## **1. Introduction**

This guidance has been produced in order to support the delivery of the Level 1/2 Technical Award in Sports Studies Examined Assessment (EA) and the Non-Exam Assessment (NEA). It is not intended to replace the specification documents but should be used in conjunction with them to support the successful delivery and completion of the qualification and assessments.

The aim of the NEA is to provide learners with the opportunity to independently apply an appropriate selection of knowledge, understanding, skills and techniques, developed through the full course of study, in response to a real-world situation, to enable them to demonstrate an integrated connection and coherence between the different elements of the qualification.

NCFE provides instructions for each of the assessments, and these must be followed by centres. Centres should ensure that essential resources for the assessments must be purchased prior to the assessments taking place. For further information on the required resources for the course please refer to the Qualification Specification.

## **2. Tutor overview**

Tutors need to familiarise themselves with the content of the assessments to ensure that they have a full understanding of the requirements and that resources required for the assessments are available.

### 3. Scheme of assessment

The Level 1/2 Technical Award in Sports Studies qualification is made up of two component parts: an EA and an NEA.

Assessments	Assessment time	% weighting	Raw marks	Scaling factor	Scaled marks*	Assessment conditions	Marking
NEA	20 hours (plus 2 hours to develop a resource pack)	60%	84	1.429	120	Supervised	Internal, with external moderation
EA	1 hour 30 minutes	40%	80	1.000	80	Invigilated	External
<b>Assessment total</b>	<b>21 hours 30 minutes</b> (plus 2 hours to develop a resource pack)	<b>100%</b>			<b>200</b>		

Although the resource pack is not assessed, it will assist learners when undertaking the 20 hours of NEA time. Therefore, centres should ensure that the full 2 hours are allocated.

The practical nature and purpose of the qualification means that it is necessary to assess understanding through two means of assessment: an external EA and an internal NEA. The variance in assessment methods used allows for a range of knowledge, understanding and skills that can be assessed using the most fit-for-purpose method.

## 4. Assessment objectives (AOs) definitions

The table below shows the allocation of assessment objectives and marks for both the EA and the NEA.

Assessment objective (AO)	
<b>AO1</b>	Recall knowledge and show understanding. The emphasis here is for learners to recall and communicate the fundamental elements of knowledge and understanding.
<b>AO2</b>	Apply knowledge and understanding. The emphasis here is for learners to apply their knowledge and understanding to real-world contexts and novel situations.
<b>AO3</b>	Analyse and evaluate knowledge and understanding. The emphasis here is for learners to develop analytical thinking skills to make reasoned judgements and reach conclusions.
<b>AO4</b>	Demonstrate and apply relevant technical skills, techniques and processes. The emphasis here is for learners to demonstrate the essential technical skills relevant to the vocational sector by applying the appropriate processes and techniques.
<b>AO5</b>	Analyse and evaluate the demonstration of relevant technical skills, techniques and processes. The emphasis here is for learners to analyse and evaluate the essential technical skills, processes and techniques relevant to the vocational sector.

## **5. Accessibility and fairness**

To promote accessibility and fairness for all learners and to ensure diversity and equality, we expect providers to be aware of and meet the requirements of relevant NCFE policies and government legislation. You must ensure that:

- all of your processes concerned with assessment are carried out in a fair and objective manner
- you continue to adhere to current equal opportunities legislation
- you continue to operate an effective Diversity and Equality Policy, with which learners are familiar, and which applies to all students using our products and services.

Plagiarism may result in the external assessment task being awarded zero marks. For further guidance, refer to the qualification page on our website.

## 6. Examined assessment (EA) command words

To support effective teaching and learning the following table provides centres with the command word taxonomy used for the EA. It illustrates the range of command words, associated assessment objective (AO) and their intended use. It is intended to support centres when creating assessment tools. Please note that these cover the full range of Level 1/2 Technical Award qualifications, and some may be more appropriate for certain subject areas.

### AO1

Command word	Use / requires learners to...
<b>Complete</b>	Finish a task by adding to given information.
<b>Give</b>	Recall an answer.
<b>Identify</b>	Name or otherwise characterise.
<b>Label</b>	Provide appropriate names on a diagram.
<b>List</b>	Generate a record of words, sentences or comments.
<b>Outline</b>	Set out the main characteristics or features.
<b>Name</b>	Identify using a recognised technical term.
<b>State</b>	Express in clear, brief terms.
<b>Define</b>	Give a definition or specify meaning of an idea or concept.

### AO2

Command word	Use / requires learners to...
<b>Choose / select</b>	Select from a range of possible solutions to address a specified problem, for example, choose the best / cheapest / most appropriate course of action in the given circumstances.  Choose or pick from alternatives or choose for a specific purpose.
<b>Complete</b>	Finish a task by applying knowledge, skills and techniques.
<b>Calculate</b>	Work out the value of something, showing relevant working.
<b>Estimate</b>	Perform one or a set of steps or to arrive at an approximate answer / assign an approximate value. This should be a value (not decision / opinion).
<b>Work out</b>	Perform one or a set of steps or calculations to arrive at an answer.
<b>Label</b>	Label within a context, for example, within a process or based on application of knowledge and understanding.  Apply understanding of a topic by correctly identifying and naming parts of a diagram, image, or model.
<b>State (what / why)</b>	Single or a series of succinct points of information that are applied to a context.
<b>Suggest (what / why)</b>	Present a possible cause or solution.

Command word	Use / requires learners to...
<b>Describe</b>	Give an account of or set out characteristics or features. Answers provide both ' <b>cause</b> ' and ' <b>effect</b> '
<b>Explain</b>	Set out purposes or reasons or make something clear in relation to a particular situation.  An explanation requires understanding to be demonstrated using a ' <b>what</b> ' and ' <b>why</b> ' approach with multiple linked statements and reasons.  When part of a three- or four-mark question, we would expect the question to ask for a justified or reasoned conclusion.
<b>Explain (how / why)</b>	Give a detailed account of a process or way of doing something.  When part of a three- or four-mark question, we would expect the question to ask for a justified or reasoned conclusion.

### AO3

Command word	Use / requires learners to...
<b>Discuss</b>	Present key points about different ideas or strengths and weaknesses of an idea. There should be some element of balance, although not necessarily equal weighting.  To consider or examine by means of argument for and against.  An 'understanding-based' response with a similar level of detail and balance between information and opinion / reasoning. Three marks is more appropriate if a decision or conclusion is needed.
<b>Justify</b>	Make judgements, provide supporting reasons and reach conclusions to a given context.
<b>Recommend</b>	Answers should present a supported judgement about the value of a particular (presented) procedure / solution in context.
<b>Suggest (what / why / how)</b>	To suggest that someone or something would be good or suitable for a particular purpose with some rationale for AO3 which is not necessary at AO2.
<b>Assess</b>	Consider information in order to make decisions.
<b>Analyse</b>	Separate information into component parts.  Make logical, evidence-based connections between the components.
<b>Compare</b>	Learners will use critical thinking skills such as analysis and evaluation and interpret the significance, make connections and form a judgement.  Cannot be used on its own as two-mark AO3 verb as it would not elicit the conclusions and or judgements so learners should be directed to arrive at a conclusion or decision following the comparison for three marks at AO3.
<b>Evaluate</b>	Review information and bring it together to make a decision and come to a conclusion.

## 7. Non-exam assessment (NEA)

The purpose of the NEA is to ensure that learners can recall, apply, analyse and evaluate their knowledge and understanding. Additionally, the NEA provides learners with the opportunity to demonstrate, analyse and evaluate their own skills to develop a substantial piece of work in response to a set brief. The brief and tasks are contextualised around the Sports Studies vocational settings.

The NEA takes the form of a synoptic project as it requires learners to draw on their knowledge and understanding of the entire qualification content.

The NEA in Sports Studies is comprised of a series of interconnected tasks. The table below shows the allocation of assessment objectives (AOs) and marks for each task. Please refer to section 4 of this document for a full definition of the AOs.

Centres are reminded that marking of the NEA is to be carried out holistically, using the banded marking grids. The numerical weightings are for information purposes only and have been accounted for and integrated into the banded levels of response grids.

Assessment objective (AO)		Task marks							Total marks (% weightings)
		1	2 (a)	2 (b)	3 (a)	3 (b)	4	5	
<b>AO1</b>	Recall knowledge and show understanding	4		4			4		12 marks (14%)
<b>AO2</b>	Apply knowledge and understanding	4	4	4			4		16 marks (19%)
<b>AO3</b>	Analyse and evaluate knowledge and understanding	4		4			4		12 marks (14%)
<b>AO4</b>	Demonstrate and apply relevant technical skills, techniques, and processes		8		12				20 marks (24%)
<b>AO5</b>	Analyse and evaluate the demonstration of relevant technical skills, techniques, and processes					12		12	24 marks (29%)

### Publication of the live NEA Brief

The NEA will be made available electronically by NCFE as a DRAFT version, at the start of September in the year of certification. A two-week window of clarification will then open for centres. The FINAL version of the NEA will be made available electronically by NCFE at the beginning of October. In the case where these are non-working days, the NEA version will be published the next working day. Centres can access the NEA materials from the Portal if they have learners with an associated booking. This is to support manageability and centre planning. However, the following information is provided to learners in the NEA brief document and must be adhered to:

Learners should **not** start the NEA until teaching and learning of all the content has been delivered to learners. This will ensure that your learners are in the best position to complete the NEA successfully.

As a result, centres should be mindful when planning the provision and delivery of the qualification in terms of when to administer the NEA, ensuring that learners are suitably prepared for the requirements of the assessment. Section 8 provides an illustrative example of how the NEA tasks could be managed within centres.

Whilst the assessment is live, it will only be accessible by selecting the assessment window associated with the year of completion upon registration. All teaching must be complete prior to accessing the assessment and the learner must be booked onto the NEA associated with the year of completion. The live NEA cannot be used as a sample. Only the sample assessment materials (SAMs) on the qualification webpage on our website may be used for practice assessments. These will be updated annually on related qualification pages.

## 7.1 Developing a resource pack

Prior to commencing the formal 20 hours of NEA time, learners should be allocated 2 hours to find resources and develop a resource pack.

During this time learners may have access to the project brief but may not access the NEA tasks. This 2-hour time period is entirely open book where learners can access their teaching and learning materials, textbooks, internet and other published materials.

From this they should develop a resource pack which can be used as their source of information when completing the NEA.

See the below table for resource pack guidance.

<b>Developing a resource pack (Max 2 hours)</b>	
<b>Resource pack format</b>	
Up to four sides of A4	✓
Templates provided by centre	X
Paper margins required	X
Digital	✓ (font size 12 only)
Any colour font / writing accepted	✓
Handwritten	✓
Use of images	✓
Can include electronic links	✓ (task controls permitting)
<b>When developing a resource pack, learners can have access to:</b>	
Class notes / teaching materials / exemplar materials	✓
Textbooks	✓
Internet / intranet	✓
Published materials	✓
Images	✓
NEA brief (plus any specific documents referred to within the brief if applicable)	✓
Individual NEA tasks	X
<b>Following completion of the NEA</b>	
Resource pack is assessed	X
Resource pack is returned to NCFE for moderation	✓ (only if selected for sampling)
Resource pack should be retained until the moderation process is complete and the learner results are issued.	✓

Learners should approach their resource pack on an individual basis. Templates should not be provided by the centre. This is the only support material that is permitted during the completion of NEA tasks (unless otherwise stated within each task instructions) and must be submitted to the tutor at the end of each session and kept secure (handwritten or electronic).

Material from the resource pack may not be submitted as assessment evidence as this will be considered malpractice. Text and images can be copied and pasted into the learner's resource pack; however, if used for reference in learner's work, text should then be in the learner's own words and the source used should be referenced.

It is also vital that learners cite sources of information within their NEA. As a minimum this should include the following:

- the use of quotation marks to clearly identify any passages not of their own words
- date accessed (websites only)
- name of source / author.

The resource pack must be retained by the centre and uploaded with learner evidence to NCFE if selected for moderation.

The resource pack should be no more than four sides of A4 in font size 12. This can be handwritten or electronic. Where the resource pack is electronic the centre is responsible for ensuring this is only accessed within supervised sessions. The pack must be returned to the supervisor at the end of each task / session and retained with the completed NEA.

## 7.2 Maximum completion time

NCFE has set the assessment timings as maximum times for each task. This allows for some flexibility for learners and to support centres in the administration of tasks. The plan can be amended to allow for some flexibility for learners entitled to additional time as part of approved reasonable adjustment and supports centres in the planning and administration of tasks around any timetabling issues.

Tasks are permitted to be timetabled over multiple sessions where necessary.

The following is the guidance regarding the NEA assessment times:

Task	Maximum task timing
Development of resource pack	2 hours
1	4 hours
2 (a)	3 hours
2 (b)	2 hours
3 (a)	3 hours
3 (b)	3 hours
4	3 hours
5	2 hours

In addition to the above, a declaration of authenticity should also be provided.

**The below guidance can be followed unless otherwise stated in the assessment-specific instructions section of the NEA.**

- Learners have been provided with a total of **20** hours to complete this NEA. In addition, there are 2 hours allocated to develop a resource pack.

- Learners should start each individual task at the same time (with exception of reasonable adjustments).
- Learners may use some or all of the time provided for each task up to the maximum allowed time.
- To facilitate planning, individual maximum task times are provided. These should be applied to the cohort as a whole. To aid flexibility learners are allowed to use any remaining time allocated to one task to rework previous tasks. However, the maximum NEA time must not be exceeded.

The above guidance is also provided for learners in the learner information section of the NEA for Sports Studies.

Centres will be required to keep a record of their assessment timetable and learner attendance and make it available to NCFE if requested.

## 8. Non-exam assessment (NEA) tasks

Tasks must be delivered in numerical order (Task 2 must follow Task 1 and so on). Learners must have access to the appropriate resources required to complete the NEA. The NEA has been designed to allow a fair opportunity for learners and centres (please refer to the Qualification Specification for a list of resources required for the qualification).

Some tasks within the NEA permit the use of internet access to support the completion of the task. Learners will be required to submit a copy of their internet browsing history to ensure that the controls around internet use are adhered to. Acceptable formats include a screenshot of the learner's history, an IT-based report or a typed / written list of websites accessed during the session.

Where the NEA allows for research requiring the use of the internet, learners must reference the sources in their work. Learners must cite sources of information within their NEA. As a minimum this should include the following:

- the use of quotation marks to clearly identify any passages not of their own words
- date accessed (websites only)
- name of source / author.

NEA material must not be uploaded onto any website that would make the material available in the public domain; this includes social networking sites.

Learners and teachers must not discuss the assessment brief online or post any assessment material online until after the materials have been retired.

Each learner must produce evidence of their browsing history for each task which allows internet access.

It is the responsibility of the supervisor to make sure all learners begin each task and session with a clear browsing history.

At the end of the supervised session, internet browsing history should be obtained by selecting the relevant history tab in the browser toolbar.

A learner's browsing history should be clearly attributable to the individual learner who completed it. Acceptable formats include a screenshot of the learner's history, an IT-based report or a typed / written list of websites accessed during the session.

See an example of how this could be recorded below:

Record of internet browsing history:		
Learner name: XXXX XXXX		
Learner number: 106XXX		
Qualification: NCFE Level 1/2 Technical Award in XXXXX		
Assessment series: Summer 20XX		
Website accessed	Task number	Date accessed

All records of browsing history should be retained with all other learner evidence for moderation purposes.

The table below shows which tasks permit the use of internet. More detail on each task is provided later in this section.

Task	Internet use permitted	Internet browsing history required
Development of resource pack	Yes	No
1	Yes	Yes
2 (a)	No	No
2 (b)	No	No
3 (a)	No	No
3 (b)	No	No
4	No	No
5	No	No

### Example of NEA tasks

Below is an example of the tasks that may appear in the NEA for Sports Studies. The inclusion of these tasks is to illustrate the proposed structure and timings, required resources (in addition to the resource pack) and any additional requirements around delivery or controls. Whilst the tasks will remain static for each version of the assessment, in terms of timings, resources, delivery and control conditions, the specified context (as illustrated in the SAMs) and content sampled will vary from session to session.

For the practical tasks within the Sports Studies NEA, centres are also required to complete a Record of Learner Observation form alongside other forms of evidence to support their application of the mark scheme and the moderation process. This form can be found within the Sports Studies NEA mark scheme document. The form is intended to provide validation that the learner completed the task themselves and to substantiate the placement within a band when applying the mark scheme.

Centres should use the form to record examples of the learner's demonstration and application of technical skills. It does not need to be a full account of every action, step and process undertaken by the learner and should instead serve as both a prompt when deciding upon a placement within the bands (for tutors within the centre) and to provide context to the moderator when viewing the learner's annotated images. It should not include the specific mark awarded to the learner for the task. This serves two functions: firstly, it supports centres to apply the mark scheme as it is likely that the marking of a learner's work will take place after the learner has completed the task. Furthermore, it is used to validate the assessment of the learner's work and can be used to provide examples of how the learner met the assessment objectives (AOs).

### Development of resource pack

Prior to commencing the NEA tasks, all learners **must** have been provided with the opportunity to develop a resource pack using only the NEA brief as detailed in section 7.1.

### Task 1

#### Required resources:

- laptop or desktop computer (with internet access)
- Task 1 materials
- access to resource pack.

## **Delivery**

Learners will be allocated a maximum time of 4 hours for this task.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task to carry out a wide range of research required in addition to the time required to develop the document. The document explores a range of key topics and sufficient time is required to conduct research appropriately.

Learners are required to undertake research which could be used as a reference guide during their work experience period. The document should be focussed on working with participants in the age group identified in the project brief. They are permitted to use the internet to research should they wish but must reference all sources of information used for this task. A copy of their internet browsing history must be provided as part of the assessment evidence.

The document should contain the following key information:

- explanation of different leadership styles coaches could use
- explanation of skills and qualities of a leader and coach
- explanation of the roles and responsibilities of a coach, with supporting examples
- overview of skills classification
- outline of the key components of planning / delivering / reviewing a sports coaching session
- an overview of the common causes of sports injuries and prevention methods
- examples of different solutions to barriers that may affect participation in sport
- judgements about the most important skills and qualities of an effective leader and coach and solutions to barriers of sports participation.

This document can either be word processed or handwritten but must include information across all eight sections outlined above. There is no minimum / maximum length for the document, however all sections identified above must be included.

For this task, the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guide.

## **Additional controls and information**

Learners must submit their task evidence at the end of the session to their tutor.

The centre must ensure that responses to the task, the resource pack, and any other assessment materials are not taken away by the learner at the end of the session.

## **Task 2 (a)**

### **Required resources:**

- laptop or desktop computer (internet access should be disabled)
- Task 2 (a) materials.

## **Delivery**

Learners will be allocated a maximum time of 3 hours for this task.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task to develop coaching session plans, allowing for progression of skills and techniques. There is 30 minutes to plan each session, with time to review and make sufficient amendments.

Learners are required to produce five sports coaching session plans for a chosen sport (the sport must have a National Governing Body (NGB) and be suitable for delivery within a secondary school setting). Using the information provided within the brief, learners are required to plan five sessions (minimum of eight participants) which introduce and build skills and techniques that the participants will demonstrate in the form of a competition on the final week of term.

Each coaching session plan must last for at least 30 minutes in total and include all components of a sports coaching session.

Coaching session plans should all be for the same sport and each plan should be unique but progressively develop skills and techniques for participants over the 5-week period.

Sessions should be tailored to the information outlined in the project brief, with a clear focus on the age and number of participants. Sessions should be focussed on the same sport.

For this task, the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guide.

### **Additional controls and information**

Learners must submit their task evidence at the end of the session to their tutor.

The centre must ensure that responses to the task, the resource pack and any other assessment materials are not taken away by the learner at the end of the session.

### **Task 2 (b)**

#### **Required resources:**

- laptop or desktop computer (internet access should be disabled)
- Task 2 (b) materials.

#### **Delivery**

Learners will be allocated a maximum time of 2 hours to produce a plan for a sports competition that would take place in the final week of the 6-week period. As per the information in the brief, the competition should focus on the participants being able to demonstrate the skills and techniques learnt in their previous five sports coaching sessions.

The competition plan should include all relevant detail from the NEA, inclusive of specific operational detail that would allow for the competition to take place. For example, proposed fixtures based on the information in the brief, timings / rules for the sports competition, health and safety considerations as well as information relating to the other sections outlined within the NEA. Learners should make judgements about their choices.

For this task, the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guide.

### **Additional controls and information**

Learners must submit their task evidence at the end of the session to their tutor.

The centre must ensure that responses to the task, the resource pack, and any other assessment materials are not taken away by the learner at the end of the session.

### **Task 3 (a)**

**Required resources:**

- relevant sports equipment
- Record of Learner Observation form (to be completed by tutor).

**Delivery**

Learners will be allocated a maximum time of 3 hours for all parts of this task.

The maximum time includes the following:

- time to set up and prepare the physical space for the sports coaching session
- delivery of the sports coaching session
- time to clear the physical space from the sports coaching session
- initial reflection time and feedback from the tutor.

Learners are expected to deliver for a minimum of 30 minutes as per their session plan. There should be a minimum of eight participants within the session and learners should lead the whole 30 minutes independently.

Feedback should be provided to the learner by the tutor following the session although this must be retained by the tutor at the end.

For this task, the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guide. The tutor / assessor is responsible for completing the supporting Record of Learner Observation form (using the template provided).

**Additional controls and information**

Learners must submit their task evidence at the end of the session to their tutor.

The centre must ensure that responses to the task, the resource pack, and any other assessment materials are not taken away by the learner at the end of the session.

**Photographic evidence**

Supervisors / tutors will need to take photographs of learners leading the warm-up, main activity and cool-down for the session. Where photographic evidence of multiple learners is used, centres must ensure that the learner being assessed is clearly visible and can be identified by the quality assurer / moderator. The evidence should show the learner demonstrating the learning outcomes clearly but should only show work relevant to what is being assessed. The learner must be able to annotate it accordingly in the time allowed. For example, within this task the participants may be visible on the photograph, however only the learner's contribution is assessed. Therefore, the identity of the participants should not be revealed or photographed unnecessarily.

For this task, the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guide.

### **Task 3 (b)**

#### **Required resources:**

- laptop or desktop computer (internet access should be disabled)
- completed Record of Learner Observation form
- annotated photographs from Task 3 (a).

#### **Delivery**

Learners will be allocated a maximum time of 3 hours for this task.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task to allow the learner to review the session, considering the feedback received from the tutor. Learners are asked to review a range of elements and need an appropriate duration of time to do so. The time may be reduced as appropriate.

Learners will carry out a self-assessment activity to review their effectiveness as a coach:

- with a clear focus on analysing and evaluating the following:
  - leadership style
  - motivation techniques
  - skills and qualities as a coach
  - ability to take responsibilities of a coach.

This can be presented in any method which is suitable; written report, presentation, podcast or other, however learners should use the prompts provided to them within the NEA to aid the completion of the self-assessment.

For this task, the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guide.

#### **Additional controls and information**

Learners must submit their task evidence at the end of the session to their tutor.

The centre must ensure that responses to the task, the resource pack, and any other assessment materials are not taken away by the learner at the end of the session.

### **Task 4**

#### **Required resources:**

- laptop or desktop computer (internet access should be disabled)
- Task 2 (a) materials
- Task 3 (a) completed Record of Learner Observation form
- Task 3 (b) materials.

#### **Delivery**

Learners will be allocated a maximum time of 3 hours to complete this task.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task as it will effectively allow learners 45 minutes to review each of the session plans. Within this time, learners are expected to review the session in line with previous feedback, make relevant changes and then justify said changes.

Learners will be asked to revisit coaching session plans 2 to 5 and make changes to these following the delivery and subsequent feedback related to session 1.

Learners should consider the following areas when completing this task:

- feedback from their tutors well as their own self-assessment
- make relevant changes to the session plans
- provide a justification for these changes, linking back to the feedback from Task 3 (a) in addition to outlining how the changes made will help improve the content and structure of future sessions
- how the changes that they have made will help to improve future sessions.

For this task, the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guide.

### **Additional controls and information**

Learners must submit their task evidence at the end of the session to their tutor.

The centre must ensure that responses to the task, the resource pack, and any other assessment materials are not taken away by the learner at the end of the session.

### **Task 5**

#### **Required resources:**

- laptop or desktop computer (internet access should be disabled)

#### **Delivery**

Learners will have a maximum time of 2 hours to complete this task.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task by allowing learners time to reflect on the NEA holistically, reviewing the effectiveness of coaching skills and planning to develop areas for improvement with the inclusion of SMART targets.

Learners will be asked to review the effectiveness of their coaching skills and provide an evaluation of their ability to plan and deliver coaching sessions.

Learners should produce the following:

- a range of strengths of their coaching skills
- a range of areas for improvement of their coaching skills
- a range of strengths of their ability to plan and deliver coaching sessions
- a range of areas for improvement of their ability to plan and deliver coaching sessions
- where areas for improvement have been identified, a relevant and appropriate SMART target to be developed
- provide a justification for each strength / area for improvement.

The information outlined above should be word processed and presented in a report format. Learners should refer to the previous tasks and use this information to inform the review of the effectiveness of their coaching skills and their ability to plan and deliver coaching sessions.

Learners are not expected to review the competition that they planned.

For this task, the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guide.

### **Additional controls and information**

Learners must submit their task evidence at the end of the session to their tutor.  
The centre must ensure that responses to the task, the resource pack, and any other assessment materials are not taken away by the learner at the end of the session.

## **9. Non-exam assessment (NEA) approach to mark schemes and marking**

### **Application of extended-response marking grids**

Centres will be provided with training opportunities for how to administer and assess the NEA (including the application of mark schemes in terms of how to use the indicative content together with the levels descriptors). Additionally, the mark schemes provide the following marking guidelines:

‘When determining a band, you should use a bottom-up approach. If the response meets all the descriptors in the lowest band, you should move to the next one, and so on, until the response matches the band descriptor. Remember to look at the overall quality of the response and reward learners positively, rather than focusing on small omissions. If the response covers aspects at different bands, you should use a best-fit approach at this stage and use the available marks within the band to credit the response appropriately.

When determining a mark, your decision should be based on the quality of the response in relation to the descriptors.’

Although learners are able to submit their tasks in a range of formats the mark scheme should be applied equally, regardless of the method of presentation. You should apply the mark scheme to the content of the tasks, rather than the method of presentation.

Further guidance on standardisation of marking is available on the [Preparing for moderation](#) page on our website.

### **Marking deadline**

The final submission deadline for learner marks to be submitted to NCFE via the Portal will be 30 April each session. We encourage centres to submit learner marks as soon as internal quality processes are complete.

### **Uploading of learner evidence deadline**

On 1 May a sample list of learners will be available on the Portal (as long as all learner marks are entered by the deadline). This will be open for 3 working days to allow you to upload evidence for each learner. It is important that you use the checklist available in the assessment pack to ensure all required documents are uploaded as this can cause delays to moderation.

The [Preparing for moderation](#) page of our website contains useful information on accessing materials, submitting marks as well as how to prepare for the moderation process.

## 10. Regulations for the conduct of the non-exam assessment (NEA)

This section provides instructions on the correct administration of the internally assessed NEA. Failure to comply with these regulations will be addressed via JCQ Suspected Malpractice: Policies and Procedures.

### Maladministration / malpractice

If at any time during the assessment there is a violation of these regulations, the supervisor or designated person has the right to void the assessment immediately. This decision must only be made in exceptional circumstances where malpractice is irrefutable. Once voided no allowance can be given retrospectively if the decision is deemed invalid. If they do so they must also inform NCFE immediately with a report of what occurred – please see our Notification of Malpractice forms available on our website.

If any of these regulations are breached by a learner, supervisor, or other persons involved in the conduct of the assessment, then NCFE may declare the assessment void.

In the event of a suspected or actual breach of these regulations by learners:

- the work completed by the learners concerned and any unauthorised materials (if applicable) must be confiscated from the learner and given to the designated person to return to NCFE
- all learners suspected of breaching these regulations should be instructed to leave the room immediately if appropriate to do so, causing the least amount of disruption to other learners
- the supervisor should report the incident to the designated person as soon as possible
- NCFE should be informed immediately of any irregularity
- the centre should conduct its own investigation into the incident and report the incident and its findings to our Provider Assurance team using the relevant Notification of Malpractice forms on our website.

NCFE reserves the right to investigate each case of alleged or actual maladministration / malpractice committed by a learner, supervisors, or other persons involved in the conduct of the assessment to establish all of the facts and circumstances surrounding the case. The investigation will be carried out in accordance with JCQ Suspected Malpractice: Policies and Procedures.

### Reasonable adjustments and access arrangements

NCFE seeks to provide equal access to assessment for all learners registered for its qualifications. NCFE recognises that reasonable adjustments may be required. For internally assessed qualifications, centres do not need to notify NCFE and must make reasonable adjustments that reflect a learner's normal way of working, in line with their policy.

All reasonable adjustments made in relation to internal assessments must be recorded on JCQ Form VQ / IA and held on file within the centre for inspection by NCFE. This will be reviewed on your annual monitoring review (AMR).

### Planning the NEA

NEAs cannot be adapted in any way by the centre; this is to ensure assessments remain fit for purpose and ensure learners are not disadvantaged or advantaged. It also allows us to standardise mark schemes and removes any inconsistencies across centres and learners as changes made may impact on the validity of the assessment.

Each subject-specific assessment contains a mandatory completion time which is outlined in the Qualification Specification.

Centres will need to plan the sessions to allow learners access to the full completion time available at the end of teaching and delivery. The assessment must not take place until the teaching and learning of all content has been delivered to learners.

### **Storing assessment materials**

The designated person will be responsible for:

- the security and integrity of the assessment materials (for example, used / unused assessment materials, partially or fully completed learner work and the assessment documentation) at all times
- ensuring that assessment material is logged on receipt (when downloaded and printed), centres must be able to demonstrate documentation of receipt, and secure movement and storage of assessment materials
- storing the assessment material in a secure online area or secure location – access to this storage must be restricted to authorised personnel only, ensuring that any unauthorised centre personnel do not have access to the assessment.

### **Preparing the learners for the assessment**

Learners must be fully prepared for the assessment. The assessment must not take place until the teaching and learning of all content has been delivered to learners.

Centres must inform learners of:

- a full schedule of dates, times and locations must be provided as the assessment will be delivered over multiple sessions, this must clearly state the final submission date
- the conditions under which their NEA will be conducted
- the resources they are required to bring to the assessment and what will be supplied by the centre.

### **Accommodation**

To ensure the assessment is administered correctly, the designated person is responsible for ensuring the allocated room is:

- suitable in terms of specialist facilities / resources (including computers, software, hardware and printers if applicable), where relevant
- as learners are only allowed to use teaching and learning materials to complete their 2-hour resource pack, any related wall displays must be removed prior to commencing the assessment task
- stocked with appropriate stationery and any specified items required by learners, specific resource requirements may be discussed between the tutor and learner to ensure availability, the tutor may not offer advice on what resources to select
- suitably quiet, undisturbed, with adequate space, heating, lighting, and ventilation.

All learners must be informed and aware of any relevant health and safety considerations that need to be complied with, to ensure they carry out their work in a safe manner.

Learners must be supervised at all times, to ensure health and safety practices are observed. Where learners are seen to be working in an unsafe manner, at the discretion of the tutor, the learner may be removed from the assessment and the remaining time rescheduled.

## Administering the resource pack

Prior to commencing the formal 20 hours of NEA time learners should be allocated 2 hours to develop a resource pack. During this time learners may have access to the project brief but may not access the NEA tasks. This 2-hour time period is entirely open book where learners can access their teaching and learning materials, textbooks, internet and other published materials. From this, they should develop a resource pack which can be used as their source of information when completing the NEA.

This is the only support material that is permitted during the completion of NEA tasks (unless otherwise stated within each task instruction) and must be submitted to the supervisor / tutor at the end of each session and kept secure. The resource pack should not be submitted as assessment evidence as this will be considered malpractice. Additionally, this must be retained and made available to NCFE upon request.

It is also vital that learners cite sources of information within their NEA. As a minimum this should include the following:

- the use of quotation marks to clearly identify any passages not of their own words
- date accessed (websites only)
- name of source / author.

The resource pack should be no more than four sides of A4, font size 12. This can be handwritten or electronic. Where the resource pack is electronic the centre is responsible for ensuring this is only accessed within supervised sessions. The resource pack must be returned to the supervisor / tutor at the end of each task / session and retained with the completed NEA.

## Issuing tasks

NEA tasks must be issued one at a time and in the numerical order (Task 2 must follow Task 1 and so on) to appropriately meet the requirements of the task in terms of resources and organisation of the learning environment.

All learners should start each task at the same time to promote fairness, prevent unfair learner advantage and aid centre manageability. Some flexibility is permitted to accommodate learners who have missed sessions due to absence. Centres should ensure that learners understand their options to revisit and amend parts of the NEA should they have additional time left at the end of a scheduled session.

## Requirements to administer the NEA

The person appointed to supervise the assessment must ensure the following points are adhered to:

### Internet browsing history

- Browsing history should be cleared, prior to commencing the NEA tasks.
- Where evidence of browsing history is required it can be presented in the following formats: printed, screenshot, an IT-based centre report or a handwritten / typed list of websites accessed (see section 8 for an example). A copy must be retained by the centre and uploaded with learner evidence to NCFE if selected for moderation.

### Accessing materials during the NEA

- Learners may access teaching and learning materials, including their own personal notes, to complete their resource pack **only**.
- Once the formal timetabled hours for the NEA commence, only access to the resource pack is allowed, unless otherwise stated within section 8 for the delivery of the specific assessment task.

#### Access to resources

- Learners must have access to the appropriate resources required to complete the NEA tasks outlined in section 8.

#### Completing the assessment tasks

- All work must be completed within supervised timetabled sessions and work must not be carried out at home.
- Learners can rework their evidence at any point during the supervised sessions as long as the maximum allowed time for the NEA is not exceeded.
- Supervisors cannot give the detail of what is missing or needs improving to learners. Learners should use the evidence requirements to decide themselves how to improve it.
- All submitted evidence must be authenticated and attributable to the learner. Learners must be made aware of the importance of this and how it may impact their overall grade if evidence is found not to be the learners' own work.

#### Safe storage of learner assessments

- On completion of the assessment the supervisor / tutor must immediately ensure that completed and unused assessments are collected and stored securely (this includes resource pack and work materials). Learners must hand in all evidence following each supervised session and will not be able to work on their assessment outside of the supervised assessment sessions.
- Materials cannot be reissued to learners until the beginning of the next supervised session.
- At the end of each supervised session the supervisor / tutor must check the number of tasks submitted by the learner is accurate and clearly labelled.
- Confidentiality of the materials must be maintained at all times. This process must be documented as part of your policy for safe storage of assessment materials. This policy will be checked as part of your AMR and any subsequent Assessment Audit Reviews. Any non-adherence or concerns will be documented in our report on completion of the review and actions will be set with an appropriate review date. Non-completion of actions may result in further investigations from our Provider Assurance team, who will investigate to ensure malpractice and maladministration policies are being followed.
- If a learner does not sit the NEA, you must securely destroy any assessment materials downloaded and withdraw the learner via the NCFE Portal before the assessment submission date of 30 April.

#### Declaration of Authenticity and GDPR consent

- The learner and assessor must complete the **Declaration of Authenticity Form** at the end of the assessment before any marking takes place. **The form can be found at the end of the learner copy of the NEA brief.** Once completed, the declaration of authenticity must be stored securely within the centre. A copy of this declaration form must be made available to NCFE upon request.
- Where assessment requires images / videos of learners and / or participants, the GDPR consent form must be completed by the learner and any other participants. The assessor should check this has been completed fully and correctly. Where applicable, this form will be found at the end of the learner copy of the NEA.
- The learner must complete the **GDPR consent form**. NCFE may select learner work for use at teacher training or standardisation events. If so, the learner's work would be anonymised. **The form can be found at the end of the learner copy of the NEA brief.** The assessor must check this has been filled out fully and correctly. Section A is to be completed by the learner and section B must be completed by any participants who feature in the work. The completed form must be retained within the centre and is not to be sent to the moderator or NCFE unless specifically requested.

#### Supervisors must

- remain alert and be able to observe all learners at all times

- report immediately any issues that may occur during the assessment to the designated person.

### **Supervisors must not**

- leave the assessment room without another supervisor being present
- read or carry out any other activity unless stated within assessment brief
- comment or offer advice or feedback to the learner about how their work can be improved
- lead on any of the tasks
- direct learners
- provide templates or writing frames for learners to complete unless otherwise stated in the task
- take copies of learner work
- label or reference completed work on behalf of the learner.

### **Assessment and feedback**

During the supervised sessions, supervisors can discuss the following with the learners:

- the conditions in which the assessment must be undertaken (see appendix A)
- where to save their electronic work and be able to access the secure storage medium
- time management of the hours available
- support with technical requirements, such as obtaining browser history.

Supervisors / tutors **must not** give any feedback to a learner on how a task or area can be improved. Learners must independently decide how to approach the assessment and associated tasks. If a learner asks for advice on the completion of their assessment the supervisor / tutor must remind them that they must work independently, and the work must be their own.

Learners' work must not be assessed, marked or internally quality assured during supervised sessions.

On completion of the NEA, the assessor will summatively assess and mark all learner evidence for the NEA in line with the mark schemes provided by NCFE.

Assessors can mark work after each task, but feedback cannot be given to learners until the whole NEA has been completed. Learners cannot rework the task after feedback is provided.

You do not need to annotate the learners' work, although if this assists your marking please do so. A proforma is included in the assessment pack to use for assessor feedback and comments. This should be completed at task level to indicate how assessment decisions were made and marks awarded. The feedback form will be required for upload and used as part of the moderation process.

In line with JCQ guidance, centres should inform learners of their centre-assessed marks before marks are submitted to NCFE in order to allow for any internal centre appeals.

Centres should make it clear to learners that any centre-assessed marks are subject to change through the moderation process.

## **Internal quality assurance**

As the NEA is moderated, the centre's internal quality assurance efforts need to be focussed on up-front standardisation. Standardisation will ensure assessor's judgements are in line with the Qualification Specification and grading criteria.

Centres need to apply their own internal quality assurance policy / process based on the outcome of standardisation activities they complete to satisfy their own internal quality assurance.

Internal quality assurance records will not be required to be uploaded for moderation; however, centres must maintain internal quality assurance records within the centre and make them available to NCFE on request.

## **Retaining assessment materials**

All learner evidence which forms part of their assessment including the resource pack, should be retained until the moderation process is complete and the learner results are issued.

Assessment and internal quality assurance records should be retained for 3 years.

## **Submitting learner marks and evidence**

The deadline for submission of the NEA is 30 April annually. All learner marks must be submitted no later than the submission date of 30 April. Any submissions made after this date will be classed as a late submission and will be moderated at NCFE's discretion. NCFE will investigate all late submissions.

Only in exceptional circumstances, and if appropriate to the qualification, will NCFE accept late submissions. In line with our Special Considerations Policy, a short extension of no more than 2 weeks may be applied. As soon as a centre is aware that they may miss the submission deadline they must submit a notification for a special consideration.

Failure to meet the deadline will result in delays to results for the full cohort and we cannot guarantee results for results day. This may impact your AMR risk rating and we may also refer the case to Provider Assurance for investigation.

## 11. Moderation

### Our approach to moderation

The NEA assessment will be marked by assessors at your centre and these marks will be reviewed by an NCFE moderator remotely.

We highly recommend you attend annual NCFE training events to ensure assessors and internal quality assurers (IQAs) are making well-informed assessment decisions. Failure to attend this training may lead to inconsistencies between assessor and moderator marks which may delay moderation outcomes.

You will be asked to submit marks for each learner on the Portal, and we will use these marks to select learners to be sampled based on JCQ sampling strategy. You will be able to view learners selected for sampling on the Portal.

Learners selected for sampling will be visible on the Portal the day after the window closes. Centres will be required to view the sampling plan on the Portal and upload learner evidence for sampled learners within three working days of the final deadline (30 April). Guidance on how to do this can be found in the Portal user guide.

During moderation, the moderator will remotely review evidence submitted and apply a mark for each learner. The moderator's mark will be compared to the mark awarded by the centre and a final mark will be applied.

If the centre's mark and the moderator's mark are within tolerance, the centre's marks will be applied to all learners in the cohort. If the marks are outside of tolerance, we will apply a regressed mark to all learners' marks within the cohort. If marks are outside of tolerance and cannot be reliably adjusted, **we will request evidence for all learners in the cohort** and the moderator's mark or adjusted mark will be used.

We'll provide a final moderation report on the Portal, with your results, on results release day with feedback on areas of good practice and areas of development.

### Sample sizes

Learners selected for moderation will be selected using JCQ sampling guidelines and include assessments from across a range of centre marks. The sample selected will include the learner with the highest centre mark and the learner with the lowest non-zero centre mark. The sample size will be in line with the table below. Where an assessment has been carried out by more than one assessor, a range of assessors will be included in the sample, where possible.

Number of learners in cohort	Sample size
Up to 5	All
6-10	All
11-15	All
16-100	15
101-200	20
Over 200	25

Moderation will take place remotely and feedback will be provided on results day in a final moderation report accessed on the Portal.

Please refer to our user guide to remote moderation and preparing for moderation pages on our website for more information.

During moderation the moderator will assess the sample. You will receive a moderation report to explain the outcome of the moderation activity along with areas performed well and areas for development.

### **Enquiries about results and assessment decisions**

The only form of enquiry allowed on NEA is a review of moderator marks. We are unable to review marks for individual learners.

A review of moderator marks is a check on the original moderation to make sure the assessment criteria has been applied fairly, reliably, and consistently. Please note this is not a remark and no specific feedback will be provided.

This service is not available for individual learners. Requests must be made by unit / component for all learners on a cohort. If centre marks were taken forward as final marks, this process is not available.

Any reviews of moderation will determine whether there was a moderation error. Should an error be identified, any adjustments made following moderation will be reviewed and revised to the extent necessary to correct the effect of the error and we will inform you of any changes to marks. No other changes will be made and where learners are entered for certification in the same series, only improvements to qualification grades will be implemented.

Further information is available on our Enquiries about results and assessment decisions page on our website.

## 12. Training

Training is available to support the completion of the NEA and will provide all the information you need to deliver, assess and internally quality assure the NEA.

### Administration training

Administration training is available for the NEA component to view on our [Preparing for moderation](#) page. The training consists of a series of videos supporting you through the administrative requirements associated with moderation including but not limited to accessing and uploading assessment materials. Confirmation that providers have watched the series of videos will be confirmed upon completion of standardisation training.

### Standardisation training

This continuous professional development (CPD) package is designed to bring your teams together to align assessment decisions and expectations for the NEA component.

It is mandatory for providers to complete the training within the given window. Once completed, a declaration must be signed and returned to NCFE to show it has been done. This declaration will confirm that administration training has also been completed.

The standardisation window will open from 1 October to 28 February, and the materials will be made available to providers on the Portal once students have been booked onto the NEA.

### Benefits of this training

- **Consistency and marking** – the training will help you establish a unified understanding of the assessment criteria.
- **Fairness and equity** – achieving consistency in marking enhances fairness and equity. It will minimise the chances of subjective bias and ensure that all learners receive an impartial assessment.
- **Improved communication** – this training will allow and encourage an open dialogue amongst your staff. It will give opportunities to discuss challenges, clarify doubts and build collaboration.
- **Enhanced professional development** – the training allows staff to develop their professional growth. They should gain insight from colleagues and improve their understanding and execution of assessment.
- **Time saving** – by aligning the assessment decisions of your teams, you will reduce the time spent on recalibrating assessment decisions. This streamlined training approach ensures that your efforts are applied and focussed on providing valuable feedback and reliable assessment to your learners.

## 13. Appendices

### **Appendix A – Instructions for the supervisor to read out before starting supervised sessions**

The following should be read out at the beginning of each supervised session:

- I am now in the role of supervisor for this assessment, not your teacher.
- This NEA consists of supervised sessions. You have a list of dates and times when the supervised sessions will take place.
- You must work independently and decide yourself how to approach the assessment tasks.
- Read the 'instructions for learners' in the assessment brief and make sure that you understand them.
- I cannot provide you with feedback on what task or area could be improved, or how to improve it. You must work out how to improve it yourself.
- All the work produced for the assessment must be your own.
- All your evidence must be clearly labelled with your name and task number.
- You should not upload or share any work or evidence on any social media sites or discuss it with anyone.
