Dear NCFE,

I am writing in support of the **NCFE CACHE Level 4 Award in Special Educational Needs and Disability (SEND) Leadership and Management in the Early Years**. This qualification offers Continuing Professional Development (CPD) and is designed for those already working in a SENCO role as an Early Years practitioner and who wish to progress to leadership and management roles and responsibilities.

I have delivered NCFE CACHE courses for the last 15 years. In the last 12 months I have been working independently for my own setting I have got a vast range of settings and professionals that I work with at the moment for the level three SENCo course I am delivering this to all our local inclusion officers that work for the local council also I deliver this to the earlier settings that I have worked with for years.

As a training provider, I believe this qualification is valuable for learners because I feel that this meets the needs of my students and makes them multiply employable because all the time I have been in FE and an independent trainer we have never had a SENCo course my student are now feeling valued in the role and I feel that the level three and level four willing hance this and support them in their role.

Completion of this qualification will prepare learners to progress on to a range of higher level qualifications within the Early Years and Childcare sectors, and enable learners to progress into employment in a SENCO or SEND related leadership and management role in the early years.

I estimate that I would register 20 learners for this qualification in year in the first year.

We confirm that we fully support the NCFE CACHE Level 4 Award in Special Educational Needs and Disability (SEND) Leadership and Management in the Early Years qualification. We confirm that we are happy for this statement of support to be made public and available on the NCFE/CACHE website alongside the qualification.

Yours sincerely
