Dear Chris,

RE: Professional Body support for sector specific qualifications.

Qualifications:

NCFE L1/2 Technical Award in Health and Fitness (603/2650/5)

NCFE L1/2 Technical Award in Sports Studies (603/2954/3)

I am writing to confirm Fitter Food's support for the above qualifications with the understanding further engagement will be sought on a regular basis to continue the currency and efficacy of the qualification.

In order to support the development of the qualifications we will work in close co-operation with NCFE providing support and guidance from our professional experience as certified personal trainers and nutritionists.

We hope these qualifications will be recognised as a key stage in a career progression into the Sport and Physical Activity sector and deem them appropriate for anyone aged 14-16.

Yours sincerely

Keris Marsden
