Summary of changes

This page summarises the changes to this qualification specification.

Version	Publication date	Summary of amendments	
v1.1	May 2023	Assessment strategies and principles updated.	
v1.2	October 2023	Information regarding <u>UCAS</u> points added to page 2 Qualification Summary.	

Section 1: introduction

If you are using this qualification specification for planning purposes, please make sure that you are using the most recent version.

Aims and objectives

This qualification aims to:

- focus on the study of the adult care worker role in care settings
- offer breadth and depth of study, incorporating a key core of knowledge
- provide opportunities to acquire a number of practical and technical skills

The objectives of this qualification are to:

- build knowledge and skills to work in adult care in health and social care settings in England
- cover a wide range of areas allowing learners to tailor the qualification to meet their needs, interests, preferred progression paths and the context of their job role

Support handbook

This qualification specification must be used alongside the mandatory support handbook on the qualifications page on the NCFE website, which contains additional supporting information to help with the planning, delivery and assessment.

This qualification specification contains all of the qualification-specific information you will need that is not covered in the support handbook.

Entry guidance

This qualification is designed for those who wish to work or are already working in health and social care settings in England.

Entry is at the discretion of the centre, in accordance with the Equality Act 2010. However, learners should be aged 16 or above to undertake this qualification.

There are no specific prior skills/knowledge a learner must have for this qualification. However, learners may find it helpful if they have already achieved a level 2 qualification.

Centres are responsible for ensuring that all learners are capable of achieving the learning outcomes and complying with the relevant literacy, numeracy and health and safety requirements.

Learners registered on this qualification should not undertake another qualification at the same level, or with the same/a similar title, as duplication of learning may affect funding eligibility.

Achieving this qualification

To be awarded this qualification, learners are required to successfully achieve **58 credits: 39 credits** from the mandatory units and a minimum of **19 credits** from the optional units. At least 35 credits must be achieved at level 3 or above.

Please refer to the list of units in appendix A or the unit summaries in section 2 for further information.

To achieve this qualification, learners must successfully demonstrate their achievement of all learning outcomes of the units as detailed in this qualification specification. A partial certificate may be requested for learners who do not achieve their full qualification but have achieved at least one whole unit.

Progression

Learners who achieve this qualification could progress to the following:

- employment:
 - lead adult care worker
 - o senior care support worker
 - lead personal assistant
- further education:
 - Level 4 Diploma in Adult Care
 - o Level 5 Diploma in Leadership and Management for Adult Care
 - Level 5 Diploma in Leadership for Health and Social Care and Children and Young People's Services (England)
- higher education

Progression to higher level studies

Level 3 qualifications aim to facilitate progression to higher level study, which requires knowledge and skills different from those gained at levels 1 and 2. Level 3 qualifications enable learners to:

- apply factual, procedural and theoretical subject knowledge
- use relevant knowledge and methods to address complex, non-routine problems
- interpret and evaluate relevant information and ideas
- understand the nature of the area of study or work
- demonstrate an awareness of different perspectives and approaches
- identify, select and use appropriate cognitive and practical skills
- use appropriate research to inform actions
- review and evaluate the effectiveness of their own methods

Resource requirements

There are no mandatory resource requirements for this qualification, but centres must ensure learners have access to suitable resources to enable them to cover all the appropriate learning outcomes.

The following documents are mandatory reading for any centre involved in the delivery, assessment and administration of this qualification:

- Skills for Care and Development assessment principles
- Skills for Health assessment principles

Real work environment (RWE) requirement/recommendation

Where the assessment principles for a unit allow, it is essential that organisations wishing to operate a real work environment (RWE) do so in an environment that reflects a real work setting and replicates the key characteristics of the workplace in which the skill to be assessed is normally employed. This is often used to support simulation.

Work/industry placement experience

Learners will need to be working, volunteering or on practical placement, as they need to show competence in both knowledge and skills.

How the qualification is assessed

Assessment is the process of measuring a learner's skill, knowledge and understanding against the standards set in a qualification.

This qualification is internally assessed and externally quality assured.

The assessment consists of one component:

• an internally assessed portfolio of evidence which is assessed by centre staff and externally quality assured by NCFE (internal quality assurance (IQA) must still be completed by the centre as usual)

Learners must be successful in this component to gain the Level 3 Diploma in Adult Care.

This qualification must be assessed in line with Skills for Care and Development assessment principles.

The Level 3 Diploma in Adult Care is a competence-based qualification.

A competence-based qualification may be based on national occupational standards (NOS) and is a jobready qualification which requires learners to demonstrate the skills and knowledge required to work in a specific industry. A competence-based qualification must be assessed in the workplace or in a RWE in accordance with the relevant assessment principles. For further information on the principles, please visit the qualifications page on the NCFE website.

Learners who are not successful can resubmit work within the registration period; however, a charge may apply.

All the evidence generated by the learner will be assessed against the standards expected of a level 3 learner for each learning outcome.

Internal assessment

We have created sample tasks for the internally assessed knowledge only mandatory units, which can be found within a separate document in the member's area of our website. These tasks are not mandatory. You can contextualise these tasks to suit the needs of your learners to help them build up their portfolio of evidence. The tasks have been designed to cover the 4 knowledge mandatory units and provide opportunities for stretch and challenge. For further information about contextualising the tasks, please contact the curriculum team.

Each learner must create a portfolio of evidence generated from appropriate assessment tasks, which demonstrates achievement of all the learning outcomes associated with each unit. On completion of each unit, learners must declare that the work produced is their own and the assessor must countersign this. Examples of suitable evidence for the portfolio for each unit are provided in section 2.

A centre may choose to create their own internal assessment tasks. There are 4 essential elements in the production of successful centre-based assessment tasks.

These are:

- ensuring the assessment tasks are meaningful with clear, assessable outcomes
- appropriate coverage of the content, learning outcomes, or assessment criteria
- having a valid and engaging context or scenario
- including sufficient opportunities for stretch and challenge for higher attainers

Please see the guidance document for creation of internal assessment tasks on our website.

Please refer to the Skills for Care and Development assessment principles document for further information. This can be found on the qualifications page on the NCFE website.

Assessment guidance is provided for each unit. Assessors can use other methods of assessment as long as they are valid and reliable and maintain the integrity of the assessment and of the standards required of this qualification.

Section 2: unit content and assessment guidance

This section provides details of the structure and content of this qualification.

The types of evidence listed are for guidance purposes only. Within learners' portfolios, other types of evidence are acceptable if all learning outcomes are covered and if the evidence generated can be internally and externally quality assured. For approval of methods of internal assessment other than portfolio building, please contact your external quality assurer.

The explanation of terms explains how the terms used in the unit content are applied to this qualification. This document can be found in section 3.

4. Be able to meet the	4.1 Establish the communication and language needs, wishes and
communication and	preferences of individuals in order to maximise the quality of
language needs, wishes	interaction
and preferences of individuals	4.2 Demonstrate a range of communication styles, methods and skills to meet individuals' needs
	4.3 Demonstrate how to respond to an individual's reactions during
	interactions

Learning outcomes The learner will:	Assessment criteria The learner can:
	4.4 Demonstrate professionalism when using a variety of communication methods
5. Understand the role of independent advocacy	5.1 Explain the purpose and principles of independent advocacy
services in supporting individuals to communicate their wishes, needs and preferences	5.2 Identify when to offer support to individuals to access an advocate
	5.3 Describe how to support individuals to access advocacy services
6. Understand principles	6.1 Explain the meaning of the term 'confidentiality'
and practice of confidentiality in care settings	6.2 Explain why it is important to maintain confidentiality when communicating with others
	6.3 Give examples of when and why confidentiality may need to be breached
	6.4 Describe the potential tension between maintaining an individual's confidentiality and disclosing concerns

1. Understand why effective communication is important in the work setting

1.2 Work setting:

This may include one specific location or a range of locations depending on the context of the learners' role.

2. Understand the variety in peoples' communication needs and preferences

2.1 Communication styles, methods and skills:

Should include:

- verbal:
 - \circ words
 - o voice
 - \circ tone
 - o pitch
 - o spoken
 - o written
- non-verbal:
 - o body language
 - o proximity
 - o eye contact
 - \circ touch
 - o gestures
 - o behaviour
- additional methods to support communication:
 - o signs
 - \circ $\,$ symbols and pictures
 - o objects of reference

- face-to-face communication (physically together or online), phone calls, email, letters, reports, text messages, the use of digital technology and technological aids, social networks, presentations
- active listening skills including paraphrasing, reflection, summarising, reframing, providing encouragement
- interpretation of non-verbal communication
- ability to use silence to provide space and support

2.4 Others:

In this context, this refers to everyone a worker is likely to come into contact with, to include:

- individuals accessing care and support services
- carers, loved ones, family, friends of those accessing care and support services
- colleagues and peers
- managers and supervisors
- professionals from other services
- visitors to the work setting
- members of the community
- volunteers

2.5 Barriers:

Examples may include, but are not limited to:

- environment
- time
- own physical, emotional or psychological state
- physical, emotional or psychological state of others
- own skills, abilities or confidence
- own or others' prejudices
- conflict
- therapeutic activity (for example, reminiscence therapy, relaxations and anxiety management, remedial games, art or music)
- therapy assistance (for example, physiotherapy)

2.6 Services to enable effective communication:

Examples may include, but are not limited to:

- translation services
- interpretation services
- speech and language services
- advocacy services

2.7 Poor or inappropriate communication practices:

Examples may include, but are not limited to:

- patronising individuals
- not listening to individuals

- not making time to communicate effectively
- not respecting individuals' communication preferences, needs or strengths
- using communication skills to control or take ownership of an interaction
- interrupting or talking over someone
- offering inappropriate or unsolicited advice
- placating an individual

4. Be able to meet the communication and language needs, wishes and preferences of individuals4.1 Needs, wishes and preferences:

These may be based on experiences, desires, values, beliefs or culture, and may change over time.

4.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3 and 4 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

SCDHSC0031

AC M2 Handling information in adult care (D/650/1367)

	Unit summary			
This unit is aimed at those working in a wide range of adult care settings. It covers the knowledge and skills needed to implement and promote good practice in handling, recording, sharing, storing and accessing information whilst protecting data security.				
Assessment				
This unit is internally assessed via a portfolio of evidence.				
Mandatory Achieved/not yet Level 3 2 credits 16 GLH				

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand requirements for	 1.1 Summarise the main points of legal requirements, policies and codes of practice for handling information in care settings
handling information in care settings	1.2 Describe the main features of manual and electronic information storage systems that help ensure data and cyber security
_	1.3 Explain how to support others to keep information secure
	1.4 Explain what is meant by a 'data breach' in the handling of information
	1.5 Describe the actions to be taken in the event of a data breach
2. Be able to implement good practice in	2.1 Demonstrate practices that ensure data security when storing , accessing and sharing information
handling information	2.2 Demonstrate ways to maintain and promote confidentiality in day-to- day communication
	2.3 Maintain records that are up to date, complete, accurate and legible
	2.4 Support audit processes in line with own role and responsibilities

Range

1. Understand requirements for handling information in care settings

1.2 Data and cyber security:

Learners should consider features that ensure the confidentiality, availability and integrity of information. This should include reducing data breaches, securing devices, and safe use of email wherever relevant.

1.3 Others:

In this context, this refers to everyone a worker is likely to come into contact with, including:

- individuals accessing care and support services
- carers, loved ones, family, friends of those accessing care and support services
- colleagues and peers
- managers and supervisors
- professionals from other services
- visitors to the work setting
- members of the community
- volunteers

1.4 Data breach:

This is the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal or secure data.

2. Be able to implement good practice in handling information

2.1 Storing, accessing and sharing information:

Where learners are required to store, share and access information manually and electronically, their assessment must include both manual and electronic storage and access arrangements.

2.3 Records:

Where learners are required to use both electronic and manual recording systems, assessment must include both ways of record keeping

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcome 2 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

SCDHSC0031

AC M3 Promote own continuous personal and professional development (F/650/1368)

Unit summary			
This unit covers promoting continuing personal and professional development in care settings. This includes being able to use reflection and learning opportunities to develop own practice and leadership skills and improve the quality of care provision.			
Assessment			
	This unit is internally assessed via a portfolio of evidence.		
Mandatory Achieved/not yet Level 3 3 credits 26 GLH achieved			

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Know what is required	1.1 Describe the duties and responsibilities of own work role
to be competent in own role	1.2 Explain expectations of own work role as expressed in relevant standards
	 Analyse the relationship between continuing professional development and the provision of quality care
	 1.4 Identify sources of support for planning and reviewing own development
2. Be able to assess own personal and	2.1 Assess own knowledge, performance and understanding against relevant standards
professional development needs,	2.2 Work with others to identify and prioritise own learning needs, professional interests and development aspirations
and plan and record progress	2.3 Work with others to agree own personal and professional development plan
	2.4 Work with others to achieve and review personal and professional development plans
	2.5 Record progress in relation to personal and professional development
3. Understand the value of	3.1 Explain the benefits and scope of reflective practice
reflective practice	3.2 Explain why reflective practice is important for supporting continuous improvements to own practice and provision of quality care
4. Be able to use reflective	4.1 Reflect on how learning activities have affected practice
practice to improve ways of working	4.2 Reflect on how own values, beliefs and experiences may affect working practices
	4.3 Reflect on own ability to use initiative, make decisions and take responsibility for own actions
	4.4 Use reflections and feedback from others to evaluate own performance and inform development
5. Be able to develop leadership behaviours	5.1 Model high standards of practice to encourage others to make a positive difference
	5.2 Share ideas to improve services with others
	5.3 Promote partnership approaches to supporting individuals

Range

1.	Know what is required to be competent in own role	

1.1 Duties and responsibilities:

Learners should describe their duties and responsibilities within the context of providing personcentred care and support.

1.2 Standards:

May include codes of practice, regulations, fundamental standards, national occupational standards (NOS), National Institute for Health and Care Excellence (NICE) quality standards.

1.3 Continuing professional development:

The ongoing process of developing, monitoring and documenting skills, knowledge and experience both formally and informally beyond initial training.

1.4 Sources of support:

Examples may include, but are not limited to:

- formal or informal support
- supervision
- appraisal
- mentoring
- peer support
- within and outside the organisation
- 2. Be able to assess own personal and professional development needs, and plan and record progress

2.2 Others:

In this context, this will likely refer to line manager, assessor and/or supervisor. It could also include:

- individuals accessing care and support services
- carers, loved ones, family, friends of those accessing care and support services
- colleagues and peers
- professionals from other services

2.3 Personal and professional development plan:

May be known by different names but will record information such as agreed objectives for personal and professional development, proposed activities to meet objectives, timescales for review.

3. Understand the value of reflective practice

3.1 Scope of reflective practice:

Learners should recognise that it is also important to reflect on the practice or behaviours of others as well as reflect on events, activities and situations in order to gain insight and understanding.

4. Be able to use reflective practice to improve ways of working

4.1 Learning activities:

Evaluation must cover a range of learning activities and must include reference to online learning, for example:

- e-learning
- virtual classrooms
- online tutorials
- webinars
- interest research
- face-to-face methods (where learner has access)

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 2, 4 and 5 must be assessed in a real work environment (RWE).

Relationship to NOS:

- SCDHSC0033
- SFHGEN12
- SFHGEN13

AC M4 Person-centred practice, choice and independence (H/650/1369)

This unit is aimed at those working in a wide range of adult care settings. It provides the learner with the knowledge and skills required to implement and promote person-centred approaches. Assessment This unit is internally assessed via a portfolio of evidence. Mandatory Achieved/not yet achieved Learning outcomes Assessment criteria The learner will: The learner can: 1. Understand the application of person-centred practices in care settings 1.1 Explain how person-centred values can be applied in a range of situations 1.2 Describe ways to build relationships with individuals effectively 1.3 Explain how and why person-centred values and strength-based approaches must influence all aspects of care work 1.4 Describe how care plans and other resources can be used to apply: • person-centred values • strength-based approaches 1.5 Evaluate how active participation of individuals and others in care planning promotes person-centred values and strength-based approaches when:			Unit summary

Learning outcomes The learner will:	Assessment criteria The learner can:
4. Be able to promote	4.1 Support individuals to make informed choices and decisions
individuals' rights to	4.2 Establish informed consent when providing care and support
make choices	4.3 Use support mechanisms and guidance to support the individual's right to make choices
	4.4 Work with individuals to manage risk in a way that maintains and promotes the individual's right to make choices
5. Be able to promote	5.1 Involve individuals in their care and support
individuals' independence	5.2 Support individuals to recognise their strengths and their abilities to gain confidence to self-care
	5.3 Identify a range of technologies that can support or maintain individuals' independence
6. Understand the role of risk assessments in	6.1 Explain how risk assessments can be used to promote and enable individuals' choice, independence and right to take risks
promoting person- centred approaches,	6.2 Compare the different risk assessment methods that are used in different situations and own role within these
choice and independence	6.3 Explain the importance of reviewing and updating individuals' risk assessments
	6.4 Describe when risk assessments should be reviewed and updated and who should be involved in the process

1. Understand the application of person-centred practices in care settings

1.1 Person-centred values:

These might include, but are not limited to:

- individuality
- rights
- choice
- privacy
- independence
- dignity
- respect
- partnership

1.2 Relationships:

Learners should consider the range of relationships important to individuals they are supporting. Consideration should go beyond immediate family and next of kin, and may include partners/spouses, extended family, friends, pets, neighbours, people in the community and other professionals. Learners should also take into consideration intimacy, sexuality and sexual relationships.

1.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.3 Strength-based approaches:

Sometimes referred to as 'asset-based approaches'. This approach focuses on individuals' strengths/resources, building on their abilities to maintain their wellbeing and independence.

1.4 Care plans:

A care plan may be known by other names in different settings (for example, support plan, individual plan). It is a document in which day-to-day requirements and preferences for care and support are detailed and accessible to those involved in their care and support. Learners should consider their own role in using care plans when providing person-centred care, as well as how care plans are used to create and enable person-centred care. They should demonstrate understanding of how individual needs, wishes and preferences are reflected within the care plan. In addition, they should demonstrate awareness of people involved in creating a care plan, such as the individual and those important to them, as well as professionals, and how the care plan is reviewed to ensure it continues to reflect the individual's aspirations.

1.4 Other resources:

These might include, but are not limited to:

- one-page profiles
- advance care plans
- assessment from other organisations
- information from other people important to the individual

1.5 Planning for their futures:

This might include, but is not limited to:

- living arrangements
- health and wellbeing
- relationships
- education or employment
- end of life care

3. Be able to apply person-centred approaches

3.1 Others:

In this context, may include:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families
- carers
- advocates

3.1 History, preferences, wishes, strengths and needs:

These may be based on experiences, desires, values, beliefs or culture, and may change over time.

3.5 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient.

4. Be able to promote individuals' rights to make choices

4.2 Informed consent:

Where an individual with capacity to consent voluntarily agrees to an action or decision based on awareness and understanding of risks, benefits and alternatives.

5. Be able to promote individuals' independence

5.3 Technologies:

To include assistive technology and/or digital technology.

6. Understand the role of risk assessments in promoting person-centred approaches, choice and independence

6.2 Risk assessment methods:

In line with organisational policies, procedures and practices.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3, 4 and 5 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

- SCDHSC0035
- SCDHSC0332
- SCDHSC0350
- SCDHSC0034
- SCDHSC3111
- SFHGEN12

AC M4B Understand how to promote personal wellbeing (L/650/1370)

	Unit summary					
In this unit, learners are encouraged to consider their own personal wellbeing and the impact of a range of factors. They will explore how their personal wellbeing can affect others, their practice and their own health. Learners will look at stress, different strategies to manage stress and sources of support to maintain and improve wellbeing.						
			Assessment			
			lly assessed via a po		-	
Mandatory	Achiev achiev	ved/not yet ved	Level 3	3 credits	25 GLH	
Learning outcome The learner will:	S	Assessmer The learner ca				
1. Understand own wellbeing 1.1 Explain what is meant by: personal wellbeing self-care resilience 1.2 Give examples of factors that positively and negatively influence own wellbeing						
2. Understand the importance of maintaining and improving own wellbeing	nportance of • own role and behaviour naintaining and • others nproving own • others				7	
3. Know how to main and improve own wellbeing		 ain 3.1 Describe a range of strategies to maintain and improve own wellbeing 3.2 Describe a range of wellbeing support offers available and how to 				
4. Know how to ma	access them 3.3 Identify how to access professional help if needed 4. Know how to manage 4.1 Explain what is meant by 'stress' and 'anxiety'				ed	
own stress and anxiety4.2 Describe how to recognise indicators of stress and anxiety in onese4.3 Describe examples of factors that can trigger stress and anxiety in oneself4.4 Explain how stress and anxiety may affect own reactions and behaviours towards others					ess and anxiety in eactions and	
4.5 Explore strategies for managing own stress and anxiety4.6 Explain how to access a range of support offers						

Range

1. Understand own wellbeing

1.2 Factors:

Should be specific to the learner. The learner should show consideration of environmental, physical, social and psychological factors inside and outside the workplace. Learners should also consider internal factors that may influence their response and resilience to different triggers.

1.2 Own wellbeing:

In this context, wellbeing refers to that of the learners. Wellbeing is a broad concept referring to a person's quality of life, taking into account health, happiness and comfort. It may include aspects of social, emotional, cultural, spiritual, intellectual, economic, physical and mental wellbeing.

1.3 Indicators:

Should be specific to the learner. The learner should show consideration of physical, emotional and psychological indicators.

2. Understand the importance of maintaining and improving own wellbeing

2.1 Potential impact:

Learners should indicate how wellbeing can affect different aspects of health both in the short term and long term.

2.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- individuals accessing care and support services
- families
- carers and other professionals

Learners may also wish to consider their personal relationships.

3. Know how to maintain and improve own wellbeing

3.1 Strategies:

Should be specific to the learner. Strategies should include those that enable the learner to maintain their wellbeing as well as strategies to implement if indicators of deterioration are recognised.

3.2 Support offers:

The range should include offers available inside and outside the learners' workplace. Learners should consider offers they use as well as those they currently choose not to.

For example:

- internal:
 - o supervision
 - employee assistance scheme
 - mentor or buddying systems
 - wellbeing sessions
- external:
 - self-help tools
 - o apps and websites

local groups and networks

4. Know how to manage own stress and anxiety

4.1 Stress:

Stress can have positive, as well as negative, effects on a person. In this context, learners should refer to the negative impacts of stress.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

AC M5 Promote equality, diversity, inclusion and human rights in care settings (M/650/1371)

		Unit summary			
This unit covers the conce		, diversity, inclusion			
in an adult care setting. Learners will develop understanding of these concepts, why they are important and how to apply them in practice.					
	important a	Assessment	n in practice.

achie		Levers		20 GLH	
Learning outcomes The learner will:	Assessme The learner ca				
1. Understand influences on working practices to promote equality,	and inf	arise how legislation luence own work role			
diversity, inclusion and human rights	1.2 Descrit	be how external fact	ors influence own w	ork role	
 2. Understand the importance of equality, diversity, inclusion and human rights within your work setting 2.1 Define each of the following terms within the correction of equality equality inclusion discrimination unconscious bias protected characteristics human rights 2.2 Explain how inclusive practice and cultures prondiversity, inclusion and human rights 2.3 Evaluate how the promotion of equality, diversity human rights can lead to improved outcomes for 2.4 Describe how own organisation promotes equality inclusion and human rights 				note equality, y, inclusion and r individuals	
3. Know how to promote equality, diversity, inclusion and human rights	3.1 Describ 3.2 Give ex behavio 3.3 Describ that pro 3.4 State h be repo	human rights 3.1 Describe the potential effects of discrimination 3.2 Give examples of how unconscious bias may affect own and others' behaviour 3.3 Describe how to respond to and challenge discrimination in a way that promotes positive change 3.4 State how and to whom discriminatory or exclusive behaviour should be reported			
 4. Be able to work in an inclusive way 4.1 Interact with individuals and others in a way that respects their lifestyle, beliefs, culture, values and preferences 4.2 Demonstrate how to promote a culture that supports inclusive practices 4.3 Reflect on and make improvements to own practice in promoting equality, diversity, inclusion and human rights 					

1. Understand influences on working practices to promote equality, diversity, inclusion and human rights

1.1 Legislation:

These must relate to equality, diversity, inclusion, discrimination and human rights, for example:

- Equality Act 2010
- Human Rights Act 1998
- Mental Capacity Act 2005 and as amended 2007
- Mental Capacity (Amendment) Act 2019
- Care Act 2014
- Autism Act 2009

1.2 External factors:

For example:

- societal movements and campaigns
- periods in modern history
- 2. Understand the importance of equality, diversity, inclusion and human rights within your work setting

2.3 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2.5 Own role in promoting:

This may include the learner's role in the following contexts:

- within their team, workplace or organisation
- within networks of practice
- within the community
- supporting or advising other professionals with regards to reasonable adjustments for individuals

3. Know how to promote equality, diversity, inclusion, and human rights

3.1 Effects:

Examples to include effects on:

- the individual
- their loved ones
- those who inflict discrimination and the wider community and society

3.2 Others:

In this context, this refers to everyone a worker is likely to come into contact with, including:

- individuals accessing care and support services
- carers, loved ones, family, friends of those accessing care and support services
- colleagues and peers
- managers and supervisors
- professionals from other services
- visitors to the work setting
- members of the community
- volunteers

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcome 4 must be assessed in a real work environment (RWE).

Range

1. Understand the importance of individuals' wellbeing

1.1 Individual's wellbeing:

In this context, relates to people accessing care and support services. Wellbeing is a broad concept referring to a person's quality of life, taking into account health, happiness and comfort. Learners could also consider the principles of wellbeing as defined in the Care Act 2014:

others to improve health and wellbeing

- personal dignity (including treatment of the individual with respect)
- physical and mental health, and emotional wellbeing

- protection from abuse and neglect
- control by the individual over their day-to-day life (including over care and support, or support, provided to the individual and the way in which it is provided)
- participation in work, education, training or recreation
- social and economic wellbeing
- domestic, family and personal relationships
- suitability of living accommodation
- the individual's contribution to society

They may also include cultural and spiritual wellbeing.

1.2 Factors:

Factors affecting wellbeing will be different for different people. Learners should show consideration of a range of environmental, physical, social and psychological factors, and how they can have a positive or negative influence on individuals' wellbeing.

1.3 Range of services and resources:

Learners should consider a range of services and resources available within their organisation and externally that could support individuals' different wellbeing strengths and needs.

2. Know how to monitor individuals' health and wellbeing

2.2 Early indicators of physical and mental health deterioration:

Also referred to as 'soft signs' of deterioration, for example:

- restlessness
- confusion
- temperature changes
- changes in mobility
- pain
- discoloured skin
- changes in appetite
- breathing difficulties
- changes to urine or bowel habits
- sickness
- changes in mood or temperament

3. Be able to assess and respond to changes in an individual's health and wellbeing

3.2 Appropriate tools:

May vary depending on learner's role and organisational practices, for example:

- 'Stop and Watch'
- RESTORE2
- national early warning score (NEWS)2
- situation, background, assessment, recommendation, decision (SBARD)
- face, arms, speech, time (FAST)

• technological aids

3.3 Appropriate action:

This will vary according to the learners' role, organisational practices and the specific changes in an individual's wellbeing. Action must include recording and reporting and may include referring to a colleague or another organisation. The learner should follow through any other actions that would be necessary (for example, measures taken to provide reassurance and promote comfort).

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3 and 4 must be assessed in a real work environment (RWE).

AC M7 Scope and responsibilities of an adult care worker (Y/650/1374)

		Unit summa	ary	
This unit is aimed at those working in a wide range of settings. It provides the learner with the knowledge and skills required to understand the nature of working relationships, work in ways that are agreed with the employer, and work in partnership with others.				
	Assessment			
	This unit is internally assessed via a portfolio of evidence.			
Mandatory Achieved/not yet achieved Level 2 2 credits 20 GLH				

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand agreed ways of working	1.1 Explain why it is important to work within the scope of own role, responsibility and training
	1.2 Explain what is meant by a delegated healthcare task:
	 who might delegate a healthcare task
	 reasons for delegating a healthcare task
	1.3 Describe own role in quality assurance processes and promoting positive experiences for individuals accessing care
2. Be able to work in ways that are agreed with the	2.1 Access full and up-to-date details of agreed ways of working
employer	2.2 Implement agreed ways of working
3. Understand working relationships in adult	3.1 Explain how a working relationship is different from a personal relationship
care settings	3.2 Describe different working relationships in adult care settings
	3.3 Explain why it is important to work in partnership with others
	3.4 Describe different skills/approaches required when working in partnership with others
	3.5 Identify how and when to access support and advice about:
	partnership working
	 resolving conflicts in relationships and partnerships
4. Be able to work in partnership with others	4.1 Demonstrate ways of working that can improve partnership working

Range

1. Understand agreed ways of working

1.2 Delegated healthcare task:

A health intervention or activity which is usually of a clinical nature, and which has been delegated to a paid care worker by a registered healthcare professional. Examples of delegated healthcare tasks may include, but are not limited to:

- supporting skin integrity and wound healing by changing dressing
- supporting a person's nutrition using a percutaneous endoscopic gastronomy (PEG)
- supporting a person to manage their diabetes through insulin administration and monitoring

1.3 Quality assurance processes:

To include own role, understanding and accountability with internal governance and processes used such as assurance and auditing procedures.

2. Be able to work in ways that are agreed with the employer

2.1 Agreed ways of working:

To include policies and procedures, job descriptions and less formal agreements, and expected practices.

3. Understand working relationships in adult care settings

3.2 Working relationships:

Must include the following within the context of their work role:

- individuals accessing care and support services
- friends, family and loved ones of those accessing care and support services
- peers and team members
- other colleagues (paid and volunteers) within the organisation
- managers and senior management
- paid workers and volunteers from other organisations and teams

3.3 Others:

In this context, examples may include but are not limited to:

- peers, team members and colleagues
- other professionals
- individuals accessing care or support and families, friends, advocates or others who are important to individual people
- manager and senior management
- paid workers and volunteers from other teams

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 2 and 4 must be assessed in a real work environment (RWE).

AC M9 Understand how to safeguard individuals (D/650/1376)

Unit summary					
This unit is aimed at those working in any setting where an adult may be accessing care or support. It covers the important area of safeguarding individuals from different types of abuse. Learners will explore how to recognise the risk of abuse and when it might be occurring. They will consider why individuals might be particularly vulnerable to abuse and what a learner must do if abuse is suspected or disclosed.					
	Assessment				
This unit is internally assessed via a portfolio of evidence.					
Mandatory Achieved/not yet achieved Level 2 3 credits 28 GLH					

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand the national	1.1 Explain how relevant legislation and principles relate to
and local context of	safeguarding and protection from abuse and neglect
safeguarding and	1.2 Identify the relevant:
protection from abuse	 national policies and frameworks
and neglect	local systems relating to safeguarding and protection from abuse and neglect
	1.3 Explain the roles of different agencies in safeguarding and protecting individuals' right to live in safety and be free from abuse and neglect
	1.4 Give examples of how reports into serious failures of upholding individuals' rights to live free from abuse and neglect have influenced current practice
	1.5 Identify sources of information and advice about own role in relation to:
	safeguarding concerns
	whistleblowing
	accountability for decision-making
	information sharing
2. Know how to recognise	2.1 Explain what is meant by each of the following terms:
signs of abuse and	safeguarding
neglect	abuse
	harm
	2.2 Describe factors that may contribute to an individual being more
	vulnerable to abuse and neglect
	2.3 Define each of the following forms of abuse and neglect:
	physical abuse
	domestic abuse
	sexual abuse
	psychological abuse
	financial/material abuse
	modern slavery
	discriminatory abuse
	organisational abuse

41

ជ

Learning outcomes The learner will:	Assessment criteria The learner can:
	neglect/acts of omission
	self-neglect
	2.4 Describe indicators that may raise concerns that an individual is, or is at risk of, being abused and/or neglected
	2.5 Describe indicators that may cause concerns about a perpetrator's behaviour
3. Understand ways to reduce the likelihood of	 3.1 Explain how the likelihood of abuse or neglect may be reduced by: working with person-centred values
abuse or neglect	 enabling active participation
occurring	 promoting choice and rights
5	 working in partnership with others
	 supporting individuals with awareness of personal safety
	3.2 Explain the importance of an accessible complaints procedure for reducing the likelihood of abuse or neglect
4. Know how to respond to suspected or disclosed	 4.1 Explain the main actions to take if there are suspicions that an individual is being abused or neglected
abuse and neglect	 4.2 Describe how to respond if an individual discloses that they are being abused
	4.3 Describe how to share information about suspicions or disclosures
	of abuse or neglect and the potential issues relating to consent 4.4 Describe how the individual and others should be kept informed and
	involved about their safeguarding concern appropriately and in line with policies and procedures
	 4.5 Identify ways to ensure that evidence of abuse or neglect is preserved
	 4.6 Identify how and when to seek support in relation to responding to safeguarding concerns
	 4.7 State how to respond to suspicion or disclosure that a child or young person is being abused or neglected
5. Know how to recognise and report unsafe	5.1 Describe unsafe practices that may affect the wellbeing of individuals
practices	5.2 Explain the actions to take if unsafe practices have been identified
	5.3 Describe the actions to take if suspected abuse or unsafe practices have been reported but no action has been taken in response
 Understand the principles of online safety 	6.1 Explain the importance of balancing measures for online safety with the benefits for individuals accessing electronic systems and devices, and the right to make informed decisions
-	6.2 Describe the potential risks presented by:
	use of electronic communication devices
	use of the internet
	 use of social networking sites
	carrying out financial transactions online
	6.3 Describe ways of working inclusively with individuals to reduce the risks presented by each of these types of activity

1. Understand the national and local context of safeguarding and protection from abuse and neglect

1.1 Relevant legislation:

Learners should consider how different legislation relates to and influences safeguarding practices.

This may include, but is not limited to:

- Care Act 2014
- Liberty Protection Safeguards
- Mental Capacity Act 2005 and as amended 2007
- Mental Capacity (Amendment) Act 2019
- Human Rights Act 1998
- Equality Act 2010
- Mental Health Act 1983 and as amended 2007
- Health and Social Care Act 2012

1.1 Principles:

For example, the 6 principles of safeguarding embedded within the Care Act 2014:

- empowerment
- prevention
- proportionality
- protection
- partnership
- accountability

1.2 National policies and frameworks:

For example:

- Making Safeguarding Personal
- codes of practice

1.2 Local systems:

Examples may include, but are not limited to:

- employer/organisational policies and procedures
- multi-agency adult protection arrangements for a locality
- safeguarding adults boards (SABs)

1.5 Whistleblowing:

Where a person (the whistleblower) exposes any kind of information or activity that is deemed illegal, unethical or incorrect. Whistleblowing is necessary when no action has been taken to address the issue despite following usual reporting procedures.

2. Know how to recognise signs of abuse and neglect

2.2 Factors:

Examples may include, but are not limited to:

- a setting or situation
- the individual and their care and support needs
- social isolation and exclusion

2.2 Individual:

Will usually mean the person supported by the learner but may include those for whom there is no formal duty of care.

2.3 Domestic abuse:

Learners should consider acts of control and coercion.

2.4 Indicators:

Learners should consider different kinds of abuse/neglect and the associated physical, emotional, behavioural and social indicators that suggest they may be occurring or have occurred.

3. Understand ways to reduce the likelihood of abuse or neglect occurring

3.1 Person-centred values:

Examples may include, but are not limited to:

- individuality
- rights
- choice
- privacy
- independence
- dignity
- respect
- care
- compassion
- courage
- communication
- competence
- partnership

3.1 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient.

Range
Know how to respond to suspected or disclosed abuse and neglect
4.1 Actions:
Are those within the learner's responsibilities to respond to disclosures or suspicions of abuse
according to internal policies and procedures. They should include actions to take if the disclosure or
suspicion implicates:
a colleague
someone in the individual's personal network
the learner
the learner's line manager
• others
5. Know how to recognise and report unsafe practices
5.1 Unsafe practices:
Examples may include, but are not limited to:
poor working practices
resource difficulties
operational difficulties
5.1 Wellbeing:
on tronsonig.
Refers to all aspects of an individual's quality of life, taking into account health, happiness and

Refers to all aspects of an individual's quality of life, taking into account health, happiness and comfort. It may include aspects of social, emotional, cultural, spiritual, intellectual, economic, physical and mental wellbeing.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

ជ

1. Understand the principles of mental capacity in adult care

1.1 Principles:

Must include the principle of 'best interest'. Learners must also consider the 5 key principles that underpin the Mental Capacity Act 2005 and as amended 2007.

1.1 Legislation and codes of practice:

Examples include:

- Liberty Protection Safeguards
- Mental Capacity Act 2005 and as amended 2007
- Mental Capacity (Amendment) Act 2019
- Mental Health Act 1983 and as amended 2007
- Care Act 2014
- Data Protection Act 2018

1.4 Factors:

Learners should consider how mental capacity can vary according to the type of decision to be made and can fluctuate from day to day. Learners should demonstrate understanding of the 4 step processes involved in making decisions as defined by the Mental Capacity Act 2005 and as amended 2007. In addition to factors relating to the individual, learners should consider how the behaviour of others, such as controlling or coercive behaviour, can influence individuals and how the role of accessible forms of communication enables decision-making. Other external factors could include the surrounding environment, noise and time of day.

1.4 Individual:

Refers to someone accessing care or support; it will usually mean the person or people supported by the learner.

2. Understand the application of the principles of mental capacity and consent

2.4 Strategies and skills:

Include using communication and engagement skills effectively to provide practical support. Learners should explore ways of providing information in different formats, for example:

- using communication aids
- addressing environmental factors
- listening
- recognising and responding appropriately to coercive behaviours

2.6 Steps to take:

Adhering to the principles of the Mental Capacity Act 2005 and as amended 2007, as well as organisational policies and procedures to include best interest decisions.

3. Understand restrictive practices

3.1 Restrictive practice:

Learners should consider situations where intentional and inadvertent restrictions and restraint of individuals may occur. Learners should include a range of examples to demonstrate awareness of restrictions or restraint which may be used in the following ways:

- physical
- mechanical
- chemical
- seclusion
- segregation
- psychological restraint
- threat of restraint

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

AC M11 Infection prevention and control in a care setting (H/650/1378)

			Unit summary		
This unit is aimed a			a wide range of care		it looks at the prevention n.
			Assessment		
	This unit is internally assessed via a portfolio of evidence.				ce.
Mandatory	Achieved/not yet Level 3 2 credits 20 GLH achieved 20 GLH 20 GLH 20 GLH		20 GLH		
Learning outcomes Assessment criteria The learner will: The learner can:					
1. Understand own the prevention ar control of the spr infection	nd	 1.1 Describe the different types of infection 1.2 Describe how the chain of infection can lead to the spread of infection 1.3 Explain how to identify individuals who have, or are at risk of, developing an infection 1.4 Identify actions that should be taken to reduce the risks of infection to individuals and others 1.5 Describe own role and responsibilities: identifying an outbreak or spread of infection actions to take once an infection outbreak or spread has been identified 1.6 Describe own responsibilities for ensuring that cleaning and decontamination of environments and equipment is carried out according to the level of risk 1.7 Describe own role in supporting others to follow practices that reduce 			
2. Be able to work in ways to prevent and control the spread of infection 2.1 Risk assess a range of situations and select and use personal protective equipment (PPE) appropriate to the risk and situation 2.2 Identify when it is necessary to perform hand hygiene 2.3 Perform hand hygiene prior to and following appropriate points or contact using approved techniques and products 2.4 Demonstrate ways of working to ensure that own health and hygien does not pose a risk to individuals and others		the risk and situation d hygiene appropriate points of ducts own health and hygiene			

Range

1. Understand own role in the prevention and control of the spread of infection

1.1 Types of infection:

Could include:

- bacterial
- viral
- fungal
- parasitic
- protozoan

1.2 Spread of infection:

Learners should describe each of the 6 links of the chain of infection to illustrate how infection can spread. They should also demonstrate awareness of the different modes of transmission infection (for example, airborne, droplet, contact, through body fluids, contaminated food or objects).

1.3 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.4 Others:

In this context, this refers to everyone a worker is likely to come into contact with, including themselves:

- individuals accessing care and support services
- carers, loved ones, family, friends of those accessing care and support services
- colleagues and peers
- managers and supervisors
- professionals from other services
- visitors to the work setting
- members of the community
- volunteers

1.6 Decontamination:

The process of removing or neutralising harmful microorganisms from an item or surface, by cleaning, disinfection and/or sterilisation, to reduce the spread of infection.

2. Be able to work in ways to prevent and control the spread of infection

2.1 Personal protective equipment (PPE):

The learner must know the different types of PPE and how to use PPE correctly and appropriately in their work environment. Appropriate use may, in some cases, mean that after risk assessment PPE is not required.

2.2 Hand hygiene:

Using recommended handwashing techniques, approved products and the use of sanitiser where indicated.

2.3 Points of contact:

Key moments when hand hygiene should take place to prevent cross infection, for example:

- before and after physical contact with each individual
- prior to cleaning procedures
- after risk of exposure to body fluids
- following removal of gloves

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcome 2 must be assessed in a real work environment (RWE).

Optional units

Aspects of support units

HSC AS 2 Co-ordinate activity provision in adult social care (Y/616/6327)

Unit summary				
The aim of this un	The aim of this unit is to provide learners with the knowledge, understanding and skills required to co-			
	ordinate activity provision in adult social care.			
	Assessment			
	This unit is internally assessed via a portfolio of evidence.			
Optional Achieved/not yet Level 3 4 credits 25 GLH				

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand legislation,	1.1 Describe current legislation, regulation and codes of practice that
policies and codes of	underpin safety when co-ordinating activities
practice in relation to	1.2 Explain the benefits of activities on:
co-ordinating person-	social inclusion
centred activities	physical development
	emotional development
	cognitive development
	1.3 Describe the role of practitioners in ensuring that activities reflect
	individual interests, choices, preferences and needs
2. Understand the	2.1 Explain the benefits of an enabling environment in co-ordinating activities
principles of co- ordinating individual and	2.2 Summarise group dynamic theories in relation to the management of
group activities	group activities
3 - 1	2.3 Describe the impact of activities on learning and regaining skills
	2.4 Explain the benefits of clear aims and objectives when co-ordinating
	and organising activities
	2.5 Explain how to support others to embed activity-based models of
	care in daily tasks
	2.6 Compare different methods of monitoring and evaluating activity provision
3. Be able to plan and	3.1 Identify with individuals and group members' interests, choices,
prepare for individual	preferences and needs
and group activity	3.2 Agree outcomes of an activity with others
provision	3.3 Engage individuals, group members and others to contribute to planning and preparing an activity
	3.4 Produce a budget to secure resources for agreed activities
	3.5 Plan and organise with individuals and others a variety of responsive
	activities
	3.6 Identify and address any risks associated with planned activities
	3.7 Organise and communicate accessible information about activities to others

Learning outcomes	Assessment criteria
The learner will:	The learner can:
4. Be able to guide and support individuals and	4.1 Work with others to support individuals and group members in ways that encourage active participation
groups during activities	4.2 Work with others to set the direction of an activity
	4.3 Work with others to encourage and coach individuals and group members during an activity
	4.4 Observe and adjust support to meet the needs of individuals and group members during an activity
	4.5 Support others to contribute to individual and group activities
5. Be able to contribute to the evaluation of	5.1 Seek feedback from individuals and others during and after an activity
individual and group	5.2 Agree process and criteria for reviewing and evaluating feedback
activities	5.3 Evaluate the benefits of activities and agree improvements with individuals and others
	5.4 Record and report on the outcomes and any changes to improve an activity

1. Understand legislation, policies and codes of practice in relation to co-ordinating person-centred activities

1.1 Activities:

Examples may include, but are not limited to:

- leisure and recreational
- social activities such as visits and trips
- religious and cultural interests
- entertainment
- hobbies
- self-care activity
- spontaneous activity
- therapeutic activity (for example, reminiscence therapy, relaxations and anxiety management, remedial games, art or music)
- therapy assistance (for example, physiotherapy, occupational therapy, speech therapy)

1.3 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand the principles of co-ordinating individual and group activities

2.5 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use, or commission their own care and support services
- families, carers and advocates

2.5 Activity-based models of care:

Examples may include, but are not limited to:

- social model of care (daily living and self-care tasks)
- choice and control
- experts by experience
- outcomes-focused service

3. Be able to plan and prepare for individual and group activity provision

3.7 Accessible information:

Examples may include, but are not limited to:

- internal communication systems
- external communication systems
- leaflets and posters
- social media
- assistive technology

4. Be able to guide and support individuals and groups during activities

4.1 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient

Delivery and assessment guidance

This unit must be assessed in line with the Skills for Care and Development assessment principles.

Learning outcomes 3, 4 and 5 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

HSC AS 3 Principles of advocacy (D/616/6328)

achieved

		Unit summary			
The aim of this	The aim of this unit is to provide learners with the knowledge and understanding required in relation to principles of advocacy.				
	Assessment				
	This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet	Level 3	4 credits	25 GLH	

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand advocacy in	1.1 Define what is meant by advocacy
health and social care	1.2 Identify types of advocacy
	1.3 Explain what is meant by a statutory advocacy duty
	1.4 Outline when advocacy services should be provided
	1.5 Explain the role of formal and informal advocates in supporting individuals
	1.6 Identify the different steps within the advocacy process
	1.7 Outline barriers to accessing advocacy
2. Understand the principles and values	2.1 Describe the principles and values underpinning advocacy
underpinning advocacy	2.2 Explain the role of advocacy in promoting the rights of individuals
3. Understand the roles and responsibilities of	3.1 Identify current guidance and codes of practice in relation to advocacy support in adult social care
an advocate	3.2 Describe the roles and responsibilities of an advocate
	3.3 Describe the skills, attitudes and attributes needed for advocacy
	3.4 Explain why it is important that an advocate's personal views do not influence choices and decision-making during advocacy
	3.5 Outline the limits and boundaries of an advocate
	3.6 Outline the process of referral and signposting to other professionals and agencies
	3.7 Identify how the outcomes of advocacy support are shared and recorded
4. Understand how to provide advocacy	4.1 Explain the benefits of presenting information using appropriate methods and formats to support choices and decision-making
support	4.2 Outline ways the practitioner can support individuals to explore options without imposing their own views
	4.3 Give examples of strategies that can be used to support individuals to participate in discussions and decision-making
5. Understand how to safeguard the wellbeing	5.1 Give examples of dilemmas and conflict which may occur during the advocacy process
of individuals during advocacy	5.2 Identify strategies to use to resolve conflict or dilemmas during advocacy support
,	5.3 Outline actions to take in response to safeguarding concerns
	5.4 Identify sources of information and support for advocates
	· · · · · · · · · · · · · · · · · · ·

ជ

1. Understand advocacy in health and social care

1.2 Types of advocacy:

Examples may include, but are not limited to:

- independent advocacy and appropriate person
- statutory advocacy duties
- advocacy relating to mental capacity
- advocacy relating to complaints and appeals

1.4 When advocacy services should be provided:

Examples may include, but are not limited to:

- assessment of needs
- carer's assessment
- care or support plan
- review of a care or support plan
- safeguarding enquiry or review
- appeals or complaints

1.5 Formal and informal advocates:

Examples may include, but are not limited to:

- self-advocacy
- group advocacy
- peer advocacy
- citizen advocacy
- professional advocacy
- non-instructed advocacy

1.5 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand the principles and values underpinning advocacy

2.1 Principles and values:

Examples may include, but are not limited to:

- advocacy and the duty to involve
- empowerment and enablement
- independence, choice and wellbeing
- positive risk-taking
- active participation
- personalisation
- best interests

- rights relating to complaints and appeals
- the potential for imbalance of power in relationships
- rights relating to choices and decision-making, including the right to make unwise decisions
- importance of differentiation between the advocate's and individual's views
- ethical considerations

managing continence	6.2 Make changes to the strategies and aids as agreed with the
	individual and others
	6.3 Identify when referral to a professional is necessary

1. Understand the causes and types of incontinence

1.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.4 Factors:

Examples may include, but are not limited to:

- diet
- patterns of eating and drinking
- ageing
- infection
- limited mobility
- unfamiliar environment
- difficulty accessing toilet
- confusion
- exercise and mobility
- use of medication
- daily routines
- 3. Understand how to support individuals to manage incontinence

3.4 Strategies:

Examples may include, but are not limited to:

- accessible toilets with adaptions
- prompting individuals to use toilet
- pelvic floor exercises
- dietary changes

3.4 Continence aids:

Examples may include, but are not limited to:

- urinal/commode/bedpan
- continence pads
- penile sheaths
- protective clothing and bedding

6. Be able to evaluate strategies and aids for managing continence

6.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 4, 5 and 6 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

い い

1. Understand legislation, statutory guidance and codes of practice in relation to supporting individuals to access and engage in education, training and employment

1.2 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

Understand the principles of engagement in education, training or employment for individuals
 Wellbeing:

May include aspects that are:

- social
- emotional
- cultural
- spiritual
- intellectual
- economic
- physical
- mental

2.3 Barriers:

Examples may include, but are not limited to:

- lack of confidence
- previous experience of education, training and employment
- specific learning difficulties (SpLD)
- mental ill health
- physical or learning disability
- anxiety
- sensory processing differences
- autism spectrum condition (ASC)
- transitional

3. Understand support available for individuals in relation to education, training and employment

3.3 Additional learning support:

Examples may include, but are not limited to:

- statutory or voluntary agency support
- physical adaptations
- emotional support
- financial support
- assistive technology
- additional and specialist learning support

4. Understand how to advise and support individuals to access and engage in education, training or employment

4.2 Information

Examples may include, but are not limited to:

- aspirations
- aptitude
- skills and abilities
- interests
- experience
- qualifications
- support needs
- preferred career pathways
- personal circumstances
- language/communication needs
- criminal history
- education, health and care plans

4.3 Forms of assessment

Examples may include, but are not limited to:

- self-assessments
- learning styles
- skills tests
- performance assessments
- diagnostic tests
- physical capacity and fitness tests
- psychometric testing
- honesty and integrity tests
- pre-employment skills matching

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

	4.3 Identify	sources of s	support, i	nformation and	guidar	nce

Learning outcomes The learner will:	Assessment criteria The learner can:
5. Be able to support individuals to manage	5.1 Encourage individuals to communicate or express their pain and discomfort
pain and discomfort	5.2 Assess pain levels using approved assessment tools
	5.3 Support individuals and carers to take measures to alleviate pain and discomfort
	5.4 Carry out agreed measures to alleviate an individual's pain and discomfort
6. Be able to monitor, record and report on the	6.1 Monitor the effectiveness and side effects of interventions used to relieve pain and discomfort
management of individuals' pain or	6.2 Complete records according to agreed ways of working
discomfort	6.3 Report findings and concerns as required

1. Understand the experience and impact of pain and discomfort

1.1 Types of pain:

Examples may include, but are not limited to:

- acute and chronic pain
- breakthrough pain
- the range of different sensations of pain and discomfort (for example, aches, cramp, itching, burning, neuralgia, spasm, crushing, soreness, stabbing, throbbing, numbness, pins and needles)

1.2 Discomfort:

Examples may include, but are not limited to:

- nausea
- side effects of medication

1.3 Factors:

Examples may include, but are not limited to:

- the type of pain
- the purpose of the pain (for example, positive pain associated with healing, recovery, endurance, or childbirth where outcome is positive, and negative as a sign of injury, tissue damage or warning)
- individual perceptions and experiences of pain
- different emotions such as fear, anxiety and tension
- 2. Understand how to assess and monitor pain and discomfort

2.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3. Understand approaches to pain management and minimising discomfort

3.1 Approaches and theories:

Examples may include, but are not limited to:

- holistic approach
- person-centred
- palliative
- gate control theory of pain

3.2 Interventions:

Examples may include, but are not limited to:

• pharmacological and other measures that are used to relieve pain and symptoms, and reduce discomfort

4. Understand legislation and guidance relating to pain management and minimising discomfort

4.1 Legislation and guidance:

Examples may include, but are not limited to:

- legislation in relation to:
 - o medicines
 - o controlled drugs
 - moving and positioning
 - mental capacity and advance care planning
- guidance (for example, National Institute for Health and Care Excellence (NICE) guidelines relating to management of different types of pain)

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 5 and 6 must be assessed in a real work environment (RWE).

HSC AS 14A Promote nutrition and hydration in adult care settings (D/650/1682)

Unit summary						
The aim of this unit is to p						
promote nutrition and hydration in health and social care settings.

balanced diet	1.3 Explain	the role of essential r	nutrients for health			
	1.4 Evaluat	e the impact of poor of	diet on health and we	ellbeing		
2. Understand current	2.1 Summa	rise current legislation	n and national guidel	ines in relation to:		
national and	 nut 	ritional guidelines for	or a balanced diet			
organisational	• me	eting nutritional and h	ydration needs			
requirements for	• foo	d safety				
meeting nutritional and		ritional screening and				
hydration needs in adult	2.2 Describe the roles and responsibilities of others in assessing and					
care settings	managing nutritional and hydration needs with individuals					
	2.3 Explain how to access additional support and information in relation					
	to nutrition and hydration					
3. Understand malnutrition	3.1 State the prevalence of malnutrition amongst individuals accessing health and social care services					
in adult care settings						
	3.2 Describe factors that impact on nutritional intake					
	3.3 Describe risk factors that may lead to malnutrition					
	3.4 Describe the signs of malnutrition					
	3.5 Explain the purpose of nutritional screening and associated risk assessment					
	3.6 Describe how nutritional and fluid intake should be monitored					
	3.7 Describe the impacts of malnutrition on an individual's health and					
	wellbeir	-				
	3.8 Explain ways of ensuring food and drink have increased nutritional					
	density through fortification					
	3.9 Describe the appropriate use of nutritional supplements					
4 Understand individual	3.10 Identify when referral to a health professional is necessary					
4. Understand individual	4.1 Describe how individual differences may influence dietary preferences and intake					
preferences and special dietary requirements in	eating for individuals					
health and social care		e dietary requirement	-	mmon health		
settings	conditio	• •				
	4.4 Describe how to support individuals with:					
	 food allergy 					
	 food anergy food intolerance 					
	4.5 Explain the importance of following special dietary requirements					
				,		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	4.6 Describe how a balanced diet can be adapted to meet different requirements
	4.7 Describe the importance of understanding an individual's life history in supporting nutrition and hydration needs
5. Understand how to promote a culture and	5.1 Explain why it is important to include a variety of food and drink in the diets of individuals
environment that supports nutrition and	5.2 Describe how to use a person-centred approach to support individuals with different levels of ability to eat and drink
hydration	5.3 Explain the benefits of protected mealtimes
	5.4 Describe how mealtime environments and food presentation can be a barrier to meeting nutritional needs
	5.5 Explain how to promote an enabling and positive culture conducive to eating and drinking
6. Be able to promote nutrition in health and	6.1 Plan a balanced diet with an individual that incorporates their preferences and meets nutritional requirements
social care settings	6.2 Evaluate the effectiveness of different ways of promoting healthy eating
7. Be able to screen and	7.1 Carry out nutritional screening using an approved assessment tool
monitor nutrition and	7.2 Monitor and record the nutrition and fluid intake of an individual
hydration in health and social care settings	7.3 Report any concerns or information for referral to appropriate health professional
	7.4 Implement interventions identified through nutritional screening
	7.5 Review the effectiveness of the interventions following nutritional screening

2. Understand current national and organisational requirements for meeting nutritional and hydration needs in adult care settings

2.1 Nutritional guidelines:

Refers to the latest national guidance for appropriate groups according to approved national sources such as the Eat Well Guide, National Institute for Health and Care Excellence (NICE).

2.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

2.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3. Understand malnutrition in adult care settings						
B.2 Factors:						
Examples may include, but are not limited to:						
 culture and religion individual preferences and habits physical factors (for example, positioning, oral hygiene) psychological factors (for example, depression, eating disorders) income, lifestyle and social convention media family and peer group influences ethics, morals and political beliefs neglect 						
3.3 Risk factors:						
Examples may include, but are not limited to:						
 dysphagia effects of medication physical or mental health specific conditions such as dementia 						

• oral health

Range

- communication
- understanding of healthy and balanced diet appropriate to the individual

3.5 Nutritional screening:

Examples may include, but are not limited to:

- malnutrition universal screening tool (MUST)
- British Association for Parenteral and Enteral Nutrition (BAPEN)
- NICE nutrition support in adults
- 4. Understand individual preferences and special dietary requirements in health and social care settings
- 4.1 Individual differences:

Examples may include, but are not limited to:

- health and wellbeing
- cognitive and emotional
- values and beliefs
- culture and religion
- mental health
- gender
- age

- specific conditions (for example, dementia, autism, learning disability)
- values and beliefs

4.5 Special dietary requirements:

Examples may include, but are not limited to:

• diets for an illness or condition (for example, food allergy, diabetes, eating, drinking or swallowing difficulty (dysphagia), coeliac disease)

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 6 and 7 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

SCDHSC0213

HSC AS 15 Understand personalisation in adult care (J/650/1379)

		Unit summary		
The aim of this unit is to provide learners with the knowledge and understanding required in relation to				
personalisation in adult care				
Assessment				
This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet achieved	Level 3	3 credits	22 GLH

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand personalisation in adult	1.1 Summarise current legislation, statutory guidance and national policies that promote personalisation
care	1.2 Define the term personalisation1.3 Explain the relationship between personalisation, rights, choice and control, independent living and wellbeing
2. Understand systems that promote	2.1 Summarise local and national systems which promote personalisation
personalisation	2.2 Identify types of care and support planning tools available
3. Understand how to	3.1 Explain the care planning process
implement	3.2 Describe strategies to overcome barriers to personalisation
personalisation in	3.3 Outline the role of risk management in promoting personalised care
practice	3.4 Describe types of support that individuals or their families can access in relation to personalised care services
	3.5 Outline the role of independent advocacy in promoting personalisation

Range

2. Understand systems that promote personalisation

2.1 Local and national systems:

Examples may include, but are not limited to:

- assessed and eligible
- assessed and self-funded
- personal budgets
- direct payments
- deferred payment agreements
- carers allowance
- benefits and grants

2.2 Types:

Examples of tools used to plan care and support include, but are not limited to:

Strengths-based approach: Practice Framework and Practice Handbook (Department of Health & Social Care)

- person-centred thinking tools
- outcomes-based support planning
- positive risk management tools
- network mapping relationship and community connections
- 3. Understand how to implement personalisation in practice

3.4 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Relationship to national occupational standards (NOS):

- SCDHSC0024

Learning outcomes The learner will:	Assessment criteria The learner can:
5. Be able to agree	5.1 Establish ways to develop an individual's skills to promote
strategies for positive	participation in day-to-day activities
behaviour support with	5.2 Support individuals to acknowledge their behaviour and develop
individuals and others	coping strategies
	5.3 Agree with individuals and others' strategies to be used in different
	situations to support positive behaviour
	5.4 Describe sources of support, information and guidance for promoting
	positive behaviour
6. Be able to implement	6.1 Explain the purpose of positive behaviour support plans for
positive behaviour	individuals
support plans	6.2 Identify the components of a positive behaviour support plan
	6.3 Implement agreed strategies in line with the individual's positive
	behaviour support plan
	6.4 Contribute to the review of an individual's positive behaviour support
7 De chie te current	plan
7. Be able to support individuals through	7.1 Work with others to agree protocols for least restrictive interventions
incidents of behaviour	7.2 Identify and respond to triggers which may result in escalation of
	behaviour
	7.3 Maintain safety and wellbeing throughout the incident for:
	individual
	• self
	others T 4 Denside a sector individuals and athere
	7.4 Provide post-incident support to individuals and others
	7.5 Record and report incidents of behaviour
8. Be able to develop	8.1 Support others to recognise how their actions can diffuse or escalate
practice in relation to	an individual's behaviour
positive behaviour	8.2 Role model good practice in positive behaviour support
support	8.3 Provide feedback to others in relation to positive behavioural support practice
	8.4 Reflect on own practice in relation to positive behaviour support
	8.5 Explain how and when to access support to manage the wellbeing of self and others

1. Understand the legislative framework in relation to positive behaviour support

1.4 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Range

2. Understand behaviour as a means of expression

2.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2.3 Factors:

Examples may include, but are not limited to:

- dementia, autism, learning disability
- stress response
- sensory needs
- frustration
- pain
- past experiences
- physical or mental health
- boredom
- confusion or memory impairment
- age-related
- feelings of loss of control
- communication difficulties
- environmental

3. Understand approaches to positive behavioural support

3.1 Approaches to positive behaviour support:

Examples may include, but are not limited to:

- proactive approaches
- individual behaviour support planning
- time intensity model
- theories of personhood and malignant psychology that are used in relation to individuals with dementia (Kitwood, 1997)

3.4 Positive interaction:

The interaction, behaviour and attitude of those supporting an individual. It consists of providing different levels of support; working with an individual's strengths and abilities; breaking activities into manageable steps; and positive reinforcement to promote participation.

3.6 Active support:

Refers to a person-centred model of how to interact with individuals combined with daily planning systems that promote participation and enhance quality of life.

4. Be able to monitor the behaviour of individuals

4.1 Structured methods:

Examples may include, but are not limited to:

- measures for monitoring and recording behaviour:
 - o antecedent-behaviour-consequence (ABC) charts
 - o scatter plots
 - o incident forms
 - behaviour monitoring forms
 - o direct observation

4.2 Triggers:

Are those events, circumstances or stimuli that cause behaviour that may bring harm to the individual and others, or that others find challenging:

- slow triggers (aspects of a person's environment or daily routines that do not necessarily happen immediately before the behaviour, but still have an effect on behaviour)
- fast triggers (specific events that occur immediately prior to the behaviour; their impact upon behaviour is rapid or immediate)
- 6. Be able to implement positive behaviour support plans

6.1 Positive behaviour support plans:

Different terminology may be used to refer to this in various settings. It is used to monitor patterns of:

- behaviour
- identify causes and triggers
- plan strategies to put in place
- review effects of strategies

It should be personalised and created with the individual whenever possible.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 4, 5, 6, 7 and 8 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

• SCDHSC0336

Learning outcomes The learner will:	Assessment criteria The learner can:
5. Be able to implement a reablement plan	5.1 Support the individual, others and multi-disciplinary team to engage in the reablement plan
	5.2 Enable an individual to participate in activities of daily living
	5.3 Enable learning and engagement with an individual and their family
	5.4 Address barriers identified in an individual's reablement plan
6. Be able to monitor and review the reablement plan	6.1 Work in partnership with the individual, others and the multi- disciplinary team to monitor progress towards the outcome-focused goals
	6.2 Evaluate the effectiveness of the reablement plan
	6.3 Work in partnership with the individual, others and the multi-
	disciplinary team to agree any changes to the reablement plan
	6.4 Record agreed changes to reablement plan

1. Understand reablement

1.4 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand the importance of activities of daily living for individuals

2.3 Barriers:

Examples may include, but are not limited to:

- environmental
- social
- physical
- emotional
- sensory impairment
- cognitive
- financial

3. Understand resources available to support reablement

3.1 Techniques:

Examples may include, but are not limited to:

- pacing
- grading
- energy conservation
- times and length of calls
- spacing between visits

3.2 Multi-disciplinary team:

Examples may include, but are not limited to:

- care delivery team
- occupational therapist
- GP
- speech and language therapist
- physiotherapist
- pharmacist
- nurse
- social worker
- psychologist
- admiral nurses
- community psychiatric nurse
- dementia care advisors

3.6 Agencies:

May include services or facilities that may have influence or responsibilities in relation to the individual's reablement plan (for example, housing, adult services, meals on wheels, financial, support groups).

4. Be able to contribute to the development of plans for reablement

4.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care service
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 4, 5 and 6 must be assessed in a real work environment (RWE).

Learning outcomes The learner will:	Assessment criteria The learner can:
5. Be able to evaluate support for retaining,	5.1 Work with an individual and others to agree criteria and processes for evaluating support
regaining or developing skills for everyday life	5.2 Evaluate progress towards goals and the effectiveness of methods used
	5.3 Agree revisions to the plan for retaining, regaining or developing skills
	5.4 Record and report outcomes

1. Understand the context of supporting skills for everyday life

1.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand how to support individuals to retain, regain and develop skills for everyday life

2.1 Methods:

Should be person-led and may include:

- demonstration
- discussion
- coaching
- instruction
- repetition
- cognitive exercises

3. Be able to support individuals to plan for retaining, regaining and developing skills for everyday life

3.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

4. Be able to support individuals to retain, regain or develop skills for everyday life

4.1 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3, 4 and 5 must be assessed in a real work environment RWE).

Relationship to national occupational standards (NOS):

• SCDHSC0344

HSC AS 21 Understand how to support individuals with foot care (M/616/6348)

		Unit summary		
The aim of this unit is to provide learners with the knowledge and understanding required to support individuals with foot care.				
		Assessment		
This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet achieved	Level 2	3 credits	25 GLH

Learning outcomes The learner will:	Assessment criteria The learner can:		
1. Understand the basic	1.1 Describe the structures of the foot and ankle		
structure and function of	1.2 Outline the function of the structures of the foot and ankle		
the foot	1.3 Explain the importance of mobility and blood circulation for feet		
	1.4 Describe the growth process of toenails and the effects of aging on this process		
2. Understand the causes and risk factors of foot	2.1 Describe the potential effects of common medical conditions on feet and toenails		
problems	2.2 Outline factors that might affect an individual's ability to care for their feet		
	2.3 Describe the effects of unsanitary living conditions on feet and toenails		
	2.4 Describe the effects of unsuitable footwear on the feet and toenails		
	2.5 Explain the support available for individuals at risk of developing foot and toenail problems		
3. Understand how to carry out foot and nail	3.1 Describe how to provide assistance to individuals with foot and nail care		
care	3.2 Describe signs of foot problems		
	3.3 Identify items within a basic personal foot and nail care toolkit		
	3.4 Describe how to prepare an environment that is comfortable and safe		
	for foot and nail care		
	3.5 Explain how to clip and file toenails		
	3.6 Describe infection control requirements in relation to foot care		
	3.7 Explain the key factors of skin care		
	3.8 Describe features of healthy footwear		
4. Understand reporting and referral procedures	4.1 Describe the referral processes for podiatry services		
in relation to foot care	4.2 Outline how to report and record support with foot care		

Range

Kange
1. Understand the basic structure and function of the foot
1.1 Structures:
Examples may include, but are not limited to:
forefoot
midfoot

85

ជ

hindfoot

2. Understand the causes and risk factors of foot problems

2.1 Medical conditions:

Examples may include, but are not limited to:

- diabetes
- arthritis
- peripheral vascular disease
- eczema

2.2 Factors:

Examples may include, but are not limited to:

- limited mobility
- physical disability
- mental ill health
- cognitive impairment

2.2 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2.5 Individuals at risk:

Refers to individuals with conditions that heighten the likelihood of foot and toenail problems.

3. Understand how to carry out foot and nail care

3.2 Signs of foot problems:

Examples may include, but are not limited to:

- cuts
- sores
- blood or fluid leakage
- swelling
- redness
- bruising
- warm areas
- verrucas
- corns
- calluses
- ingrown toenails
- athlete's foot
- fungal nail infections
- pressure ulcers

Range
3.7 Skin care:
Examples may include, but are not limited to:
hygiene
washing or soaking
drying application of creams
 application of creams application of prescribed treatments
use of massage
3.8 Footwear:
Examples may include, but are not limited to:
slippers
socks or tights
shoes
4. Understand reporting and referral procedures in relation to foot care
4.1 Podiatry:

Is the professional care and treatment of people's feet and is the modern term for chiropody.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

			sibilities in achieving	¥				
		4.3 Ensure	the individual is cent	ral and in control thro	bughout the process			

Range

1. Understand principles and practice of person-centred thinking, planning and review

1.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.4 Person-centre thinking tools:

Examples may include, but are not limited to:

- important to/for (recorded as a one page profile)
- working/not working
- the doughnut
- matching staff
- relationship circle
- communication charts
- 4 plus 1 questions
- citizenship tool
- decision-making agreement
- presence to contribution
- dreaming
- community connecting related tools:
 - who am I? my gifts and capacities
 - o hopes and fears
 - mapping our network
 - o passion audit
 - capacity mapping
 - who am I? my places

1.5 Person-centred plan:

May include an essential lifestyle plan (ELP).

2. Understand the context of person-centred thinking, planning and review

2.4 Person-centred team:

A person-centred team uses person-centred thinking within the team context, to clarify the purpose of the team, what is important to the team and what support team members need. Teams can work through 7 questions to explore becoming a person-centred team. Each question uses a range of person-centred thinking tools to answer it. Information about purpose, what is important to the team, action and reflection is recorded and updated in a person-centred team plan.

4. Be able to implement person-centred thinking, planning and review

4.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcome 4 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

Learning outcomes	Assessment criteria
The learner will:	The learner can:
6. Be able to facilitate a review of care plans and their implementation	 6.1 Agree with an individual and others: who should be involved in the review process the review criteria 6.2 Obtain feedback from an individual and others in relation to the care plan 6.3 Evaluate the care plan 6.4 Work with an individual and others to agree revisions to the care plan 6.5 Maintain records and reports

1. Understand the principles of person-centred and strengths-based approaches in assessment and care or support planning

1.3 Legislation and guidance:

- Care Act 2014
- The Care and Support (Assessment) Regulations 2014
- Strengths-based approach: Practice Framework and Practice Handbook (Department of Health & Social Care)

1.4 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Be able to facilitate strength-based and person-centred assessment

2.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

2.2 Care plan:

May also be known by other names, such as a support plan, individual plan or care delivery plan. It is the document where day-to-day requirements and preferences for care and support are detailed.

2.4 Strengths, abilities and circumstances:

Learners should implement a strengths-based approach by focusing on an individual's abilities, network and resources available to them rather than a 'deficit-based' model.

3. Be able to contribute to the planning of care or support

3.2 Options and resources:

Examples may include, but are not limited to:

- informal support
- formal support
- care or support services
- community facilities
- financial resources
- individuals' personal networks

6. Be able to facilitate a review of care plans and their implementation

6.4 Revisions to the care plan:

Examples may include, but are not limited to:

- closing the plan if all objectives have been met
- reducing the level of support to reflect increased independence
- increasing the level of support to address unmet needs
- changing the type of support
- changing the method of delivering support

Delivery and assessment guidance

This unit must be assessed in line with NCFE's assessment strategy.

Learning outcomes 2, 3, 4, 5 and 6 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

- SCDHSC0328
- SCDHSC0329

1. Understand current legislation, national guidelines, policies, protocols and good practice guidelines related to the provision of environmental and social support in the community

1.1 Community:

Could be the individual's own home, a community home, a day centre or the individual's place of work.

3. Be able to carry out assessments in collaboration with others to establish the need for, and provision of, environmental and social support in the community

3.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3.1 Relevant others:

Examples may include, but are not limited to:

- colleagues
- family
- carers
- anyone else involved in the care and wellbeing of the individual

4. Be able to plan changes to be made to the environment and social support with individuals and relevant others

4.4 Valid consent:

Must be in line with agreed UK country definition.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3 and 4 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

1. Understand the importance of supporting individuals to continue recommended therapies

1.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Be able to encourage individuals to continue recommended therapies

2.1 Needs, wishes and preferences:

Can include:

- importance of recognising individual needs
- age and stage of development of child or young person
- home language
- preferred method
- additional learning needs
- physical disabilities
- cognitive and communication difficulties
- alternative methods of communication (for example, language: British Sign Language, Makaton, Braille, the use of signs and symbols; and pictures and writing: objects of reference, finger spelling, communication passports, human and technological aids to communication)
- **3.** Be able to support individuals to continue recommended therapy

3.2 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient.

4. Be able to monitor, record and report on observations during recommended therapy

4.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 2, 3, 4 and 5 must be assessed in a real work environment (RWE).

Learning outcomes The learner will:	Assessment criteria The learner can:
6. Be able to evaluate and review learning and	6.1 Agree with the individual and others the process and criteria for evaluation of the activity and the support provided
development activities	6.2 Collate and present information for evaluation as agreed
	6.3 Use agreed criteria to evaluate the activity with the individual and others
	6.4 Make recommendations for any changes in the activity, its implementation or the support provided
	6.5 Explain the importance of recognising progress achieved through a learning or development activity
	6.6 Record the outcome of the evaluation in line with organisational requirements
	6.7 Explain how to refer any concerns to an appropriate person

1. Understand the role of learning and development activities in meeting individual needs

1.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.1 Learning or development:

Examples may include, but are not limited to:

- intellectual pursuits
- activities to promote fitness or mobility
- · activities relating to skills development
- activities to promote participation and interaction

1.3 Preferences:

May be based on:

- beliefs
- values
- culture

2. Be able to identify learning and development activities to meet individual needs and preferences

2.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

3. Be able to plan learning and development activities with individuals

3.3 Agreed ways of working:

Will include policies and procedures where these exist; they may be less formally documented with micro-employers.

5. Be able to facilitate learning and development activities with individuals

5.2 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient.

Delivery and assessment guidance

 Understand factors that influence individuals' access to services and facilities 		1.1 Describe how accessing a range of services and facilities can be beneficial to an individual's wellbeing						
		1.2 Identify barriers that individuals may encounter in accessing services and facilities						
		1.3 Describe ways of overcoming barriers to accessing services and facilities						
		1.4 Explain why it is important to support individuals to challenge						
2 Bo able to support	information about services that may present a barrier to participatio							
2. Be able to support individuals to select		2.1 Work with individuals to identify services and facilities likely to meet their assessed needs						
services and faciliti	ies	2.2 Agree with individuals their preferred options for accessing services						
		and facilities						
		2.3 Work with individuals to select services or facilities that meet their						
3. Be able to support		assessed needs and preferences3.1 Identify with individuals the resources, support and assistance						
individuals to access		required to access and use selected services and facilities						
and use services a	nd	3.2 Carry out agreed responsibilities within scope of own role to enable						
facilities		individuals to access and use services and facilities						
		3.3 Explain how to ensure individuals' rights and preferences are						
		promoted when accessing and using services and facilities						
4. Be able to support individuals to review		4.1 Work with individuals to evaluate whether services or facilities have						
their access to and		met their assessed needs and preferences4.2 Support individuals to provide feedback on their experiences of						
of services and fac		accessing and using services or facilities						
		4.3 Work with individuals and others to evaluate the support provided for						
		accessi	ng and using service	s or facilities within se	cope of own role			
		4.4 Agree any changes needed to improve the experience and outcomes of accessing and using services or facilities for individuals, within scope of own role						

Range

1. Understand factors that influence individuals' access to services and facilities

1.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

Range

2. Be able to support individuals to select services and facilities

2.3 Preferences:

May be based on:

- beliefs
- values
- culture

Be able to support individuals to review their access to and use of services and facilities
 4.3 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 2, 3 and 4 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 38 Support independence in the tasks of daily living (D/615/7323)

		Unit summary			
This unit is aimed	at those working	in a wide range of set	tings. It provides the	learner with the	
knowledge and skills required to support individuals in the tasks of daily living and promote their					
	inde	pendence in these a	reas.		
		Assessment

	5.3 Suppor	t the individual to use	e agreed security mea	asures	

Learning outcomes The learner will:	Assessment criteria The learner can:
6. Be able to identify and respond to changes	6.1 Enable the individual to express views about the support provided to increase independence in daily living tasks
needed in support for daily living tasks	6.2 Record changes in the individual's circumstances that may affect the type or level of support required
	6.3 Adapt support in agreed ways to address concerns, changes or increased independence

1. Understand principles for supporting independence in the tasks of daily living

1.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.2 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient.

2. Be able to establish what support is required for daily living tasks

2.1 Care plan:

May have other names (for example, support plan, individual plan). It is the document where day-today requirements and preferences for care and support are detailed.

2.2 Others:

May include family, friends, advocate or line-manager.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 2, 3, 4, 5 and 6 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 39 Awareness of the Mental Capacity Act 2005 (R/615/7254)

Unit summary						
This unit provides the knowledge and understanding required by a learner to provide care and						
treatment to individuals in accordance with the value base that underpins the Mental Capacity Act 2005.						
		Assessment				
Т	nis unit is interna	ally assessed via a p	ortfolio of evidence.			
	nieved/not yet	Level 3	3 credits	28 GLH

Learning outcomes The learner will:	Assessment criteria The learner can:
6. Be able to contribute to reviewing partnership work with families	 6.1 Agree criteria and processes for reviewing partnership work with families and family members within scope of own role 6.2 Involve the individual and family members in the reviews
7. Be able to provide feedback about support	7.1 Provide feedback to others about the support accessed by family members
for families	 7.2 Report on any gaps in the provision of support for family members 7.3 Describe ways to challenge information or support that is discriminatory or inaccessible

Understand partnership working with families and family members in care and/or support
 1.1 Families and family members:

Examples may include, but are not limited to:

- parents
- legal guardians/those with legal responsibility
- siblings
- grandparents
- step-parents
- other relatives
- 3. Be able to plan shared approaches to the care and support of individuals with families and family members in care and/or support

3.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for. This may be an adult, a child or a young person.

3.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

3.3 Agreed ways of working:

Will include policies and procedures where these exist; they may be less formally documented with micro-employers.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 2, 3, 4, 5, 6 and 7 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 45 Implement therapeutic group activities (Y/615/7188)

Unit summary
This unit is aimed at those working in a wide range of settings. It provides the learner with the
knowledge and skills required to plan, prepare and implement therapeutic group activities in
collaboration and agreement with individuals and others.

Assessment						
	This unit is internally assessed via a portfolio of evidence.					
Optional	Achieved/not yet achieved	Level 3	4 credits	25 GLH		

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand the principles of therapeutic	1.1 Explain how participating in therapeutic group activities can benefit an individual's identity, self-esteem and wellbeing
group activities	1.2 Analyse reasons why a group activity rather than one-to-one work may be recommended in particular circumstances
	1.3 Compare theories in relation to group dynamics
2. Be able to plan and	2.1 Work with individuals and others to agree:
prepare for therapeutic	 the nature and purpose of a therapeutic group
group activities	 specific activities to fit the purpose of the group
	 the monitoring or observations required as part of the group activity
	 own role in relation to planning and preparing for the group activity
	2.2 Address any risks that may be associated with the planned activities
	2.3 Prepare the environment for a therapeutic group activity
	2.4 Prepare equipment or resources needed for the activity
3. Be able to support individuals during	3.1 Support group members to understand the purpose and proposed activity of the group
therapeutic group activities	3.2 Support group members during the activity in ways that encourage effective communication, active participation and co-operation
	3.3 Support group members according to their own level of ability and need
	3.4 Give direction, praise, reassurance and constructive feedback during the activity
	3.5 Support the group to bring the activity to a safe and timely end
4. Be able to contribute to the evaluation of	4.1 Encourage and support individuals to give feedback during and after group activities
therapeutic group activities	4.2 Agree with others processes and criteria for evaluating the therapeutic benefits of the group and its activities
	4.3 Carry out own responsibilities for supporting the evaluation and agreeing any revisions
	4.4 Record and report on outcomes and any revisions in line with agreed ways of working

1. Understand the principles of therapeutic group activities

1.1 Therapeutic group activities:

Examples may include, but are not limited to:

- reminiscence therapy
- relaxation and anxiety management
- remedial games
- health-related group activities
- art or music therapy

1.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Be able to plan and prepare for therapeutic group activities

2.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- families, carers and advocates

2.2 Risks:

May include those associated with:

- the health, safety and wellbeing of those in the group
- unintentional exclusion of some group members
- others involved with the group's activities
- the environment
- equipment and resources used
- **3.** Be able to support individuals during therapeutic group activities

3.2 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

1. Understand support available to access housing and accommodation services

1.1 Housing and accommodation:

Covers affordable housing, housing association properties, accommodation for rent in the private and public sectors, supported housing, community housing and residential care places.

2. Be able to work with individuals to identify housing and accommodation services that meet their needs

2.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3. Be able to work with individuals to plan to access housing and accommodation services

3.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

4. Be able to work with individuals to access housing and accommodation services

4.2 Preferences:

May be based on:

- beliefs
- values
- culture

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 2, 3, 4, 5 and 6 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

contributed to that individual's wellbeing								

Learning outcomes The learner will:	Assessment criteria The learner can:
6. Understand duty of care in relation to supporting	6.1 Explain how the principle of duty of care can be maintained while supporting individuals to take risks
positive risk-taking	6.2 Describe what action to take if an individual decides to take an unplanned risk that places him/her or relevant others in immediate or imminent danger

1. Understand the importance of risk-taking in everyday life

1.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand the importance of a positive, person-centred approach to risk assessment

2.1 Person-centred approach:

Involves listening, thinking together, coaching, sharing ideas, and seeking feedback from the individual.

5. Be able to support individuals to take risks

5.2 Relevant others:

Examples may include, but are not limited to:

- parents
- carer
- those with parental responsibility

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 4 and 5 must be assessed in a real work environment (RWE).

Understand social prescribing (K/617/7591)

Unit summary					
The aim of this unit is to provide learners with knowledge and understanding of social prescribing.					
Assessment					
This unit is internally assessed via a portfolio of evidence.					
Optional	Achieved/not yet achieved	Level 3	2 credits	12 GLH	

Learning outcomes The learner will:	Assessment criteria The learner can:		
1. Understand factors which impact on health	1.1 Define:health inequality		
and wellbeing	health inequity		
	1.2 Describe factors which impact on health and wellbeing		
	1.3 Explain the impact of social determinants on:		
	 an individual's health and wellbeing 		
	communities		
	1.4 Compare and contrast models of health and wellbeing		
2. Understand the policy	2.1 Identify the aims of social prescribing		
for social prescribing	2.2 Describe drivers in relation to social prescribing		
3. Understand social	3.1 Identify individuals who may benefit from accessing social		
prescribing in practice	prescribing schemes		
	3.2 Describe components of a social prescribing scheme		
	3.3 Explain the role and responsibilities of the link worker		
4. Understand the role and	4.1 Explain the role and responsibilities of the frontline health and		
responsibilities of the	care practitioner in relation to social prescribing		
frontline health and care			
practitioner in relation to			
social prescribing			
5. Understand outcomes	5.1 Analyse outcomes of social prescribing for the individual, the		
of social prescribing	community groups and the health and care system		

Range

1. Understand factors which impact on health and wellbeing

1.2 Factors:

To include:

- social
- economic
- environmental

27

1.3 Social determinants:

Examples may include, but are not limited to:

- experiences
- education
- employment
- disability
- food security
- health services
- housing
- finances
- discrimination
- social support

1.3 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.4 Models of health and wellbeing:

To include:

- medical model
- social model

2. Understand the policy for social prescribing

2.2 Drivers:

Examples may include, but are not limited to:

- demographics
- personalisation
- co-production
- integration including the role of third sector organisations
- community capacity
- whole-system approach
- prevention and wellbeing
- early intervention
- values-based
- wider government objectives

3. Understand social prescribing in practice

3.1 Individuals who may benefit from accessing social prescribing schemes:

To include:

• individuals who have social, emotional or practical needs

3.2 Components of a social prescribing scheme:

To include:

- referring practitioner
- link worker
- local voluntary and community sector organisations

3.3 Role and responsibilities of the link worker:

Examples may include, but are not limited to:

- receive and action referrals
- personalised holistic support planning
- connect individuals to voluntary and community groups or services
- referral to other practitioners
- co-production and collaborative working
- supporting accessibility, development and sustainability of community groups and assets
- manage a caseload
- **4.** Understand the role and responsibilities of the frontline health and care practitioner in relation to social prescribing
- 4.1 Role and responsibilities of the frontline health and care practitioner in relation to social prescribing:

Examples may include, but are not limited to:

- holistic, person-centred practice to address non-clinic needs
- motivational interviewing and health coaching
- community-centred approach, knowledge of local services
- awareness of social prescribing schemes and referral criteria
- 5. Understand outcomes of social prescribing

5.1 Outcomes of social prescribing:

Examples may include, but are not limited to:

- common outcomes framework
- engagement, active participation, promotion of health and wellbeing
- better outcomes and experiences
- benefit from community and informal support
- increasing health literacy
- reduce health inequalities, targeting wider determinants
- behaviour change, empowerment, informed choice, self-care
- developing community networks, assets and resilience
- integration, value, sustainability, reduced demand

Delivery and assessment guidance

This unit must be assessed in line with the joint Skills for Care and Development and Skills for Health assessment principles.

achieved

AC 1 Develop own communication skills to support positive interactions with individuals (M/650/1380)

		Unit summary		
This unit provides learners with an opportunity to advance their communication skills during				
	dividuals. Learners w			
	facilitate positive interactions to benefit individuals. Although this unit applies particularly to those			
working with adults with more complex communication needs, these skills are transferrable in any				
situation w	where an individual is a	struggling with their e	motions or events are	ound them.
	Assessment			
This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet	Level 3	4 credits	38 GLH

	Accessment eriteria
Learning outcomes	Assessment criteria The learner can:
1. Understand the scope	1.1 Describe how a range of theories , models and approaches apply
and benefits of	to communication and interaction in adult care
communication and	1.2 Explain how positive interactions contribute to an individual's
positive interaction in	wellbeing
adult care	1.3 Evaluate a range of strategies that support positive interactions for
	communication needs, differences and preferences
	1.4 Explain how communication and positive interactions can support
	development of therapeutic relationships with individuals
	1.5 Explain the importance of professional boundaries during
	communication and interaction with individuals
2. Understand how own	2.1 Describe how individual characteristics and circumstances may
skills and a range of	influence social interaction and communication
factors influence the	2.2 Explain how life history and experiences may influence the way an
quality of interaction and	individual communicates
communication	2.3 Explain the potential impact of own and others' behaviour and
	attitudes on the quality of communication and interactions
	2.4 Explain how own verbal communication skills should be used
	effectively during interactions
	2.5 Describe how own non-verbal communication skills can enhance
	the level of interaction
	2.6 Explain the potential impact of the environment during
	communication and interaction
	2.7 Explain how an individual's verbal and non-verbal responses inform
	own responses during an interaction
3. Understand how to	3.1 Give examples of how different individuals may respond during times
adapt own	of stress or grief
communication in	3.2 Explain how an individual's perception of power imbalance may
response to distress or	contribute to their distress
conflict	3.3 Describe how behaviour can be interpreted as an expression of
	communication
	3.4 Compare a proactive approach with a reactive approach when
	interacting with individuals
	3.5 Describe ways to demonstrate empathy and understanding
	3.6 Describe ways to facilitate expression of emotion within safe
	boundaries

Learning outcomes The learner will:	Assessment criteria The learner can:
	3.7 Explain how positive interactions may be used to encourage de- escalation
	3.8 Analyse different responses that are likely to achieve a positive outcome
4. Understand the range of resources and aids used to support	4.1 Describe different forms of augmentative and alternative communication (AAC) used to promote communication and interaction
communication and interaction	4.2 Describe the range and role of specialists in promoting communication and positive interaction
	4.3 Identify how to access help and support in situations that are beyond own limitations
5. Be able to demonstrate communication skills	5.1 Engage and interact with an individual using an appropriate communication style
during positive interactions with	5.2 Demonstrate empathy, understanding and validation throughout the interaction
individuals	 5.3 Communicate throughout the interaction using language that is: accessible to the individual sensitive
	 reinforces the individual's sense of identity and self-worth
	5.4 Use verbal and non-verbal skills to apply positive reinforcement and validation
	5.5 Adapt own communication as appropriate to individual reactions and responses
6. Be able to review and	6.1 Reflect on own communication and interactions with individuals
develop own communication skills	6.2 Demonstrate self-awareness of the impact of own communication during interactions
	6.3 Use reflection and feedback to review own communication skills
	6.4 Plan opportunities for further development of own communication skills
	6.5 Share and model good practice in communication and positive interactions with others

1. Understand the scope and benefits of communication and positive interaction in adult care

1.1 Theories, models and approaches:

Learners should contextualise and focus on those relevant to their setting and work role.

Examples may include, but are not limited to:

- active listening
- de-escalation techniques
- partnership working
- reminiscence
- proactive versus reactive approaches
- person-centred approach
- therapeutic relationship
- strength-based approaches

146

- validation
- cycle of communication
- Kitwood's malignant social psychology (MSP)
- communication styles
- transactional model
- behaviourist/humanistic/psychoanalytic approaches

1.2 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.3 Communication needs, differences and preferences:

Communication needs could be due to individual characteristics and/or situational. Learners should focus on those relevant to their setting and work role and contextualise.

Examples may include, but are not limited to:

- acquired brain injury
- autism, attention deficit hyperactivity disorder (ADHD), neurodiversity and differences in social interaction
- anxiety and/or distress
- bereavement
- dementia
- different perspectives and values
- difficulties with self-regulation
- English as an additional language (EAL)
- grief and loss
- identity
- learning disability
- mental ill-health
- mood and emotions
- physical disability
- sensory loss or impairment
- shock
- stress
- stroke

2. Understand how own skills and a range of factors influence the quality of interaction and communication

2.3 Others:

Examples include, but are not limited to:

- family
- carers
- colleagues
- other professionals

2.4 Verbal communication skills:

Examples may include, but are not limited to:

- language should be personalised to meet individual needs, style and preferences
- sensitive and accessible to individual
- limit number of words if necessary
- speaking at appropriate pace
- use of pause to give time for the individual to process information and formulate a reply
- use of silence
- paraphrasing
- questioning (when to use open, closed and probing questioning)

2.5 Non-verbal communication skills:

Examples may include, but are not limited to:

- eye contact
- facial expressions
- touch
- mirroring
- physical gestures
- posture and proximity
- focus
- linguistic tone and pitch

4. Understand the range of resources and aids used to support communication and interaction

4.1 Augmentative and alternative communication (AAC):

Examples may include, but are not limited to:

- Makaton
- picture exchange communication systems (PECS)
- symbols
- communication books
- visual cues
- assistive technology such as voice output communication aids (VOCA)

Delivery and assessment guidance

This unit must be assessed in line with our assessment principles.

Learning outcomes 5 and 6 must be assessed in a real work environment (RWE).

AC 2 Support individuals to maintain oral health and mouth care (R/650/1381)

Unit summary

The learner will:	The learner can:
	3.5 Refer the individual to ensure they have access to dental services in
	line with their needs, preferences and national guidance
4. Be able to support	4.1 Support individuals to use recommended techniques and products
individuals and others to	for cleaning teeth, aids and mouth care
carry out oral hygiene	4.2 Apply standard precautions for infection prevention and control
and maintain or improve	during mouth care
oral health	4.3 Ensure dentures, implants and orthodontic appliances are cleaned
	and maintained as required
	4.4 Ensure individual access to consistent supplies of mouth care
	equipment in sufficient quantity and quality
	4.5 Monitor oral hygiene and health, and level of support required
	4.6 Provide information to the individual and others about aspects of
	health that could be changed to maintain or improve oral health
	4.7 Support the individual to access dental care and treatment in line
	with national guidance
	4.8 Review and adapt support to meet an individual's changing needs
	and circumstances

1. Understand the importance of oral health and hygiene for adults

1.1 Structure:

To include:

- lips
- teeth
- gums
- tongue
- roof of mouth (hard and soft palate)
- mucous membrane
- throat
- salivary glands

1.3 Factors:

Examples may include, but are not limited to:

- cognitive impairment
- physical impairment
- diet
- smoking
- alcohol and/or substance use
- sensory processing differences
- pregnancy
- effects of medication (dry mouth)
- diabetes
- limited manual dexterity
- sensory impairment

• dehydration

1.4 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for

1.4 Holistic health:

Examples may include, but are not limited to:

- reduced dietary intake and malnutrition
- increased risk of aspiration pneumonia
- links with coronary heart disease, stroke and peripheral vascular disease

1.5 Types of oral disease:

Examples may include, but are not limited to:

- dental decay
- gum disease (gingivitis and periodontitis)
- mouth ulcers
- infection
- dental abscess
- oral thrush
- oral cancer

1.6 Conditions:

Examples may include, but are not limited to:

- sore and cracked lips
- geographic tongue
- cold sore
- teeth grinding (bruxism)

2. Understand the principles of oral health and mouth care for adults

2.1 National guidance:

Current guidance in England could include, but is not limited to, examples below:

- oral health for adults in care homes National Institute for Health and Care Excellence (NICE) guideline (NG48)
- improving oral health for adults in care homes NICE
- smiling matters: oral health in care homes
- Care Quality Commission (CQC)
- Delivering Better Oral Health: An Evidence-based Toolkit for Prevention (Department of Health & Social Care)

2.2 Oral health assessment:

- learners may refer to assessment tool as recommended by NICE or equivalent assessment tool used within the setting
- oral health for adults in care homes NICE guideline (NG48)
- 3. Be able to assess and review oral health and mouth care needs

3.1 Others:

Examples include, but are not limited to:

- family
- carers
- colleagues
- other professionals

3.2 Assessment tool:

Learners may refer to assessment tool as recommended by NICE or equivalent assessment tool used within the setting.

4. Be able to support individuals and others to carry out oral hygiene and maintain or improve oral health

4.1 Techniques:

Should be according to the dentist's instructions and individual care plan. Examples may include, but are not limited to:

- brushing teeth
- dental flossing
- cleaning of dentures/partial dentures
- cleaning and care of orthodontic prosthesis, mouth guards

4.3 Cleaned and maintained:

Cleaning and maintenance of dentures includes:

- removing dentures at night in line with individual preferences
- denture marking
- removal of food debris
- ensuring comfortable and secure fitting of dentures
- use of denture adhesive if necessary

4.6 Aspects of health:

Examples may include, but are not limited to:

- nutrition
- smoking cessation
- good hydration

- regular access to dental care
- oral health

4.8 Changing needs and circumstances:

Include level of support required (for example, due to manual dexterity, or changes in health requiring more frequent mouth care).

Delivery and assessment guidance

This unit must be assessed in line with NCFE's assessment principles.

Learning outcomes 3 and 4 must be assessed in a real work environment (RWE).

Specialisms units

HSC S 3 Support families who care for individuals with acquired brain injury (M/616/6351)

Unit summary					
	The aim of this unit is to provide learners with the knowledge, understanding and skills required to support the families and carers of individuals with acquired brain injury.

Range

1. Understand the impact on families who care for an individual with acquired brain injury

1.1 Impact:

Examples may include, but are not limited to:

- emotional
- psychological
- social
- financial

1.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.2 Theories of loss and grief:

Examples may include, but are not limited to:

- Kübler-Ross
- Worden

1.4 Personality changes:

Examples may include, but are not limited to:

- irritability
- disinhibited behaviour
- frustration
- loss of social skills
- lack of self-awareness
- 4. Be able to work in partnership with others
- 4. Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

4.1 Other professionals and agencies:

Examples may include, but are not limited to:

- carers' organisations
- social workers
- GPs
- supervisor
- advocate
- carers/family members
- colleagues

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3 and 4 must be assessed in a real work environment (RWE).

HSC S 4A Understand the impact of acquired brain injury on individuals (H/650/1684)

Describe acquired brain injury Describe main structures of the brain and their related functions Describe possible causes of acquired brain injury Explain the difference between a traumatic brain injury and other forms of acquired brain injury Describe brain injuries that are: • mild
 Describe main structures of the brain and their related functions Describe possible causes of acquired brain injury Explain the difference between a traumatic brain injury and other forms of acquired brain injury Describe brain injuries that are: mild
 Describe possible causes of acquired brain injury Explain the difference between a traumatic brain injury and other forms of acquired brain injury Describe brain injuries that are: mild
 Explain the difference between a traumatic brain injury and other forms of acquired brain injury Describe brain injuries that are: mild
forms of acquired brain injury Describe brain injuries that are: • mild
Describe brain injuries that are:mild
• mild
moderate
severe
Describe the initial effects of acquired brain injury on the individual
Explain the long-term effects of acquired brain injury to include:
physical
functional
cognitive
behavioural
emotional
Explain concepts of loss in relation to acquired brain injury for
individuals and carers
Explain dysphasia and dysarthria
Compare strategies to support an individual with dysphasia and
dysarthria
Evaluate intervention strategies and assistive technology used to
support communication
Explain the impact of changes in personality on an individual with
acquired brain injury and others
Explain how lack of self-awareness may affect an individual and
others
Describe how to support the individual and family/carers to come to
terms with personality changes Describe behaviours that challenge
Explain the impact of own attitudes, values and skills when
supporting an individual to manage their behaviour
Explain the importance of a proactive approach to supporting
individuals to manage their behaviour
Explain risk management in relation to an individual's behaviour
Explain the process for reporting and referring behaviour that
challenges

ជ

	1.	Understand	acquired	brain	injury	
--	----	------------	----------	-------	--------	--

1.2 Main structures of the brain:

Examples may include, but are not limited to:

• cerebrum:

- o frontal lobe
- parietal lobe
- occipital lobe
- temporal lobe
- cerebellum
- limbic system
- brainstem

2. Understand the impact of acquired brain injury on individuals

2.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2.2 Functional:

The individual's ability to carry out day-to-day tasks (for example, dressing, washing, cooking). It does not solely mean the physical ability but can also mean concentration and motivation for doing tasks.

2.3 Concepts of loss:

Examples may include, but are not limited to:

- stages of grief (for example, Kübler-Ross and Worden)
- 4. Understand the impact that personality changes may have on individuals with acquired brain injury and others

4.1 Changes in personality:

Examples may include, but are not limited to:

- irritability
- uninhibited behaviour
- frustration
- loss of social skills
- lack of self-awareness

4.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services

• families, carers and advocates

5. Understand the impact of behaviour that challenges

5.1 Behaviours that challenge:

Examples may include, but are not limited to:

- physical attack
- threatening language
- sexual disinhibition

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

HSC S 6 Support individuals with autism spectrum condition (ASC) (A/616/6353)

		Unit summary			
The aim of this unit is to	o provide learne	ers with the knowledg	e, understanding and	d skills required to	
sup	port individuals	s with autism spectru	m condition (ASC).		
		Assessment			
Thi	s unit is interna	Illy assessed via a po	rtfolio of evidence.

Learning outcomes The learner will:	Assessment criteria The learner can:
6. Be able to support individuals with autism	6.1 Work with an individual and others to develop strategies to manage the physical and sensory environment
to promote their safety,	6.2 Support an individual to select and access services and facilities
wellbeing and fulfilment	6.3 Use strategies to support individuals with autism to develop skills for personal safety
	6.4 Describe the actions to take if there is concern about an individual's safety and wellbeing

1. Understand legislative frameworks that relate to individuals with autism spectrum condition

1.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand the main characteristics of autism spectrum condition

2.4 Conditions that may co-occur with autism:

May include:

- learning disability
- mental ill-health
- epilepsy
- attention deficit hyperactivity disorder (ADHD)
- developmental co-ordination disorder (dyspraxia)

3. Be able to support individuals with autism spectrum condition

3.3 Personal skills:

As appropriate to the individual (for example, organisational skills, social skills, money management).

4. Be able to support individuals with autism spectrum condition with social interaction and communication

4.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

4.1 Strategies:

Include approaches used to facilitate social interaction or coping strategies that may be developed over time. Proactive approaches should be encouraged wherever possible.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3, 4, 5 and 6 must be assessed in a real work environment (RWE).

HSC S 7 Understand how to support individuals with autism spectrum condition (ASC) (F/616/6354)

Learning outcomes The learner will:	Assessment criteria The learner can:
 4. Understand the legislative and policy framework in relation to the support of individuals with autistic spectrum conditions 5. Understand how to 	 4.1 Explain how current legislation, national policy and guidance supports the rights of individuals with autism in relation to: advocacy education and employment mental capacity safeguarding 5.1 Explain how behaviour should be viewed as a form of communication
develop strategies and skills to enable social interaction and communication with	5.2 Describe how strategies and assistive technology are used to develop and support social interaction and communication
individuals on the autism spectrum	5.3 Evaluate how to adapt own verbal and non-verbal communication style during interactions with individuals with autism
6. Understand how to support individuals with	6.1 Explain why it is important to establish a person-centred plan tailored to an individual's specific preferences and needs
an autism spectrum condition	6.2 Explain why consultation with others is important in person-centred planning and support
	6.3 Describe different techniques and approaches to support individuals with an autism spectrum condition to learn and develop new skills
	6.4 Explain how adaptations to the physical and sensory environment can be made to:
	 reduce sensory overload increase sensory stimulation
	6.5 Explain ways of supporting an individual with autism to protect themselves from harm
	6.6 Explain how needs change for individuals and their families/carers at different stages of their lives
	6.7 Describe the role of advocacy in the support of individuals with an autism spectrum condition

1. Understand the characteristics and diagnostic features of autism spectrum condition

1.3 Diagnoses and profiles:

Examples may include, but are not limited to:

- Asperger syndrome
- pathological demand avoidance (PDA)

1.5 Conditions that may co-occur with autism:

May include:

- learning disability
- mental ill-health
- epilepsy
- attention deficit hyperactivity disorder (ADHD)
- developmental co-ordination disorder (dyspraxia)

1.7 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand how autism can impact on the lives of individuals and others

2.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

2.2 Factors:

Examples may include, but are not limited to:

- gender
- age
- ethnicity
- social
- cultural
- religious
- attitudes
- awareness

6. Understand how to support individuals with an autism spectrum condition

6.1 Specific preferences and needs:

Examples may include, but are not limited to:

- routines
- timetables and structures
- levels of sensory stimulation
- special interests or rituals

6.5 Harm:

Examples may include, but are not limited to:

- being taken advantage of because of lack of social understanding
- violating the law without realising they are doing something harmful
- abuse
- difficulty predicting outcomes of actions
- lack of awareness of danger
- use of social media and online safety
- extreme anxiety

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

		3.4 Review the effectiveness of strategies which have been developed			
	from knowledge of an individual's personality and life history 3.5 Create an environment which enables an individual with dementia to				
	achieve their potential				

Learning outcomes The learner will:	Assessment criteria The learner can:
4. Be able to involve carers and others in supporting individuals	4.1 Describe how the experience of an individual's dementia may impact on carers4.2 Involve carers and others in the care planning cycle
with dementia	 4.2 Involve carers and others in the care planning cycle 4.3 Ensure an individual with dementia, carers and others can access complaints procedures
	4.4 Describe how conflicts of interests are managed between the carer and an individual with dementia

1. Understand legislation and frameworks in relation to the care and support of individuals with dementia

1.1 Legislation and frameworks:

Examples may include, but are not limited to:

- Care Act 2014
- Equality Act 2010
- Living well with dementia: a national dementia strategy 2009
- Mental Health Act 2007
- Mental Capacity Act 2005 and as amended 2007
- Human Rights Act 1998

1.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.3 Best interests:

Mental Capacity Act 2005 and as amended 2007 – to support the financial health, emotional and social wellbeing of an individual and to take into consideration their past and present wishes and feelings, advance directives, beliefs and values.

2. Be able to promote positive interactions with individuals with dementia

2.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

2.3 Reality orientation:

This approach tries to place the individual in the here and now, reminding them of the day, place, time and situation they are in.

2.3 Validation approach:

Using non-judgmental acceptance and empathy to show the individual that their expressed feelings are valid, focusing on the feelings rather than the content of speech.

3. Be able to support rights and choices of individuals with dementia

3.5 Environment:

Examples may include, but are not limited to:

- social
- physical

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 2, 3, and 4 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

- SCDHSC0024
- SCDHSC0035

HSC S 10 Diabetes awareness (L/616/6356)

	Unit summary				
The aim of this unit is to provide learners with the knowledge and understanding required to be aware of diabetes.					
Assessment					
This unit is internally assessed via a portfolio of evidence.					
Optional Achieved/not yet Level 2 3 credits 28 GLH achieved 28 GLH					

Learning outcomes The learner will:	Assessment criteria
	The learner can:
1. Understand diabetes	1.1 Define the term 'diabetes'
	1.2 Outline key features of type 1 diabetes
	1.3 Outline key features of type 2 diabetes
	1.4 Describe signs and symptoms of diabetes
2. Know risk factors for developing type 2	2.1 Identify risk factors associated with the development of type 2 diabetes
diabetes	2.2 Describe ways that individuals can reduce their risk of developing type 2 diabetes
	2.3 Outline the long-term health consequences of developing type 2 diabetes
3. Know the treatment and management options for individuals with diabetes	 3.1 Outline the treatments and other support available for individuals with diabetes: nutritional
	medication
	exercise
	3.2 Describe the importance of support from others for the individual with diabetes
	3.3 Give examples of tests used to monitor diabetes to include:
	annual tests
	 daily (or more frequent) tests
4. Know how to respond to	4.1 Define the term 'hypoglycaemia'
hypoglycaemia	4.2 Identify the causes of hypoglycaemia
	4.3 List the signs and symptoms of hypoglycaemia
	4.4 Describe actions to take if an individual is hypoglycaemic
5. Know how to respond to	5.1 Define the term 'hyperglycaemia'
hyperglycaemia	5.2 Identify the causes of hyperglycaemia
	5.3 List the signs and symptoms of hyperglycaemia
	5.4 Describe actions to take if an individual is hyperglycaemic
6. Understand the links between diabetes and	6.1 Describe the impact of intercurrent illness on individuals with diabetes
other conditions	6.2 Outline how treatment for diabetes may be required to change in
	response to intercurrent illness
	6.3 Describe the links and possible complications between diabetes and:
	dementia
	depression
	pregnancy
	cardiovascular disease

ជ

Learning outcomes The learner will:	Assessment criteria The learner can:
7. Understand how to work safely when	7.1 Identify current legislation and codes of practice for safe working practices
monitoring individuals with diabetes	7.2 Explain the use of personal protective equipment (PPE) when supporting monitoring activity

2. Know risk factors for developing type 2 diabetes

2.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3. Know the treatment and management options for individuals with diabetes

3.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

6. Understand the links between diabetes and other conditions

6.1 Intercurrent illness:

A disease occurring during the course of another disease with which it has no connection.

7. Understand how to work safely when monitoring individuals with diabetes

7.1 Safe working practices:

Including working and disposing of sharps, needles and lancets, disposing of body fluids.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Relationship to national occupational standards (NOS):

- SFHDiabHA1
- SFHDiabHA2
- SFHDiabHA5
- SFHDiabHA8
- SFHDiabTT01

HSC S 13 End of life care (D/616/6359)

	Unit summary					
The aim of this	The aim of this unit is to provide learners with the knowledge and understanding required in relation to					
	end of life care.					
Assessment						
This unit is internally assessed via a portfolio of evidence.						
Optional Achieved/not yet Level 3 7 credits 53 GLH						

Learning outcomes	Assessment criteria
The learner will:	The learner can:
 Understand how the 	1.1 Outline legal requirements and agreed ways of working in relation
legislative framework	to end of life care
relating to end of life	1.2 Describe current national strategies and approaches to end of life
care protects the rights	care
of individuals and others	1.3 Describe aims of end of life care
	1.4 Describe conflicts and legal or ethical issues that may arise in
	relation to death, dying or end of life care
	1.5 Explain strategies to overcome conflicts and legal or ethical issues
	that may arise in relation to death, dying or end of life care
2. Understand factors that	2.1 Outline theories in relation to death and dying
impact on end of life	2.2 Describe factors that may affect an individual's view of death and
care	dying
	2.3 Explain how beliefs, religion and culture of individuals and others
	influence end of life care
	2.4 Explain why support for spiritual needs is important at the end of life
	2.5 Explain the role of others in an individual's end of life care
	2.6 Explain why support for an individual's health and wellbeing may not
	always relate to their terminal condition
3. Understand advance	3.1 Explain the purpose of advance care planning in relation to end of
care planning in relation	life care
to end of life care	3.2 Explain how to ensure end of life plans and advance care plans are
	understood and shared
	3.3 Outline ethical and legal issues that may arise in relation to advance
	care planning
4. Understand pain and	4.1 Describe a range of interventions used for pain and symptom
symptom management	management
in end of life care	4.2 Explain how symptom and pain management is co-ordinated
	4.3 Identify common signs and symptoms that indicate an individual is
	entering the last days of life
5. Understand how to	5.1 Explain the importance and sensitivity of discussing dying, death and
support individuals and	bereavement for individuals and others
others during end of life	5.2 Describe sources of support and resources that can be obtained
care	through networks, community groups and partnerships to help
	individuals at the end of life

ជ

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	 5.3 Give examples of how an individual's wellbeing can be enhanced by: environmental factors non-medical interventions use of equipment and aids alternative therapies assistive technology 5.4 Explain how to recognise when an individual and others require privacy 5.5 Explain factors that influence who should communicate significant
6. Understand the role of organisations, community and support services available to	 information to an individual or others 6.1 Describe the role of organisations, community and support services that contribute to end of life care 6.2 Describe eligibility criteria and processes for referral to specialist services
individuals and others in relation to end of life care	6.3 Explain the role of an advocate in relation to end of life care6.4 Explain the use of lasting power of attorney in decision-making
7. Understand actions to take following the death of an individual	 7.1 Explain why it is important to know about an individual's wishes for after-death care 7.2 Describe the importance of actions immediately following a death that respect the individual's wishes and follow agreed ways of working 7.3 Describe ways to support others immediately following an individual's death
8. Understand how to manage own feelings in relation to the dying or death of individuals	 8.1 Identify ways to manage own feelings in relation to an individual's dying or death 8.2 Explain support systems to deal with own feelings in relation to an individual's dying or death

1. Understand how the legislative framework relating to end of life care protects the rights of individuals and others

1.1 Legal requirements and agreed ways of working:

Will include policies and procedures where these apply, and may relate to:

- equality, diversity and discrimination
- data protection, recording, reporting, confidentiality and sharing information
- the making of wills and living wills
- dealing with personal property of deceased people
- removal of medical equipment from deceased people
- visitors
- safeguarding of vulnerable adults

2. Understand factors that impact on end of life care

2.2 Factors:

Examples may include, but are not limited to:

172

- physical
- emotional
- psychological
- spiritual
- cultural and religious needs

2.2. Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2.5. Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates
- 3. Understand advance care planning in relation to end of life care

3.1 Advance care planning:

Examples may include, but are not limited to:

- gold standards framework (GSF)
- preferred priorities for care (PPC)
- 6. Understand the role of organisations, community and support services available to individuals and others in relation to end of life care
- 6.1 Organisations, community and support services:

Examples may include, but are not limited to:

- nursing and care homes
- specialist palliative care services
- domiciliary, respite and day services
- funeral directors
- 7. Understand actions to take following the death of an individual

7.2 Actions:

Examples may include, but are not limited to:

- attending to the body of the deceased
- reporting the death through agreed channels
- informing key people

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Relationship to national occupational standards (NOS):

• SCDHSC0385

HSC S 16 Principles of supporting individuals with a learning disability regarding sexuality and sexual health (Y/616/6361)

Unit summary					
The aim of this unit is to provide learners with knowledge and understanding of the principles of supporting individuals with a learning disability regarding sexuality and sexual health.					
Assessment					
This unit is internally assessed via a portfolio of evidence.					
Optional Achieved/not yet Level 3 3 credits 21 GLH					

 he learner can: 1 Define the terms: sexuality sexual health sexual orientation sexual expression 2 Explain sexual development milestones throughout the lifespan 1 Explain how factors can influence the sexual development, sexual expression and sexual health of an individual with a learning disability 2 Explain the importance of considering an individual's mental capacity in relation to sexual development, sexual expression and sexual health 1 Explain the key features of sexual health and wellbeing and how
 expression and sexual health of an individual with a learning disability 2 Explain the importance of considering an individual's mental capacity in relation to sexual development, sexual experiences, sexual expression and sexual health 1 Explain the key features of sexual health and wellbeing and how
.1 Explain the key features of sexual health and wellbeing and how
 these relate to an individual's overall health and wellbeing .2 Identify sexual health issues that affect men and women .3 Explain how sexual health issues can be supported through plans for health care .4 Identify local services that support sexual health for individuals
.1 Summarise legislation in relation to sexuality and sexual health for individuals
 1 Explain how the practitioner's values, beliefs and experiences may impact support 2 Describe ways an individual with a learning disability may express themselves sexually and how individual preferences can be supported
 3 Explain how to support an individual with a learning disability to: keep safe sexually minimise sexual vulnerability avoid abuse 4 Explain action to take in response to safeguarding concerns in relation to sexual relationships

ふ

2. Understand factors that impact sexual development of individuals with a learning disability

2.1 Factors:

Examples may include, but are not limited to:

- genetics
- environmental
- socio-economic
- cultural, religious and moral beliefs
- education
- relationships
- behaviour and lifestyle (for example, alcohol and substance abuse)
- demographics
- peer pressure
- media and social media
- self-esteem and confidence
- resilience
- vulnerability
- mental capacity
- sexual exploitation and abuse (for example, grooming, domestic abuse, gender violence)

2.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2.2 Mental capacity:

The principles of human rights underpin this unit. Where mental capacity is referred to it should be remembered that the Mental Capacity Act 2005 and as amended 2007 states that everyone should be treated as able to make their own decisions until it is shown that they are not.

3. Understand the support of sexual health issues

3.1 Key features of sexual health:

Examples may include, but are not limited to:

- contraception
- hygiene
- sexually transmitted infections

Delivery and assessment guidance

This unit needs to be assessed in line with the Skills for Care and Development assessment principles.

Relationship to national occupational standards (NOS):

- SCDHSC0331
- SCDHSC0332
- SCDHSC0356

HSC S 17 Support individuals with learning disabilities to access healthcare (D/616/6362)

Unit summary					
The aim of this	The aim of this unit is to provide learners with knowledge, understanding and skills required to support				
	individuals with learning disabilities to access healthcare.				
Assessment					
This unit is internally assessed via a portfolio of evidence.					
Optional	Achieved/not yet achieved	Level 3	3 credits	25 GLH	

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand legislation, policies and guidance relevant to individuals with learning disabilities	 1.1 Outline legislation, polices and guidance in relation to supporting an individual with learning disabilities to access healthcare 1.2 Describe a rights-based approach to accessing healthcare 1.3 Explain ways to support an individual to give informed consent in line
 accessing healthcare 2. Understand the function of healthcare services that an individual with learning disabilities may need to access 	 with legislation, policies and guidance 2.1 Explain the healthcare services that an individual may need to access 2.2 Explain how an individual can access each type of healthcare service 2.3 Describe the role and responsibilities of professionals working in different types of healthcare services
3. Understand how plans for healthcare and regular health checks underpin long-term health and wellbeing for individuals with learning	 3.1 Explain how plans for healthcare can be used to support the healthcare needs of an individual 3.2 Explain health checks available to individuals to support health and wellbeing 3.3 Explain the importance of routine healthcare checks
disabilities 4. Be able to complete and review plans for healthcare for individuals with learning disabilities	 4.1 Identify who needs to be involved in the process of completing and reviewing plans for healthcare 4.2 Complete plans for healthcare with an individual and others 4.3 Review plans for healthcare with an individual and others
 Be able to support an individual with learning disabilities to access a variety of healthcare services 	 5.1 Describe barriers to accessing healthcare services 5.2 Explain strategies to overcome barriers to accessing healthcare services 5.3 Provide accessible information related to healthcare to individuals 5.4 Work with others to support an individual to access healthcare services 5.5 Support an individual in a range of practical healthcare situations 5.6 Support an individual to make safe choices in relation to treatments and mediaation
	and medication 5.7 Record details of a healthcare visit in an accessible format

1. Understand legislation, policies and guidance relevant to individuals with learning disabilities accessing healthcare

1.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand the function of healthcare services that an individual with learning disabilities may need to access

2.1 Healthcare services:

Examples may include, but are not limited to:

• primary healthcare services

- acute healthcare services
- specialist healthcare services
- community healthcare services

3. Understand how plans for healthcare and regular health checks underpin long-term health and wellbeing for individuals with learning disabilities

3.1 Plans for healthcare:

In England this refers to/should include health action plans.

4. Be able to complete and review plans for healthcare for individuals with learning disabilities

4.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

5. Be able to support an individual with learning disabilities to access a variety of healthcare services

5.5 Practical healthcare situations:

Examples may include, but are not limited to:

- making and keeping a routine health check appointment
- making a complaint about a healthcare professional
- describing pain or other symptoms to a healthcare professional
- spending a night in hospital and having a medical procedure

5.6 Treatments and medication:

Examples may include, but are not limited to:

- complementary therapies
- self-medicating
- over the counter medicine

Delivery and assessment guidance

This unit needs to be assessed in line with the Skills for Care and Development assessment principles.

Learning outcomes 4 and 5 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

• SCDHSC0330

HSC S 20 Promote mental wellbeing and mental health (H/616/6363)

Unit summary				
The aim of this unit is to provide learners with knowledge, understanding and skills required to				
promote mental wellbeing and mental health.				
Assessment				
This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet achieved	Level 3	3 credits	20 GLH

Learning outcomes	Assessment criteria		
The learner will:	The learner can:		
1. Understand perspectives of and factors that impact mental wellbeing and mental health	1.1 Compare perspectives in relation to mental wellbeing and mental health		
	1.2 Explain factors that may impact mental wellbeing and mental health across the life span:		
	biologicalsocial		
	psychologicalemotional		
	1.3 Explain how risk and protective factors influence resilience in individuals and groups		
2. Understand local, national or international strategy to promote mental wellbeing and mental health	2.1 Describe key aspects of a local, national or international strategy to promote mental wellbeing and mental health		
	2.2 Evaluate a local, national or international strategy to promote mental wellbeing and mental health		
3. Be able to promote mental wellbeing and	3.1 Explain how an individual may promote their own mental wellbeing and mental health		
mental health	3.2 Promote mental wellbeing and mental health within own service		
	3.3 Support an individual to promote their own mental wellbeing and mental health		
	3.4 Implement a strategy for supporting an individual to promote their own mental wellbeing and mental health		
	3.5 Review a strategy for supporting an individual to promote their own mental wellbeing and mental health		
4. Be able to promote social inclusion to support individuals' mental wellbeing and mental health	4.1 Support an individual to develop positive relationships		
	4.2 Support an individual to build social networks		
	4.3 Create an environment that promotes social inclusion		

Range

1. Understand perspectives of and factors that impact mental wellbeing and mental health

1.1 Perspectives:

Examples may include, but are not limited to:

• nature/nurture

- medical model
- social model

1.3 Risk factors:

Examples may include, but are not limited to:

- inequalities
- poor quality social relationships

1.3 Protective factors:

Examples may include, but are not limited to:

- socially valued roles
- social support and contact

1.3 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3 and 4 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

• SFHMH14

HSC S 22 Support individuals with multiple conditions and/or disabilities (M/616/6365)

Unit summary				
The aim of this	unit is to provide the le	earner with knowledge	e, understanding and	skills required to
	support individuals v	vith multiple conditior	ns and/or disabilities.	
		Assessment		
This unit is internally assessed via a portfolio of evidence.				
Optional Achieved/not yet Level 3 4 credits 31 GLH achieved				

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the impact of multiple conditions and/or	1.1 Describe multiple conditions and/or disabilities that individuals may have
disabilities on individuals	1.2 Explain the impact of multiple conditions and/or disabilities on an individual's wellbeing and quality of life
2. Understand own role in supporting individuals	2.1 Describe own role in supporting the wellbeing of individuals with multiple conditions and/or disabilities
with multiple conditions and/or disabilities	2.2 Explain the limits and boundaries of own role and responsibilities
3. Understand the support available for individuals	3.1 Explain the role of assessment of health and social care needs for individuals with multiple conditions and/or disabilities
with multiple conditions and/or disabilities	3.2 Explain roles and responsibilities of others who provide support to individuals with multiple conditions and/or disabilities
	3.3 Explain resources available to support the additional needs of individuals with multiple conditions and/or disabilities
	3.4 Explain equipment available to support additional needs of individuals with multiple conditions and/or disabilities
	3.5 Explain the role of informal networks in supporting individuals with multiple conditions and/or disabilities
4. Be able to assist	4.1 Support an individual to identify needs and preferences
individuals with multiple conditions and/or	4.2 Identify any resources or specialist equipment that may be required to support an individual to engage in activities
disabilities	4.3 Support an individual to engage in activities that meet their needs and preferences
5. Be able to evaluate the support provided to an	5.1 Review with the individual and/or others how well the activities have met the identified needs and preferences
individual to engage in activities	5.2 Reflect on own contribution to supporting an individual to engage in activities
	5.3 Explain where additional advice, guidance or support can be accessed to improve own practice
	5.4 Adapt own practice to support the needs of the individual

1. Understand the impact of multiple conditions and/or disabilities on individuals

1.1 Multiple conditions and/or disabilities:

Could include a combination of factors relating to:

- sensory loss
- physical health
- mental health
- physical disability
- learning difficulty/disability
- autism

1.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.2 Wellbeing:

May include aspects that are:

- social
- emotional
- cultural
- spiritual
- intellectual
- economic
- physical
- mental

3. Understand the support available for individuals with multiple conditions and/or disabilities

3.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

3.5 Informal networks:

Examples may include, but are not limited to:

- family
- friends
- neighbours
- special interest groups

4. Be able to assist individuals with multiple conditions and/or disabilities

4.2 Activities:

Could include:

- managing and maintaining nutrition
- maintaining personal hygiene
- managing toilet needs
- being appropriately clothed
- being able to make use of the adult's home safely
- maintaining a habitable home environment
- developing and maintaining family or other personal relationships
- accessing and engaging in work, training, education or volunteering
- making use of necessary facilities or services in the local community, including public transport, and recreational facilities or services
- carrying out any caring responsibilities the adult has for a child

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 4 and 5 must be assessed in a real work environment (RWE).

HSC S 23 Support individuals with Parkinson's disease (T/616/6366)

Unit summary						
The aim of this ur	The aim of this unit is to provide the learner with the knowledge, understanding and skills to support					
	individu	als with Parkinson's of	disease.			
		Assessment				
	This unit is interna	lly assessed via a po	ortfolio of evidence.			
Optional Achieved/not yet Level 3 3 credits 25 GLH achieved						

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the signs,	1.1 Describe Parkinson's disease
symptoms and	1.2 Explain changes in the brain that cause Parkinson's disease to
progression of	develop
Parkinson's disease	1.3 Describe symptoms of Parkinson's disease in relation to:
	motor
	non-motor
	1.4 Compare young onset Parkinson's disease with traditional onset
	Parkinson's disease
	1.5 Describe typical phases and timeframes of the progression of
	Parkinson's disease
	1.6 Identify a range of different conditions known under the term
	Parkinsonism
2. Understand the impact	2.1 Describe the impact of motor and non-motor symptoms on an
of Parkinson's disease	individual's quality of life
on the individual and	2.2 Explain the impact of Parkinson's disease on an individual's
others	relationships with others
	2.3 Explain the impact of fluctuations in symptoms of Parkinson's
	disease on an individual and others
	2.4 Describe the impact of Parkinson's disease on the individual in
	relation to:
	communication
	cognition
	behaviour
	emotion
3. Understand the	3.1 Describe processes for diagnosis and referral of an individual with
diagnosis, interventions	Parkinson's disease
and treatment options to	3.2 Describe how to access local, community and statutory agencies,
manage Parkinson's	support services and networks appropriate to an individual with
disease	Parkinson's disease
	3.3 Describe methods, practices and interventions to support individuals
	to manage their symptoms
	3.4 Describe treatment options available for an individual with
	Parkinson's disease
	3.5 Explain how nutrition and hydration are managed for an individual with Parkinson's disease

Learning outcomes	Assessment criteria		
The learner will:	The learner can:		
4. Understand safe and	4.1 Identify medication used to manage Parkinson's disease		
effective use of medication for	4.2 Describe the common side-effects of medication for Parkinson's disease		
Parkinson's disease	4.3 Explain the consequences when medication is not taken or given on time		
	4.4 Describe how to manage side effects of medication for Parkinson's disease		
5. Be able to support the	5.1 Implement person-centred strategies and techniques to address:		
health and wellbeing of	communication difficulties		
individuals with	cognitive difficulties		
Parkinson's disease	behavioural changes		
	5.2 Work in partnership with the individual, professionals and others to		
	improve outcomes in relation to:		
	 mobility and falls 		
	 swallowing difficulties 		
	sleep disturbances		
	5.3 Contribute to the evaluation of service delivery in relation to		
	supporting individuals living with Parkinson's disease		

1. Understand the signs, symptoms and progression of Parkinson's disease

1.6 Parkinsonism:

Or Parkinson's disease syndrome. A term used to describe a range of conditions that have similar symptoms to Parkinson's disease.

2. Understand the impact of Parkinson's disease on the individual and others

2.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

3. Understand the diagnosis, interventions and treatment options to manage Parkinson's disease

3.4 Treatment options:

Examples may include, but are not limited to:

- medication
- surgical
- physiotherapy

5. Be able to support the health and wellbeing of individuals with Parkinson's disease

5.1 Techniques:

Those designed specifically to support individuals in managing communication and cognition difficulties directly associated with Parkinson's disease, such as cognitive freezing.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcome 5 must be assessed in a real work environment (RWE).

HSC S 26 Understand sensory loss (J/616/6369)

Unit summary The aim of this unit is to provide learners with knowledge, understanding and skills required to support the assessment of individuals with sensory loss. Assessment This unit is internally assessed via a portfolio of evidence. Optional Achieved/not yet | Level 3 3 credits 22 GLH achieved Learning outcomes Assessment criteria The learner will: The learner can: 1. Understand own role 1.1 Outline current legislation and guidance in relation to the assessment and the roles of others of individuals with sensory loss 1.2 Describe the rights of individuals with sensory loss and their carers in in the assessment of individuals with sensory relation to assessment 1.3 Describe own role and responsibilities in supporting the assessment loss and their carers of individuals with sensory loss 1.4 Outline roles and responsibilities of others involved in the assessment of individuals with sensory loss 1.5 Describe the specific factors within an assessment for individuals with sensory loss 1.6 Explain the importance of using both formal and informal methods to gather information for assessments 1.7 Evaluate own skills in relation to communication with individuals with sensory loss and their carers during assessment 2. Understand own role 2.1 Explain why it is important to promote awareness of sensory loss and the role of others in 2.2 Outline own role in promoting awareness of sensory loss promoting the interests 2.3 Describe the roles of self and others who promote the interests of of individuals with individuals with sensory loss sensory loss 2.4 Describe the role of individuals in promoting awareness of sensory loss 3. Be able to support the 3.1 Agree areas of assessment required with the individual and others assessment of 3.2 Enable active participation of the individual throughout the individuals with sensory assessment process loss 3.3 Contribute to the assessment within boundaries of own role 3.4 Record and report the outcomes of the assessment 3.5 Monitor and review support and progress against agreed outcomes of the assessment 4.1 Communicate with the primary carer to identify support needed 4. Be able to support 4.2 Contribute to the assessment of primary carers' needs primary carers 4.3 Identify support needs with the primary carers 4.4 Record and report needs of primary carers 4.5 Identify sources of information and support for referral 5.1 Provide individuals and others with information on evidence-based 5. Be able to promote evidence-based practice practice relevant to sensory loss 5.2 Use information, resources or evidence-based practice to improve in relation to sensory loss practice 5.3 Review outcomes of applying evidence-based practice for the individual, others and the service

HSC S 27 Support the assessment of individuals with sensory loss (F/616/6371)

1. Understand own role and the roles of others in the assessment of individuals with sensory loss and their carers

1.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.1 Sensory loss:

Examples may include, but are not limited to:

- sight loss
- hearing loss
- deafblindness

1.4 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- social care services
- families, carers and advocates

1.5 Factors:

Examples may include, but are not limited to:

- communication
- assistive technology
- positive risk assessment
- mobility and falls
- environment

1.6 Formal and informal methods:

Could include:

- observation
- communication
- feedback from individuals
- feedback from families/carers/friends
- deterioration in the environment

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3, 4 and 5 must be assessed in a real work environment (RWE).

Learning outcomes The learner will:	Assessment criteria The learner can:
6. Be able to support an individual following a	6.1 Explain how to encourage an individual to review their lifestyle and promote their own health and wellbeing
stroke	6.2 Support an individual with personal care and daily living
	6.3 Support an individual with recovery and rehabilitation exercises and therapy
	6.4 Monitor an individual and report changes or concerns

1. Understand legislation, policy and guidance in relation to strokes

1.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3. Understand the potential effects of a stroke

3.1 Different types:

To include:

- ischeamic
- haemorrhagic
- transient ischaemic attack (TIA)

3.2 Changes in the brain:

Learners should be aware that those changes in the brain will be dependent on the areas affected and their function as well as the type and severity of the stroke. They should demonstrate how the changes and their effects on each individual will vary.

3.3 Physical:

Effects may include, but are not limited to:

- fatigue
- mobility
- continence
- pain
- spatial awareness
- swallowing difficulties (dysphagia)
- speech (dysarthria)

3.3 Cognitive:

Effects may include, but are not limited to:

- memory loss
- perception
- lack of inhibition
- personality changes

- emotional instability
- language difficulties (dysphasia)

3.3 Psychological and emotional:

Effects may include, but are not limited to:

- self-esteem
- confidence
- depression
- mood swings
- grieving process
- anger and frustration
- behaviour changes
- isolation

3.3 Social:

Effects may include, but are not limited to:

- relationships
- interaction
- participation

3.5 Sensory:

Effects may include, but are not limited to:

- vision
- hearing

3.7 Health needs:

Examples may include, but are not limited to:

- medication
- co-morbidity
- complications:
 - aspiration
 - o airway obstruction
 - o hypoxia
 - o hypotension
 - hypertension
 - o hyperglycaemia
 - o impaired skin integrity

4. Understand specific communication factors affecting individuals following a stroke

4.1 Effects of a stroke:

Examples may include, but are not limited to:

- aphasia
- apraxia
- dysarthria

4.2 Aids:

May include:

- high-tech (electronic technology)
- low-tech (anything non-electronic)

5. Understand how to promote recovery and support rehabilitation for an individual following a stroke

5.3 Therapists:

Examples may include, but are not limited to:

- physiotherapist
- occupational therapist
- speech and language therapist

5.4 Repetition:

Repeating day-to-day activities or therapeutic remedies.

5.7 Others:

Examples may include, but are not limited to:

- team members
- therapists
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates
- 6. Be able to support an individual following a stroke

6.1 Lifestyle

Examples may include, but are not limited to:

- driving
- return to work
- finances
- benefits
- sexuality
- relationships
- transport
- leisure

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 6 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

- SCDSS1
- SCDSS2
- SCDSS3
- SCDSS4

- SCDSS11

HSC S 30 Carry out assessments to identify the needs of substance users (R/616/6374)

Unit summary				
The aim of this unit is to provide learners with the knowledge, understanding and skills required to				
carry ou	t assessment	ts to identify the r	needs of substance	users.
		Assessmen	t	
This	unit is interna		a portfolio of evider	ice.
	ved/not yet	Level 3	5 credits	30 GLH
achiev	/ed			
Learning outcomes The learner will:	Assessme The learner ca			
1. Understand impacts of substance misuse	howpot	stances individu v substances are ential effects of s	used ubstances	the individual
2. Understand legislation, policy and procedure in relation to assessment of substance misuse	 1.2 Describe impacts of substance misuse on the individual 2.1 Summarise legislation, policy and procedure in relation to assessment 			e in relation to
 3. Be able to prepare for a substance misuse assessment 3.1 Explain why assessment should be carried out promptly 3.2 Identify whether an initial assessment or comprehensive assession is required 3.3 Obtain information to inform the assessment from: the individual the referring agency previous assessments 3.4 Identify support available in relation to the assessment proces 			mprehensive assessment	
 4. Be able to undertake a substance misuse assessment 4.1 Involve the individual in the assessment 4.2 Assess the individual's substance misuse and their needs 4.3 Assess the individual's understanding of services available and readiness to engage in a treatment programme 4.4 Manage behaviour that challenges 4.5 Balance the interests of the individual against duty of care 4.6 Agree a course of action with the individual in relation to the type intervention required 4.7 Provide a rationale for the intervention required 4.8 Make referrals to substance misuse services 4.9 Work with others to ensure continuity and consistency of care 4.10 Provide individuals with accessible information in relation to complaints and appeals procedures 4.12 Undertake ongoing reviews of the assessment 				nd their needs rvices available and nme st duty of care in relation to the type of ired s consistency of care ation in relation to

Range
1. Understand impacts of substance misuse
1.1 Individuals:
A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.
1.2 Impacts:
Examples may include, but are not limited to:
• social
emotional
cognitive
physical
4. Be able to undertake a substance misuse assessment
4.9 Others:
Examples may include, but are not limited to:
team members
other colleagues

- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

The evidence for this unit is likely to come from:

- the observation of the learner carrying out an initial assessment with an individual
- case records, assessment records and care plans
- the learner's explanation of their work with an individual recorded either through professional discussion or a reflective account

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3 and 4 must be assessed in a real work environment (RWE).

5. Be able to suppo		5.1 Assist individuals to review reasons for making a commitment to				
individuals to add		reduce substance use				
substance misuse		5.2 Support the individual to contribute to the development of an action				
through an action	i plan	plan	and as a set in f	ana ina ma la 41 - 41 - 41	la a lia alia dale - D	
		5.3 Gather and record information in relation to the individual's progress				
		5.4 Describe how to manage own feelings in relation to the individual's progress				
pro			3			

Learning outcomes The learner will:	Assessment criteria The learner can:
	5.5 Review the action plan with the individual and agree next steps
	5.6 Identify the specialist agencies and support networks in relation to substance misuse

1. Understand the context of substance use

1.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand substances, their effects and how they might be used

2.1 Substances:

Examples may include, but are not limited to:

- illegal drugs
- prescription drugs
- over-the-counter drugs
- alcohol
- solvents

2.2 Indications:

Examples may include, but are not limited to:

- physical
- behavioural
- social
- emotional

2.3 Risks:

Examples may include, but are not limited to:

- short/long-term
- injury to self and others
- overdose and other health risks
- dependence/addiction
- self-neglect

3. Be able to support individuals to adopt safe practices in relation to substance use

3.1 Support:

Examples may include, but are not limited to:

- counselling
- financial
- emotional

- medical
- self-help groups

Delivery and assessment guidance

The evidence for this unit is likely to come from:

- the observation of the learner working with an individual
- confidential case records
- the learner's explanation of their work with this and other individuals recorded either through professional discussion or a reflective account

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3, 4 and 5 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

• SFHAB2

HSC S 32 Test for substance use (K/616/6378)

		Unit summary		
The aim of this	The aim of this unit is to provide learners with the knowledge, understanding and skills required to test			
	for substance use.			
	Assessment			
	This unit is interna	Ily assessed via a po	rtfolio of evidence.	
Optional	Optional Achieved/not yet Level 3 5 credits 30 GLH achieved			

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Be able to prepare to	1.1 Identify individuals to be tested for substance misuse
test individuals for	1.2 Make arrangements for tests to be witnessed
substance use	1.3 Comply with health, safety and security policies
	1.4 Confirm individuals understand the purpose of the tests, their rights, and consequences of not submitting to the testing procedures
	1.5 Provide opportunities for individuals to describe their substance use and explain possible false positives before they are tested
	1.6 Obtain consent for testing procedures
	1.7 Explain to individuals how they are to provide their samples
2. Be able to test for	2.1 Take samples according to agreed ways of working
substances	2.2 Test samples, or refer them for testing
	2.3 Follow supplier's/manufacturer's instructions for use of equipment
	2.4 Dispose of samples and equipment
	2.5 Explain causes of false readings
3. Be able to communicate	3.1 Communicate the outcomes of the tests to individuals and others
outcomes of testing for substances	3.2 Obtain individual's informed consent when test results are to be shared
	3.3 Maintain records and reports in accordance with organisational policy and procedures

Range

1. Be able to prepare to test individuals for substance use

1.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1.7 Samples:

Examples may include, but are not limited to:

- breath
- urine
- blood
- hair
- saliva

3. Be able to communicate outcomes of testing for substances

3.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 1, 2, and 3 must be assessed in a real work environment (RWE).

AN 26 Understand advance care planning (M/615/7164)

		Unit summary		
The purpose of	The purpose of this unit is to provide the learner with the knowledge and understanding required to			
	undertake advance care planning.			
	Assessment			
	This unit is internally assessed via a portfolio of evidence.			
Optional Achieved/not yet Level 3 3 credits 25 GLH				
	achieved			

.....

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand the principles of advance	1.1 Describe the difference between a daily care or support plan and an advance care plan
care planning	1.2 Explain the purpose of advance care planning
3	1.3 Identify the national, local and organisational agreed ways of
	working for advance care planning
	1.4 Explain the legal position of an advance care plan
	1.5 Explain what is meant by mental capacity in relation to advance care planning
	1.6 Explain what is meant by informed consent in relation to advance care planning
2. Understand the process	2.1 Explain when advance care planning may be introduced
of advance care	2.2 Outline who may be involved in the advance care planning process
planning	2.3 Describe information an individual may need to enable them to make informed decisions
	2.4 Explain what is involved in an 'advance decision to refuse treatment'
	2.5 Explain what is meant by a 'do not attempt cardiopulmonary
	resuscitation' (DNACPR) order
	2.6 Explain how the individual's capacity to discuss advance care
	planning may influence their role in the process
	2.7 Explain role of the care worker in the advance care planning process
	and sources of support available
	2.8 Describe how personal beliefs and attitudes can affect participation
	in the advance care planning process
	2.9 Identify how an advance care plan can change over time
	2.10 Outline the principles of record keeping in advance care planning
	2.11 Describe when details of the advance care plan can be shared with others
3. Understand person- centred approaches to	3.1 Describe factors an individual may consider when creating their advance care plan
advance care planning	3.2 Explain the importance of respecting the individual's values, beliefs and choices
	3.3 Identify how the needs of others may need to be taken into account when planning advance care
	3.4 Explain how to support an individual to exercise their right not to
	create an advance care plan 3.5 Outline actions to take when an individual is unable to participate in
	advance care planning
	3.6 Explain how individual's care or support plan may be affected by an
	advance care plan

205

公

1. Understand the principles of advance care planning

1.2 Advance care planning (ACP):

ACP is a voluntary process of discussion about future care between an individual and their care providers, irrespective of discipline. If the individual wishes, their family and friends may be included. It is recommended that with the individual's agreement this discussion is documented, regularly reviewed, and communicated to key persons involved in their care. It may involve establishing the 'ceiling of treatment' for an individual, the preferred place of care and preferred place of death.

2. Understand the process of advance care planning

2.3 Information:

Examples may include, but are not limited to:

- knowledge of illness and prognosis
- choices of care and treatment options
- resources available for delivery of care

2.3 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2.5 Do not attempt cardiopulmonary resuscitation (DNACPR):

Often referred to as do not resuscitate (DNR).

2.6 Individual's capacity:

Refers to being able to make their own decisions based on the information available, and communicate that decision.

3. Understand person-centred approaches to advance care planning

3.3 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

AN 35 Understand the process and experience of dementia (M/615/7228)

Range

1. Understand the neurology of dementia

1.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

び

AN 36 Care for the elderly (A/615/7376)

		Unit summary		
The aim of this unit is to develop knowledge and understanding of the needs of the elderly and how to care for them.				
	Assessment			
	This unit is internally assessed via a portfolio of evidence.			
Optional Achieved/not yet Level 2 2 credits 10 GLH achieved				

Learning outcomes The learner will:	Assessment criteria The learner can:	
1. Understand the ageing process	 1.1 Describe changes occurring with age, to include: physical psychological emotional social 1.2 Outline the needs of the elderly in relation to the ageing process 	
2. Be able to adapt communication techniques when caring for elderly patients	2.1 Outline ways to minimise barriers to communication2.2 Demonstrate communication techniques adapted for elderly patients	
3. Understand how to care for elderly patients	 3.1 Describe conditions affecting the elderly, to include: dementia Parkinson's disease stroke/transient ischaemic attack (TIA) arthritis osteoporosis 3.2 Describe how to adapt care plans for elderly patients 	

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcome 2 must be assessed in a real work environment (RWE).

AN 37 Understand long-term conditions and frailty (L/615/7365)

		Unit summary		
This unit covers the knowledge required to understand how frailty and long-term conditions can affect individuals across the lifespan.				
	Assessment			
	This unit is internally assessed via a portfolio of evidence.			
Optional Achieved/not yet Level 3 3 credits 20 GLH achieved				

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand frailty and	1.1 Explain what frailty means
the impact of this on	1.2 Describe how to assess frailty in individuals
individuals	1.3 Explain how frailty impacts across the lifespan of an individual
	1.4 Explain the factors which have an impact on an individual's frailty
	1.5 Explain the effects frailty may have on individuals
2. Understand long-term	2.1 Explain long-term conditions within own area of work and how they
conditions	can be:
	prevented
	managed
	2.2 Explain the factors that contribute to an individual's risk of developing
	a long-term condition
	2.3 Explain what co-morbidity is
	2.4 Describe how co-morbidity can impact on an individual's quality of life
	2.5 Describe how a long-term condition relates to end of life care
	2.6 Explain the psychological impact on individuals living with a long-
	term condition
	2.7 Explain how advance care planning can be useful for individuals and
	what needs to be considered prior to discussion
3. Know how to support	3.1 Explain the importance of involving the individual and others in
individuals with frailty or	decisions about the care they receive in relation to their frailty or
long-term conditions	long-term condition
	3.2 Describe the sources of support available for individuals and others
	in relation to managing their frailty or long-term condition
	3.3 Explain how to recognise a reversible condition in an individual and the actions to take
	3.4 Explain how to recognise if an individual is entering the terminal
	phase of their condition and the actions to take
	3.5 Explain ways to support frail individuals across their lifespan

Range

1. Understand frailty and the impact of this on individuals

1.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

1

1.4 Factors:

Examples may include, but are not limited to:

- complex needs
- age
- mental health or cognition
- physical or sensory impairment
- behaviour
- disability
- ill-health
- polypharmacy

1.5 Effects:

Examples may include, but are not limited to:

- physical
- psychological
- social
- emotional

3. Know how to support individuals with frailty or long-term conditions

3.2 Sources of support:

Examples may include, but are not limited to:

- community and voluntary groups
- self-help group support
- benefits
- personal health budget
- expert patients
- specialised equipment

3.3 Reversible condition:

Can include:

- infection (chest, urinary tract)
- anaemia
- fluid overload

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

AN 40 Understand the context of supporting individuals with learning disabilities (M/615/7374)

		Unit summary		
disability suppo The unit introd	duces themes of inclu also considers the ce	awareness of how the s who have learning c sion, human rights, a	e attitudes and beliefs disabilities. Idvocacy, empowerm nication in working w	s of others affect
		Assessment		
This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet achieved	Level 3	4 credits	35 GLH

Learning outcomes	Assessment criteria
 Understand how legislation and policies support the human rights and inclusion of individuals with learning disabilities 	 1.1 Summarise legislation and policies that promote the human rights, inclusion, equal life chances and citizenship of individuals with learning disabilities 1.2 Explain how legislation and policies influence the day-to-day experiences of individuals with learning disabilities and their families
2. Understand the nature,	2.1 Explain what is meant by 'learning disability'
causes and	2.2 Describe causes of learning disabilities
characteristics of	2.3 Describe the medical and social models of disability
learning disability	2.4 Evaluate the potential impact on the family of an individual with a learning disability
3. Understand the historical context of learning	3.1 Explain types of services provided for individuals with learning disabilities over time
disability	3.2 Evaluate how past ways of working may affect present services
	3.3 Describe how person-centred practice impacts on the lives of
	individuals with learning disabilities in relation to:
	where the individual lives
	daytime activities
	employment
	 sexual relationships and parenthood
	the provision of healthcare
4. Understand principles and practice of	4.1 Explain the meaning of the term 'social inclusion'
advocacy, empowerment and active participation	4.2 Explain the meaning of the term 'advocacy'
in relation to supporting individuals with learning	4.3 Describe different types of advocacy
disabilities and their families	4.4 Analyse strategies to promote empowerment and active participation

Learning outcomes The learner will:	Assessment criteria The learner can:
5. Understand how views and attitudes impact on	5.1 Explain impacts of views and attitudes of others on individuals with learning disability
the lives of individuals with learning disabilities	5.2 Describe strategies to promote positive attitudes towards individuals with learning disabilities and their family/carers
and their family carers	5.3 Explain the roles of external agencies and others in changing attitudes, policy and practice
6. Understand how to promote communication with individuals with learning disabilities	6.1 Explain how to meet the communicating needs of individuals with learning disabilities
	6.2 Explain why it is important to use language that is both age appropriate and ability appropriate with individuals with learning disabilities
	6.3 Describe ways of checking whether an individual has understood a communication, and how to address any misunderstandings

1. Understand how legislation and policies support the human rights and inclusion of individuals with learning disabilities

1.2 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

4. Understand principles and practice of advocacy, empowerment and active participation in relation to supporting individuals with learning disabilities and their families

4.4 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Relationship to national occupational standards (NOS):

• SFHGEN86

AN 47 Dementia awareness (K/615/7227)

Unit summary				
The aim of the unit is to enable learners to gain knowledge of what dementia is, the different forms of				
dementia and how others can have an impact on the individual with dementia.				
Assessment				
This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet achieved	Level 2	2 credits	7 GLH

Learning outcomes	Assessment criteria		
The learner will:	The learner can:		
1. Understand dementia	1.1 Define the term 'dementia'		
	1.2 Describe key functions of the brain that are affected by dementia		
	1.3 Explain why depression, delirium and age-related memory		
	impairment may be mistaken for dementia		
2. Understand models of	2.1 Outline the medical model of dementia		
dementia	2.2 Outline the social model of dementia		
	2.3 Explain why dementia should be viewed as a disability		
3. Know types of dementia	3.1 List causes of dementia		
and their causes	3.2 Describe signs and symptoms of dementia		
	3.3 Identify causal risk factors for types of dementia		
	3.4 Identify prevalence rates for types of dementia		
4. Understand an	4.1 Describe how individuals may experience living with dementia		
individual's experience	4.2 Outline the impact that the attitudes and behaviours of others may		
of dementia	have on an individual with dementia		

Range

4. Understand an individual's experience of dementia

4.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

4.1 Experience living with dementia:

Depending on age, type of dementia, and level of ability and disability.

4.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

AN 50 Support individuals at the end of life (M/615/7326)

Unit summary				
This unit is aimed at those working in a wide range of settings. It provides the learner with the knowledge and skills required to support end of life care.				
Assessment				
This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet achieved	Level 3	6 credits	50 GLH

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand the aims	1.1 Explain the aims and principles of end of life care
and principles of end of	1.2 Analyse the impact of national and local drivers on current
life care	approaches to end of life care
	1.3 Describe conflicts and legal or ethical issues that may arise in
	relation to death, dying or end of life care
	1.4 Identify the key people and services who may be involved in delivery of end of life care
	1.5 Explain the concept of holistic care at the end of life
	1.6 Describe the triggers that suggest individuals are nearing the end of life
2. Understand factors	2.1 Outline key points of theories about the emotional and psychological
affecting end of life care	processes that individuals and key people may experience with the approach of death
	2.2 Explain how the beliefs, religion and culture of individuals and key
	people influence end of life care
	2.3 Explain why support for an individual's health and wellbeing may not
	always relate to their terminal condition
3. Understand advance	3.1 Describe the benefits to an individual of having as much control as
care planning in relation	possible over their end of life care
to end of life care	3.2 Explain the purpose of advance care planning in relation to end of life care
	3.3 Explain why, with their consent, it is important to pass on information
	about the individual's wishes, needs, and preferences for their end of life care
	3.4 Outline ethical and legal issues that may arise in relation to advance
	care planning outside of own job role
4. Be able to provide	4.1 Support the individual and key people to explore their thoughts and
support to individuals	feelings about death and dying
and key people during	4.2 Provide support for the individual and key people that respects their
end of life care	beliefs, religion and culture
	4.3 Demonstrate ways to help the individual feel respected and valued
	throughout the end of life period
	4.4 Provide information to the individual and/or key people about the
L	individual's illness and the support available

Learning outcomes The learner will:	Assessment criteria The learner can:
	 4.5 Give examples of how an individual's wellbeing can be enhanced by: environmental factors non-medical interventions use of equipment and aids alternative/complementary therapies assistive therapy 4.6 Contribute to partnership working with key people to support the individual's wellbeing
5. Understand the role of organisations and support services	5.1 Explain why support for spiritual needs may be especially important at the end of life
available to individuals and key people in relation to end of life care	5.2 Describe a range of sources of support to address the needs of individuals and key people at the end of life
6. Be able to support	6.1 Carry out own role in an individual's care
individuals through the process of dying	6.2 Contribute to addressing any distress experienced by the individual promptly and in agreed ways
	6.3 Adapt support to reflect the individual's changing needs or responses
7. Be able to take action following the death of individuals	7.1 Explain why it is important to know about an individual's wishes for their after-death care
	7.2 Carry out actions immediately following a death that respect the individual's wishes and follow agreed ways of working
	7.3 Describe ways to support key people immediately following an individual's death
8. Be able to manage own feelings in relation to the	8.1 Identify ways to manage own feelings in relation to an individual's dying or death
dying or death of individuals	8.2 Utilise support systems to deal with own feelings in relation to an individual's dying or death

1. Understand the aims and principles of end of life care

1.4 Key people:

Examples may include, but are not limited to:

- family members
- friends
- others who are important to the wellbeing of the individual

1.6 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand factors affecting end of life care

2.3 Wellbeing:

May include aspects that are:

- social
- emotional
- cultural
- spiritual
- intellectual
- economic
- physical
- mental

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 4, 6, 7 and 8 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

DHS 13 Understand mental health problems (Y/615/7157)

Unit summary
This unit aims to provide the learner with knowledge of the main forms of mental ill health according to
the psychiatric classification system. Learners also consider the strengths and limitations of this model
and look at alternative frameworks for understanding mental distress. The focus of the unit is on
understanding the different ways in which mental ill health may affect the individual and others in their
social network. It also considers the benefits of early intervention in promoting mental health and
wellbeing.
Assessment

	Assessment			
This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet achieved	Level 3	3 credits	16 GLH

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the types of mental ill-health	1.1 Describe the following types of mental ill-health according to the psychiatric (diagnostic and statistical manual of mental disorders (DSM)/international classification of diseases (ICD)) classification system:
	mood disorders
	 personality disorders
	 anxiety disorders
	psychotic disorders
	 substance-related disorders
	eating disorders
	cognitive disorders
	1.2 Explain the key strengths and limitations of the psychiatric classification system
	1.3 Explain alternative frameworks for understanding mental distress
	1.4 Explain indicators of mental ill-health
2. Understand the impact	2.1 Explain how individuals experience discrimination
of mental ill-health on	2.2 Explain the effects mental ill-health may have on an individual
individuals and others in their social network	2.3 Explain the effects mental ill-health may have on those in the
	individual's familial, social or work network
	2.4 Explain how to intervene to promote an individual's mental health and wellbeing

Range

2. Understand the impact of mental ill health on individuals and others in their social network

2.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

23

2.2 Effects:

Assessment criteria 2.2 and 2.3 should cover:

- psychological and emotional impacts
- behaviour
- physical health
- practical and financial impacts
- the impact of using services
- social exclusion
- positive impacts

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development and Skills for Health assessment principles.

Understand the physiological state can be measured	es that 2 2 2 2 2 2 2 2 2 2	 bloc diffe nor con 2 Explain bod nor pyre .3 Explain nor fact 4 Explain nor fac puls the ana .5 Explain weight/e .6 Explain measur .7 Explain 8 Explain 	the principles of bloc of pressure maintena erentiation between s mal limits of blood pre ditions of high or low the principles of bod y temperature maintenant mal body temperature exia, hyperpyrexia an the principles of resp mal respiratory rates ors affecting respirate the principles of pulse and pulse rates limits tors affecting pulse se sites on the body requirement for pulse lysis and implication the principles of bod dietary control the major factors tha ements the importance of un how physiological r d for the individual	ance ystolic and diastolic essure <u>blood pressure</u> y temperature to in enance ad hypothermia biratory rates to incl ory rates in ill and w rates e oximetry measure of pulse oximetry fi y mass index (BMI) it influence changes idertaking physiolog	c blood pressure clude: lude: well individuals ements indings) in relation to s in physiological gical measurements
3. Be able to prepare to take physiological measurements 3.1 Explain to the individual what measurements will be undertaken a why these are done 3.2 Reassure the individual during physiological measurements process 3.3 Explain the help individuals may need before taking their physiological measurements		easurements process			

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	3.4 Explain why it may be necessary to adjust an individual's clothing
	before undertaking physiological measurements
	3.5 Ensure all materials and equipment to be used are appropriately prepared
	3.6 Confirm the individual's identity and obtain valid consent
4. Be able to undertake	4.1 Apply standard precautions for infection prevention and control
physiological measurements	4.2 Apply health and safety measures relevant to the procedure and environment
	4.3 Select and use appropriate equipment at the prescribed time and in the prescribed sequence to obtain an accurate measurement
	4.4 Monitor the condition of the individual throughout the measurement
	4.5 Respond to any significant changes in the individual's condition
	4.6 Follow the agreed process when unable to obtain or read a physiological measurement
	4.7 Identify any issues outside own responsibility and refer these to other colleagues
5. Be able to record and	5.1 Explain the necessity for recording physiological measurements
report results of physiological	5.2 Explain a few common conditions which require recording of physiological measurements
measurements	5.3 Demonstrate the correct process for reporting measurements that fall outside the normal levels
	5.4 Record physiological measurements taken accurately using the correct documentation

2. Understand the physiological states that can be measured

2.4 Factors affecting pulse rates:

Raising or lowering.

2.8 Physiological measurements may need to be adapted:

Depending on the individual's:

- size
- age
- stage of development

2.8 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3. Be able to prepare to take physiological measurements

3.6 Valid consent:

Must be in line with agreed UK country definition.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 3, 4 and 5 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 2A Undertake personal hygiene activities with individuals (K/650/1686)

1. Understand current legislation, national guidelines, policies, procedures and protocols in relation to undertaking personal hygiene activities with individuals

1.1 Policies, procedures:

May include other agreed ways of working as well as formal policies and procedures.

1.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3. Be able to prepare for undertaking personal hygiene activities with individuals

3.4 Valid consent:

Must be in line with agreed UK country definition.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 3, 4 and 5 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 4 Obtain venous blood samples (R/615/7187)

	Unit summary			
This unit is aimed at health and social care professionals involved in the use of venepuncture/phlebotomy techniques and procedures to obtain venous blood samples from individuals for investigations.				
	Assessment			
	This unit is internally assessed via a portfolio of evidence.			
Optional Achieved/not yet Level 3 3 credits 24 GLH				

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand current legislation, national guidelines, policies, procedures and protocols in relation to obtaining venous blood samples	1.1 Summarise current legislation, national guidelines, policies, procedures and protocols in relation to obtaining venous blood samples
2. Understand the	2.1 Describe the structure of venous blood vessels
anatomy and physiology relating to obtaining	2.2 Explain blood-clotting processes and the factors that influence blood clotting
venous blood samples	2.3 Describe the position of venous blood vessels in relation to arteries, nerves and other structures
3. Be able to prepare to	3.1 Confirm the individual's identity and obtain valid consent
obtain venous blood samples	 3.2 Communicate with the individual in a manner which: is appropriate to their communication needs and abilities provides relevant information provides support and reassurance addresses needs and concerns is respectful of personal beliefs and preferences 3.3 Select and prepare appropriate equipment for obtaining the venous blood sample 3.4 Select and prepare an appropriate site, taking into account the
4 De chie te chieire	individual's age, needs and preferences
4. Be able to obtain venous blood samples	4.1 Apply health and safety measures relevant to the procedure and environment
	4.2 Apply standard precautions for infection control
	 4.3 Obtain the venous blood sample, to include: utilisation of blood collection equipment utilisation of containers required volume of blood correct sequence when obtaining multiple samples application and use of tourniquets at appropriate stages stimulation of blood flow or selection of alternative site where necessary utilisation of anticoagulant with sample when necessary
	4.4 Respond to indications of adverse reactions or complications during the procedure

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	4.5 Explain the procedure to manage an arterial puncture
	4.6 Terminate the blood collection procedure to include:
	 removal of blood collection equipment
	stopping blood flow
	stopping bleeding
	 application of suitable dressing
	 personal care advice to the individual
5. Be able to prepare venous blood samples for transportation	5.1 Label, package, transport and store blood samples

3. Be able to prepare to obtain venous blood samples

3.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3.1 Valid consent:

Must be in line with agreed UK country definition.

3.2 Preferences:

May be based on:

- beliefs
- values
- culture

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 3, 4 and 5 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 5A Obtain and test capillary blood samples (L/650/1687)

		Unit summary		
This unit is aimed at workers involved in the collection of capillary blood samples using either manual or automated lancets, and testing of the sample where this is required. Caution must be applied with taking multiple samples from neonates or children under 1 year old, as venepuncture may be the preferred method depending on the type of sample and quantity required.				
	Assessment			
	This unit is internally assessed via a portfolio of evidence.			
Optional Achieved/not yet Level 3 4 credits 30 GLH achieved 30 GLH				
	donieved			

Learning outcomes	Assessment criteria
The learner will:1. Understand how legislation, policy and good practice guidelines relate to obtaining and testing capillary blood samples	 The learner can: 1.1 Describe current legislation, national guidelines, local policies, protocols and good practice guidelines which relate to obtaining and testing capillary blood samples
2. Understand the anatomy, physiology in relation to, and the purpose of, obtaining and testing capillary	 2.1 Describe the structure and purpose of capillary blood vessels 2.2 Explain blood clotting processes and the factors that influence blood clotting 2.3 Describe the different reasons for obtaining capillary blood samples
blood samples3. Be able to prepare to	3.1 Confirm the individual's identity and obtain valid consent
obtain capillary blood samples	 3.2 Select and prepare an appropriate site for obtaining the sample, taking into account the individual's preferences and age 3.3 Provide support and reassurance to address the individual's needs and concerns
	3.4 Communicate accurate information in a way that is sensitive to the individual's personal beliefs and preferences
4. Be able to obtain capillary blood samples	4.1 Apply health and safety measures relevant to the procedure and environment
	 4.2 Apply standard precautions for infection prevention and control 4.3 Obtain blood samples of the required volume and quantity causing minimal discomfort to the individual
	4.4 Use the selected materials, equipment and containers/slides in accordance with agreed procedures
	4.5 Obtain blood samples in the correct sequence when obtaining multiple samples
	4.6 Ensure stimulation of blood flow4.7 Select alternative sites where necessary
	4.8 Carry out the correct procedure for encouraging closure and blood clotting at the site
	4.9 Respond to any indication of an adverse reaction, complication or problem during the procedure
	4.10 Explain the correct process for labelling and other protocols in relation to blood samples

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	4.11 Explain the actions to be taken if complications and problems occur
	during the collection of capillary blood samples, including
	contraindications
5. Be able to test and	5.1 Test the sample using the approved method in line with
record the results of	organisational procedure
blood samples	5.2 Describe normal or expected range of results for particular tests
	5.3 Recognise and interpret normal, expected and abnormal results
	5.4 Ensure that results are passed on to an appropriate staff member for
	interpretation as required
	5.5 Record results fully and accurately and forward according to local
	requirements
6. Be able to pass on the	6.1 Communicate the results of the tests and any further action required
results of blood samples	to the individual
	6.2 Respond to questions and concerns from individuals, providing
	accurate information
	6.3 Refer issues outside own responsibility to an appropriate staff
	member

3. Be able to prepare to obtain capillary blood samples

3.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3.1 Valid consent:

Must be in line with agreed UK country definition.

3.2 Preferences:

May be based on:

- beliefs
- values
- culture

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 3, 4, 5 and 6 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 13 Undertake stoma care (J/615/7302)

	Unit summary			
This unit is aimed at those who provide care to individuals with bowel/bladder stoma. This may be for individuals with new stomas or for individuals with established stomas who are unable to manage their own stoma care. This unit is applicable in a variety of care environments including hospitals, care homes, the individual's own home or other community environments such as GP surgeries.				
	Assessment			
This unit is internally assessed via a portfolio of evidence.				
Optional Achieved/not yet Level 3 4 credits 30 GLH achieved				

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand current legislation, national guidelines, policies, protocols and good	1.1 Summarise the current legislation, national guidelines, policies, protocols and good practice related to undertaking stoma care
practice related to assessment for stoma care	1.2 Explain own responsibilities and accountability in relation to current legislation, national guidelines, organisational policies and protocols which affect work practice when carrying out stoma care
2. Understand the	2.1 Describe the reasons why a stoma may be fashioned
anatomy and physiology in relation to conditions requiring stoma care	2.2 Describe the anatomy in relation to the position, reasons for and function of colostomies, ileostomies, ileal conduits and nephrostomy
requiring storna care	2.3 Describe the potential consequences of contamination of stoma drainage systems
	2.4 Describe the effects of diet and mobility on stoma function
3. Be able to prepare individuals for stoma	3.1 Confirm the individual's identity, gain valid consent and maintain privacy and dignity throughout
care	3.2 Communicate information in a way that is sensitive to the personal beliefs and preferences of the individual
	3.3 Carry out preparatory checks against the individual's care plan
	3.4 Apply standard precautions for infection prevention and control
	3.5 Apply health and safety measures relevant to the procedure and environment
	3.6 Prepare equipment and materials for stoma care as
4. Be able to carry out	prescribed/detailed in the individual's plan of care 4.1 Describe the factors which will affect the level of assistance required
stoma care for	4.1 Describe the factors which will affect the level of assistance required 4.2 Agree the level of support required with the individual
individuals	 4.2 Agree the level of support required with the individual 4.3 Demonstrate techniques to carry out stoma care in line with local policy and protocol
	4.4 Explain the action to take if the prepared stoma care equipment appears to be inappropriate or unsuitable
	4.5 Assist individuals to select and consume food and drink
	4.6 Assist individuals to take any medication prescribed to maintain effective stoma function
	4.7 Give individuals the opportunity to dispose of their own used stoma care equipment
	4.8 Give individuals the opportunity to maintain their personal hygiene

Learning outcomes The learner will:	Assessment criteria The learner can:
	4.9 Provide active support for individuals to manage their own stoma
	4.10 Dispose of equipment and soiled linen in line with local policy and
	protocol
5. Be able to monitor and check individuals	5.1 Monitor the individual's condition throughout the stoma care
	5.2 Check for any adverse effects and potential complications
following stoma care	5.3 Monitor and report on the individual's pattern of stoma function,
	consistency of body waste and any changes that may have occurred
	5.4 Record the outcomes of stoma care activity in line with local policy
	and protocol
	5.5 Report findings to colleagues in line with local policy and protocol

3. Be able to prepare individuals for stoma care

3.1 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

3.1 Valid consent:

Must be in line with agreed UK country definition.

3.2 Preferences:

May be based on:

- beliefs
- values
- culture
- respect wishes in relation to privacy

4. Be able to carry out stoma care for individuals

4.9 Active support:

Encourages individuals to do as much for themselves as possible to maintain their independence and physical ability and encourages people with disabilities to maximise their own potential and independence.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 3, 4 and 5 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 14 Prepare for and carry out extended feeding techniques (L/615/7169)

Unit summary			
This unit is aimed at those working in a wide range of settings. It provides the learner with the knowledge and skills required to prepare for and carry out extended feeding techniques to ensure individuals' nutritional and fluid intake.			
Assessment			
	This unit is internally assessed via a portfolio of evidence.		
Optional Achieved/not yet Level 3 4 credits 27 GLH			

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand legislation and agreed ways of	1.1 Explain legislation, protocols and agreed ways of working that affect working practices related to extended feeding
working when using extended feeding techniques	1.2 Explain the importance of following procedures exactly as specified
2. Understand anatomy and physiology in	2.1 Explain the anatomy and physiology of the gastrointestinal tract in relation to extended feeding
relation to extended feeding	2.2 Explain the importance of fluid and nutritional balance to the health of individuals
	2.3 Describe conditions where feeding may be undertaken by extended methods
3. Understand extended	3.1 Explain techniques for extended feeding
feeding techniques	3.2 Describe equipment and materials that may be used for extended feeding
	3.3 Describe ways to support an individual to prepare for extended
	feeding in a way that meets their individual needs and preferences
	3.4 Describe how to recognise and deal with adverse reactions which may occur:
	during procedures
	following procedures
4. Be able to manage risks	4.1 Identify potential risks associated with extended feeding
relating to extended feeding	4.2 Describe the potential sources and consequences of contamination related to extended feeding
	4.3 Explain why it is important to:
	 maintain the correct level of cleanliness
	 pack up used equipment and materials and cover receptacles containing body fluids prior to leaving the immediate area
	4.4 Apply standard precautions for infection prevention and control and other measures to minimise risks before, during and after the
	procedure
	4.5 Dispose of:
	 used equipment, materials and feeds
	 body fluids including those aspirated prior to feeding in
	accordance with legislation and agreed ways of working

Learning outcomes The learner will:	Assessment criteria The learner can:
5. Be able to prepare for extended feeding	5.1 Ensure that adequate and relevant fluids, feeds and equipment are available
	5.2 Confirm the identity of the individual prior to carrying out the activity
	5.3 Obtain valid consent from the individual prior to carrying out the planned activity
	5.4 Confirm equipment and materials are:
	 appropriate to the procedure
	fit for purpose
	5.5 Position the individual to ensure safety and comfort and to facilitate the method of extended feeding
6. Be able to carry out and complete extended	6.1 Attach and position feeding tubes correctly and securely in a manner that prevents discomfort and promotes the dignity of an individual
feeding techniques	6.2 Carry out extended feeding safely and according to the individual's plan of care
	6.3 Observe the individual throughout the activity and respond to any adverse reactions
	6.4 Ensure the comfort of the individual following extended feeding
7. Be able to maintain	7.1 Complete required records
records and report on extended feeding	7.2 Identify others who may be involved in reviewing the nutritional and fluid intake of an individual
	7.3 Report any findings about the process and the individual which may have an impact on the care plan

5. Be able to prepare for extended feeding

5.2 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

5.3 Valid consent:

Must be in line with agreed UK country definition.

7. Be able to maintain records and report on extended feeding

7.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 4, 5, 6 and 7 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 15 Assist in the administration of medication (Y/615/7174)

	Unit summary			
This unit provides the knowledge, understanding and skills needed to assist with the administration of medication under the direction of a health professional. Training in the administration of medication is an essential pre-requisite for those undertaking this role. This unit is about assisting in the administration of medication to an individual, or as part of a larger process where a 'drug round' may be undertaken. It will always involve working with other staff within this context whose role is to lead the process.				
Assessment				
This unit is internally assessed via a portfolio of evidence.				
Optional				

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Know the current legislation, guidelines and policies relevant to	1.1 Identify the current national legislation and guidelines relevant to the administration of medication
the administration of medication	1.2 Outline the organisational policies for the management and administration of medication
2. Understand own role in assisting in the	2.1 Describe own responsibilities and accountability in relation to assisting with the administration of medication
administration of medication	2.2 Explain the importance of working under the direction of a qualified health professional when assisting with the administration of medication
	2.3 Explain the importance of working within own area of competence and seeking advice when faced with situations outside own area of competence
3. Understand the requirements and	3.1 Explain the purpose and significance of the information which should be provided on the label of a medication
procedures for assisting	3.2 Describe the different routes for the administration of medication
in the administration of medication	3.3 Describe the type, purpose and function of materials and equipment needed for the administration of medication within own area of responsibility
	3.4 Describe the various aids which can be used to help individuals take their medication
	3.5 Explain the importance of applying standard precautions for infection control and the potential consequences of poor practice
	3.6 Explain why medication should only be administered against the individual's medication administration record and in a way which is consistent with the prescriber's advice
4. Understand the requirements and	4.1 Explain the importance of identifying the individual for whom the medications are prescribed
procedures for ensuring an individual's safety	4.2 Explain the importance of confirming the medication against the prescription/protocol with the person leading the administration before administering it

Learning outcomes	Assessment criteria
The learner will:	The learner can:
5. Be able to prepare for	5.1 Obtain or confirm valid consent for the administration of medication
the administration of	5.2 Apply standard precautions for infection control
medication	5.3 Select, check and prepare the medication according to the
	medication administration record or medication information leaflet
	5.4 Explain the importance of referring confusing or incomplete
	instructions back to the person leading the administration or the
	pharmacist
	5.5 Check and confirm the identity of the individual who is to receive the
	medication with the person leading the activity and with the individual
	themselves before the medication is administered
6. Be able to assist in the	6.1 Contribute to administering the medication to the individual using the
administration of	correct technique and at the prescribed time according to the care
medication	plan
	6.2 Assist the individual to be as self-managing as possible
	6.3 Explain the importance of seeking help and advice from a relevant
	member of staff if the individual will not or cannot take the medication
	6.4 Monitor the individual's condition throughout the administration
	process
	6.5 Explain the types of adverse effects that may occur and the action to
	take if they do
	6.6 Check and confirm that the individual has taken the medication and
	does not pass medication to others
7. Be able to contribute to	7.1 Explain the importance of keeping accurate and up-to-date records of
the management of	the administration of medication
medications and	7.2 Contribute to completing the necessary records relating to the
administration records	administration of medications legibly, accurately and completely
	7.3 Maintain the security of medication and related records throughout
	the administration process and return them to the correct place for
	storage
	7.4 Maintain the confidentiality of information relating to the individual at
	all times
	7.5 Check the stock level of medications and take action to obtain new
	stocks when required

3. Understand the requirements and procedures for assisting in the administration of medication

3.4 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

5. Be able to prepare for the administration of medication

5.1 Valid consent:

Must be in line with agreed UK country definition.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 5, 6 and 7 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 16 Undertake tissue viability risk assessments (H/615/7338)

Unit summary				
The aim of this unit is to equip learners with the knowledge and skills required to ensure that individuals maintain skin integrity as far as is practicably possible.				
	Assessment			
	This unit is internally assessed via a portfolio of evidence.			
Optional	Optional Achieved/not yet Level 3 3 credits 16 GLH			

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand the need	1.1 Describe the anatomy and physiology of healthy skin
for tissue viability risk	1.2 Describe the changes that occur when damage caused by pressure
assessment	develops
	1.3 Explain when an initial tissue viability risk assessment may be required
	1.4 Describe what to look for when assessing the condition of the skin
	1.5 Describe pre-disposing factors which may exacerbate risk of
	impaired tissue viability and skin breakdown
	1.6 Describe external factors, including shearing forces, which may
	exacerbate risk of impaired tissue viability and skin breakdown
2. Be able to undertake	2.1 Identify individuals who may be at risk of impaired tissue viability
tissue viability risk	and skin breakdown
assessment	2.2 Apply standard precautions for infection prevention and control
	2.3 Inspect the general condition of an individual's skin
	2.4 Identify the sites where pressure damage might occur using
	appropriate assessment tools
	2.5 Complete a tissue viability risk assessment within an appropriate
	time scale, as determined by organisational policy
	2.6 Use safe handling techniques when assisting the individual to move
	during the assessment
	2.7 Encourage the active participation of the individual and others where applicable
3. Be able to record and	3.1 Complete tissue viability risk assessment documentation
report on tissue viability	3.2 Share findings with appropriate staff and the individual
risk assessment	3.3 Notify appropriate staff of any immediate concerns in line with local policies and guidance
4. Understand when the	4.1 Explain why the tissue viability risk assessment should be regularly
risk assessment should	reviewed and repeated
be reviewed	4.2 Explain when the tissue viability assessment tool, or the current
	review cycle may no longer be appropriate

Range

2. Be able to undertake tissue viability risk assessment

2.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2.7 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient.

2.7 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 2 and 3 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 18 Undertake treatments and dressings of lesions and wounds (L/615/7236)

Unit summary				
This unit develops the learner in carrying out treatments and dressings for the care of individuals' lesions and wounds. A strong emphasis is placed on knowledge of general infection control and the specific application to the care of wounds/lesions. An insight into the process of wound healing is also required.				
Assessment				
This unit is internally assessed via a portfolio of evidence.				
Optional Achieved/not yet Level 3 4 credits 23 GLH achieved 23 GLH				

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand safety measures specific to undertaking treatments	1.1 Summarise the current legislation, national guidelines, policies, protocols and good practice guidelines which inform undertaking treatments and dressings of lesions and wounds
and dressings of lesions and wounds	1.2 Explain the importance of maintaining compliance with health and safety guidance at all times
	1.3 Explain the importance of using aseptic techniques which follow local guidelines and procedures
	1.4 Explain the importance of wearing personal protective equipment (PPE)
	1.5 Explain the importance of working within own sphere of competence in relation to undertaking treatments and dressings of lesions and wounds
2. Understand wound	2.1 Define asepsis, antisepsis and cross-infection
infection and healing	2.2 Describe the aspects of the anatomy and physiology of the skin which inform the application of dressings
	2.3 Explain the process of wound healing and identify factors which promote and delay the process
	2.4 Outline sources and consequences of wound contamination and measures to avoid and deal with these
3. Understand the rationale for carrying out	3.1 Identify the types and functions of equipment, materials and dressings used in own work area
procedures when treating wounds/lesions	3.2 Explain the importance of following procedures outlined in the care plan
4. Be able to prepare to treat and dress lesions	4.1 Identify own responsibilities and accountability with regard to legislation, policies and procedures while caring for lesions/wounds
and wounds	4.2 Confirm the individual's identity and gain valid consent to carry out the procedure
	4.3 Provide information, support and reassurance to address the individual's needs and concerns
	4.4 Confirm all equipment and materials to be used are fit for purpose as outlined in the care plan
	4.5 Maintain the sterility of dressings prior to and during application

Learning outcomes The learner will:	Assessment criteria The learner can:
5. Be able to carry out	5.1 Apply standard precautions for infection control
treatments and dressings to	5.2 Implement health and safety measures relevant to the procedure and environment
lesions/wounds	5.3 Scrutinise the lesion/wound for any change in appearance
	5.4 Explain the importance of referring any changes in the wound/lesion or adverse reactions which are outside own competence to the practitioner
	5.5 Carry out treatments as outlined in the care plan
	5.6 Observe the individual for adverse reactions while carrying out treatment in accordance with the care plan
	5.7 Apply/attach dressings in line with the care plan
	5.8 Deal with hazardous waste
6. Be able to record and	6.1 Record outcomes of the activity in line with national/local policy
report outcomes of the activities	6.2 Report the outcomes of the activity to a member of the care team in line with national/local policy

4. Be able to prepare to treat and dress lesions and wounds

4.2 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

4.2 Valid consent:

Must be in line with agreed UK country definition.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 4, 5 and 6 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 28A Undertake agreed pressure area care (M/650/1688)

Unit summary			
This unit covers providing care to maintain healthy skin and prevent skin breakdown, by undertaking pressure area care in accordance with an individual's care plan and risk assessment.			
Assessment			
This unit is internally assessed via a portfolio of evidence.			
Optional Achieved/not yet Level 2 4 credits 30 GLH			

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the	1.1 Describe the anatomy and physiology of the skin in relation to skin
anatomy and physiology	breakdown and the development of pressure ulcers
of the skin in relation to	1.2 Identify pressure sites of the body
pressure area care	1.3 Identify factors which might put an individual at risk of skin
	breakdown and pressure ulcers
	1.4 Explain why it is important to use risk assessment tools
	1.5 Describe how incorrect handling and moving techniques can damage
	the skin
	1.6 Identify a range of interventions that can reduce the risk of skin
	breakdown and pressure ulcers
	1.7 Describe changes to an individual's skin condition that should be
	reported
2. Understand good	2.1 Identify legislation and national guidelines affecting pressure area
practice in relation to	Care
own role when	2.2 Describe agreed ways of working relating to pressure area care
undertaking pressure area care	2.3 Describe why team working is important in relation to providing
	pressure area care
	2.4 Describe why it is important to follow the agreed care plan
	2.5 Describe actions to take where any concerns with the agreed care
2. Do oblo to follow the	plan are noted
3. Be able to follow the	3.1 Ensure the agreed care plan has been checked prior to undertaking
agreed care plan	the pressure area care
	3.2 Identify any concerns with the agreed care plan prior to undertaking the pressure area care
	3.3 Demonstrate the use of pressure area risk assessment tools in own
	work area
4.Understand the use of	4.1 Identify a range of aids or equipment used to relieve pressure
materials, equipment	4.2 Describe safe use of aids and equipment
and resources available	4.3 Identify where up-to-date information and support can be obtained
when undertaking	about:
pressure area care	materials
	equipment
	resources
5. Be able to prepare to	5.1 Prepare equipment and environment in accordance with health and
undertake pressure	safety guidelines
area care	5.2 Obtain valid consent for the pressure area care
L	

Learning outcomes	Assessment criteria
The learner will:	The learner can:
6. Be able to undertake pressure area care	 6.1 Carry out pressure area care procedure in a way that: respects the individual's dignity and privacy maintains safety ensures the individual's comfort promotes active participation promotes partnership working 6.2 Apply standard precautions for infection prevention and control 6.3 Carry out pressure area care without obstruction from bedding and clothing 6.4 Move an individual using approved techniques and in accordance with the agreed care plan 6.5 Use pressure relieving aids in accordance with the care plan and any safety instructions 6.6 Communicate effectively with the individual throughout the intervention 6.7 Complete all records and documentation accurately and legibly

1. Understand the anatomy and physiology of the skin in relation to pressure area care

1.3 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

5. Be able to prepare to undertake pressure area care

5.2 Valid consent:

Must be in line with agreed UK country definition.

6. Be able to undertake pressure area care

6.1 Active participation:

Is a way of working that recognises an individual's right to participate in the activities and relationships of everyday life as independently as possible; the individual is regarded as an active partner in their own care or support, rather than a passive recipient.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 3, 5 and 6 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

AN 29A Administer medication to individuals and monitor the effects (R/650/1689)

Unit summary				
This unit is for those who prepare for, administer and monitor the effects of medication on individuals. The unit applies to all medication used for and by individuals, both prescribed and non-prescribed.				
Assessment				
This unit is internally assessed via a portfolio of evidence.				
Optional Achieved/not yet Level 3 5 credits 30 GLH				

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand legislation, policy and procedures relevant to administration of medication	 1.1 Identify current legislation, guidelines, policies and protocols relevant to the administration of medication
2. Know about common	2.1 Describe common types of medication including their effects and
types of medication and their use	 2.1 Describe common types of medication including their effects and potential side effects 2.2 Identify medication which demands specific physiological
	measurements
	2.3 Describe the common adverse reactions to medication, how each can be recognised and the appropriate actions required
	2.4 Explain the different routes of medicine administration
3. Understand procedures and techniques for the	3.1 Explain the types, purpose and function of materials and equipment needed for the administration of medication via the different routes
administration of medication	3.2 Identify the required information from prescriptions/medication administration record
	3.3 Explain the actions to be taken if an individual does not consent to prescribed medication
	3.4 Explain ways to ensure appropriate timing of the medication
4. Be able to prepare for	4.1 Apply standard precautions for infection control
the administration of medication	4.2 Confirm the identity of the individual against the medication administration record and medication label
	4.3 Obtain the individual's consent and offer information, support and reassurance throughout as appropriate to the individual's needs and concerns
	4.4 Select, check and prepare correctly the medication according to the medication administration record, and medication information leaflet following any specific instructions
5. Be able to administer and monitor medication	5.1 Select the route for the administration of medication, according to the individual's medication administration record and the medication to be administered and prepare the site if necessary
	 5.2 Administer the medication: in line with legislation and local policies in a way which minimises pain, discomfort and trauma to the individual
	respecting privacy and dignity
	5.3 Report any immediate problems with the administration

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	5.4 Monitor the individual's condition throughout, recognise any adverse effects and take the appropriate action without delay
	5.5 Observe that the medication has been taken as prescribed by the individual
	5.6 Complete the individual's medication administration record
	5.7 Maintain the security of medication and related records throughout the process
	5.8 Return medication and related records to the correct place for storage
	5.9 Dispose of out-of-date and part-used medications in accordance with legal and organisational requirements

4. Be able to prepare for the administration of medication

4.2 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Health assessment principles.

Learning outcomes 4 and 5 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

DHS 11 Causes and spread of infection (L/615/7155)

\Diamond

Unit summary The aim of this unit is to enable the learner to understand the causes of infection and common illnesses that may result as a consequence. To understand the difference between both infection and colonisation and pathogenic and non-pathogenic organisms, the areas of infection and the types caused by different organisms. In addition, the learner will understand the methods of transmission, the conditions needed for organisms to grow, the ways infection enters the body, and key factors that may lead to infection occurring. Assessment

Assessment				
This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet achieved	Level 2	2 credits	20 GLH

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the causes	1.1 Identify the differences between bacteria, viruses, fungi and parasites
of infection	 1.2 Identify common illnesses and infections caused by bacteria, viruses, fungi and parasites
	1.3 Describe what is meant by infection and colonisation
	1.4 Explain what is meant by systemic infection and localised infection
	1.5 Identify poor practices that may lead to the spread of infection
	 Identify how an understanding of poor practices can be applied to own professional practice
2. Understand the	2.1 Explain the conditions needed for the growth of microorganisms
transmission of infection	2.2 Explain the ways an infective agent might enter the body
	2.3 Identify common sources of infection
	2.4 Explain how infective agents can be transmitted to a person
	2.5 Identify the key factors that will make it more likely that infection will
	occur
	2.6 Discuss the role of a national public health body in communicable disease outbreaks

Range

1. Understand the causes of infection

1.5 Poor practices:

Soiled linen and clinical waste should be covered for assessment criteria 1.5 and 1.6.

Delivery and assessment guidance

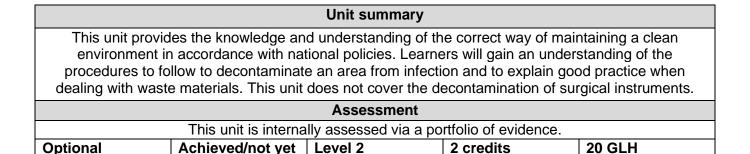

This unit must be assessed in line with the joint Skills for Care and Development and Skills for Health assessment principles.

Relationship to national occupational standards (NOS):

• SFHIPC2

achieved

DHS 12 Cleaning, decontamination and waste management (R/615/7156)

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand how to	1.1 State the general principles for environmental cleaning
maintain a clean	1.2 Explain the purpose of cleaning schedules
environment	1.3 Describe how the correct management of the environment minimises the spread of infection
	1.4 Explain the reason for the national policy for colour coding of cleaning equipment
2. Understand the	2.1 Describe the 3 steps of the decontamination process
principles and steps of	2.2 Describe how and when cleaning agents are used
the decontamination	2.3 Describe how and when disinfecting agents are used
process	2.4 Explain the role of personal protective equipment (PPE) during the decontamination process
	2.5 Explain the concept of risk in dealing with specific types of contamination
	2.6 Explain how the level of risk determines the type of agent that may be used to decontaminate
	2.7 Describe how equipment should be cleaned and stored
3. Understand the	3.1 Identify the different categories of waste and the associated risks
importance of good waste management	3.2 Explain how to dispose of the different types of waste safely and without risk to others
practice	3.3 Explain how waste should be stored prior to collection
	3.4 Identify the legal responsibilities in relation to waste management
	3.5 State how to reduce the risk of sharps injury

Delivery and assessment guidance

This unit must be assessed in line with the joint Skills for Care and Development and Skills for Health assessment principles.

Relationship to national occupational standards (NOS):

Leadership and management skills units

HSC L 1 A Promote innovation, change and positive representation of own organisation (D/650/1385)

Unit summary The aim of this unit is to provide learners with the knowledge, understanding and skills required to promote innovation and change in adult care. Learners will also develop an understanding of how to promote the organisation and service and represent it in a in a positive way.

Assessment					
This unit is internally assessed via a portfolio of evidence.					
Optional	Achieved/not yet achieved	Level 4	3 credits	32 GLH	

Learning outcomes	Assessment criteria		
The learner will:	The learner can:		
1. Understand the culture	1.1 Explain how the purpose, vision and values define an organisation		
of an organisation	1.2 Explain the term 'organisational culture'		
	1.3 Explain how factors influence the culture of an organisation		
	1.4 Describe strategies to promote a positive culture within an		
	organisation		
	1.5 Describe the impact of the culture of an organisation on service		
	provision		
	1.6 Evaluate the practitioner's role in promoting a positive culture within		
	an organisation		
2. Understand theories of	2.1 Describe drivers for innovation and change within an organisation		
change management	2.2 Summarise theories and models of change management		
	2.3 Explain how change management tools and techniques are used		
	to support innovation and change		
3. Understand how to	3.1 Identify prospective stakeholders and networks relevant to own		
promote the	organisation and service		
organisation and service	3.2 Give examples of events and opportunities to promote the		
provided	organisation and services provided		
	3.3 Describe the information that should be given to:		
	 individuals interested in accessing the service 		
	 potential employees 		
	commissioners		
	3.4 Suggest ways to present information to interested parties ensuring it		
	is:		
	accessible to target audience		
	positive		
	engaging		
	3.5 Explain own role in representing a positive image of self and the		
	organisation		
4. Be able to support	4.1 Communicate the vision, values, and objectives associated with		
innovation and change	innovation and change to individuals and others		
	4.2 Act as a positive role model in relation to innovation and change		
	4.3 Apply positive strategies to overcome resistance to change		
	4.4 Represent the organisation within the wider community		

Learning outcomes	Assessment criteria The learner can:
	 4.5 Review progress towards achievement of the vision, values and objectives
	4.6 Record and report concerns and comments

Range		
1. Understand the culture of an organisation		
1.3 Factors:		
Examples may include, but are not limited to:		
internal factors:		
• governance		
 leadership and management styles 		
 staff engagement and morale 		
 organisational values 		
 innovation and change 		
 resistance to change 		
 organisational strategy and direction 		
external factors:		
 policy drivers 		
 external partnerships and collaboration 		
 external drivers for change wider perceptions of the adult social care workforce 		
 wider perceptions of the adult social care workforce common values and standards 		
 media representations of adult social care provision 		
2. Understand theories of change management		
2.2 Theories and models:		
Evenesias mervinskula, hut ere net limited ter		
Examples may include, but are not limited to:		
 transactional leadership (McGregor 1960s, Maslow 1934) 		
 Lewin model of change (1940s) 		
 leadership continuum (Tannenbaum and Schmidt, 1958) 		
 transformational leadership (Bass and Bass, 2008) 		
2.3 Change management tools and techniques:		
Examples may include, but are not limited to:		
 understanding, planning, implementing and communicating change 		
leadership and management styles		
proactive		
quality cycle		
 change management diagnostic tool 		
establish links between outcomes, causes and effects		
review and prioritise		

4. Be able to support innovation and change

4.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

4.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with NCFE's assessment strategy.

Learning outcome 4 must be assessed in a real work environment (RWE).

HSC L 3 Lead learning and development in adult care (F/616/6399)

Unit summary				
The aim of this unit is to provide learners with the knowledge, understanding and skills to lead learning and development in adult care.				
Assessment				
This unit is internally assessed via a portfolio of evidence.				
Optional	Achieved/not yet achieved	Level 4	4 credits	26 GLH

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the	1.1 Summarise regulation, policies and codes of practice in relation to
importance of learning	professional development
and development for safe and effective	1.2 Explain the role of learning and development
practice	1.3 Explain sources of support for learning and development
2. Understand principles of learning and	2.1 Explain approaches to adult learning
development in adult care	2.2 Explain models of reflective practice
3. Be able to plan for	3.1 Contribute to the design of professional development strategies,
learning and	policies and procedures
development	3.2 Conduct a training needs analysis
	3.3 Work with others to create a learning and development plan to
	include:
	statutory training
	mandatory training
	identified workforce development needs
	3.4 Contribute to the selection and contracting of learning and
	development support
4. Be able to implement	4.1 Facilitate learning and development opportunities
learning and	4.2 Support others to engage in learning and development activities
development plans	4.3 Maintain records in relation to learning and development
5. Be able to evaluate	5.1 Contribute to the quality assurance of learning and development
learning and	5.2 Review the outcomes of learning and development
development plans	5.3 Make recommendations for improvements to learning and development

Range

Understand the importance of learning and development for safe and effective practice
 Role:

Examples may include, but are not limited to:

- increased job satisfaction
- improved staff retention
- development of high expectation and improvement culture development
- improved practice
- stress management

- preparing for changing conditions, risk or support needs
- career and succession planning
- performance management
- achieving positive outcomes
- maintenance and update of skills

1.3 Sources of support:

Examples may include, but are not limited to:

- formal professional development
- informal professional development
- feedback from others
- appraisal and supervision
- mentoring and coaching
- sharing of best practice
- peer-to-peer learning

2. Understand principles of learning and development in adult care

2.1 Approaches:

Examples may include, but are not limited to:

- learning styles
- 4 approaches to learning
- motivation to learn
- learning empowerment
- learning curves and plateau
- experiential learning
- situated learning
- cognitive dissonance

2.2 Models:

Examples may include, but are not limited to:

- Honey and Mumford (1986)
- Schon (1983)
- Kolb (1984)
- Gibbs (1988)
- 3. Be able to plan for learning and development

3.3 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3, 4 and 5 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

HSC L 4 Mentoring in adult social care (H/616/6380)

Unit summary						
The aim of thi	The aim of this unit is to provide learners with the knowledge, understanding and skills required for mentoring in adult social care.					
	Assessment					
	This unit is internally assessed via a portfolio of evidence.					
Optional	Optional Achieved/not yet Level 4 4 credits 30 GLH achieved					

Learning outcomes	Assessment criteria The learner can:
1. Understand own role	1.1 Compare models of mentoring
and responsibilities in	1.2 Explain the role of a mentor
relation to mentoring in	1.3 Explain skills and qualities required for a mentoring role
social care	 Analyse how own values, beliefs and attitudes can impact on the mentoring role
	 1.5 Explain the importance of establishing, in a mentoring relationship: ground rules for engagement boundaries
	responsibilities and autonomy of mentee
	1.6 Explain the importance of working to ethical and professional standards
	1.7 Explain when and how to access support in relation to mentoring
2. Understand mentoring in adult care	 2.1 Explain legal and organisational requirements in relation to: data protection confidentiality privacy safeguarding and disclosure
	2.2 Explain benefits of mentoring to the organisation
	2.3 Analyse impacts of mentoring on the learning and development of the mentee
3. Understand techniques	3.1 Compare techniques for mentoring
for establishing a mentoring relationship	3.2 Explain the role of confidentiality in maintaining mentoring relationships
4. Be able to agree goals and outcomes in partnership with the mentee	 4.1 Establish a mentoring agreement to include: ground rules for engagement boundaries responsibilities and autonomy of mentee
	4.2 Agree goals and outcomes with a mentee
	4.3 Agree processes for recording interactions and progress
5. Be able to mentor in adult care	5.1 Plan activities for mentoring based on development goals and outcomes
	5.2 Maintain a working relationship with the mentee
	5.3 Use communication techniques that develop the mentoring relationship
	5.4 Provide constructive feedback to the mentee

Learning outcomes	Assessment criteria
The learner will:	The learner can:
6. Be able to review the progress and	6.1 Review progress with the mentee by encouraging them to clarify their own goals and facilitate achievement
achievements of a mentee in partnership	6.2 Review strategies for motivating mentees
with them	6.3 Agree ongoing mentoring support following review
7. Be able to support	7.1 Reflect on own practice in relation to mentoring to identify areas for
continuous	development
improvement	7.2 Evaluate the impact of mentoring on service provision

1. Understand own role and responsibilities in relation to mentoring in social care

1.1 Models:

Examples may include, but are not limited to:

- apprentice model
- competency model
- reflective model
- 3. Understand techniques for establishing a mentoring relationship

3.1 Techniques:

Examples may include, but are not limited to:

- establish rapport
- identify points of connection
- clear, open discussion
- sharing assumptions, needs, expectations
- discussion regarding previous mentoring relationships
- active listening
- reflecting
- summarising
- communication via a range of methods

6. Be able to review the progress and achievements of a mentee in partnership with them

6.2 Strategies:

- immediate feedback
- use of praise
- regular reporting
- conducive environment
- use of learning models such as:
 - andragogical principles
 - o advance organiser
 - o learning orientation model

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 4, 5, 6 and 7 must be assessed in a real work environment (RWE).

3. Be able to reflect on personal and professional behaviour		 3.1 Describe skills for self-reflection 3.2 Reflect on own personal and professional behaviour in relation to: ability to manage self acting with integrity 3.3 Review areas of personal and professional behaviour for development 3.4 Evaluate the contribution others can make to own learning and development 				
development 4. Be able to role-model personal and professional behaviour 4.1 Model standards through personal and professional behaviour 4.2 Support the development of personal and professional behaviour others 6.2 Support the development of personal and professional behaviour						

Range

1. Understand the values, principles and standards underpinning personal and professional behaviour in adult care

1.1 Standards and codes of practice:

- Skills for Care (SfC) the Care Certificate
- Care Quality Commission (CQC) fundamental standards
- SfC Code of Conduct for Healthcare Support Workers and Adult Social Care Workers in England
- Codes of Conduct for specific, related professions such as Nursing and Midwifery Council (NMC)

Codes of Practice for specific aspects of adult social care, such as Mental Capacity Act 2005 and as amended 2007

1.1 Personal and professional behaviour:

Refers to all aspects of the conduct of adult care practitioners.

2. Understand self-awareness in relation to personal and professional behaviour

2.2 Values:

Examples may include, but are not limited to:

- core values in adult social care
- organisational values
- personal values
- professional values
- openness and transparency
- integrity

3. Be able to reflect on personal and professional behaviour

3.4 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3 and 4 must be assessed in a real work environment (RWE).

HSC L 9 Contribute to quality assurance in adult care (F/616/6385)

Unit summary					
The aim of this unit is to provide learners with the knowledge, understanding and skills required to contribute to quality assurance in adult care.					
	Assessment				
	This unit is internally assessed via a portfolio of evidence.				
Optional Achieved/not yet Level 3 3 credits 25 GLH					

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand quality	1.1 Explain how adult care services are regulated
standards in adult care	1.2 Describe quality standards which apply to adult care services
	1.3 Describe current initiatives designed to improve outcomes for individuals
	1.4 Explain the importance of continuous service improvement
	 Explain the impact on service provision when quality standards are not met
2. Understand factors that	2.1 Explain factors that may impact the quality of service delivery
impact the quality of service delivery	2.2 Explain how the availability of resources may impact the quality of service delivery
	2.3 Explain resource management for safe and effective care
	2.4 Explain how to obtain formal and informal feedback on the quality
	of service delivery
	2.5 Explain how feedback informs quality standards
3. Understand quality	3.1 Explain the cycle of quality assurance
assurance methods and	3.2 Describe how quality standards are monitored:
systems	internally
	 externally 3.3 Explain benchmarking and audit in relation to quality assurance
4. Understand own role and	4.1 Explain accountability in relation to meeting quality standards
responsibilities in meeting	4.2 Explain own role and responsibilities in leading and supporting
quality standards	others to ensure compliance with regulation
	4.3 Explain how to access support in relation to meeting quality standards
5. Be able to contribute to and review the	5.1 Use feedback from others to assess own performance in meeting quality standards
implementation of quality	5.2 Support others to meet quality standards
standards	5.3 Record and report concerns that may compromise quality standards
	5.4 Make recommendations to improve performance in meeting quality standards

1. Understand quality standards in adult care

1.2 Quality standards:

Examples may include, but are not limited to:

- Care Quality Commission (CQC) fundamental standards
- National Institute for Care and Health Excellence (NICE)
- Adult Autism Strategy
- Investors in People
- various quality charter marks and accolades

1.3 Current initiatives:

Examples may include, but are not limited to:

- Dignity in Care
- Adult Autism Strategy
- Skills for Care (SfC) common core principles to support self-care

1.3 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand factors that impact the quality of service delivery

2.1 Factors:

Examples may include, but are not limited to:

- staff ratios and workforce planning
- staff training
- funding and resources issues
- leadership and governance
- staff conduct

2.2 Resources:

Examples may include, but are not limited to:

- human
- financial
- physical resources

2.4 Feedback:

- formal or informal
- performance indicators
- internal or external audit (including inspection reports)

- formal and informal feedback from individuals and their families, the workforce, stakeholders and other professionals
- analysis of complaints
- medication reviews
- safeguarding reviews
- benchmarking against organisational and national standards

5. Be able to contribute to and review the implementation of quality standards

5.1 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care service
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcome 5 must be assessed in a real work environment (RWE).

HSC L 10 Contribute to recruitment and selection in adult care (F/616/6404)

Unit summary					
The aim of this unit is to provide learners with the knowledge, understanding and skills required to contribute to recruitment and selection in adult care.					
	Assessment				
	This unit is internally assessed via a portfolio of evidence.				
Optional Achieved/not yet Level 4 3 credits 25 GLH achieved 25 GLH					

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand legislation, regulation and organisation	1.1 Summarise current legislation, regulation and organisational requirements for recruitment and selection
requirements for recruitment and selection	1.2 Describe the impact of drivers within adult care on recruitment and selection
2. Understand the recruitment and selection processes	2.1 Describe stages of recruitment and selection
3. Be able to contribute to	3.1 Involve individuals in the recruitment process
the recruitment and	3.2 Use agreed methods to assess candidates
selection process in	3.3 Use agreed criteria to select candidates
own setting	3.4 Communicate the outcome of the recruitment and selection process
4. Be able to evaluate the recruitment and	4.1 Contribute to the evaluation and review of recruitment and selection processes
selection processes in own setting	4.2 Recommend improvements to processes and practice in relation to recruitment and selection

Range

1. Understand legislation, regulation and organisation requirements for recruitment and selection

1.2 Drivers:

- values-based
- systems management quality and safety
- capacity planning
- integrated working
- service redesign and new ways of working
- initiatives for recruitment and best practice
- personalisation
- changing demographics
- serious case reviews and enquiries

Range
2. Understand the recruitment and selection processes
2.1 Stages:
Examples may include, but are not limited to:
needs evaluation
 job description and person specification
advertising methodology
 alignment of selection and interview activity against set specifications
 unbiased application and selection processes
 interview techniques and selection tests
selection and notification processes
 involvement of individuals in the recruitment and selection process
role of human resources
3. Be able to contribute to the recruitment and selection process in own setting
3.1 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 3 and 4 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

• SCDLMCA3

HSC L 11 Manage resources in adult care (J/616/6405)

Unit summary					
The aim of this	The aim of this unit is to provide learners with the knowledge, understanding and skills required to				
	mana	ge resources in adult	care.		
	Assessment				
	This unit is internally assessed via a portfolio of evidence.				
Optional Achieved/not yet Level 4 3 credits 20 GLH achieved					

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand resource	1.1 Describe legislative and regulatory requirements in relation to
management in adult	managing:
care	financial resources
	human resources
	physical resources
	1.2 Explain the importance of sustainability in relation to resource
	management
	1.3 Analyse factors which impact planning and prioritising resources
	1.4 Describe methods used to forecast resource requirements
	1.5 Describe how resources are commissioned or procured
	1.6 Explain the relationship between operational planning and resource
	management
2. Be able to contribute to	2.1 Explain own accountability and responsibilities for:
planning and securing	identifying resources
resources	securing resources
	2.2 Consult with others to identify planned activities and resource needs
	2.3 Submit a business case to procure required resources
	2.4 Review and agree required resources with others
3. Be able to monitor and	3.1 Explain own accountability and responsibilities for:
review the quality and	maintaining resources
use of resources in own	reviewing resources
area of responsibility	3.2 Monitor the quality of resources against required specifications
	3.3 Analyse the effectiveness and efficiency of resource use
	3.4 Make recommendations to improve the effectiveness and efficiency
	of resource use

Range

1. Understand resource management in adult care

1.3 Factors:

- cost-effectiveness and value for money
- organisational priorities
- quality of product
- environmental considerations
- business growth

- legislative requirements
- reducing waste
- duplication and fragmentation
- evidence-based practice
- safe and effective care
- · developments in technology and advances in practice and work patterns

1.6 Relationship:

Examples may include, but are not limited to:

- transformation of services and change
- quality of service
- value for money
- customer satisfaction
- financial governance

2. Be able to contribute to planning and securing resources

2.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 2 and 3 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

• SCDLMCE5

HSC L 14 Lead an effective team (R/616/6388)

Unit summary					
The aim of this uni	The aim of this unit is to provide learners with the knowledge, understanding and skills required to lead an effective team.				
		Assessment			
	This unit is internally assessed via a portfolio of evidence.				
Optional Achieved/not yet Level 3 3 credits 25 GLH achieved					

Learning outcomes The learner will:	Assessment criteria The learner can:		
1. Understand team	1.1 Describe the purpose of team working		
working	1.2 Summarise theoretical models of team development		
	1.3 Explain principles of team working		
	1.4 Explain how the values of an organisation impact team working		
	1.5 Explain how team working impacts:		
	individuals		
	team members		
	organisation		
2. Be able to lead a team	2.1 Describe methods to engage and support team members		
effectively	2.2 Work with others to develop team goals and objectives		
	 2.3 Identify roles, responsibilities and professional boundaries of: self 		
	team members		
	2.4 Support team members to complete work activities towards team goals and objectives		
	2.5 Provide and receive constructive feedback		
	2.6 Seek support and advice from others		
3. Be able to review the	3.1 Reflect on own performance in working as part of a team		
effectiveness of team working	3.2 Review team performance in achieving or working towards goals and objectives		
	3.3 Contribute to the development of continuous improvement within the team		

Ra	ange
1.	Understand team working
1.1	1 Purpose:

- development of trust
- accountability
- duty of care
- meeting organisational, team and personal objectives
- safe and effective working practices
- staff support and development

1.3 Principles:

Examples may include, but are not limited to:

- clear and shared objectives
- clearly defined roles, responsibilities and expectations
- trust and accountability
- confidentiality
- effective communication
- conflict resolution
- performance management
- inclusive and consultative
- innovation and creativity
- balance of knowledge, skills and attributes

1.5 Individuals:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Be able to lead a team effectively

2.2 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

Delivery and assessment guidance

This unit must be assessed in line with the Skills for Care and Development assessment principles.

Learning outcomes 2 and 3 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

DAC4D3 Facilitate support planning to ensure positive outcomes for individuals and to support wellbeing (M/616/6415)

Unit summary				
This aim of this unit is to provide learners with knowledge, understanding and skills required to facilitate support planning to ensure positive outcomes for individuals and to support wellbeing.				
Assessment				
This unit is internally assessed via a portfolio of evidence.				
Optional Achieved/not yet Level 4 2 credits 14 GLH				14 GLH

Learning outcomes The learner will:	Assessment criteria The learner can:
1. Understand the theories	1.1 Critically review approaches to outcome-based practice
and principles that underpin outcome-	1.2 Analyse the effect of legislation and policy on outcome-based practice
based practice	1.3 Explain the impact of the Mental Capacity Act 2005 on support planning processes
	1.4 Explain how outcome-based practice can impact on an individual's life
2. Be able to develop a support plan to meet the	2.1 Support the individual to make choices over decisions to meet their identified needs, preferences and wishes
identified needs of an individual	2.2 Assist the individual to make informed choices about their support plan
	2.3 Evaluate risks associated with a support plan
	2.4 Assist the individual to understand the risks associated with the choices they make in their support plan
	2.5 Work in partnership with the individual and others to identify options, resources and preferences in relation to an assessment
	2.6 Record a plan according to organisational systems and processes to support information sharing
3. Understand the value of assistive living	3.1 Analyse everyday situations where assistive living technology solutions can be supportive to an individual and others
technology in developing a support plan	3.2 Analyse the potential value of assistive living technology for an individual in terms of its benefits, risks and challenges
4. Be able to facilitate the implementation of	4.1 Agree how a support plan will be carried out with an individual and others
support plans in partnership with the	4.2 Agree the roles and responsibilities of those involved to implement the support plan
individual and others	4.3 Ensure implementation of a support plan
5. Be able to facilitate a person-centred review	5.1 Agree the monitoring process for a support plan, taking into account time, people, budget and compliance with regulators' standards
of support plans in partnership with the individual and others	5.2 Use systems, procedures and practices that engage an individual and others in the review process according to agreed ways of working
	5.3 Review a support plan to include feedback from an individual and others and assess risks
	5.4 Record review processes and outcomes according to organisational systems and procedures to support information sharing

1. Understand the theories and principles that underpin outcome-based practice

1.4 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Be able to develop a support plan to meet the identified needs of an individual

2.5 Others:

Examples may include, but are not limited to:

- team members
- other colleagues
- those who use or commission their own health or social care services
- families, carers and advocates

2.5 Assessment:

Involves collecting and analysing information about people with the aim of understanding their situation and determining recommendations for any further professional intervention.

3. Understand the value of assistive living technology in developing a support plan

3.1 Assistive living technology:

- electronic:
 - o sensor mats or pads
 - o pendants/telecare
 - echo box
 - reminding tool
 - o keypad entries
 - keys with lights
 - apps for budgeting/direction
 - o finding/instructions
 - o talking books
- physical:
 - kettle tippers
 - o jar openers
 - o special cutlery/utensils
 - o key safe box
 - o sticks to pull socks up

5. Be able to facilitate a person-centred review of support plans in partnership with the individual and others

5.1 Standards:

Standards may include:

- codes of practice
- regulations
- minimum standards
- national occupational standards (NOS)

5.2 Agreed ways of working:

Will include policies and procedures where these exist; they may be less formally documented with micro-employers.

Delivery and assessment guidance

This unit must be assessed in line with Skills for Care and Development assessment principles.

Learning outcomes 2, 4 and 5 must be assessed in a real work environment (RWE).

AC 3 Adult social care regulation, inspection and quality improvement (A/650/1384)

Unit summary				
This unit will enable the learner to understand the regulatory and inspection process and the importance of quality improvements in adult social care services.				
	Assessment			
	This unit is internally assessed via a portfolio of evidence.			
Optional	Achieved/not yet achieved	Level 3	4 credits	35 GLH

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand current	1.1 Explain why there is a requirement for a regulatory body in adult
adult social care	social care
regulatory body	1.2 Explain the role of the national regulatory body for adult care
	1.3 Describe the different types of inspections carried out by the
	regulatory body for adult social care
	1.4 Summarise the inspection framework for adult social care
2. Understand quality	2.1 Summarise adult social care industry standards
improvements in adult social care	2.2 Explain how standards can support quality improvement in adult social care
	2.3 Describe factors that can support quality improvement in adult social
	care
	2.4 Describe barriers to supporting quality improvement in adult social
	care
	2.5 Explain the importance of co-production in supporting quality
	improvements
3. Understand quality	3.1 Describe the purpose of an internal quality audit in adult social care
audits in adult social	3.2 Explain what a quality improvement cycle involves in an adult social
care	care service
	3.3 Explain how co-production can support effective quality audits in
	adult social care
	3.4 Compare different approaches to audits within quality improvement
4. Understand how to	4.1 Describe what happens in an inspection in an adult social care
prepare for a regulatory	service
body inspection	4.2 Describe the role of the inspection team when preparing for an inspection
	4.3 Describe the role of own organisation when preparing for an
	inspection
	4.4 Describe the role of relevant organisations within the planning
	inspection process
5. Be able to plan an	5.1 Identify an area suitable for a small-scale audit in own service
internal audit in an adult	5.2 Plan a small-scale audit on a particular aspect of own setting
social care setting	5.3 Implement the small-scale plan in own setting
	5.4 Demonstrate the learning from the small-scale audit
	5.5 Make recommendations based on results of the audit
	5.6 Plan the next steps

2. Understand quality improvements in adult social care

2.1 Adult social care standards:

Examples may include, but are not limited to:

- Care Quality Commission (CQC) fundamental standards
- Health and Care Professions Council (HCPC)/The Nursing and Midwifery Council (NMC)
- The Care Act 2014: Care and support statutory guidance 2021
- National Institute for Health and Care Excellence (NICE): evidence-based guidance and quality standard for social care providers and commissioners
- Social Care Institute for Excellence (SCIE)
- Skills for Care (SfC) the Care Certificate
- Advocacy Code of Practice

2.3 Factors:

Examples may include, but are not limited to:

- clear direction and priorities
- understanding of professional standards
- suitable skilled staff
- robust and effective leadership
- accountability
- person-centred and co-production practice
- effective data management systems (DMS)
- strong multiagency working
- clear and effective policies and procedures
- evidence-based practice
- a learning culture

2.4 Barriers:

- high turnover/staff vacancies
- weak or poor leadership
- lack of direction and knowledge of the sector/service
- blame culture/defensive practice
- lack of skilled workforce
- service led provision
- poor multiagency working
- lack of training and development opportunities
- lack of investment

Ra	nge
	Understand quality audits in adult social care
3.4	Different approaches:
_	
Ex	amples may include, but are not limited to:
•	regular monitoring and improvement processes such as supervision, surveys for service users and peer reviews
•	episodic activities such as a review of a complaint or incident
•	regular and planned audits across levels of a service
4.	Understand how to prepare for a regulatory body inspection
	Relevant organisations:
Ex	amples may include, but are not limited to:
•	local Healthwatch
•	partner charities: Carers UK, Disability Rights UK, Mind, Patients Association, the Relatives &
	Residents Association
•	NHS Friends and Family Test
•	patient survey data
•	local government data
5.	Be able to plan an internal audit in an adult social care setting
5.2	Particular aspect
Ex	amples may include, but are not limited to:
•	policies and procedures
•	care planning
•	health and safety
•	infection control
•	environment
•	fire safety
•	food hygiene
•	incidents and accidents
•	falls
•	comments and complaints
•	staff training medication
-	

Delivery and assessment guidance

This unit must be assessed in line with NCFE's assessment strategy.

Learning outcome 5 must be assessed in a real work environment (RWE).

Learning outcomes	Assessment criteria
The learner will:	The learner can:
5. Understand how to	5.1 Give examples from own practice of managing conflict within
manage conflict during	supervision
supervision in adult care	5.2 Explain the responsibilities involved with managing conflict situations
settings	during supervision:
	supervisor
	supervisee

1. Understand the principles, scope and purpose of supervision in an adult care setting

1.2 Theories and models:

Examples may include, but are not limited to:

- theories of learning
- motivation
- leadership styles
- conflict resolution

1.4 Individual:

A person accessing care and support. The individual, or individuals, will normally refer to the person or people that the learner is providing care and support for.

2. Understand how supervision can be used to develop and support team members and benefit others within adult care settings

2.2 Forms of supervision:

Examples may include, but are not limited to:

- formal
- informal
- professional
- supervision of staff during induction, work-shadowing or during development of specific skills
- individual
- group

2.3 Others:

- other colleagues
- service users
- individuals
- families and carers

2.4 Factors:

Examples may include, but are not limited to:

- lack of knowledge and understanding of the purpose and role of supervision
- lack of knowledge of role and responsibilities of both parties
- lack of communication skills
- lack of conflict management and resolution
- lack of formality of supervision
- location and frequency
- lack of planning and preparation

Delivery and assessment guidance

This unit must be assessed in line with NCFE's assessment strategy.

Learning outcomes 3 and 4 must be assessed in a real work environment (RWE).

Relationship to national occupational standards (NOS):

- INSML029
- INSML028
- INSML002

Recommended assessment methods

A recommended range of assessment methods has been identified, which may be used for the units in this qualification. This gives the opportunity for the individual needs of learners to be taken into account.

If you are proposing to use an assessment method that is not included within the recommended list, you should contact your external quality assurer with full details of your proposed method. It will need formal approval from NCFE before it can be used.

Each learner must generate evidence from appropriate assessment tasks that demonstrate achievement of all the learning outcomes associated with each unit (grades are not awarded).

Please refer to the notes relating to expert witness testimony and simulation that follow this table.

Ref	Assessment method	Assessing competence/ skills	Assessing knowledge/ understanding
А	Direct observation of learner by assessor:	Yes	Yes
	 by an assessor who meets the relevant Sector Skills Council's or other assessment strategy/principles and includes inference of knowledge from this direct observation of practice 		
В	Professional discussion	Yes	Yes
С	Expert witness testimony*:	Yes	Yes
	 when directed by the Sector Skills Council or other assessment strategy/principles 		
D	Learner's own work products	Yes	Yes
Е	Learner log or reflective diary	Yes	Yes
F	Activity plan or planned activity	Yes	Yes
G	Observation of children, young people or adults by the learner	Yes	Yes
н	Portfolio of evidence:	Yes	Yes
	 may include simulation** 		
I	Recognition of prior learning	Yes	Yes
J	Reflection on own practice in real work environment	Yes	Yes

Ref	Assessment method	Assessing competence/ skills	Assessing knowledge/ understanding
К	Written and pictorial information	No	Yes
L	Scenario or case study	No	Yes
М	Task set by NCFE (for knowledge learning outcomes)	No	Yes
Ν	Oral questions and answers	Yes	Yes

* **Expert witness testimony** should be used in line with the relevant assessment strategy/principles. This method must be used with professional discretion, and only selected when observation would not be appropriate. Those providing an expert witness testimony must be lead practitioners with experience of making judgements around competence. The circumstances that may allow for an expert witness testimony include:

- when assessment may cause distress to an individual, such as supporting a child with a specific need
- a rarely occurring situation, such as dealing with an accident or illness
- confidential situations, such as safeguarding strategy meetings, where it would be inappropriate for an assessor to observe the learner's performance

** **Simulation**. A learner's portfolio of evidence may only include simulation of skills where simulation is permitted by the relevant assessment strategy/principles.

Assessment strategies and principles relevant to this qualification

The key requirements of the assessment strategies or principles that relate to units in this qualification are summarised below.

The centre must ensure that individuals undertaking assessor or quality assurer roles within the centre conform to the assessment requirements for the unit they are assessing or quality assuring.

This qualification has been developed to meet the NCFE assessment strategy and where relevant for particular units Skills for Care and Development assessment principles.

Skills for Care and Development assessment principles

Knowledge LOs:

- assessors will need to be both occupationally knowledgeable and qualified to make assessment decisions
- internal quality assurers will need to be both occupationally knowledgeable and qualified to make quality assurance decisions

Competence/skills LOs:

- assessors will need to be both occupationally competent and qualified to make assessment decisions
- internal quality assurers will need to be both occupationally knowledgeable and qualified to make quality assurance decisions

NCFE assessment strategy

Knowledge learning outcomes:

- assessors will need to be both occupationally knowledgeable and qualified to make assessment decisions
- internal quality assurers will need to be both occupationally knowledgeable and qualified to make quality assurance decisions

Competence/Skills learning outcomes:

- assessors will need to be both occupationally competent and qualified to make assessment decisions
- internal quality assurers will need to be both occupationally knowledgeable and qualified to make quality assurance decisions

NCFE assessment principles for adult care, childcare and health qualifications

1. Introduction

1.1 These principles and approaches to unit/qualification assessments should be read alongside individual unit assessment requirements, where appropriate.

1.2 These principles will ensure a consistent approach to those elements of assessment which require further interpretation and definition, and support sector confidence.

1.3 The centre needs to ensure that individuals undertaking assessor or quality assurer roles within the centre conform to the Sector Skills Council and/or NCFE assessment principles for the unit they are assessing or quality assuring.

Assessing knowledge, skills and competence

Learners will need to meet all of the assessment criteria for knowledge, skills and competence included in the qualification using appropriate assessment methods.

Practical skills competence

The centre with whom the learners are registered will be responsible for making all assessment decisions. Assessors must be *contracted* to work directly with the centre, contributing to all aspects of standardisation. The centre must ensure a process of training is followed, including during induction and quality assurance activities. Occupationally competent and qualified assessors from the centre must use direct observation to assess practical skills-based outcomes. Further information and guidance can be found below:

2. Assessment principles

2.1 Assessment decisions for competence/skills-based learning outcomes must relate to experience gained in a real work environment.

2.2 Assessment decisions for competence/skills-based learning outcomes must be made by an occupationally competent assessor, qualified to make assessment decisions.

2.3 Competence/skills-based assessment must include direct observation as the main source of evidence.

2.4 Simulation may only be utilised as an assessment method for competence-based learning outcomes where this is specified in the assessment requirements.

2.5 Given the nature of work with children, young people, service users and their families (if applicable), which may from time to time include sensitive situations requiring confidentiality/privacy, there may be a need to make use of an expert witness testimony (EWT) as a source of performance evidence in the workplace.

Expert witnesses can be drawn from experienced individuals who can attest to the learner's performance in the workplace. This may include line managers or other experienced colleagues from inside an organisation or from other agencies. This may prove particularly important for those learners who work unsupervised, but who have contact with a range of different professionals in the course of their work activities.

Expert witnesses must only be used for observation where they have occupational expertise of specialist areas or the observation is of a particularly sensitive nature. It is not necessary for expert witnesses to hold an assessor qualification, as a qualified assessor must assess the testimony provided by an expert witness when making summative assessment decisions. See also 4.5.

The centre should enable expert witnesses to provide and present their evidence in an efficient way which does not compromise validity and reliability. This could include the following:

- the use of voice and audio recordings
- through remote discussions where the main assessor could scribe the expert witness contributions (for example via Microsoft Teams or Zoom)
- over the telephone where the assessor could scribe the testimony

Additionally, centres must adapt their internal quality assurance strategies to ensure that assessor judgements based on EWT are prioritised for standardisation and sampling activities.

The use of professional discussion and reflective accounts can be used to support other forms of evidence but are not direct evidence sources which can replace the observation requirement.

2.6 Assessment of knowledge-based learning outcomes may take place in or outside of a real work environment.

2.7 Assessment decisions for knowledge-based learning outcomes must be made by an occupationally knowledgeable member of staff, qualified to make assessment decisions. The centre with whom the learners are registered will be responsible for making all assessment decisions. Occupationally competent and qualified assessors from the centre must use direct observation to assess practical skills-based outcomes.

Remote technology

2.8 The use of remote technology is prohibited within early years, school, childcare, health and adult care settings where there is a potential risk of users of the service, or their carers/families being inadvertently seen or heard. This includes the use of all recording and streaming devices such as mobile phones, laptops and tablets. Please note that technology must not be used to view assessments remotely, even when not recording. For example, assessors cannot complete remote observations to prove competency by viewing learners 'live' using remote technology.

The use of remote technologies could be considered to support aspects of the learner's performance. For example, this may include planning sessions, online meetings and remote activities in which the learner is contributing, and where the assessor could also attend remotely or observe through use of technology. In these examples, the learner MUST be in an environment away from any children, young people, service users and their families. The use of technologies could also be considered for capturing EWTs.

3. Internal quality assurance

3.1 Internal quality assurance is key to ensuring that the assessment of evidence for units is of a consistent and appropriate quality. Those carrying out internal quality assurance must be occupationally knowledgeable in the area they are assuring and be qualified to make quality assurance decisions.

Knowledge learning outcomes:

- assessors will need to be both occupationally knowledgeable and qualified to make assessment decisions
- internal quality assurers will need to be both occupationally knowledgeable and qualified to make quality assurance decisions

Competence/Skills learning outcomes:

- assessors will need to be both occupationally competent and qualified to make assessment decisions
- internal quality assurers will need to be both occupationally knowledgeable and qualified to make quality assurance decisions

4. Definitions

4.1 Occupationally competent:

This means that each assessor must be capable of carrying out the full requirements within the competency units they are assessing. Being occupationally competent means they are also occupationally knowledgeable. This occupational competence should be maintained through clearly demonstrable continuing learning and professional development.

4.2 Occupationally knowledgeable:

This means that each assessor should possess relevant knowledge and understanding, and be able to assess this in units designed to test specific knowledge and understanding, or in units where knowledge and understanding are components of competency. This occupational knowledge should be maintained through clearly demonstrable continuing learning and professional development.

4.3 Qualified to make assessment decisions:

This means that each assessor must hold a qualification suitable to support the making of appropriate and consistent assessment decisions. Awarding organisations will determine what will qualify those making assessment decisions according to the unit of competence under assessment.

Assessors of these qualifications should be appropriately qualified to make assessment decisions. Although it isn't a specific requirement of these qualifications, we consider it to be good practice for assessors to hold, or be working towards, a recognised qualification in assessment. Where a recognised qualification is not held, assessors should be able to demonstrate relevant and current experience of assessment.

In order to assess knowledge-based units, the assessor should be occupationally knowledgeable. They should have relevant knowledge to assess units designed to test the knowledge and understanding of learners. This knowledge should be demonstrable through relevant qualifications/experience, and at an equivalent or higher level than the units under assessment.

In order to assess competence-based units, the assessor should be occupationally competent. They should be able to carry out the requirements of the units they're assessing. This competence should be demonstrable through relevant qualifications/experience, and at an equivalent or higher level than the units under assessment. The following are examples of qualifications/roles that tutors/teachers/assessors may hold to be able to make decisions involving the assessment of learners:

- an assessor qualification such as D32/D33, A1/A2 or a Level 3 Award/Certificate in Assessing Vocationally Related Achievement
- Qualified Teacher Status/Early Years Professional Status
- Certificate in Education in Post Compulsory Education (PCE)
- Certificate in Teaching in the Lifelong Learning Sector (CTLLS, DTLLS)

Any examples given are not intended to be exhaustive or definitive. Examples of relevant qualifications and occupational backgrounds are given as benchmarks. Other equivalent qualifications or backgrounds may also qualify prospective staff for assessment roles. Centres seeking further clarification should contact their external quality assurer in the first instance.

4.4 Qualified to make quality assurance decisions:

NCFE will determine what qualifications and/or experience is required in relation to the:

- role of the assessor for knowledge-based assessment criteria
- role of the assessor for skills/competence-based assessment criteria
- role of the internal quality assurer

4.5 Expert witness:

Evidence from expert witnesses must meet the tests of validity, reliability and authenticity. Expert witnesses will need to demonstrate:

- they have a working knowledge of the units on which their expertise is based
- they are occupationally competent in their area of expertise
- they have **either** any qualification in assessment of workplace performance **or** a professional work role which involves evaluating the everyday practice of staff
- they have current or recent (within the last 2 years) experience of working at or above the level for which they are attesting competence

- they can demonstrate appropriate, continuing professional development relevant to the sector for which they are attesting competence
- that they have no conflict of interest in the outcome of the evidence

Section 3: explanation of terms

This table explains how the terms used at level 2 in the unit content are applied to this qualification (not all verbs are used in this qualification).

Apply	Link existing knowledge to new or different situations.
Assess	Consider information in order to make decisions.
Classify	Organise according to specific criteria.
Compare	Examine the subjects in detail looking at similarities and differences.
Define	State the meaning of a word or phrase.
Demonstrate	Show an understanding of the subject or how to apply skills in a practical situation.
Describe	Write about the subject giving detailed information.
Differentiate	Give the differences between 2 or more things.
Discuss	Write an account giving more than one view or opinion.
Distinguish	Show or recognise the difference between items/ideas/information.
Estimate	Give an approximate decision or opinion using previous knowledge.
Explain	Provide details about the subject with reasons showing how or why. Some responses could include examples.
Give (positive and negative points)	Provide information showing the advantages and disadvantages of the subject.
Identify	List or name the main points.
Illustrate	Give clear information using written examples, pictures or diagrams.
List	Make a list of key words, sentences or comments that focus on the subject.
Perform	Do something (take an action/follow an instruction) which the question or task asks or requires.
Plan	Think about and organise information in a logical way. This could be presented as written information, a diagram, an illustration, or other suitable format.
Provide	Give relevant information about a subject.
Reflect	Learners should look back on their actions, experiences or learning and think about how this could inform their future practice.

Select	Choose for a specific purpose.
Show	Supply sufficient evidence to demonstrate knowledge and understanding.
State	Give the main points clearly in sentences.
Use	Take or apply an item, resource, or piece of information as asked in the question or task.

This table explains how the terms used at level 3 in the unit content are applied to this qualification (not all verbs are used in this qualification).

Apply	Explain how existing knowledge can be linked to new or different situations in practice.						
Analyse	Break the subject down into separate parts and examine each part. Show how the main ideas are related and why they are important. Reference to current research or theory may support the analysis.						
Clarify	Explain the information in a clear, concise way.						
Classify	Organise according to specific criteria.						
Collate	Collect and present information arranged in sequential or logical order.						
Compare	Examine the subjects in detail and consider the similarities and differences.						
Critically compare	This is a development of compare where the learner considers the positive aspects and limitations of the subject.						
Consider	Think carefully and write about a problem, action, or decision.						
Demonstrate	Show an understanding by describing, explaining, or illustrating using examples.						
Describe	Write about the subject giving detailed information in a logical way.						
Develop (a plan/idea which…)	Expand a plan or idea by adding more detail and/or depth of information.						
Diagnose	Identify the cause based on valid evidence.						
Differentiate	Identify the differences between two or more things.						
Discuss	Write a detailed account giving a range of views or opinions.						
Distinguish	Explain the difference between 2 or more items, resources, pieces of information.						
Draw conclusions (which)	Make a final decision or judgement based on reasons.						
Estimate	Form an approximate opinion or judgment using previous knowledge or considering other information.						
Evaluate	Examine strengths and weaknesses, arguments for and against and/or similarities and differences. Judge the evidence from the different perspectives and make a valid conclusion or reasoned judgement. Reference to current research or theory may support the evaluation.						

r why.
le the
format.

This table explains how the terms used at level 4 in the unit content are applied to this qualification (not all verbs are used in this qualification).

Analyse	Break the subject or complex situations into separate parts and examine each part in detail. Identify the main issues and show how the main ideas are related to practice and why they are important. Reference to current research or theory may support the analysis.				
Critically analyse	This is a development of 'analyse' which explores limitations as well as positive aspects of the main ideas in order to form a reasoned opinion.				
Clarify	Explain the information in a clear, concise way showing depth of understanding.				
Classify	Organise accurately according to specific criteria.				
Collate	Collect and present information arranged in sequence or logical order which is suitable for purpose.				
Compare	Examine the subjects in detail, consider and contrast similarities and differences.				
Critically compare	This is a development of 'compare' where the learner considers and contrasts the positive aspects and limitations of the subject.				
Consider	Think carefully and write about a problem, action or decision showing how views and opinions have been developed.				
Demonstrate	Show an in-depth understanding by describing, explaining, or illustrating using examples.				
Describe	Provide a broad range of detailed information about the subject or item in a logical way.				
Discuss	Write a detailed account which includes contrasting perspectives.				
Draw conclusions (which)	Make a final decision or judgement based on reasons.				
Evaluate	Examine strengths and weaknesses, arguments for and against and/or similarities and differences. Judge the evidence from the different perspectives and make a valid conclusion or reasoned judgement. Apply current research or theories to support the evaluation.				
Critically evaluate	This is a development of 'evaluate' where the learner debates the validity of claims from the opposing views and produces a convincing argument to support the conclusion or judgement.				
Explain	Apply reasoning to account for how something is or to show understanding of underpinning concepts. Responses could include examples to support these reasons.				

Identify	Apply an in-depth knowledge to give the main points accurately.
Justify	Give a detailed explanation of the reasons for actions or decisions.
Reflect	Learners should consider their actions, experiences or learning and the implications of these in order to suggest significant developments for practice and professional development.
Review and revise	Look back over the subject and make corrections or changes based on additional knowledge or experience.
Summarise	Give the main ideas or facts in a concise way to develop key issues.

Section 4: support

Support materials

The following support materials are available to assist with the delivery of this qualification and are available on the NCFE website:

- learner's evidence tracking log (LETL)
- qualification factsheet
- learning resources

Useful websites

Centres may find the following websites helpful for information, materials and resources to assist with the delivery of this qualification:

- <u>www.england.nhs.uk</u>
- www.gov.uk/government/organisations/office-for-health-improvement-and-disparities
- www.gov.uk/government/organisations/uk-health-security-agency
- <u>www.instituteforapprenticeships.org/</u>
- www.skillsforcare.org.uk/Home.aspx
- <u>www.skillsforhealth.org.uk/</u>

These links are provided as sources of potentially useful information for delivery/learning of this subject area. NCFE do not explicitly endorse any learning resources available on these websites. For official NCFE endorsed learning resources, please see the additional and teaching materials sections on the qualification page on the NCFE website.

Other support materials

The resources and materials used in the delivery of this qualification must be age-appropriate and due consideration should be given to the wellbeing and safeguarding of learners in line with your institute's safeguarding policy when developing or selecting delivery materials.

Products to support the delivery of this qualification are offered by the following suppliers:

Learning Curve Group

For more information about these resources and how to access them, please visit the NCFE website.

Reproduction of this document

Reproduction by approved centres is permissible for internal use under the following conditions:

- you may copy and paste any material from this document; however, we do not accept any liability for any incomplete or inaccurate copying and subsequent use of this information
- the use of PDF versions of our support materials on the NCFE website will ensure that correct and up-to-date information is provided to learners
- any photographs in this publication are either our exclusive property or used under licence from a third-party:
 - they are protected under copyright law and cannot be reproduced, copied or manipulated in any form
 - this includes the use of any image or part of an image in individual or group projects and assessment materials

Appendix A

Units

Knowledge only units are indicated by a star. If a unit is not marked with a star, it is a skills unit or contains a mix of knowledge and skills.

Mandatory units

	Unit number	Regulated unit number	Unit title	Level	Credit	GLH	Notes
	AC M1	A/650/1366	Promote communication in care settings	3	3	25	
	AC M2	D/650/1367	Handling information in adult care	3	2	16	
	AC M3	F/650/1368	Promote own continuous personal and professional development	3	3	26	
	AC M4	H/650/1369	Person-centred practice, choice and independence	3	6	39	
3	AC M4B	L/650/1370	Understand how to promote personal wellbeing	3	3	25	
	AC M5	M/650/1371	Promote equality, diversity, inclusion and human rights in care settings	3	2	20	
	AC M6	R/650/1372	Promote health and safety in care settings	3	6	45	
	AC M6B	T/650/1373	Support the health and wellbeing of individuals in a care setting	3	3	25	

	Unit number	Regulated unit number	Unit title	Level	Credit	GLH	Notes
	AC M7	Y/650/1374	Scope and responsibilities of an adult care worker	2	2	20	
\Diamond	AC M8	A/650/1375	Understand duty of care	3	2	20	
$\mathbf{\hat{x}}$	AC M9	D/650/1376	Understand how to safeguard individuals	2	3	28	
ជ	AC M10	F/650/1377	Understand mental capacity and restrictive practices	3	2	20	
	AC M11	H/650/1378	Infection prevention and control in a care setting	3	2	20	

Optional units

Aspects of support units

	Unit number	Regulated unit number	Unit title	Level	Credit	GLH	Notes
	HSC AS 2	Y/616/6327	Co-ordinate activity provision in adult social care	3	4	25	
$\mathbf{\hat{x}}$	HSC AS 3	D/616/6328	Principles of advocacy	3	4	25	
	HSC AS 5	J/616/6310	Co-ordinate the use of assistive living technology	4	4	31	
	HSC AS 8	H/616/6329	Promote continence management	3	4	30	
☆	HSC AS 9	Y/616/6330	Understand how to support individuals to access and engage in education, training and employment (ETE)	3	3	25

Apprenticeship standards mapping

The tables below show mapping of the mandatory units from the Level 3 Diploma in Adult Care qualification to the Lead Adult Care Worker apprenticeship standard (where applicable):

AC M8 Understand du AC M9 Understand ho	Responsibilities AC M7 Scope and responsibilities of an adult care worker (Y/650/1374) AC M8 Understand duty of care (A/650/1375) AC M9 Understand how to safeguard individuals (D/650/1376) AC M10 Understand mental capacity and restrictive practices (F/650/1377)				
Apprenticeship standard	 Knowledge: A. The job they have to do, their main tasks and responsibilities D. How to support individuals to remain safe from harm (safeguarding) E. How to champion health and wellbeing for the individuals they support and work colleagues F. How to work professionally, including their own professional development of those they support and work colleagues Skills: A. The main tasks and responsibilities according to their job role D. Support individuals to remain safe from harm (safeguarding) E. Champion health and wellbeing for the individuals they support F. Work professionally and seek to develop their own professional development 				

	Communication AC M1 Promote communication in care settings (A/650/1366) AC M2 Handling information in adult care (D/650/1367)		
Apprenticeship standard	Knowledge:		
standard	C. The importance of communication		
	Skills:		
	C. Communicate clearly and responsibly		

AC M4 Person-centre AC M5 Promote equa	Values and behaviours AC M4 Person-centred practice, choice and independence (H/650/1369) AC M5 Promote equality, diversity, inclusion and human rights in care settings (M/650/1371) AC M6B Support the health and wellbeing of individuals in a care setting (T/650/1373)				
Apprenticeship standard	 Knowledge: A. The job they have to do, their main tasks and responsibilities B. The importance of having the right values and behaviours E. How to champion health and wellbeing for the individuals they support and work colleagues Skills: A. The main tasks and responsibilities according to their job role B. Treat people with respect and dignity and honour their human rights E. Champion health and wellbeing for the individuals they support 				

	Health and Safety AC M6 Promote health and safety in care settings (R/650/1372) AC M11 Infection prevention and control in a care setting (H/650/1378)			
Apprenticeship standard	 Knowledge: A. The job they have to do, their main tasks and responsibilities D. How to support individuals to remain safe from harm (safeguarding) E. How to champion health and wellbeing for the individuals they support and work colleagues Skills: A. The main tasks and responsibilities according to their job role D. Support individuals to remain safe from harm (safeguarding) E. Champion health and wellbeing for the individuals they support 			

AC M3 Promote own	Personal development AC M3 Promote own continuous personal and professional development (F/650/1368) AC M4B Understand how to promote personal wellbeing (L/650/1370)				
Apprenticeship standard	Knowledge:A. The job they have to do, their main tasks and responsibilitiesF. How to work professionally, including their own professional development of those they support and work colleaguesSkills:				
	 A. The main tasks and responsibilities according to their job role F. Work professionally and seek to develop their own professional development 				

Appendix C

Digital skills

Building care workers' confidence in using digital skills

Learners can be supported to self-assess their digital skills and level of digital literacy during initial assessment. Opportunities for this can be found in everyday living (for example, when using personal devices, connecting to Wi-Fi, online shopping, banking and submitting applications online). There are transferrable skills from use of digital social media (for example, setting up profiles, online security and awareness of their digital footprint).

The development of learners' digital skills can be monitored throughout the learning programme as a regular component of progress reviews. During completion of this qualification, learners using online learning platforms and submitting evidence via an online or electronic portfolio will have the advantage of developing skills to navigate the portfolio with the support of an assessor.

Learners can also draw on their use of digital technology within their employment (for example, submitting time sheets, email correspondence and contributing to professional social media platforms). Through this, they should gain awareness of relevant legislative and regulatory requirements as well as professional standards and expectations.

Enabling and encouraging care workers to embrace digital skills

Throughout the programme, learners can be encouraged to access online resources and internal communication via intranet learning platforms as well as through the internet for wider research. Using an online portfolio will provide opportunity for learners to contact their assessor and complete assessment planning remotely and present, upload and submit evidence digitally.

Centres can enable care workers to embrace digital skills when setting assessments for learners by incorporating use of digital technology. Learners who have limited digital skills or without access to suitable devices must not be disadvantaged and, where possible, arrangements made for access to the necessary equipment and/or support.

Using technology to support and monitor people accessing care and support

Opportunities to embed digital skills should be generated through the learner's practice wherever it is relevant and contextualised according to their role and setting. Learners may demonstrate use of digital skills in their practice through skills-based assessment and during assessor observations, in which case this should be highlighted in assessment planning and details included in the observation commentary.

Learners may be using a range of remote, mobile and assistive technologies, software and applications to provide different aspects of care. Use of technology-enabled care can provide learners with the opportunity to develop and demonstrate skills during their usual working activities.

Examples may include learners supporting individuals with technology to access and attend remote consultations, use of Telecare, or various apps (NHS, health apps or for diabetes), sharing data or information with health professionals for the purpose of monitoring or consultation. Assistive technologies may be used with devices or sensors (for example, to monitor movement for falls prevention). The use of technology in monitoring health and wellbeing may include undertaking a range of physiological measurements and may be relevant in some settings.

Learners may also be involved with facilitating individuals with communication through the use of alternative and augmentative communication (AAC), some of which may incorporate advanced computer technology. In addition, the learner's role in supporting individuals to maintain social contacts using technology requires use of digital skills and has grown in recent years.

In addition to developing these skills for themselves, some learners may be required, as part of their role, to support individuals to develop their digital skills to enable them with self-care and to engage with technology that can enhance their daily lives.

Digital care planning and record keeping

Learners may be able to demonstrate use of digital care applications or software which replace paperbased records such as care and support plans. This may include accessing care plans regularly and entering information if this is a part of their usual practice. They should be aware of the importance of and how online records are maintained as authentic, user-tracked, time-stamped and locked on submission.

Learners should demonstrate their role in maintaining the principles of confidentiality and security of the records including sharing personal information digitally and the use of password protection.

They may also be required to use a range of staff management systems including accessing rotas and online payslips, and submitting time sheets.

Using different digital platforms and systems

A range of different digital platforms and systems are available for use as learners, adult care workers and in their personal life as consumers. Learners can draw on transferrable skills they have developed whilst using some of these (for example, cyber security).

Learners should be encouraged to engage fully with any online learning and electronic portfolio systems and should be provided with a comprehensive induction to cover navigation and functionality with continued support to access resources, upload evidence, contact assessors, and use any forums or other features.

Learning online/remotely

Setting tasks which require use of digital skills such as using infographics to present written evidence or to use online survey tools and internet research can help motivate learners to develop skills. These tasks should be differentiated to the individual level of skills for each learner.

Interactive features on online learning platforms within the centre can be beneficial for learners (for example, daily updates or activities that encourage access and participating in online forums within a safe environment).

Communication with assessors and tutors can be enhanced through use of digital applications for remote meetings and discussions as well as through messaging applications and email.

When using online portfolio systems, learners may experience additional benefits (for example, using antiplagiarism software when uploading evidence).
