or are working towards) the relevant occupational knowledge and/or occupational competence at the same level or higher as the units being assessed and internally quality assured. This may be gained through experience and/or qualifications.

Resource requirements

There are no mandatory resource requirements for this qualification, but centres must ensure learners have access to suitable resources to enable them to cover all the appropriate learning outcomes.

Support for learners

Evidence and Grading Tracker

The Evidence and Grading Tracker can help learners keep track of their work. This blank document can be downloaded free of charge from the NCFE website. You don't have to use the Evidence and Grading Tracker – you can devise your own evidence-tracking document instead.

Support for centres

There are a number of documents available on the NCFE website that centres might find useful.

Support handbook

This qualification specification must be used alongside the mandatory support handbook which can be found on the NCFE website. This contains additional supporting information to help with planning, delivery and assessment.

This qualification specification contains all the qualification-specific information you will need that is not covered in the support handbook.

Customer Support team

Our award-winning Customer Support Team will support you with approvals, registrations, external quality assurance, external assessment, results and certification. To contact your Customer Support Assistant, call 0191 239 8000 or email customersupport@ncfe.org.uk.

Reasonable Adjustments and Special Considerations Policy

This policy is aimed at customers – including learners – who use our products and services and who submit requests for reasonable adjustments and special considerations. The policy can be found on the NCFE website.

Subject maps

Our suite of subject maps showcase the qualifications we have available within each specialist sector and how they connect to each other. They demonstrate how you can plot routes for your learners at different levels, from entry level right through to higher education or the workforce, with supporting qualifications along the way.

Fees and Pricing

The current Fees and Pricing Guide is available on the NCFE website.

Training and support

We can provide training sessions for Assessors and Internal Quality Assurers. Bespoke subject-specific training is also available. For further information, please contact our Quality Assurance team on 0191 239 8000.

Learning resources

We offer a wide range of learning resources and materials to support the delivery of our qualifications. Please check the qualifications page on the NCFE website for more information and to see what is available for this qualification.

The resources and materials used in the delivery of this qualification must be age-appropriate and due consideration should be given to the wellbeing and safeguarding of learners in line with your institute's safeguarding policy when developing or selecting delivery materials.

Section 2

Unit content and assessment guidance

Unit content and assessment guidance

This section provides details of the structure and content of this qualification.

The unit overview includes:

- unit title and number
- unit summary
- credit value
- guided learning hours
- level
- an indication of whether a unit is graded or not
- an indication of whether a unit is mandatory or optional.

Following the unit summary, there's detailed information for each unit containing:

- learning outcomes
- grading descriptors/achievement descriptors and explanations
- delivery and assessment information (including types of evidence for internal assessment).

The regulated unit number is indicated in brackets for each unit (eg M/100/7116). However, to make cross-referencing assessment and quality assurance easier, we've used a sequential numbering system in this document for each unit.

The types of evidence listed are for guidance purposes only. Within learners' portfolios, other types of evidence are acceptable if all learning outcomes are covered and if the evidence generated can be internally and externally quality assured. For approval of methods of internal assessment other than portfolio building, please contact the Quality Assurance team at NCFE.

For further information or guidance about this qualification, please contact our Product Development team on 0191 239 8000.

Assessment is the process of measuring a learner's skill, knowledge and understanding against the standards set in a qualification.

The Level 3 Diploma in Skills for Business: Retail is internally assessed and externally quality assured.

Unless stated otherwise in this qualification specification, all learners taking this qualification must be assessed in English and all assessment evidence presented for external quality assurance must be in English.

Internal assessment

Each learner must create a portfolio of evidence generated from appropriate assessment tasks which demonstrates achievement of all the learning outcomes associated with each unit. On completion of each unit, learners must declare that the work produced is their own and the Assessor must countersign this. Examples of suitable evidence for the portfolio for each unit are provided in Section 2.

Internally assessed work should be completed by the learner in accordance with the Qualification Specification. A representative number of assessment hours should be timetabled into the scheme of work. Internal assessment hours must be administered outside of scheduled teaching and learning hours and should be supervised and assessed by the Tutor. Assessment activities can be integrated throughout, although separate from the teaching of the unit, and do not have to take place directly at the end of the unit.

Any work submitted for internal assessment must be completed during scheduled assessment hours in accordance with the scheme of work, and must be authenticated and attributable to the learner. The Tutor must be satisfied that the work produced is the learner's own and the learner must declare that the work is their own.

In practice, this means that all of the portfolio of evidence will be completed in normal class time within scheduled assessment hours and kept separate from any teaching and learning hours.

The internal assessment component is based on 100% coverage of the qualification content which is assessed holistically against descriptors to achieve a grade. Each unit of the qualification is internally assessed and will be allocated a weighting based on the GLH. The grade achieved for each unit is converted to a Uniform Mark Scale (UMS) score.

There is compensation within the internally assessed units as the grading descriptors are now based on learning outcomes rather than specific assessment criteria. This allows for increased professional judgement on the part of the Assessor in terms of learners' overall level of performance against the learning outcomes.

If a centre chooses to create their own internal assessment tasks, they must:

- be accessible and lead to objective assessment judgements
 - permit and encourage authentic activities where the learner's own work can be clearly judged
 - refer to the 'Internal Assessment Tasks: Guidance for Centres' document on the NCFE website.
-

Supervision of learners and your role as an Assessor

Guidance on how to administer the internal assessment and the support you provide to learners can be found on the NCFE website.

Feedback to learners

Guidance on providing feedback during teaching and learning and each stage of the assessment can be found on the NCFE website.

Presenting evidence

Written

Written evidence may be presented in word-processed or handwritten form. Audio-visual content (videos, pictures, drawings, audio) may also be used.

Tables, graphs and spreadsheets may be produced using appropriate ICT.

Any copied material must be suitably acknowledged, and quotations must be clearly marked and a reference provided wherever possible to ensure that learner work can be authenticated.

Recorded

Where audio-visual evidence of multiple learners is used, centres must ensure that each learner being assessed is clearly visible and can be identified by the Quality Assurer.

The recorded evidence should allow the learner to demonstrate the learning outcomes clearly but should only show work relevant to what is being assessed. For example, if a performance/participation is done as part of a group, the Quality Assurer will need to be able to see how each learner being assessed has contributed and met the learning outcomes.

To help our Quality Assurers to identify clearly when a particular learner is performing/participating, we'd recommend including the following information:

- the exact start and finish times so that the Quality Assurer can go straight to that spot on the tape/recording
- a running order list and a description of each learner
- information about where the performance/recorded evidence took place
- what type of audience they were performing to (if applicable).

Centres must also ensure that the camera and microphone are set up in a suitable place to ensure good-quality audio. This will allow the Quality Assurer to hear both the learner(s) and the Assessor (if applicable).

We have set out an example used for a performance:

Test High School

Recorded evidence: starts 4 mins 30 seconds into the recording and finishes at 16 mins 27 seconds

Venue: school hall

Audience: Assessors, parents and friends

Band 1:

Lead singer – James Doyle (blonde hair, front of stage)

Drummer – Diana Nisbett

Guitar 1 – Deepak Lahiri (black hair, blue jumper)

Guitar 2 – Deb Antani (brown hair, left hand side)

Performance of XXX:

Lead male – Su Jin

Lead female – Maya Solomon

Choir:

Caterina Petracci (black hair, back row 3rd from left)

Leonard Kalyminiou (brown hair, back row 5th from left)

Luke Falconer (blonde hair, front row 3rd from right)

If learners are not clearly identified, NCFE may not be able to quality assure or examine the work.

Late submissions

Tutors and Assessors should encourage learners to understand the importance of deadlines and when they need to submit their internal assessments. Assessors do not have to accept late work and may refuse it.

Learners may only be given extra time for legitimate reasons such as illness. If you accept a late submission, you should follow the usual assessment process.

Grades should not be reduced as a result of late submission.

Submitting unit grades

Each internally assessed unit within the portfolio of evidence must be assessed and graded by Assessors in the centre.

A reasonable sample of portfolios must then be checked by an Internal Quality Assurer to ensure consistency with national standards. See the NCFE website for further information on sampling.

Learners may revise and redraft work up until it's submitted to the Assessor for end-of-unit assessment and grading. Once the work has been assessed, graded and internally quality assured, the grades should be submitted to NCFE. This will be classed as the first attempt. Submitted grades for the first unit(s) of the qualification will trigger your first external quality assurance visit.

Following the external quality assurance visit, the unit grades will either be accepted and banked by your External Quality Assurer or, if they disagree with the grades, they will be rejected. If the grades are rejected, the work cannot be given back to the learner. If a grade is rejected, centres must reassess, re-grade and internally quality assure the work, and resubmit the new unit grade.

Once the grades for the internally assessed units of the qualification have been accepted and banked by your External Quality Assurer, learners are permitted one opportunity to revise and redraft their work. The additional work will need to be assessed, graded and internally quality assured again, and the centre will be required to resubmit the updated grade to NCFE for further external quality assurance. Learners are only permitted one resubmission of internally assessed work.

Why would the unit grades be rejected by an External Quality Assurer?

This would occur if the External Quality Assurer did not agree with the grades the centre had submitted. It may be that the centre had been grading too harshly, too leniently, or inconsistently from one learner to the next. In this situation, the centre would be required to assess, grade and internally quality assure all learners' work again.

Quality assurance

Internal quality assurance

Internal quality assurance is the process of ensuring that everyone who assesses a particular unit in a centre is assessing to the same standards. It's the responsibility of Internal Quality Assurers to ensure that Assessors' decisions are sampled and monitored to ensure consistency and fairness. Internal Quality Assurers are also responsible for supporting Assessors by offering advice and guidance.

The Internal Quality Assurer will follow the centre's own sampling strategy in selecting the sample to be internally quality assured. See the guidance on sampling on the NCFE website.

The Internal Quality Assurer provides the vital link between the Assessors and the External Quality Assurer and acts as the centre's quality assurance agent.

External quality assurance

External quality assurance of internal assessments is carried out at least once a year to ensure that assessment and grading decisions are in line with required standards. External quality assurance is carried out by External Quality Assurers who are appointed, trained and monitored by NCFE. External Quality Assurers are responsible for monitoring and sampling learners' evidence to ensure that internal assessment decisions are valid, reliable, fair and consistent with national standards. Centres are notified of their External Quality Assurer's contact details on registration of learners with NCFE.

External Quality Assurance (CACHE and NCFE graded qualifications)

Summatively assessed and internally quality assured grades for at least one completed unit must be submitted via the Portal, prior to an EQA review taking place. Following the EQA review, the unit grades will either be accepted and banked by your External Quality Assurer or, if they disagree with the grades, they will be rejected. If a grade is rejected, centres must reassess, regrade, internally quality assure and resubmit the new unit grade in line with EQA actions.

Grading information

Grading information

Grading has been introduced to make sure that this qualification rewards learners with a suitable grade to reflect their achievement in this subject. NCFE has developed a robust grading structure that can be applied to all its graded qualifications fairly and consistently.

Please note that only units from Group A of this qualification are graded. Group B units are not graded.

Each unit in Group A of this qualification is graded using a structure of Not Yet Achieved, Pass, Merit and Distinction.

Grading internally assessed units

The grading descriptors for each unit have been included in this Qualification Specification. Grading descriptors have been written for each learning outcome in a unit. Assessors must be confident that, as a minimum, all learning outcomes have been evidenced and met by the learner. Assessors must make a judgement on the evidence produced by the learner to determine the grading decision for the unit. We've provided a grading criteria glossary of terms to help you to make this judgement – see Section 5 (page 95).

Once Assessors are confident that all the Pass descriptors have been met, they can move on to decide if the Merit descriptors have been met. If the Assessor is confident that all the Merit descriptors have been met, they can decide if the Distinction descriptors have been met. As the grading descriptors build up from the previous grade's criteria, the evidence must meet 100% of the grade's descriptors to be awarded that grade for the unit.

If the learner has insufficient evidence to meet the Pass criteria, a grade of Not Yet Achieved must be awarded for the unit.

Centres must then submit each unit grade to NCFE. The grades submitted to NCFE will be checked and confirmed through the external quality assurance process. This is known as 'banking' units.

The internal assessment component is based on performance of open-ended tasks which are assessed holistically against the grading descriptors to achieve a grade. Each unit of the qualification is internally assessed and will be allocated a weighting based on the GLH and a score based on the holistic grade. The overall grade achieved for each unit is converted to a UMS score. The UMS score for each unit is then combined and converted into an overall qualification grade.

There is compensation within the internally assessed units as the grading descriptors are now based on learning outcomes rather than specific assessment criteria. All of the assessment points need to be evidenced in the learner's portfolio, but the grade awarded is based on the standard of work for the learning outcome as a whole. This allows for increased professional judgement on the part of the Assessor in terms of the learner's overall level of performance against the learning outcomes.

The table below shows how the accumulation of each unit grade is aggregated to form the overall qualification grade.

Overall qualification grading descriptors

Not Yet Achieved
The learner will not have met all the assessment criteria and will not have enough work or evidence of progress available to allow a valid judgement to be made.
Pass
To achieve a Pass grade, the learner will be able to meet all the requirements as set out in the assessment criteria for each unit. The learner will make some effort to apply knowledge, and will have a basic understanding of key concepts but may not be able to make links between them. The learner will have a general understanding of processes, resources, techniques and materials but there may be some minor errors or one major error in application. The learner's evidence will show some degree of planning, organisation and investigatory skills but may be lacking in structure. The learner will have shown that they can complete the tasks to the minimum standard.
Merit
To achieve a Merit grade, the learner will be able to meet all the requirements as set out in the assessment criteria for each unit to a good standard. The learner will demonstrate a confident level of ability in their application of knowledge and skills and will have a clear understanding of key concepts, making some links between them and giving reasons for their choices. The learner will have a clear understanding of processes, resources, techniques and materials with few errors in application. The learner's evidence will show planning, organisation and investigatory skills in a clear and logical way. The learner will have been able to complete the tasks in a manner exceeding the minimum standard.
Distinction
To achieve a Distinction grade, the learner will be able to meet all the requirements as set out in the assessment criteria for each unit to a high standard. The learner will typically demonstrate mastery of appropriate processes, resources, techniques and materials. The learner will demonstrate an ability to undertake relevant and wide-ranging research, analysing and evaluating information to make informed judgements. The learner will have a detailed understanding of processes, resources, techniques and materials showing independent ideas expressed with confidence and originality. The learner's evidence will make cross-curricular connections showing planning, organisation and investigatory skills in a well-structured and thorough way. The learner will have shown a high degree of motivation, ability and commitment and will have been able to complete the tasks effectively in a manner far exceeding the minimum standard.
Distinction*
The learner will have achieved a Distinction grade for all units of the qualification, demonstrating consistent work at the level of the qualification.

Whilst NCFE does not anticipate any changes to our aggregation methods or any overall grade thresholds, there may be exceptional circumstances in which it is necessary to do so to secure the maintenance of standards over time. Therefore, overall grade thresholds published within this qualification specification may be subject to change.

Grading criteria glossary of terms

Grading criteria glossary of terms

This table has been provided as an aid to help you grade learners' assessments. These are generic terms used across the Level 3 qualifications and may not all appear in this Qualification Specification. Non-graded words can be used across all grades but must be accompanied with a grade-specific word.

Pass	
Advanced	Developed, refined and comprehensive
Analyse	Study or examine
Apply	Put into action in a relevant context
Appropriate	Relevant to the purpose or task
Clearly	Logically and without possibility of misunderstanding
Coherent	Logically connected
Critically compare	Examine and relate in order to give a judgement
Competent	Having the skill, knowledge and ability to complete a task to a given standard
Concise	Clear and succinct
Consider	Reflect or judge
Contrast	Identify differences
Critical understanding	The ability to deconstruct, analyse and evaluate, and express opinion
Distinguish	Identify differences
Effectively	To achieve a satisfactory solution
Evaluate	Make a qualitative judgement taking into account different factors and using available knowledge/experience. Assess
Explain	Provide details or reasons
Explore	Search and investigate
Interpret	Translate or find meaning
Justify	Give reasons or evidence to support an opinion
Modify	Make changes
Realistic	Relevant and in context
Review	Consider or look at
Summarise	Make a brief account of the points

Merit	
Assess	Examine in order to judge or review
Comprehensive	All-encompassing
Confidently	With certainty in own ability
Continually review	Regularly consider or look at
Convincing	Persuasive and credible
Creativity	Originality, imaginatively expressed
Critical judgement	Application of a critical understanding informing decisions
Detailed	Thorough and in-depth
Experimentation	Trial of different methods and techniques
Fluently	Smoothly flowing and without apparent effort
Initiative	The ability to work without external direction
Insight	Intuitive perception
Inventive	Having creativity borne of original thought
Perceptively	Showing insight and understanding
Predict	Use evidence or experience to say what will happen
Propose	Put forward an idea
Skilfully	In a manner underpinned by technical knowledge and a degree of mastery
Thorough	Completed fully, in some detail

Distinction	
Continually review and revise	Regularly consider or look at in order to make relevant amendments
Critically analyse	Study or examine to make a judgement
Draw conclusions	Make a judgement or decision based on research or analysis
Formulate	Draw up carefully and in detail
Originality	Ability to think or express oneself in an independent and individual manner
Sophisticated	Developed, refined, advanced
Synthesise	Create or combine to produce a more complex product
Validate	Confirm or prove legitimacy or accuracy

Non-graded	
Accurately	In a manner which provides a correct reading or measurement – deviating only slightly
Demonstrate	Explain or describe through actions
Range of	A variety, an assortment
Reflect	Review and evaluate
Relate	Link or establish connections
Sufficient	Adequate for the purpose; enough to meet a need or purpose
Technical skill	Technique requiring understanding and ability to produce work of a good-quality standard
Various	Of different kinds, several, many

General information

General information

Equal opportunities

NCFE fully supports the principle of equal opportunities and opposes all unlawful or unfair discrimination on the grounds of ability, age, colour, culture, disability, domestic circumstances, employment status, gender, marital status, nationality, political orientation, racial origin, religious beliefs, sexual orientation and social background. NCFE aims to ensure that equality of opportunity is promoted and that unlawful or unfair discrimination, whether direct or indirect, is eliminated both in its own employment practices and in access to its qualifications. A copy of NCFE's Equal Opportunities Policy is available on request.

Diversity, access and inclusion

Our qualifications and associated assessments are designed to be accessible, inclusive and non-discriminatory. NCFE regularly evaluates and monitors the 6 diversity strands (gender, age, race, disability, religion, sexual orientation) throughout the development process as well as throughout the delivery, external quality assurance and external assessment processes of live qualifications. This ensures that positive attitudes and good relations are promoted, discriminatory language is not used and our assessment procedures are fully inclusive.

Learners who require reasonable adjustments or special consideration should discuss their requirements with their Tutor, who should refer to our Reasonable Adjustments and Special Considerations Policy for guidance.

For more information on the Reasonable Adjustments and Special Considerations Policy, please see the NCFE website.
