Section 1: introduction

A T Level¹ is a composite technical study programme, aimed at preparing young people for work, higher-level apprenticeships or higher education (HE). It comprises four key components:

- an approved technical qualification (TQ), which includes the opportunity to specialise in at least one occupational role
- a substantial industry placement with an external employer (further information regarding the required number of hours can be found in section 2 of this TQ Specification)
- employability, enrichment, and pastoral (EEP) elements
- in some cases, it may also include mandatory additional requirements (MAR), such as important licence to practise qualifications

The T Level Technical Qualification in Education and Early Years forms part of the T Level in Education and Early Years. The outline content has been produced by T Level panels based on the same standards as those used for apprenticeships. The outline content formed the basis of this qualification and has been further developed by NCFE.

The qualification has two components:

- core component
- occupational specialism (OS) components:
 - Early Years Educator
 - $\circ~$ Assisting Teaching

The core component provides a high-level foundation of knowledge and skills that are relevant to all occupational specialisms (OSs). The core component is not biased towards any particular OS component. This is to ensure fairness for all students, and to support learning in their chosen OS component. Some of the core topics and ideas are then broken down and contextualised in more detail in the OSs, allowing the student to apply the knowledge and skills in their own specific specialism.

Each OS component covers the knowledge, understanding, skills and behaviours required to achieve threshold competence in a chosen OS. Threshold competence refers to the level of competence deemed by employers as sufficient to secure employment in roles relevant to an OS. Achievement of threshold competence signals that a student is well placed to develop full occupational competence, with further support and development, once in work.

English, mathematics and digital (EMD) skills have also been embedded throughout the TQ and must be taught when highlighted in the content.

T Level students (aged 17 or over) on long-term placements (minimum of 750 hours) may be included in the ratios at the level below their level of study if the setting manager and provider are satisfied that they are competent and responsible, as per the early years foundation stage (EYFS) statutory framework.

¹ T Level is a registered trade mark of the Institute for Apprenticeships and Technical Education.

Placement providers must refer to the welfare requirements in the EYFS when deciding if those T Level students over 17 may be left unsupervised. Decisions on the allocation of students to count in ratio, in accordance with the EYFS stipulation, must be agreed by both the setting manager and the provider in line with safeguarding requirements.

Students who have successfully achieved this programme, with the Early Years Educator OS, may be counted in the EYFS staff:child ratios at level 3.

About this Technical Qualification (TQ) Specification

To ensure that you are using the most up-to-date version of this TQ Specification, please check the version number and date in the page footer against that of the TQ Specification on the NCFE website.

If you advertise this qualification using a different or shortened name, you must ensure that students are aware that their results will state the full regulated qualification title.

Reproduction by **approved** providers is permissible for internal use under the following conditions:

- you may copy and paste any material from this document; however, we do not accept any liability for any incomplete or inaccurate copying and subsequent use of this information
- the use of PDF versions of our support materials on the NCFE website will ensure that correct and up-to-date information is provided to students
- any photographs in this publication are either our exclusive property or used under licence from a third party. They are protected under copyright law and cannot be reproduced, copied or manipulated in any form. This includes the use of any image or part of an image in individual or group projects and assessment materials. All images have a signed model release
- the resources and materials used in the delivery of this qualification must be age-appropriate and due consideration should be given to the wellbeing and safeguarding of students in line with your safeguarding policy when developing or selecting delivery materials

Specification updates and amends

All content held within this specification is correct at the time of publication and will be subject to assessment within the respective academic session. An updated version of the specification will be published annually, ensuring that the knowledge and skills held within it reflect current subject practice and provide students with the relevant threshold competence to progress into industry.

Where essential updates are required based on significant changes within the sector, updates to the specification may be made during an academic session. Providers will be made aware of the publication of any new versions of the specification and the nature of the changes via the T Level monthly updates.

It is the responsibility of delivery staff to ensure that content being delivered to students is reflective of the sector and the most recently published version of the specification.

Section 2: summaries

Technical qualification (TQ) summary

Qualification title

T Level Technical Qualification in Education and Early Years.

Qualification number (QN)

603/5829/4

Aim reference

60358294

Qualification level

Level 3

Guided learning hours (GLH) and total qualification time (TQT)

The guided learning hours (GLH) are separated into the following sections:

- delivery
- assessment

The core content hours include the delivery of knowledge and skills for the core as a whole. This reflects the approach taken for the occupational specialism (OS), where the hours are presented for the whole component rather than splitting delivery time between knowledge and skills. This flexibility enables providers to deliver the qualification content in a manageable way and meet the needs of their students.

The GLH shown below only include time for the technical qualification (TQ) element of the T Level programme; they do not include time allocated for the additional components of the T Level programme.

Additional placement hours for Early Years Educator

In addition to the GLH for the TQ, there is a requirement for the Early Years Educator OS to have additional hours on placement; this is on top of the T Level programme requirements for industrial placement. These additional hours are essential to enable the student to meet the requirements of the industry and gain sufficient occupational experience to be a competent employee in the early years sector. The Early Years Educator OS requires that students meet all of the full and relevant criteria in order to count in the staff:child ratios in an early years setting, at the appropriate level. In this case, students must demonstrate full competence rather than threshold competence and the additional hours are to support this.

	GLH for delivery	GLH for assessment	Total GLH	ΤQΤ	Additional placement hours	T Level industry placement requirement (outside of the remit of the TQ)
Core component	344	Written exam: 4 hours Employer set project (ESP): 12 hours	360 hours	396	0	N/A
OS component: 520 Early Years Educator 520 Total: 25 hours 45 minutes – 29 hours 45 minutes Consisting of: • Assignment 1: 4 hours • Assignment 2: 18 – 22 hours • Assignment 3: 3 hours 45 minutes		545 hours and 45 minutes – 549 hours and 45 minutes	600	435	Minimum of 315 hours (45 days)	
Assisting Teaching Minutes 30 minutes 30 minutes Consistin • Assi hour • Assi 10 h • Assi		hours 30 minutes	554 hours 30 minutes – 556 hours 30 minutes	610	0	Minimum of 315 hours (45 days)

Minimum placement hours for the T Level programme

Occupational specialism	ccupational specialism Minimum number of placement hours for the T Level programme	
Early Years Educator	750 hours	
Assisting Teaching	315 hours	

The GLH shown above only include time for the TQ element of the T Level programme; they do not include time allocated for the additional components of the T Level programme.

GLH will vary across the TQ, due to the different requirements of each OS.

Minimum age

T Level technical qualification students must be a minimum of 16 years of age.

Qualification purpose

The purpose of the T Level Technical Qualification in Education and Early Years is to ensure students have the knowledge and skills needed to progress into skilled employment or higher-level technical training relevant to the T Level.

Objectives

The objectives of this qualification are to equip students with:

- the core knowledge and core skills relevant to education and early years
- up-to-date occupational knowledge and skills that have continued currency amongst employers and others
- the necessary English, mathematics and digital (EMD) skills
- threshold competence that meets employer expectations and is as close to full occupational competence as possible
- opportunities to manage and improve their own performance

Industry placement experience

Industry placements are intended to provide students with the opportunity to develop the knowledge, skills and behaviours required for skilled employment in their chosen occupation and which are less easily attainable by completing a qualification alone.

Early Years Educator

As part of achieving the overall T Level programme, any student undertaking the Early Years Educator OS is required to complete a minimum of 750 hours industry placement.

The industry placement is used to assess students' Early Years Educator competencies. GLH are included in the industry placement to allow for this.

Assisting Teaching

As part of achieving the overall T Level programme, any student undertaking the Assisting Teaching OS is required to complete a minimum of 315 hours industry placement.

It is the provider's responsibility to ensure the minimum number of hours is undertaken by the student.

There may be specific requirements for providers and employers to consider prior to the student commencing a work placement. Please see the industry placement guidance from the Institute for Apprenticeships and Technical Education.

There are specific requirements for providers and employers relating to the insurance of students in the workplace. Further information about insurance can be found at <u>www.abi.org.uk</u> or <u>www.hse.gov.uk</u>.

Rules of combination

Students are required to complete:

- the core component
- one OS component

Students must not complete more than one OS component.

Approved providers can select which OS component to deliver to their students.

Grading

Component	Grade	
Core component	A* to E and U	
OS components	distinction/merit/pass and ungraded	

Assessment method

Core component

- paper A written examination
- paper B written examination
- employer set project (ESP)

In order to achieve a grade for the core component, students must have results for both sub-components (the core (written) examination and the ESP).

The combined results from these sub-components will be aggregated to form the overall core component grade $(A^*-E \text{ and } U)$.

If students fail to reach the minimum standard across all sub-components, they will receive a U grade. No overall grade will be issued for the core component until both sub-components have been attempted.

Occupational specialism (OS) component

• synoptic assignments

The student is also required to successfully achieve a distinction/merit/pass grade in one of the OS components. If the student fails to reach the specified level of attainment, they will receive a U grade.

Progression including job roles (where applicable)

Students who achieve this qualification could progress to the following, depending on their chosen OS:

- employment:
 - o early years educator
 - o education technician
 - o primary/secondary/tertiary teaching and support assistant
 - o learning mentor
 - o student engagement officer
- higher education (HE)
- apprenticeship (progression onto lower-level apprenticeships may also be possible in some circumstances, if the content is sufficiently different)

UCAS

The T Level study programme is eligible for UCAS points. Please check the UCAS website for more information.

Regulation information

This is a regulated qualification.

Funding

This qualification is eligible for funding. For further guidance on funding, please contact the Education and Skills Funding Agency (ESFA).

English, mathematics and digital (EMD) content

English, mathematics and digital (EMD) content are embedded and contextualised within the Education and Early Years qualification content. This content must be taught to all students and will be subject to assessment.

Entry guidance

This qualification is designed for post-16 students.

There are no specific prior skills/knowledge a student must have for this qualification. However, students would be expected to have a level 2 qualification or equivalent.

Providers are responsible for ensuring that this qualification is appropriate for the age and ability of students. Providers must make sure that students can fulfil the requirements of the core and chosen OS and comply with the relevant literacy, numeracy, digital and health and safety aspects of this qualification.

Students registered on this qualification should not undertake another qualification at the same level with the same or a similar title, as duplication of learning may affect funding eligibility.

T Level Transition Programme (TLTP)

The T Level Transition Programme (TLTP) is a new one-year, 16 to 19, level 2 study programme, which provides a high-quality route on to T Levels. It is designed for those students with T Level aspirations, who would benefit from the additional study time, preparation and support the programme provides, to help them progress on to a T Level.

There is a TLTP for each T Level Technical Education route, rather than individual T Levels or occupational specialisms (OSs), to provide a broad introduction to the industry-relevant knowledge, practical, transferable and employability skills and behaviours, relevant to a student's chosen T Level subject area. The programme consists of interrelated components including English, maths and digital; technical knowledge and skills; experience of the workplace; and wider support and personal development. Together, these components complement and reinforce learning and development.

The National Technical Outcomes have been developed for each route, to set out the minimum students are expected to cover in the technical component of the programme. The National Technical Outcomes have been developed with close reference to T Level outline content and the T Level Technical Qualification specifications so that they provide a stepping stone to T Level, appropriate to level 2.

The TLTP is being introduced alongside T Levels. More information on the TLTP can be found on the government's website: www.gov.uk

Registering students on T Levels

We expect students to make a decision about their T Level pathway within the first few weeks of their course, supported by good information, advice and guidance from their provider. For example, a student might know that they want to do an Education and Early Years T Level, but not be clear at the outset whether that should be Early Years Educator or Assisting Teaching. If a provider is offering both of the available pathways, there may be some co-delivery or other activity in the first few weeks that provides students with the opportunity to find out about different occupations, for example through employer visits. A student's chosen T Level pathway and OS should be recorded on the Individual Learner Record (ILR) or School Census in October of year 1.

To ensure there is sufficient time to cover the curriculum, decisions about OSs should be confirmed by the end of the first year, although this could be much earlier depending on a provider's curriculum model. For example, some providers start teaching the OS early on in first year and require students to make a decision about this at the start of their course, whereas other providers may only start teaching OSs in the second year. In order to ensure that providers receive the right level of funding, a student's OS must be confirmed in the final data return of year 1 (ILR R14/Autumn Census), although changes after this date are possible.

Providers will also need to ensure that they register their students on the TQ with the awarding organisation and enter them for assessments as relevant.

Transferring between T Levels and occupational specialisms (OSs)

We expect some students to switch between T Levels. Providers should consider the degree of overlap between the two T Levels and the remaining time before any assessments in determining if a transfer is possible – or whether a student will need to restart their T Level. Attainment from one T Level cannot count towards another, and all students will need to take and pass the relevant assessments in order to pass their T Level.

Some students may want to switch to a different OS within the same T Level pathway, including in the second year. It is less likely that there will be any overlap between OSs, so any decision will depend on the provider's curriculum model and the stage a student has reached in their OS learning. Any changes to a student's T Level, whether pathway or OS, should be recorded on the ILR/Census as soon as possible and should also match the registration and assessment entries submitted to the relevant awarding organisation. Students wishing to transfer from Assisting Teaching to Early Years Educator must note the 750 placement hours. This makes it less likely for students to transfer in their second year from Assisting Teaching to Early Years Educator.

Achieving this qualification

To achieve this qualification, the student must successfully demonstrate their achievement of the core component and the OS component.

In order to achieve a grade for the core component, the student must attempt both the external examination and ESP sub-components. The results from these will be aggregated to form the overall core component grade (A* to E and U). If students do not attempt one of the sub-components, an overall component grade will be withheld pending the attempt of both. If students fail to reach the minimum standard across sub-components after attempting both, they will receive a U grade for the component.

The student is required to successfully achieve a distinction/merit/pass grade in the OS component. If the student fails to reach the specified level of attainment, they will receive a U grade for the component.

Retakes

Core component retakes

There is the opportunity for students to retake the core assessments in order to improve their marks. This includes:

- two written examinations
- ESP

The core component's written examination is made up of two papers. If the student wants to retake the written examination assessment, they must retake both papers, in the same series.

Students can retake the core components in different series, meaning they could sit the ESP in one series and the core examinations (both examination papers to be taken in the same series) in the next. There is no limit to the number of retakes a student can complete. However, any retake must be completed within 2 years after the completion of the student's T Level programme.

When determining each student's overall achievement for the core component, the highest achievement in each core assessment (written examination and ESP) is used.

Occupational specialism (OS) component retakes

Although retakes are permitted for the OS, it is unlikely that students will be able to fit a retake opportunity into the delivery timetable.

If a retake opportunity is scheduled, the student must retake all synoptic assignments for the chosen OS. There will be one opportunity per year to sit the OS, meaning a retake of the OS would be sat in the next academic year of study.

There is no limit to the number of retakes a student can complete. However, any retake must be completed within 2 years after the completion of the student's T Level programme.

Technical qualification (TQ) components

Component	Level	Content	
		 Wider context Supporting education Safeguarding, health and safety and wellbeing 	
Core component	3	 Behaviour Parents, families and carers Working with others Child development Observation and assessment Reflective practice Equality and diversity Special educational needs and disability English as an additional language 	

Students are required to complete one OS option.

Component	Level	Content
OS – Early Years		1. Support and promote children's play, development and early education
Educator		2. Develop relationships with children to facilitate their development
	3	3. Plan, provide and review care, play and educational opportunities to enable children to progress
		4. Safeguard and promote the health, safety and wellbeing of children
		 Work in partnership with colleagues, parents, carers and other professionals to support children's development
OS – Assisting Teaching		1. Support the class teacher to enhance children's education, individually and in groups
		2. Plan, provide and review educational opportunities in collaboration with teachers and other adults
	3	3. Safeguard and promote the health, safety and wellbeing of children and young people
		 Recognise, adapt and respond to individual children's needs, including those with special educational needs and disability (SEND), to support development and access to the curriculum

Employer involvement

The outline content for this qualification was devised by T Level panels. The panels consisted of employers and industry stakeholders.

We have worked in partnership with employers and other stakeholders to elaborate the content further, create the assessments and set the standards to ensure students achieve the level of competence needed to enter skilled employment.

Progression to higher-level studies

This qualification aims to provide students with a number of progression options, including higher-level studies at university or further education (FE) colleges. The skills required to progress to higher academic studies are different from those required at levels 1 and 2. Level 3 qualifications enable the development of these skills. Although there is no single definition of higher-level learning skills, they include:

- checking and testing information
- supporting points with evidence
- self-directed study
- self-motivation
- thinking for yourself
- · analysing and synthesising information/materials
- critical thinking and problem solving
- working collaboratively
- · reflecting upon learning and identifying improvements
- presenting information in written and verbal formats

Level 3 criteria can require students to analyse, draw conclusions, interpret or justify, which are all examples of higher-level skills and support progression and further learning. For further information, please refer to the Progression to Higher Education section of the NCFE website.

How the qualification is assessed

Assessment is the process of measuring a student's skill, knowledge and understanding against the standards set in a qualification.

The core component is 100% externally assessed. External assessments are set and marked by NCFE. The external examinations and ESP will assess students' core knowledge, core understanding and core skills relevant to the occupations within the Education and Early Years TQ.

The OS components are also externally assessed through synoptic assignments, except for the observation element, which is internally marked by providers and externally moderated by NCFE. These synoptic assignments will assess the knowledge, understanding, skills and behaviours required to achieve threshold competence in the student's chosen OS.

Providers must not give any feedback to the student about their performance in any of the externally assessed components or observation elements.

The assessment consists of:

- core component:
 - o paper A written examination
 - o paper B written examination
 - ESP (versions specific to each OS)
- OS component:
 - synoptic assignments (specific to each OS)

Quality of written communication (QWC)

Quality of written communication (QWC) is assessed within targeted marks for the core examinations and is embedded throughout the assessment objectives (AOs) within the ESP. No specific marks are available within the OS; however, a good command of communication and written work is anticipated for success at this level.

Application of mathematics, significant figures and decimal places

Throughout the core examinations for all pathways, students will be assessed on their understanding and application of mathematics. Some questions may require answers to be given to a number of significant figures or a given number of decimal places.

A paper may contain marks that are dependent on students giving final answers to a specified number of significant figures or decimal places. A significant figure mark may not be awarded for an answer given in surd form. In questions where the command word is calculate and the final answer is required in either format, the question should be calculated to at least one additional significant figure or decimal place before giving the final answer as requested in the question.

In all cases where an answer is required to a number of significant figures or decimal places, this will be specified in the question.

Rationale for synoptic assessment

Synoptic assessment tests students' understanding of the connections between the topics covered across the performance outcomes (POs) within the chosen OS.

Synoptic assessment enables students to integrate and apply knowledge, understanding and skills with breadth and depth. It also requires them to demonstrate their capability to apply knowledge, understanding and skills across the chosen OS.

Scheme of assessment for each component

Each component in the core is worth the following weighting:

	% weighting of the core component
Paper A	35
Paper B	35
Sub-total	70
ESP	30
Total	100%

External examinations (core)

Overview of assessment

Paper A

Written examination

Duration: 2 hours

96 marks (plus 6 marks for QWC) = 102 marks total

This paper covers 50% of the core knowledge and core understanding.

This paper is composed of four sections, which may consist of multiple-choice, short-answer and extended writing questions:

- Section A: 27 marks
- Section B: 27 marks
- Section C: 24 marks
- Section D: 24 marks

Paper B

Written examination

Duration: 2 hours

96 marks (plus 6 marks for QWC) = 102 marks total

This paper covers 50% of the core knowledge and core understanding.

This paper is composed of four sections, which may consist of multiple-choice, short-answer and extended writing questions:

- Section A: 27 marks
- Section B: 27 marks
- Section C: 24 marks
- Section D: 24 marks

Content subject to assessment

Paper A – Elements 1 to 6:

- Element 1: Wider context
- Element 2: Supporting education
- Element 3: Safeguarding, health and safety and wellbeing
- Element 4: Behaviour
- Element 5: Parents, families and carers
- Element 6: Working with others

Paper B – Elements 7 to 12:

- Element 7: Child development
- Element 8: Observation and assessment
- Element 9: Reflective practice
- Element 10: Equality and diversity
- Element 11: Special educational needs and disability (SEND)
- Element 12: English as an additional language

Assessment objectives (AOs) and weightings

The external (core) examinations will assess how students have achieved the following AOs:

Assessment objectives (AOs)				
A01	Demonstrate knowledge and understanding of contexts, concepts, theories and principles in education and early years	24.5–29.4%		
AO2	Apply knowledge and understanding of contexts, concepts, theories and principles in education and early years to different situations and contexts	32.4-37.3%		
AO3	Analyse and evaluate information and issues related to contexts, concepts, theories and principles in education and early years to make informed judgements, draw conclusions and address needs	27.4–32.4%		

*Both paper A and paper B allocate 6 marks to the QWC. These marks are bolted on and do not impact on the AO weightings.

Total marks

Paper	Assessment length	% weighting of the core component	Maximum raw mark	Maximum uniform mark scale (UMS)
Paper A	2 hours	50%	102	140
Paper B	2 hours	50%	102	140

AO	Paper A	Paper B	Total
AO1	25 – 30 marks	25 – 30 marks	50 – 60 marks
	(12.3% – 14.7%)	(12.3% – 14.7%)	(24.5% – 29.4%)
AO2	33 – 38 marks	33 – 38 marks	66–76 marks
	(16.2% – 18.6%)	(16.2%–18.6%)	(32.4%–37.3%)
AO3	28–33 marks	28–33 marks	56–66 marks
	(13.7%–16.2%)	(13.7%–16.2%)	(27.4%–32.4%)
QWC	6 marks	6 marks	12 marks
	(2.9%)	(2.9%)	(5.8%)
Total	102 marks	102 marks	204 marks
	(50%)	(50%)	(100%)

The tables above show how each core examination will target the AOs in this qualification. Each version of the core examination will adhere to these mark and percentage weightings.

Additional marks allocated for QWC are not included in the overall AO weightings.

Assessment availability

There will be two assessment opportunities per year in summer (May/June) and autumn (November/December). Please refer to the Key Dates Schedule on the NCFE website for further information.

Assessment conditions

The core external examinations must be invigilated.

All students' scripts must be submitted to NCFE for marking. All assessment material must be securely stored by the approved provider. On-screen assessments will be submitted through the online assessment platform.

Please refer to the Regulations for the Conduct of External Assessment for further information on the assessment conditions. Please refer to the NCFE website for an up-to-date copy of the regulations.

Employer set project (ESP) (core component)

Overview of assessment

Externally set (in conjunction with employers) project.

The purpose of the employer set project (ESP) is to ensure that students have the opportunity to apply core knowledge and skills to develop a substantial piece of work in response to an employer set brief. The brief and tasks are contextualised around an occupational area and chosen by the student ahead of the assessment window.

Duration

12 hours

Core skills

In completing the ESP, the student will demonstrate the following four core skills, supported by underpinning knowledge and understanding set out in the core content:

Core skill 1	Communicate information clearly to engage children and young people, for example to stimulate discussion and to secure understanding
Core skill 2	Work with others to plan and provide activities to meet children and young people's needs
Core skill 3	Use formative and summative assessment to monitor children and students' progress to plan and shape educational opportunities
Core skill 4	How to assess and manage risks to your own and others' safety when planning activities

The knowledge requirements will be taken from the core knowledge relevant to the brief; the briefs will change for each assessment window.

Subject content to be assessed

Content subject to assessment - Elements 1 to 12:

- Element 1: Wider context
- Element 2: Supporting education
- Element 3: Safeguarding, health and safety and wellbeing
- Element 4: Behaviour
- Element 5: Parents, families and carers
- Element 6: Working with others
- Element 7: Child development

- Element 8: Observation and assessment
- Element 9: Reflective practice
- Element 10: Equality and diversity
- Element 11: Special educational needs and disability (SEND)
- Element 12: English as an additional language

Core knowledge and core skills relevant to the brief will be covered in the ESP; this will change for each assessment window.

Assessment objectives (AOs)

Assessment objectives (AOs)		
AO1	Plan their approach to meeting the project brief	10%
AO2	Apply core knowledge and skills as appropriate to meet developmental needs	53.3%
AO3	Select relevant techniques and resources to meet the brief	13.33%
AO4	Use English, mathematics and digital skills as appropriate	13.33%
AO5	Realise a project outcome and review how well the outcome meets the brief	10%

Total marks

Paper	Assessment	% weighting of the	Maximum raw	Max uniform mark scale
	length	Core Component	mark	(UMS)
Employer set project (ESP)	12 hours	30%	90	120

Assessment availability

There will be two assessment opportunities per year in summer (May/June) and autumn (November/December). Please refer to the Key Dates Schedule on the NCFE website for further information.

Assessment conditions

All tasks must be completed under supervised conditions.

The approved provider must securely retain all students' evidence and submit that evidence to NCFE for marking.

The ESP assessment will be released and accessed by providers electronically. The submission of any assessment evidence from providers will also be digital and provided to NCFE electronically, unless otherwise specified.

For more information on external assessment conditions, please see the Regulations for the Conduct of External Assessment and Qualification Specific Instructions for Delivery (QSID) on the NCFE website.

Uniform mark scale (UMS)

The core component is modular, which means that a student can take and retake the assessments in different assessment windows. Assessments may vary slightly in levels of difficulty and, therefore, the mark that represented a C grade in the external examination in one assessment window may not be appropriate in the following assessment window.

To address this, we convert raw marks to uniform marks. The uniform mark scale (UMS) also allows us to account for the relative weighting of the assessment to the qualification as a whole. The maximum UMS points available for each assessment, and the UMS points relating to each grade boundary, are fixed. These are shown in the following table:

Grade boundary	External examination	ESP	Overall
Max	280	120	400
A*	252 – 280	108 – 120	360 – 400
A	224 – 251	96 – 107	320 – 359
В	196 – 223	84 – 95	280 – 319
с	168 – 195	72 – 83	240 – 279
D	140 – 167	60 – 71	200 – 239
E	112 – 139	48 – 59	160 – 199
U	0 – 111	0 - 47	0 – 159

The external examination comprises two papers, the results of which are combined before conversion to UMS. Combined grade boundaries for each series will be set by adding together the equivalent boundaries for each paper.

The raw mark grade boundaries are set after each assessment window. NCFE sets these boundaries judgementally, following both qualitative and quantitative analysis, and then converts them to UMS.

Although the raw mark grade boundaries in assessment window 1 and assessment window 2 are different, they have the same value in terms of UMS marks (168 for a C and 196 for a B) when contributing to the qualification as a whole. NCFE will publish the raw mark grade boundaries following the completion of each assessment window.

Scheme of assessment for each component

The industry placement will be used for the assessment of skills for all OSs. For Early Years Educator and Assisting Teaching, students will be required to demonstrate specific skills in the placement, which will be observed by assessors and then moderated.

The table below details how each of the assignments in the OSs for Early Years Educator and Assisting Teaching are sat.

Where assignments are described as:

- 'controlled conditions', the tasks must be sat at the provider under conditions controlled by the provider; for example, supervised exam conditions to ensure that the student's work is their own and is completed without other input; any specific conditions and delivery guidance is detailed in the tutor guidance document for the relevant OS, the Regulations for the Conduct of External Assessment and the Qualification Specific Instructions for Delivery (QSID)
- 'observed on the industry placement', the tasks are designed to be observed by the provider's assessor during the student's time working on their industry placement; this is because the skills and knowledge being assessed cannot be validly assessed in any other context, for example, where students are being assessed on their ability to work with nursery groups or classes of children and demonstrate their skills in doing this
- 'carried out on the industry placement', this task, which is only in Early Years Educator, requires students to carry out three observations of children; this will be done on the industry placement, but is not observed by the provider, and does not require the provider to be present; however, it does require that the industry placement supervisor signs a declaration of authenticity to confirm that the student's observations were carried out by them and without other input

Assignment	Conditions, and use of industry placement	Availability
Assignment 1	Controlled invigilated conditions, at the provider	Available as a fixed date and timed assessment, please refer to the Key Dates Schedule on the NCFE website for further information
Assignment 2 Part 1	Observed on the industry placement	Available from the start of delivery, to allow planning of observations at any appropriate point during the industry placement
Assignment 2 Part 2	Observed on the industry placement	Available from the start of delivery, to allow planning of observations at any appropriate point during a window from 1 February to 30 April on the industry placement

Early Years Educator

Assignment	Conditions, and use of industry placement	Availability
Assignment 3 Part 1 Task 1	Carried out on the industry placement, and authenticated by the industry placement supervisor	Available from the start of delivery, to allow planning of observations at any appropriate point between 1 March to 30 April on the industry placement
Assignment 3 Part 1 Tasks 2 and 3, and Part 2	Controlled invigilated conditions, at the provider	Available as an assessment sat during a window, set between 1 March and 30 April each year

Assisting Teaching

Assignment	Conditions, and use of industry placement	Availability
Assignment 1	Controlled invigilated conditions, at the provider	Available as a dated assessment, set between 1 March and 30 April each year
Assignment 2	Observed on the industry placement	Available from the start of delivery, to allow planning of observations at any appropriate point during a window from 1 February to 30 April on the industry placement
Assignment 3	Controlled invigilated conditions, at the provider	Available as a dated assessment, set between 1 March and 30 April each year

Synoptic assignments (Early Years Educator)

Overview of assessment

Synoptic assignments comprise task-based assignments including observations.

Duration: 25 hours 45 minutes to 29 hours 45 minutes

Consisting of:

- Assignment 1: 4 hours
- Assignment 2: 18 to 22 hours
- Assignment 3: 3 hours 45 minutes

Content subject to assessment

All performance outcomes (POs) within a chosen OS are subject to assessment:

- PO1: Support and promote children's play, development and early education
- PO2: Develop relationships with children to facilitate their development
- PO3: Plan, provide and review care, play and educational opportunities to enable children to progress
- PO4: Safeguard and promote the health, safety and wellbeing of children
- PO5: Work in partnership with colleagues, parents, carers and other professionals to support children's development

Assessment weigh	Assessment weightings				
Assignment	% weighting of the OS	Max raw mark	Scaling factor*		
Assignment 1	25%	160 marks	1.000		
Assignment 2	50%	102 marks	3.137		
Assignment 3	25%	98 marks	1.633		
Total	100%	360			

Assessment weightings

Total marks

360

*Scaled marks for assignments are calculated by multiplying the raw assessment mark with the scaling factor. Scaled marks up to three decimal places are combined before being rounded to the nearest whole number. The same approach is used to determine overall combined grade boundaries from assignment grade boundaries.

Assessment availability

There will be one assessment opportunity per year from summer 2022. Please refer to the Key Dates Schedule on the NCFE website for further information.

Assessment conditions

All tasks must be completed under specified conditions. See the tutor guidance in the tutor guidance pack for more detail.

The approved provider must securely retain all students' evidence and submit that evidence to NCFE for marking.

Please refer to the Regulations for the Conduct of External Assessment for further information on the assessment conditions. Please refer to the NCFE website for an up-to-date copy of the regulations.

Synoptic assignments (Assisting Teaching)

Overview of assessment

Synoptic assignments comprise task-based assignments including observations.

Duration: 14 hours 30 minutes to 16 hours 30 minutes

Consisting of:

- Assignment 1: 2 hours 30 minutes
- Assignment 2: 8 to 10 hours
- Assignment 3: 4 hours

Content subject to assessment

All performance outcomes (POs) within a chosen OS are subject to assessment:

- PO1: Support the class teacher to enhance children's education, individually and in groups
- PO2: Plan, provide and review educational opportunities in collaboration with teachers and other adults
- PO3: Safeguard and promote the health, safety and wellbeing of children and young people
- **PO4:** Recognise, adapt and respond to individual children's needs, including those with SEND, to support development and access to the curriculum

Assignment	% weighting of the OS	Max raw mark	Scaling factor*
Assignment 1	25%	55 marks	1.845
Assignment 2	50%	203 marks	1.000
Assignment 3	25%	100 marks	1.015
Total	100%	358	

Assessment weightings

Total marks

358

*Scaled marks for assignments are calculated by multiplying the raw assessment mark with the scaling factor. Scaled marks up to three decimal places are combined before being rounded to the nearest whole number. The same approach is used to determine overall combined grade boundaries from assignment grade boundaries.

Assessment availability

There will be one assessment opportunity per year from summer 2022. Please refer to the Key Dates Schedule on the NCFE website for further information.

Assessment conditions

All tasks must be completed under specified conditions. See the tutor guidance in the tutor guidance pack for more detail.

The approved provider must securely retain all students' evidence and submit that evidence to NCFE for marking.

Please refer to the Regulations for the Conduct of External Assessment for further information on the assessment conditions. Please refer to the NCFE website for an up-to-date copy of the regulations.

Paper-based examination

All external assessments will be available via paper-based examination.

Sample assessment materials

Sample assessment materials can be found on the qualification page on the NCFE website.

On-screen examinations

The core written examinations (paper A and paper B) will be available via on-screen examination.

The ESP and the OS assessments have pre-release materials that will be released electronically, the assessment papers will be posted out by NCFE. Students will have the option of submitting paper-based or digital evidence.

For instructions on conducting external assessments (including information on malpractice/maladministration), please refer to our Regulations for the Conduct of External Assessment and QSID documents, which are available on the NCFE website.

Approved provider's quality assurance process

Providers will mark the observation element of the synoptic assignments in the OS components, with NCFE externally moderating.

To ensure provider-led marking achieves valid and reliable outcomes, we will:

- issue assessment criteria for provider staff, with guidance/mark schemes, and guidance and training on applying these
- deliver TQ continuing professional development (CPD) that includes:
 - standardisation with provider staff to ensure they fully understand marking criteria and provide consistency across providers
 - training materials to provide ongoing guidance on marking, which will increase understanding of the process and enable providers to make enquiries after results
 - a guide, which will evolve into grade exemplification materials (including authentic student work), linked to the assessment and showing what a distinction, merit and pass look like
- moderation of work in order to secure standards and guard against grade inflation

To maintain independence and prevent malpractice:

- assessment must be carried out by an assessor who has been standardised on the TQ
- providers must have suitable procedures in place to manage the delivery of the assessments, ensuring instructions are followed and 'teaching to the test' is avoided
- templates and other scaffolding techniques must not be provided to students prior to assessment except where this is required by the assessment, in which case it will be made clear in the tutor guidance

Students must sign the examination declaration to authenticate that the work they have submitted is their own. Providers must ensure that all examinations are submitted for marking in accordance with the assessment windows.

How moderation will be conducted

Externally marked observation evidence must be moderated by the NCFE moderation team to maintain high standards through:

- visiting all providers to witness observations in practice and sampling all assessments
- provider training on marking/annual standardisation
- provider visits and events to ensure rigour and that marking is in line with guides
- adjustment of marks to assure the standard

Results

Results for each component will be released in accordance with the assessment windows. Please refer to the Key Dates Schedule on the NCFE website for further information.

Enquiries about results

If a provider believes a student's result is at variance with their reasonable expectations, they can submit an enquiry about a result in line with our Enquiries about Results and Assessment Decisions Policy, which is available on the NCFE website.

Grading

Core component

The core component is graded A* to E and U.

Core component grade descriptors

Grade	Demonstration of attainment
А	Demonstrate relevant and accurate use of occupationally relevant terminology
	Consistently demonstrate skills appropriate to situation
	Demonstrate a comprehensive understanding of ideas, processes and procedures and apply them appropriately to familiar and unfamiliar contexts
	Accurately select and use a range of appropriate mathematical skills relevant to the sector
	Critically analyse most information and data, supported with relevant examples and analysis
	Construct a reasoned argument, make substantiated judgements and reach valid conclusions using relevant knowledge and skills
	Effectively organise and present information clearly supported with relevant occupationally relevant examples and analysis
	Comment effectively on strengths and limitations and identify improvements
	Link together appropriate principles and concepts from the sector and apply appropriately
E	Demonstrate some use of terminology but not consistently relevant or accurate
	Demonstrate basic understanding of ideas, processes, and procedures. May not be applied appropriately to some familiar and unfamiliar contexts
	Use some simple and appropriate mathematical skills relevant to the sector
	Limited analysis of information, ideas and research and little relevance or application
	Organise and present information supported with rudimentary examples and some acceptable analysis, may not be occupationally relevant
	Comment on strengths and limitations

Occupational specialism (OS) components

The occupational specialism (OS) components are graded distinction, merit, pass and ungraded.

Occupational specialism (OS) grade descriptors

Grade	Demonstration of attainment
Pass	The evidence is logical but displays baseline knowledge in response to the demands of the brief
	The student makes some use of relevant knowledge and understanding of how it informs practices of the sector and demonstrates a baseline understanding of perspectives or approaches associated with early years education
	The student makes acceptable use of facts/theories/approaches/concepts and attempts to demonstrate breadth and depth of knowledge and understanding
	The student is able to identify information from appropriate sources and makes use of appropriate information/appraises relevancy of information and can combine information to make decisions
	The student makes judgements/takes appropriate action/seeks clarification with guidance and is able to make progress towards solving non-routine problems in real-life situations
	The student demonstrates skills and knowledge of the relevant concepts and techniques reflected in an early years educator role and generally applies across different contexts
	The student shows adequate understanding of unstructured problems that have not been seen before, using limited knowledge to find solutions to problems and make justification for strategies for solving problems, explaining their reasoning
	Early years educator (EYE) only – demonstrates achievement of all EYE criteria
Distinction	The evidence is precise, logical and provides a detailed and informative response to the demands of the brief
	The student makes extensive use of relevant knowledge, has extensive understanding of the practices of the sector and demonstrates an understanding of the different perspectives/approaches associated with early years education
	The student makes decisive use of facts/theories/approaches/concepts, demonstrating extensive breadth and depth of knowledge and understanding, and selects highly appropriate skills/techniques/methods
	The student is able to comprehensively identify information from a range of suitable sources and makes exceptional use of appropriate information/appraises relevancy of information and can combine information to make coherent decisions

Grade	Demonstration of attainment
	The student makes well-founded judgements/takes appropriate action/seeks clarification and guidance and is able to use that to reflect on real-life situations in an early years education role
	The student demonstrates extensive knowledge of relevant concepts and techniques reflected in an early years education role, precisely applies this across a variety of contexts and tackles unstructured problems that have not been seen before, using their knowledge to analyse and find suitable solutions to the problems
	The student can thoroughly examine data/information in context and apply appropriate analysis in confirming or refuting conclusions and carrying out further work to justify strategies for solving problems, giving concise explanations for their reasoning

* 'threshold competence' refers to a level of competence that:

- signifies that a student is well placed to develop full occupational competence, with further support and development, once in employment
- is as close to full occupational competence as can be reasonably expected of a student studying the TQ in a classroom-based setting (for example, in the classroom, workshops, simulated working and (where appropriate) supervised working environments)
- signifies that a student has achieved at least a pass in relation to the relevant OS component

U grades

If a student is not successful in reaching the minimum threshold for the core and/or OS component, they will be issued with a U grade.

Awarding the final grade for each component of the technical qualification (TQ)

Each core component's marks will be combined to form the overall grade for the core component.

The marks from the OS assignment will form the OS grade.

These grades will be submitted to the Institute for Apprenticeships and Technical Education who will issue an overall grade for the T Level TQ.

Calculating the final grade for the T Level programme

To be awarded an overall T Level grade, a student must successfully pass both components of their TQ, complete an industry placement, and meet any other requirements set by the Institute's T Level panel.

The overall grade for the T Level programme is based on a student's performance in the TQ and would reflect:

- the comparative size of the core component and the OS
- the grades achieved for the core component (A* to E) and the OS (distinction/merit/pass)

This grading approach also makes it possible to recognise exceptional achievement, through the award of an overall distinction* grade for students that achieve an A* for the core component and a distinction in their OS.

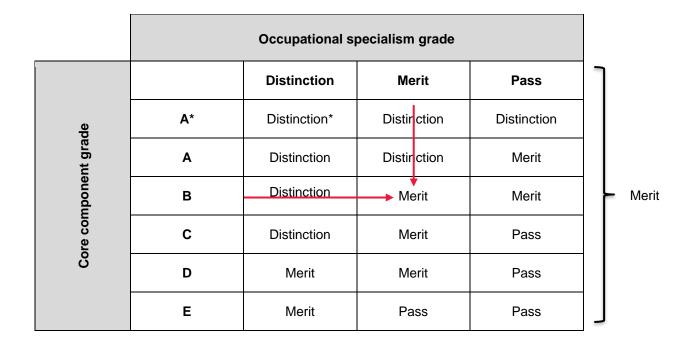

The following table shows how the core component and OS grades are aggregated to produce an overall result for this T Level programme:

Core component 40%/OS 60%:

	Occupational specialism grade					
		Distinction	Merit	Pass	٦	
Core component grade	A *	Distinction*	Distinction	Distinction	- ·	Overall T Level
	Α	Distinction	Distinction	Merit		
	В	Distinction	Merit	Merit		
	С	Distinction	Merit	Pass		grade
	D	Merit	Merit	Pass		
	E	Merit	Pass	Pass		

This matrix shows the overall grade when both components are combined.

For example, if a student achieved a B grade in the core component assessment (indicated by the vertical column on the left) and a merit grade in the OS assessment (indicated by the horizontal top row), they would achieve a merit grade for the overall T Level programme:

Section 3: general competency framework

General competency framework

Technical qualifications (TQs) are required to contain sufficient and appropriate English, mathematics and digital (EMD) content to help students reach threshold competence in their chosen occupational specialism (OS). As such, a framework of competencies has been developed, which awarding organisations are required to use and embed in all TQs (where appropriate):

General English competencies	General mathematics competencies	General digital competencies
 GEC1. Convey technical information to different audiences GEC2. Present information and ideas GEC3. Create texts for different purposes and audiences GEC4. Summarise information/ideas GEC5. Synthesise information GEC6. Take part in/lead discussions 	 GMC1. Measuring with precision GMC2. Estimating, calculating and error spotting GMC3. Working with proportion GMC4. Using rules and formulae GMC5. Processing data GMC6. Understanding data and risk GMC7. Interpreting and representing with mathematical diagrams GMC8. Communicating using mathematics GMC9. Costing a project GMC10. Optimising work processes 	 GDC1. Use digital technology and media effectively GDC2. Design, create and edit documents and digital media GDC3. Communicate and collaborate GDC4. Process and analyse numerical data GDC5. Be safe and responsible online GDC6. Controlling digital functions

The following table identifies the EMD competencies that we have embedded in the skills throughout this TQ. The tutor may also teach competencies that are not listed here, where they naturally occur, but these will not be subject to assessment.

English, mathematics and digital (EMD) competencies relevant to the Education and Early Years qualification

General competencies	Core skills	Early Years Educator	Assisting Teaching
English	Element/Core skill (CS)	Performance outcome	Performance outcome
GEC1	CS1, CS3		S1.11
GEC2	CS2		S1.12
GEC3	CS2, CS3, CS4	S5.9	S2.19
GEC4		S5.9	S2.19
GEC5	CS2	S1.32	
GEC6	CS1	S1.21	
Mathematics	Element/Core skill (CS)	Performance outcome	Performance outcome
GMC1		S4.23	
GMC2	CS2		
GMC3		S4.16	
GMC5			
GMC6			
GMC7	CS3		
GMC9	CS2		
GMC10	CS4		
Digital	Element/Core skill (CS)	Performance outcome	Performance outcome
GDC1	CS1, CS3		S1.13
GDC2			S1.14, S4.13
GDC3		S5.9	S2.19
GDC4	CS3		
GDC5			S3.28

Section 4: technical qualification (TQ) content

Introduction

This section provides details of the structure and content of this qualification.

Qualification structure

The core content is divided into 12 elements and 4 core skills, all of which indicate the relevant knowledge and understanding of concepts, theories and principles relevant to all occupations within education and early years. The knowledge and skills are all externally assessed through written examinations and an employer set project (ESP).

The occupational specialisms (OSs) are divided into performance outcomes (POs), each of which indicates the knowledge and skills required to enable students to achieve threshold competence in the chosen OS. These POs are all externally assessed through synoptic assignments, in which the student will be expected to demonstrate required knowledge and skills.

Delivery of content

The content does not have to be taught in a linear fashion. However, providers must pay attention to when the assessments are due to take place to ensure that all of the mandatory content (all elements and POs) has been taught to students prior to sitting the assessments.

What you need to teach

This section contains all of the mandatory teaching content that underpins the knowledge and skills. The content provided in some cases may not be exhaustive, and providers may wish to teach beyond what is included in the specification in order to support the student's knowledge and understanding.

English, mathematics and digital (EMD) competencies have been integrated and contextualised within the skills, throughout the qualification content. These competencies are mandatory and subject to assessment. The tutor may also teach competencies that are not listed in this specification, but these will not be subject to assessment.

Element 1: Wider context

What you need to teach

1.1 The student must understand the differences between a range of early years and education provision, from 0 to 19 years:

- early years provision:
 - o childminders
 - o nurseries
 - o pre-schools
- school provision:
 - o maintained schools:
 - community schools
 - voluntary controlled schools
 - voluntary aided schools (usually known as church or faith schools)
 - foundation schools
 - trust schools
 - special schools
- non-maintained schools:
 - \circ academies
 - o free schools
 - o private schools (including independent special schools)
- post-16 provision:
 - school sixth forms
 - \circ general further education (FE) and tertiary colleges
 - o private, independent and voluntary providers (publicly funded)
 - o employers
 - o sixth form colleges
 - o special colleges (including agriculture and horticulture colleges)
 - o art, design and performing arts colleges
 - o higher education institutions (HEIs)

The student must understand how and when education became compulsory in England, including how this has changed over time.

The student must understand why education is regulated, including the functions of the:

- Department for Education (DfE)
- Office for Standards in Education, Children's Services and Skills (Ofsted)
- Office of Qualifications and Examinations Regulation (Ofqual)

1.2 The student must understand the different responsibilities of each of the identified roles, the entry requirements and possible career progression routes in the sector:

- general roles:
 - o early years practitioner
 - o early years educator
 - \circ room leader
 - o teaching assistant
 - o teacher/lecturer
 - o head teacher
- specialist roles:
 - special educational needs and disabilities co-ordinator (SENDCO)
 - o designated safeguarding lead (DSL)
 - o mental health lead
 - o mentor/pastoral support
 - o physical activity and nutrition co-ordinator (PANCO)
 - o counsellor
 - o careers advisor

Element 2: Supporting education

What you need to teach

2.1 The student must understand the origin and purpose of the early years foundation stage (EYFS) and the national curriculum from key stage 1 to key stage 4.

The student must understand the scope of the EYFS, the national curriculum and post-16 education:

- EYFS: 0 to 5 years, covering the early years foundation stage
- Primary education: 5 to 11 years, covering key stages 1 and 2

- secondary education: 11 to 16 years, covering key stages 3 and 4
- post-16 education: 16 to 19 years (A levels and technical)

The student must understand how different settings are governed by the EYFS and the national curriculum.

2.2 The student must understand how teachers/practitioners can effectively support children and young people in their education, including all items below but not limited to:

- involving children in planning their own learning
- communicating clearly, using positive and appropriate language for the age and stage of development
- giving effective feedback and facilitating children's and young people's self-assessment
- managing own and others' time
- providing nurturing experiences and opportunities to support children to be able to express feelings and how this promotes positive behaviour
- observing and assessing individuals, providing tailored interventions through early identification
- engaging disengaged children and young people by involving them in their own learning and assessment

The student must understand the attributes that inform teachers'/practitioners' professional behaviour and why they are important to effectively support children and young people's education, including all items below but not limited to:

- approachability
- confidence
- empathy
- knowledge
- passion
- patience
- positivity
- reflection
- resourcefulness
- respect for others

2.3 The student must understand current theoretical and pedagogical approaches applied in education and the evidence that underpins them:

Behaviourism

Theory:

- antecedents:
 - o stimuli that signal expected behaviours/responses

- consequences:
 - o stimuli that encourage or reduce the occurrence of the behaviour
- positive and negative reinforcement:
 - o can modify behaviour and learning (operant conditioning)
- continuity:
 - o central to long-term associations
 - o habit/response-forming
- association of experience with behavioural response:
 - $\circ~$ the student's motivation for learning is dependent on the teacher's response

Pedagogical approach and how it is applied:

- questioning:
 - o teacher asks question (antecedent)
 - o student responds (behaviour)
 - o teacher offers feedback/rewards (consequence)
- direct instruction:
 - \circ teacher-led
 - o the student and teacher practise the new skill together
 - o the teacher checks understanding and provides feedback
- mastery learning:
 - $\circ~$ the key instant recall facts (KIRF) approach supports a solid grasp of key facts
 - o a blend of direct instruction and practice
 - o feedback is provided by both teacher and peers

Underpinning evidence:

- Pavlov's Dogs study
- Watson's Little Albert experiment
- Skinner's study of operant conditioning (Skinner box)

Cognitive constructivism

Theory:

- assimilation:
 - o learning builds on what students already know and can do

- accommodation:
 - o knowledge is actively constructed through a process of discovery
- sequential/schematic:
 - o learning follows a sequence of stages

Pedagogical approach and how it is applied:

- high scope:
 - \circ teachers provide challenging experiences and resources matched to student's stage of development
- project-based learning:
 - students engage in real-life problems, such as designing a product, and are responsible for their choices, decisions and solutions
- virtual reality:
 - o using digital technology, learning takes place within a simulated real-world environment
 - the student directly interacts with objects, tests out their ideas and instantly experiences the result of their actions

Underpinning evidence:

- Piaget's Four Stages of Cognitive Development
- Bruner's Three Modes of Representation
- Kolb's Experiential Learning Cycle
- Bloom's Taxonomy

Social constructivism

Theory:

- active:
 - \circ $\,$ learning is a social process between teachers and peers
- interactions:
 - o students' understanding and knowledge of the world is based on the quality of interactions with others
- environment:

• the learning environment, home environment, culture and society can influence the quality of interactions Pedagogical approach and how it is applied:

- enquiry-based learning:
 - o the teacher plans activities to provoke curiosity and interaction between peers
- modelling:

- the teacher models how to complete a task and the student observes, before practising the task for themselves
- flipped learning:
 - the teacher provides material that students can access independently (for example, through a virtual learning environment)
 - o the teacher observes and scaffolds activities during group learning
 - o the teacher differentiates content to make it accessible for all
 - o formative assessments inform future teaching and learning
- commentary:
 - \circ to develop students' vocabulary, the teacher talks through what they are doing
 - \circ the teacher demonstrates thinking skills, such as problem solving
- sustained shared thinking:
 - o the teacher and student share a genuine interest in an activity, conversation or discovery
 - o can occur between individuals or in a group setting
- reflection:
 - o the teacher talks about what went well and encourages the student to develop their own thinking

Underpinning evidence:

- Bergmann and Sams' Flip Your Classroom
- Bruner's Discovery Learning
- Vygotsky's Zone of Proximal Development

Connectivism

Theory:

- technology:
 - \circ $\,$ technology supports many of the learning sequences identified by earlier theory
 - \circ $\,$ students have greater access to online information, ideas and communities of learning
- nodes:
 - o nodes are objects (a person, a book, a webpage) that can be connected as part of a learning network
 - o diversity of opinions and sources is key
- links:
 - learning occurs when students make links between nodes, and they continue to make and maintain connections to form knowledge

- o 'know how' and 'know what' is replaced by 'know where to find knowledge'
- currency:
 - \circ knowledge is quickly obsolete, and learning is a continual process
 - o learning is more critical than knowing
- informal:
 - o formal learning no longer makes up the main way knowledge is acquired

Pedagogical approach and how it is applied:

- massive open online courses (MOOCs):
 - online courses that can feature a mix of traditional course materials, user forums and communities of practice
- social networking:
 - o facilitates the informal exchange of information
 - o interactions can take place between students at any time
- gamification:
 - o turns tasks and assignments into competitive, interactive games
- immersive learning:
 - students are immersed in a task, working together to find, assess and make connections between information located in the digital world and the natural environment

Underpinning evidence:

- Downes' modernised learning delivery strategies
- Siemens' learning theory for the digital age and Massive open online courses: Innovation in education
- Lave and Wenger's community of practice

Humanism

Theory:

- holistic learning:
 - o individuals construct knowledge in the context of their own unique feelings, values and experiences
 - o feelings are as important as knowledge in the learning process
- student-centred:
 - \circ the teacher's role is to facilitate rather than deliver learning
 - o learning should be personalised to each individual student
- self-actualisation:

- o a student's potential can only be fulfilled when their physical and affective needs have been met
- agency:
 - \circ $\,$ humans are intentional and seek meaning, value and creativity

Pedagogical approach and how it is applied:

- student-initiated learning:
 - \circ the student is given freedom to select learning materials and manage their own progress
 - o learning decisions rest with the student, not the teacher
- holistic:
 - the teacher considers the student's whole being, including home environment and other factors that could impact on learning
 - \circ $\,$ the teacher acts as a coach, helping students to achieve their goals
- safe and nurturing environment:
 - the teacher creates an environment in which students feel physically and emotionally safe and can focus on learning

Underpinning evidence:

- Bronfenbrenner's ecological systems theory
- United Nations Convention on the Rights of the Child 1989
- Maslow's hierarchy of needs
- Carl Rogers' Freedom to Learn

2.4 The student must understand the definition of metacognition: an understanding and awareness of one's own mental processes.

The student must understand how metacognition supports children and young people to manage their own learning, including all items below but not limited to:

- identifying the strengths and areas for development in their own learning
- using cognitive strategies to 'construct' knowledge
- using metacognitive strategies to regulate and evaluate their own learning

The student must understand how metacognition positively impacts on children's and young people's education and achievement, including all items below but not limited to:

- building up a set of transferable strategies and skills that they can apply to new subjects and situations
- better preparing for assessments
- monitoring their own understanding
- identifying barriers to their own learning and actively minimising them

- learning from mistakes in order to avoid them in the future
- adapting their learning strategies as appropriate to the task

2.5 The student must understand how practitioners provide effective feedback and why it is important in supporting children's and young people's educational development, including all items below but not limited to:

- timely: to support clarity, motivation and retention of information
- clear and detailed: children and young people can identify precisely what they need to improve
- relevant to criteria: children and young people can understand how they have achieved the outcomes and where they still need to develop
- action-oriented: children and young people have specific goals for the future and know what they should continue to do
- ongoing: children and young people can revisit and re-evaluate learning as part of a continuous process
- interactive: ensures clarity through a dialogue between the teacher/student/peers

2.6 The student must understand why up-to-date and appropriate technology is important to effectively support children's and young people's educational development, including all items below but not limited to:

- monitoring children's and young people's progress
- easily sharing information
- using a variety of media to introduce and explore a topic
- planning and designing suitable online and offline learning materials and assessments
- equipping children and young people to navigate a vast amount of information and evaluate the validity of sources
- making learning accessible for children and young people with SEND
- communicating and collaborating safely with children and young people online
- modelling legal, ethical and secure methods of accessing/using online data and media
- helping to prepare children and young people for future careers and digital citizenship

2.7 The student must understand how personal, educational and environmental factors may affect engagement and development in reading, literacy and mathematics, including all items below but not limited to:

- personal factors:
 - o level of cognitive and language development
 - o physical health and wellbeing
 - o SEND

- o motivation and interest
- o confidence to try without fear of failure
- o socio-economic circumstances
- o bilingualism (English as an additional language (EAL))
- o previous experiences or support
- educational factors:
 - o the quality of teaching and support at varying stages of development
 - o age- and stage-appropriate materials
 - o use of aids and adaptations
 - o use of synthetic phonics (reading and literacy)
- environmental factors:
 - o exposure to a stimulating, language-rich environment and resources
 - o opportunities to practise and apply knowledge
 - o support and involvement from parents or carers, peers and other professionals

Element 3: Safeguarding, health and safety and wellbeing

What you need to teach

3.1 The student must understand the requirements and purpose of the following legislation in relation to educational settings:

- Health and Safety at Work etc. Act 1974:
 - purpose: defines employers' responsibilities to protect the health, safety and welfare at work of employees and members of the public, and defines employees' duties to protect themselves and each other
- Female Genital Mutilation (FGM) Act 2003:
 - o purpose: provides legal protection and safeguarding for victims of, or those at risk of, FGM
- Children Act 2004:
 - \circ purpose: introduced measures to support multi-agency working to keep children safe
- Safeguarding Vulnerable Groups Act 2006:
 - purpose: places a statutory duty on organisations to undertake suitability checks on all individuals working with children and vulnerable adults

- Children and Families Act (Part 3: Children and young people with special educational needs (SEN) and disabilities) 2014:
 - purpose: introduced new provisions to ensure the welfare of children and young people with SEN, including Education, Health and Care Plans (EHCPs)
- Counter-Terrorism and Security Act 2015:
 - purpose: places a duty on specified authorities to have due regard to the need to prevent people from being drawn into terrorism
- Data Protection Act 2018:
 - o purpose: defines responsibilities for using personal data fairly, lawfully and transparently

3.2 The student must understand how the following statutory guidance inform policies and procedures in educational settings:

- health and safety:
 - \circ health and safety: responsibilities and duties for schools 2021
 - o EYFS welfare requirements
- security:
 - Prevent Duty Guidance: for England and Wales 2023
- confidentiality of information:
 - Data Protection Act 2018:
 - UK General Data Protection Regulation (UK GDPR)
- safeguarding and promoting the welfare of children and young people:
 - o Supporting pupils at school with medical conditions 2015
 - o Working Together to Safeguard Children 2023
 - Multi-agency statutory guidance on female genital mutilation 2020
 - Keeping children safe in education 2023

3.3 The student must understand the importance of children's and young people's emotional health and its impact on their overall wellbeing.

The student must understand the importance of children's personal circumstances in relation to their holistic wellbeing.

The student must understand the significance of emotional health for positive relationships.

3.4 The student must understand the difference between a child or young person 'at risk' and a child or young person 'in need'.

The student must understand the mandatory reporting requirements to escalate concerns that a child or young person is in need or at risk.

3.5 The student must understand the factors that may indicate that a child or young person is in danger or at risk of abuse, including all items below but not limited to:

- individual factors:
 - o child or young person has a physical or developmental disability
 - \circ child or young person has been impacted by an abusive relationship
 - o lack of secure attachment with parent/carer
- parental factors:
 - o parent has already abused a child or young person
 - $\circ~$ parent was abused when growing up
 - o parents have unrealistic expectations of the child or young person
 - o parents lack parenting skills
 - o parent is isolated and has limited support
 - o parent has a mental illness
 - o parent is suffering with drug or alcohol addiction
- environmental factors:
 - o overcrowding in the home
 - o poverty or lack of opportunity to improve the family's resources
 - o presence of domestic abuse

3.6 The student must understand the legal definition of a position of trust, as defined by the Sexual Offences Act 2003, and how power and influence can be used and abused when working with children and young people, including all items below but not limited to:

- taking advantage of an individual
- gaining unauthorised access to private or sensitive information for their own or others' advantage
- manipulation of an individual
- using a position of trust to bully, humiliate or undermine
- threatening punishment for non-compliance with unreasonable demands

3.7 The student must understand grooming as defined as an individual developing a relationship, trust and an emotional connection with a child or young person so they can manipulate, exploit and abuse them.

The student must understand how children and young children could be groomed or exploited, including all items below but not limited to:

• by adults in a position of trust

- by interfamilial abuse (such as, a close family member or friend)
- through the use of inappropriate games
- through online materials and communication
- through observing sexual behaviour of others
- being exposed to pornographic content
- through threats of harm to the individual or family
- county lines

The student must understand a range of signs of grooming or exploitation, including all items below but not limited to:

- demonstrating changes in typical behaviour
- · becoming withdrawn or isolated from peers and adults
- inability to concentrate during activities or learning experiences
- sexualised behaviour, language or an understanding of sex that is not appropriate for age

The student must understand appropriate action to take when grooming or abuse is suspected, including all items below but not limited to:

- following the safeguarding policies and procedures of the setting
- reporting immediately to the setting's designated safeguarding lead (DSL)
- liaising with local authority designated officer (LADO), as appropriate
- remaining calm and professional (if disclosures are made)
- maintaining accurate and coherent records and reports
- sharing information only when required
- maintaining confidentiality

3.8 The student must understand a range of indicators that an adult in the setting may have inappropriate relationships with children and young people, including all items below but not limited to:

- being overly affectionate, giving gifts or showing favouritism with a child or young person
- spending time alone with a child or young person
- making friends with a child or young person's parents or carers and/or visiting them at home
- using private texts or social media to communicate with a child or young person

The student must understand how practitioners deal with suspected abuse in line with the educational setting's codes of conduct, including all items below but not limited to:

• observing and recording as appropriate

- following organisational policies and procedures for child protection
- following procedures set out by the local safeguarding partnerships
- · following accurate lines of reporting in a timely manner
- maintaining professional boundaries
- contacting the police if a child or young person is in immediate danger

3.9 The student must understand how abuse, neglect, bullying, persecution and violence may impact on children's and young people's development and behaviour, in relation to all items below but not limited to:

- educational attainment
- attachments and relationships
- special educational needs (SEN)
- physical health
- mental health
- inappropriate behaviour:
 - o self-harm/suicide
 - o alcohol and drug misuse
 - o aggression
 - o risky or sexualised behaviour/promiscuity
 - o criminality
- socio-economic status

Element 4: Behaviour

What you need to teach

4.1 The student must understand how the stages of children's and young people's social, emotional and physical development may inform their behaviour, and how practitioners can use this information to meet children's and young people's needs:

- stages of social development that may inform behaviour, including all items below but not limited to:
 - understanding of social norms
 - o ability to relate to others
 - o levels of empathy

- SEND such as, hearing problems may lead to difficulties in communicating or language delay
- stages of emotional development that may inform behaviour, including all items below but not limited to:
 - o ability to name and regulate own emotions
 - o levels of maturity
 - SEND such as, those with developmental delay may experience frustration with difficulties in expressing their emotions
- stages of physical development that may inform behaviour, including all items below but not limited to:
 - o development of gross and fine motor skills
 - o body changes as a result of puberty
 - o SEND such as, those with physical disabilities may feel excluded from certain activities

4.2 The student must understand how a range of individual, environmental and educational factors can positively or negatively influence children's and young people's behaviour:

- individual factors, including all items below but not limited to:
 - \circ self-esteem
 - \circ SEND
 - o age
- environmental factors, including all items below but not limited to:
 - o culture and religious beliefs
 - o care history
 - o family circumstances
- educational factors, including all items below but not limited to:
 - o bullying and discrimination
 - peer relationships
 - \circ $\,$ relationships between children and young people and practitioners

4.3 The student must understand the link between self-esteem, identity and inappropriate behaviour. This must include the effects of over-confidence as well as low self-esteem.

4.4 The student must understand how the following three elements inform children's and young people's self-concept:

- self-image how you see yourself
- self-esteem how you value yourself
- ideal self how you wish you could be

The student must understand how children and young people develop self-concept through two defining stages:

- the existential self: the child or young person realises that they exist as an independent entity, separate from others
- the categorical self: the child or young person begins to categorise her/himself as an 'object' in the world, defining her/himself in terms of age, gender, size or skills

The student must understand the possible impact of positive and negative self-concept:

- behaviour
- cognition
- social and emotional development

4.5 The student must understand why children and young people must know how to adapt their behaviour to different social contexts in order to:

- focus on learning in educational settings
- develop impulse control
- conform to social norms
- make friends and maintain relationships

4.6 The student must understand why it is important to set and follow behaviour management policy and processes, including all items below but not limited to:

- clarifies the expected standard of behaviour for:
 - o staff
 - $\circ~$ children and young people
 - o parents/carers
- gives children and young people a chance to have input, resulting in more ownership and buy-in
- sets realistic expectations for behaviour, taking into account an individual's age and stage of development
- ensures fairness in how children or young people are rewarded and sanctioned, regardless of practitioners' own opinions or beliefs
- ensures safety for all children and young people
- · establishes a consistent approach to behaviour management
- allows opportunities to celebrate individuals' success

4.7 The student must understand how the following home, family circumstances and care history can affect children's and young people's behaviour, including all items below but not limited to:

- parental expectations
- consistency of care

- culture and community
- · adult and child's or young person's relationships and interactions

The student must understand how practitioners can use information about individuals' home, family and care circumstances to anticipate and deal effectively with unwanted behaviour, including all items below but not limited to:

- · working with parents/carers to help them find support and advice
- sharing information with relevant colleagues to support multi-agency work and early interventions
- supporting individuals through planned and unplanned transitions
- informing a behaviour management plan
- setting and monitoring individual behaviour targets

4.8 The student must understand how children and young people may respond to both positive and negative verbal and non-verbal communication from adults, including all items below but not limited to:

- tone
- proximity
- gesture
- body language

4.9 The student must understand how and why practitioners use positive approaches to motivate children's and young people's behaviour, attainment and achievement, including all items below but not limited to:

- incentive and recognition schemes
- establishing and maintaining positive relationships with children and young people
- appropriate praise
- · formative feedback to help children and young people improve

4.10 The student must understand how and why practitioners use a range of strategies for setting clear expectations of behaviour, including all items below but not limited to:

- establishing a structured approach
- · setting age- and stage-appropriate ground rules
- acting fairly and consistently
- modelling appropriate behaviour
- positive reinforcement
- establishing age-appropriate boundaries

4.11 The student must understand how and why practitioners use a range of strategies to support children and young people to develop self-regulation and resilience, including all items below but not limited to:

- playing games/interactive sessions that encourage turn taking and impulse control
- sharing stories that encourage reflection on own and others' emotions
- modelling coping skills
- encouraging physical exercise
- encouraging problem solving
- providing opportunities to support socialisation
- supporting children and young people to reframe challenges in a positive light
- encouraging mindfulness
- creating opportunities for children and young people to take supported risks

4.12 The student must understand how and why practitioners use a range of strategies to respond to behaviour, including all items below but not limited to:

- being fair and consistent
- focusing on the behaviour, rather than the individual
- referring to, and following, the behaviour policy and student code of conduct
- encouraging co-regulation
- using language that clarifies expectations
- providing a calm and safe environment

4.13 The student must understand how and why practitioners use a range of strategies to motivate children and young people to test and stretch their skills and abilities, including all items below but not limited to:

- setting high, realistic expectations
- using age- and stage-appropriate praise and encouragement
- involving parents/carers, as part of a whole setting approach
- giving individuals a role/responsibility
- encouraging self-reflection
- rewarding effort and success
- celebrating mistakes as learning opportunities
- encouraging children and young people to recognise each other's positive behaviour

4.14 The student must understand how practitioners assess risks to their own and others' safety when dealing with challenging behaviour, including all items below but not limited to:

- being aware of individuals' prior history
- recognising triggers and early warning signs
- assessing the likelihood of harm to self and others
- removing hazards and reducing risk
- following the setting's policies and procedures

Element 5: Parents, families and carers

What you need to teach

5.1 The student must understand the advantages of working with parents, carers and wider families to support children and young people, including all items below but not limited to:

- creating a shared level of expectations
- making transitions smoother
- supporting learning and development at home
- inviting contributions from families (for example, volunteering time, talking about jobs or hobbies, helping to organise events)
- sharing information
- supporting the child's or young person's wellbeing
- making decisions and advocating different courses of action

5.2 The student must understand the characteristics of the following family structures:

- nuclear: two parents raising a child/children
- single-parent: a lone parent raising a child/children
- extended: multiple members of the same family living in the same home and possibly co-raising a child/children
- foster/adoptive: having at least one child who has been fostered or adopted
- blended/step: a combination of two separate families, with one or both parents having children from previous relationships

The student must understand the characteristics of the following parenting styles, including all items below but not limited to:

- authoritarian: emphasis on obedience and control, with no explanation for why children and young people should follow rules
- permissive: high levels of parental responsiveness, with few rules or expectations
- authoritative: parents have high standards and set clear boundaries, encouraging their children to be independent
- · instinctive: parents rely on instincts, heavily influenced by their own upbringing
- uninvolved: characterised by a lack of responsiveness and, sometimes, neglect
- helicopter: parents are heavily involved in every aspect of their children's lives

The student must understand why it is important to be sensitive to different parenting styles and different family contexts to:

- value and respect families
- contribute to inclusion in planning and provision
- · inform understanding of behavioural context
- inform understanding of developmental delay
- inform strategies used to support behaviour and development
- ensure fair and inclusive practice

5.3 The student must understand the possible barriers to effective partnerships with parents, carers and wider families, including all items below but not limited to:

- time constraints
- work commitments
- limited resources
- mistrust from families
- English as an additional language (EAL)
- special educational needs (SEN) or disabilities
- family members' own negative educational experiences

The student must understand how to overcome possible barriers, including all items below but not limited to:

- the key person building a relationship with parents/carers
- offering an open-door policy to hear parents'/carers' questions or concerns
- · encouraging home communication diaries/journals
- · providing secure family forums and apps
- using parent/carer questionnaires

- using regular telephone or email contact
- ensuring the building is accessible
- organising open days/evenings
- using translators or child advocates
- offering home visits
- making use of technology to establish and maintain communication with parents/carers including an exchange of information

5.4 The student must understand where to find a range of reliable resources to support parents, carers and wider families, including all items below but not limited to:

- charities
- the NHS
- healthcare centres
- community centres
- Citizens Advice
- social services/children's services
- The Special Educational Needs and Disabilities Information Advice and Support Services (SENDIASS)

Element 6: Working with others

What you need to teach

6.1 The student must understand how agencies and services support children, parents/carers and wider families, including all items below but not limited to:

- charities:
 - o Family Action
 - o Family Rights Group
 - Action for Children
- public services:
 - o the NHS
 - the Children and Young People's Mental Health Services (CYPMHS) the term children and adolescent mental health services (CAMHS) is an older term for the main specialist NHS community service within the wider CYPMHS that may be available locally

- o Children's Services
- local education authorities:
 - o schools and colleges
 - o special educational needs (SEN) review team

6.2 The student must understand the roles of other professionals in supporting children, parents/carers and families, including all items below but not limited to:

- educational psychologist
- education mental health practitioner
- GP
- school nurse
- health visitor
- social worker
- SENDCO/area SENDCO
- local authority designated officer (LADO)
- youth worker
- counsellor
- occupational therapist
- speech and language therapist

The student must understand the benefits of working collaboratively with other agencies and professionals for improved outcomes for children and young people, including all items below but not limited to:

- working towards shared goals
- accessing advice and support
- sharing skills, knowledge and expertise
- improving referrals

6.3 The student must understand how to work collaboratively with other agencies and professionals, including all items below but not limited to:

- maintaining confidentiality and protecting sensitive data
- gaining parental consent when appropriate
- reporting concerns and referrals
- following relevant policies/procedures

6.4 The student must understand why practitioners establish and maintain professional boundaries and relationships with children and young people, families and other professionals, including all items below but not limited to:

- facilitating partnership working
- protecting emotional wellbeing
- respecting children's and young people's privacy
- avoiding distraction from the practitioner's role
- providing structure and expectations
- reducing conflict
- promoting safeguarding and preventing the misuse of power
- maintaining confidentiality

The student must understand how practitioners' use of social media can be detrimental to:

- professional boundaries
- effective partnership working
- confidentiality
- safeguarding

Element 7: Child development

What you need to teach

7.1 The student must understand the expected patterns of children's and young people's development, in infancy, early childhood, middle childhood and adolescence, in the following areas:

- cognitive:
 - information processing
 - o memory
 - \circ problem solving
 - o sensory perception
- physical:
 - o gross motor skills:
 - involving large movements that involve the whole body
 - o fine motor skills:

- involving smaller, more skilful movements to control the body more precisely
- o bodily changes as a result of puberty
- social and emotional:
 - o bonding and attachments
 - o expressing feelings
 - o following instructions
 - o co-operation
 - o self-control
 - o self-concept
 - o friendships/peer groups

7.2 The student must understand the key concepts of attachment theory and how early attachments influence adult relationships, with reference to the following theorists:

- Bowlby key concepts:
 - o innate attachment to one figure
 - o maternal deprivation
 - o internal working model
- Ainsworth key concepts:
 - o the Strange Situation
 - o attachment styles:
 - secure
 - insecure avoidant
 - insecure ambivalent
 - disorganised-disoriented (identified later)
- Rutter key concepts:
 - o distinction between privation and deprivation (privation is far more detrimental than deprivation)
- Schaffer and Emerson key concepts:
 - babies are more likely to form attachments with carers who are responsive and sensitive, rather than those with whom they spend the most time
 - o 4 stages of developmental progress:
 - asocial stage (0 to 6 weeks): babies show no bias towards a particular individual but prefer human-like stimuli, such as dolls

- indiscriminate attachments (6 weeks to 6 months): babies are more sociable and can tell individuals apart but do not form strong attachments; they do not demonstrate a fear of strangers
- specific (7 months+): babies show signs of separation anxiety when their primary attachment figure leaves; begins to demonstrate a fear of strangers
- multiple (10/11 months+): infants form multiple attachments, such as grandparents, friends, childminders/nursery practitioners

The student must understand the strengths and limitations of these theories and how they influence practice.

7.3 The student must understand the differences between receptive and expressive language:

Receptive language

The student must understand the definition of receptive language as the ability to comprehend or understand what is being said.

Expressive language

The student must understand the definition of expressive language as the ability to use vocabulary and form sentences to express meaning.

The student must understand the key concepts of the following theories in relation to children's and young people's language development:

- Chomsky:
 - language acquisition device (LAD)
- Piaget:
 - o children develop their understanding of language through mental 'schemas'
 - o logical thinking and language development through distinct stages:
 - sensorimotor stage
 - preoperational stage
 - concrete operational stage
 - formal operational stage
- Bruner:
 - language acquisition support system (LASS)
- Vygotsky:
 - o language is developed through social interactions
- Skinner:
 - o language is developed through environmental influences and positive reinforcement

The student must understand the strengths and limitations of these theories.

7.4 The student must understand how practitioners, parents, carers and other professionals can promote language development at different ages, including all items below but not limited to:

- 0 to 2 years:
 - o sharing nursery rhymes
 - o using repetitive language
 - o giving simple instructions
 - o maintaining appropriate eye contact
 - using visual aids (toys and puppets)
 - o using simple picture books (even babies will enjoy turn taking)
 - o listening and tuning in to children's communication
 - \circ enjoying turn taking in conversation when interacting with babies
- 2 to 4 years:
 - $\circ~$ sharing books (story sacks and props)
 - o engaging in child-initiated conversation
 - o facilitating circle time
 - o providing a range of role play activities
 - o listening and tuning in to children's communication
- 4 to 7 years:
 - o modelling correct use of language, tone and expression
 - o engaging in paired reading activity
 - o encouraging descriptive language
 - o planning literacy activities and word games
 - o listening and tuning in to children's communication
- 7 to 11 years:
 - o providing opportunities for creative writing
 - o introducing a wide range of texts
 - facilitating group discussion
 - o introducing new vocabulary through spelling and definitions
 - o listening and tuning in to children's communication
- 11 to 19 years:

- o involving children and young people in discussions and debates, in small and large groups
- o facilitating individual and group presentations
- o modelling professional vocabulary
- o encouraging sophisticated vocabulary through wider research and reading
- o listening and tuning in to children's communication
- 7.5 The student must understand how children and young people develop friendships from infancy through to adolescence, with reference to Robert Selman's 5-level framework for understanding developmental trends in children's friendships:
 - Level 0 Friendship Momentary Playmates
 - Level 1 Friendship One-Way Assistance
 - Level 2 Friendship Two-Way, Fair Weather Co-operation
 - Level 3 Friendship Intimate, Mutually Shared Relationships
 - Level 4 Friendship Mature Friendship

The student must understand the key concepts of Henri Tajfel's and John Turner's social identity theory:

- in-group (us) vs out-group (them)
- the three stages of social identity:
 - o categorisation
 - \circ identification
 - o comparison

The student must understand how friendships can positively impact:

- mental health
- resilience
- social skills
- children and young people with SEND
- self-esteem/confidence
- self-concept

7.6 The student must understand the difference between expected and unexpected transitions, and how these may affect children and young people in positive or negative ways:

- expected transitions, including all items below but not limited to:
 - o transition from home to childcare
 - o movement between school years or between school, FE or HE

- o adolescent transition and body changes
- o gender transition
- o changes in relationships
- o post-school decisions
- unexpected transitions, including all items below but not limited to:
 - o moving house or location
 - \circ illness
 - o change of employment
 - o change to family structure
 - o pregnancy
 - \circ bereavement

The student must understand how practitioners use a range of strategies to prepare and support children and young people through transitions, including all items below but not limited to:

- providing accurate and current information to the child or young person
- giving opportunities to discuss feelings and ask questions
- involving individuals in their own transition planning
- using school-readiness strategies
- following settling-in policies and procedures
- · implementing support through a buddy system, counsellor, mentor or learning support assistant
- · liaising with parents/carers and other professionals
- referring individuals for specialist support as appropriate

Element 8: Observation and assessment

What you need to teach

8.1 The student must understand the purpose of national assessments and benchmarks, including all items below but not limited to:

- monitoring and recording children's and young people's achievement
- differentiating between individuals' performance
- promoting standards and confidence in the national curriculum

• supporting the regulation of state-funded education provision

8.2 The student must understand the different purposes of formative and summative assessment:

- formative assessment: frequent, often informal, assessment that is designed to elicit ongoing evidence of children's and young people's progress and attainment, which is used to inform the next steps
- summative assessment: a final assessment, usually occurring at the end of a period of study, which is used to sum up children's and young people's overall level of attainment and to provide data for stakeholders (management teams, parents, Ofsted)

8.3 The student must understand the purpose of accurately observing, recording and reporting on children's and young people's participation, conceptual understanding and progress, including all items below but not limited to:

- identifying developmental progress
- informing feedback
- informing planning for children and young people's next steps
- adhering to policies and procedures relevant to recording information
- maintaining the validity and reliability of information
- enabling interventions
- · sharing information with relevant colleagues, the family and other agencies

8.4 The student must understand the different roles that practitioners play in assessment processes and requirements:

- early years practitioners, including all items below but not limited to:
 - o observe, record and review children's progress
 - o assess children's individual needs
 - o plan activities and support statutory assessments
- teachers/lecturers/teaching assistants, including all items below but not limited to:
 - o monitor children's and young people's understanding and progress
 - o provide targeted feedback to enable children and young people to improve
 - o prepare children and young people for national assessments
- assessors, including all items below but not limited to:
 - o assess individuals' performance/relevant knowledge
 - o ensure that the standards and requirements of the specification are met
- coaches/mentors, including all items below but not limited to:
 - o set and review key performance indicators

- \circ provide support relevant to individual needs such as special exam considerations
- o advise on how to improve individual performance

Element 9: Reflective practice

What you need to teach

9.1 The student must understand the key concepts of the following models of reflection:

- Kolb's Experiential Learning Cycle:
 - 4 stages of reflecting on experience:
 - 1. concrete experience
 - 2. reflective observation of a new experience
 - 3. abstract conceptualisation
 - 4. active experimentation
- Gibbs' Reflective Cycle:
 - o 6 stages of reflecting on experience:
 - 1. description
 - 2. feelings
 - 3. evaluation
 - 4. analysis
 - 5. conclusion
 - 6. action plan
- Boud, Keogh and Walker's model:
 - 3 stages of reflecting on practice:
 - 1. experience
 - 2. reflective process
 - 3. outcomes

The student must understand how reflective models can be applied in practice.

9.2 The student must understand the following current priorities and debates in education:

- education reform, including all items below but not limited to:
 - o the impact of national curriculum reforms

- o the pros and cons of selective education
- o high-stakes accountability, via Ofsted, and its effect on staff and children
- how education is funded in England (schools, FE and HE)
- national assessments, including all items below but not limited to:
 - o the arguments for and against national curriculum tests
 - o the advantages and disadvantages of GCSEs versus IGCSEs
- technology and education, including all items below but not limited to:
 - o the pros and cons of technology in classrooms
 - o the opportunities offered by blended learning
- children's and young people's health and wellbeing, including all items below but not limited to:
 - o the impact of exam stress on children's and young people's health and wellbeing
 - o the quality of support for children and young people with SEND

9.3 The student must understand the importance of receiving ongoing developmental feedback, including all items below but not limited to:

- improves performance
- increases motivation
- enhances both personal and professional growth
- provides constructive criticism
- · supports reflective practice to identify developmental needs

The student must understand why practitioners must engage in continuing professional development (CPD), including all items below but not limited to:

- maintaining up-to-date knowledge and skills
- · improving provision and outcomes for children and young people
- adhering to regulatory requirements
- keeping up to date with legislative changes
- ensuring understanding of current priorities, debates and approaches in education
- making meaningful contributions to a team
- improving opportunities for progression and promotion in own role

9.4 The student must understand how practitioners can meet their own developmental needs, including all items below but not limited to:

• self-directed learning, reading and research

- shadowing and visits to other settings
- external training, workshops, conferences
- appraisal, peer observation, feedback
- setting and reviewing professional goals

Element 10: Equality and diversity

What you need to teach

10.1 The student must understand the basic principles of the following laws, regulations and codes of practice in relation to equality, diversity and human rights:

- United Nations Convention on the Rights of the Child 1989
 - 4 general principles:
 - 1. non-discrimination (article 2)
 - 2. best interest of the child (article 3)
 - 3. right to life, survival and development (article 6)
 - 4. right to be heard (article 12)
- Equality Act 2010:
 - o direct discrimination
 - o indirect discrimination
 - o protected characteristics
- Special educational needs and disability code of practice: 0 to 25 years 2015
 - 4 broad areas of need:
 - 1. communication and interaction
 - 2. cognition and learning
 - 3. social, emotional and mental health
 - 4. sensory and/or physical
 - o the graduated approach
- UK General Data Protection Regulation (UK GDPR)
 - o maintaining confidentiality and sharing information as appropriate

10.2 The student must understand the links between legal requirements and organisational policies and procedures relating to equality, diversity, discrimination, confidentiality and the rights of children and young people, including all items below but not limited to:

- inclusion policy
- confidentiality policy
- accessibility policy
- partnership working sharing information
- admissions policy
- special educational needs (SEN) policy
- safeguarding policy

10.3 The student must understand why it is important to promote equality, diversity and inclusion, including all items below but not limited to:

- complying with legal responsibilities (Equality Act 2010)
- preventing discrimination
- ensuring equality of opportunity
- meeting individual needs and ensuring accessibility for all
- · appreciating and celebrating differences and valuing diversity
- recognising and valuing different family circumstances and cultures
- ensuring dignity and respect for all

10.4 The student must understand the consequences of labelling children and young people, including all items below but not limited to:

- causing the individual to feel stigmatised, which can lead to social, emotional and mental health issues
- changing how others view the individual, particularly if they have a negative or limited understanding of a need or disability
- establishing a set of limits associated with that label, which may lead to practitioners offering the individual limited opportunities
- placing a burden of guilt or 'blame' on the individual's parents/carers

The student must understand why it is important to have high and realistic expectations for children and young people, including all items below but not limited to:

- encouraging independence
- increasing motivation and confidence
- improving academic outcomes

• creating a culture of achievement, regardless of ability

10.5 The student must understand the impact of a range of barriers to children's and young people's participation, including all items below but not limited to:

- physical accessibility
- mental health issues
- attitudes and expectations
- curriculum
- family background
- socio-economic

The student must understand how practitioners can use strategies to overcome barriers to children's and young people's participation, including all items below but not limited to:

- training to understand inclusion
- partnership working, including supporting children's and young people's psychological wellbeing
- adaptations to the physical environment
- providing accessible curriculum/assessment
- · reviewing equality, diversity and inclusion policies
- providing information to children and young people about available financial support
- supporting children and young people through transitions

Element 11: Special educational needs and disability (SEND)

What you need to teach

11.1 The student must understand the statutory duties and responsibilities of practitioners supporting children and young people with SEND in relation to the following guidance:

- SEND: guide for early years settings
- SEND: guide for schools and alternative provision settings
- further education: guide to the 0 to 25 SEND code of practice

The student must understand the links between these guidance documents, the Children and Families Act 2014 and the Special educational needs and disability code of practice: 0 to 25 years 2015.

The student must understand the purpose of a range of organisational policies and procedures that support children and young people with SEND, including all items below but not limited to:

- SEND policy
- equality policy
- accessibility policy
- alternative provision policy
- anti-bullying policy
- behaviour policy
- medical needs policy
- teaching and learning policy
- complaints policy

The student must understand the available support in early years provision, schools and colleges for young people with SEND:

- 0 to 5 years, including all items below but not limited to:
 - \circ a written progress check when a child is 2 years old
 - \circ a child-health visitor carrying out a health check for a child if they are aged 2 to 3
 - o a written assessment in the summer term of a child's first year of primary school
 - o reasonable adjustments for children with disabilities
- 5 to 15 years, including all items below but not limited to:
 - o a special learning programme
 - o extra help from a teacher, teaching assistant or mental health lead
 - o opportunities to work in smaller groups or other areas of the school
 - o observation in class or at break
 - help taking part in class activities
 - o extra encouragement in their learning (for example, to ask questions or to try something they find difficult)
 - o help communicating with other children or young people
 - support with physical or personal care difficulties (for example, eating, getting around school safely or using the toilet)
- Early Help Assessment (EHA):
 - EHAs provide a means of putting in place early support in partnership with relevant professionals as soon as issues arise
 - o EHAs can be used from early years through school years
- education, health and care plan (EHCP), including all items below but not limited to:

- EHCPs are intended to support children and young people with complex needs that fall outside of SEND provision provided by early years provision, schools or colleges
- o a parent/carer can request an EHCP if they think it is appropriate for their child
- o a young person can request an assessment themselves if they are aged 16 to 25

11.2 The student must understand how the following professionals and organisations support children and young people with SEND, including all items below but not limited to:

- teachers
- educational psychologists
- medical practitioners

The student must understand the role of a multi-agency team in providing integrated support for children and young people with SEND.

11.3 The student must understand the principles of integration, equity and inclusion, and the differences between them:

- principles of integration, including all items below but not limited to:
 - children and young people with special educational needs (SEN) or disabilities require separate support and extra resources to access the existing curriculum
 - o children's and young people's' success depends on their ability to adapt to the learning environment
 - o extra adaptations and support within the learning environment should benefit only those with SEN
- principles of equity, including all items below but not limited to:
 - \circ the educator should understand their own culture, personal values and biases
 - o partnerships with parents should be strong with shared aspirations for children and young people
 - the curriculum is fair, and children's holistic development needs are well planned for (including health, and social and emotional development)
 - o social cohesion is promoted and children learn to connect with each other
- principles of inclusion, including all items below but not limited to:
 - o a curriculum should offer all students equal rights, access and choices
 - o the learning environment should change to support each child or young person's success
 - o extra adaptations and support within the learning environment should benefit everyone

11.4 The student must understand appropriate terminology to use when discussing the needs of children and young people with SEND, including all items below but not limited to:

- referring to 'a person with a disability', rather than 'a disabled person', which places the emphasis on the individual
- avoiding phrases such as 'suffers from', which implies discomfort, pain or despair
- avoiding language that implies that individuals are victims 'confined to a wheelchair' should be 'wheelchair user'
- avoiding colloquial language to describe a disability or medical condition 'fits' or 'spells' should be 'seizures'

The student must understand why practitioners must use appropriate terminology when discussing the needs of children and young people with SEND, including all items below but not limited to:

- complying with organisational policies
- avoiding stereotyping/labelling
- valuing and respecting individuals
- maintaining professionalism

11.5 The student must understand the difference between the medical and social models of disability, with reference to examples of how the social model has changed access and participation for people with disabilities.

11.6 The student must understand how a primary disability might affect children's and young people's development:

- social and emotional development, including all items below but not limited to:
 - o impulse control
 - o language development
 - \circ $\,$ mood and emotion $\,$
- physical development, including all items below but not limited to:
 - attention and concentration
 - o memory
 - sensory processing
 - o motor control

11.7 The student must understand a range of cognitive skills necessary for effective educational development, and how single or multiple disabilities might affect these, including all items below but not limited to:

attention

- memory, short- and long-term
- perception
- logic and reasoning
- auditory processing
- visual processing

11.8 The student must understand how cognitive difficulties may have an impact on language, communication and educational development, including all items below but not limited to:

- reading, writing and comprehension
- mathematical skills and concepts
- vocabulary and communication skills
- attention span
- co-ordination skills
- logical reasoning
- memory and building on prior knowledge

11.9 The student must understand how a chronic condition may affect children's and young people's emotions, education, behaviour and quality of life.

Chronic conditions, including all items below but not limited to:

- muscular dystrophy
- epilepsy
- severe allergies
- cystic fibrosis
- depression
- fragile X syndrome
- sickle cell disease
- diabetes

11.10 The student must understand how adults can remove barriers in order to empower and value children and young people, depending on their specific learning difficulty, medical condition or disability, including all items below but not limited to:

- creating an accessible and secure environment
- promoting value and respect
- involving the individual in planning their own learning and health care needs

- providing context and relevance to learning
- using enabling language
- · working with the family and other professionals
- implementing the setting's policies and procedures

11.11 The student must understand when and how speech can be supplemented or replaced by augmentative and alternative communication (AAC), including all items below but not limited to:

- no-tech communication:
 - o body language, pointing, objects of reference, vocalisations, signing, communication partner
- low-tech communication systems:
 - o pen and paper, communication through pictures, photographs, symbols
- high-tech communication systems:
 - o mobile devices, laptops, tablets, speech synthesis, eye-tracking devices

Element 12: English as an additional language (EAL)

What you need to teach

12.1 The student must understand the characteristics of the five stages of acquiring an additional language:

- silent/receptive stage
- early production
- speech emergence
- intermediate fluency
- continued language development/advanced fluency

12.2 The student must understand how a range of factors might affect language acquisition, including all items below but not limited to:

- age and development stage
- personality
- cognition
- bilingualism
- cultural background
- special educational needs (SEN) or disabilities

- the learning environment
- available support

12.3 The student must understand how a child's or young person's home language affects their education and development, including all items below but not limited to:

- their understanding of language overall
- their family connections and support network
- their self-concept
- their social interactions and relationships
- how they learn a curriculum
- their acquisition of additional languages

12.4 The student must understand the communication, social and emotional needs of children and young people being taught EAL:

- communication needs, including all items below but not limited to:
 - o children and young people may be more proficient in spoken than written English
 - o children and young people may have difficulty understanding the curriculum
 - o children and young people may have difficulty accessing resources in English
 - o children and young people may have difficulty responding to questions in English
- social and emotional needs, including all items below but not limited to:
 - children and young people may be affected by negative attitudes towards their culture, language, ethnicity and religion
 - \circ $\,$ children and young people may feel isolated from their peers
- children and young people may not have support available at home to develop EAL

12.5 The student must understand how practitioners can use a range of strategies to support children and young people being taught EAL, including all items below but not limited to:

- using EAL specialist support
- encouraging peer and group support
- making the verbal curriculum more visual
- providing opportunities to talk before writing
- using drama and role play
- scaffolding learning
- creating language-rich environments

- providing bilingual resources
- working in partnership with parents/carers
- celebrating an individual's culture
- positive outcomes of multilingualism

Core skills

The employer set project (ESP) requires that students apply and contextualise core knowledge through the demonstration of the following core skills. Parameters have been provided for each skill in order to define what students must be able to demonstrate to fully satisfy the requirements of the ESP.

CS1: Communicate information clearly to engage children and young people, for example to stimulate discussion and to secure understanding

What you need to teach:

The student must be able to communicate information clearly to engage children and young people by:

- ensuring that communication is age-appropriate:
 - young children respond to simple, descriptive language, with an emphasis on rhymes, songs and repetition
 - older children and young people respond to jokes and illustrative stories or examples that encourage them to test their own values and critical thinking skills
 - o explaining technical information to a non-technical audience
 - o using verbal and non-verbal cues
- encouraging and modelling interaction:
 - \circ asking direct questions, giving enough time for responses, and valuing all answers
 - inviting children and young people to express their own ideas through discussion, interactive activities or creative tasks
 - o encouraging a dialogue through oral and written formative feedback
 - o encouraging children and young people to teach each other
 - o providing active and constructive contribution (sustained shared thinking)
- using positive language:
 - o helping children and young people to focus on strengths, rather than disadvantages
 - o using praise and constructive feedback to build confidence as well as competence
 - o modelling language that celebrates diversity
 - o adapting contributions to meet the needs of the children and young people

Adapted from Unicef's Communicating with Children: Principles and Practices to Nurture, Inspire, Excite, Educate and Heal.

GEC1 – convey technical information to different audiences

As part of core skill 1 the student must be able to clearly and effectively give verbal feedback that supports children's and young people's educational development, taking into account the different technical language used and purpose of the interaction. They should be able to ask and respond to questions that may arise to check for understanding.

GEC6 – take part in/lead discussions

As part of core skill 1 the student must be able to listen actively to others, making relevant and constructive contributions. They should ask and respond to questions for clarification, adopting an appropriate tone of voice and paying attention to non-verbal cues. They should adapt contributions to discussions to suit the audience and purpose, and provide written feedback or information using correct spelling, punctuation and grammar.

CS2: Work with others to plan and provide activities to meet children and young people's needs

What you need to teach:

The student must be able to work with others to plan and provide activities to meet children's and young people's needs, including all items below but not limited to:

- communicating openly and effectively with other professionals, speaking clearly and confidently:
 - o establishing professional relationships with relevant colleagues and parents/carers
 - o determining a child's or young person's specific needs
 - o passing on information that could impact on other teams/professionals
 - o sharing ideas and best practice
- planning collaboratively:
 - o liaising with colleagues to plan appropriate activities for children and young people
 - discussing how to best support children and young people in meeting objectives, taking into account their individual needs, using appropriate grammar and terminology
 - o contributing to long-, medium- and short-term planning
 - o sharing resources
 - o presenting information in an organised and logical way
- supporting education in the setting:
 - o using high expectations and encouragement to create a positive learning environment
 - o managing behaviour effectively and in line with the setting's policies and procedures

- o monitoring education activities through observation and assessment
- contributing to effective record-keeping, using precise terminology and correct spelling, punctuation and grammar.

GEC2 - present information and ideas

As part of core skill 2 the student must be able to speak clearly and confidently using an appropriate tone and register that reflects the audience and purpose, using appropriate grammar and choice of words in oral speech.

GEC3 – create texts for different purposes and audiences

As part of core skill 2 the student must be able to organise ideas and information logically and coherently to suit the length and purpose of the writing, reflecting the type of communication and purpose. They should be able to draft standard technical documents using precise terminology and correct spelling, punctuation and grammar.

GEC5 – synthesise information

As part of core skill 2 the student must be able to draw together relevant information and present it in a logical and organised way, for example, as part of planning materials or other documentation that is shared between professionals.

GMC2 – estimating, calculating and error spotting, and GMC9 – costing a project

As part of core skill 2 the student must be able to carry out simple calculations as part of the planning for or costing of activities.

CS3: Use formative and summative assessment to monitor children and students' progress to plan and shape educational opportunities

What you need to teach:

The student must be able to use formative and summative assessment to monitor children's and young people's progress to plan and shape educational opportunities, including all items below but not limited to:

- establishing learning goals for/with the child or young person
- observing the child or young person and recording data on their progress, as appropriate
- using questions and answers or formal tasks to check the child's or young person's understanding
- analysing assessment data to determine the next steps in supporting the child or young person to meet their goals

GEC1 – convey technical information to different audiences

As part of core skill 3 the student must be able to ask and respond to questions to check understanding. The student must be able to establish learning goals logically and coherently for/with the child or young person.

GEC3 – create texts for different purposes and audiences

As part of core skill 3 the student must use a variety of media to monitor and record children's and young people's progress, providing the appropriate level of detail to reflect the audience and purpose.

GDC1 – use digital technology and media effectively

As part of core skill 3 the student must be able to use appropriate technology and media to monitor children's and young people's progress.

GDC4 – process and analyse numerical data

As part of core skill 3 the student must be able to accurately process and interpret formative and summative assessment data in order to shape educational opportunities.

GMC7 - interpreting and representing with mathematical diagrams

As part of core skill 3 the student must be able to interpret and represent data in the form of graphs or charts, with respect to formative and summative assessment data that monitor children's and young people's progress.

CS4: How to assess and manage risks to your own and others' safety when planning activities

What you need to teach:

The student must be able to assess and manage risks to their own and others' safety when planning activities, using the Health and Safety Executive's Five Steps to Risk Assessment:

- Step 1: Identifying the hazards
- Step 2: Deciding who might be harmed and how
- Step 3: Evaluating the risks and deciding on precautions
- Step 4: Recording your findings and implementing them
- Step 5: Reviewing your assessment and updating if necessary

GEC3 – create texts for different purposes and audiences

As part of core skill 4 the student must be able to populate a risk assessment document, presenting information clearly, concisely and in the appropriate style. The level of detail must be appropriate to the audience and purpose to ensure understanding and minimise risks.

GMC10 – optimising work processes

As part of core skill 4 the student must be able to make assumptions about risks to own and others' safety, identifying key factors that will be taken into account. The student must develop appropriate precautions to minimise risk and record the information in an appropriate format.

Occupational specialism (OS) – Early Years Educator

Knowledge and skills are set out side-by-side within their themed sections. The numbering is sequential throughout the performance outcome (PO), from the first knowledge statement, following on through the skills statements. The 'K' and 'S' indicate whether the statement belongs to knowledge or skills.

Mandatory content

PO1: Support and promote children's play, development and early education

PO2: Develop relationships with children to facilitate their development

PO3: Plan, provide and review care, play and educational opportunities to enable children to progress

PO4: Safeguard and promote the health, safety and wellbeing of children

PO5: Work in partnership with colleagues, parents, carers and other professionals to support children's development

Knowledge – What you need to teach	Skills – What you need to teach
 K1.1 The student must understand the expected patterns of children's development from birth to 7 years: cognitive, neurological and brain development: 0 to 12 months, including all items below but not 	S1.21 The student must be able to apply pedagogical strategies to plan educational activities, which include play, in line with the development areas of the early education curriculum requirements, including all items below but not limited to:
 limited to: ability to focus on close objects becoming aware of physical sensations such as hunger and thirst increasing interest in the environment and plays with objects by the age of 12 months, an average child's brain is already more than 70% of adult volume 1 to 2 years, including all items below but not limited to: understands and responds to simple instructions from others can identify familiar objects in books are able to remember and repeat past events connections are rapidly forming in the child's brain, roughly twice as fast as in adults 2 to 3 years, including all items below but not limited to: can categorise objects can name familiar objects in books ability to sort blocks from the smallest to largest 	 incorporating children's likes and interests into the planning and provision providing group activities to support learning through peer support facilitating role play opportunities to motivate children and embed learning flexibility in structured activities in order to harness spontaneous education providing a balance of adult-led and child- initiated play and learning reflective practice to ensure continuous improvement in professional skills to plan and lead/facilitate educational activities The student must be able to apply pedagogical strategies to lead/facilitate educational activities, including all items below but not limited to: modelling to demonstrate skills building on children's previous knowledge to consolidate learning incorporating peer support and collaborative learning allowing children time to complete tasks incorporating children's thoughts and ideas into
 3 to 5 years, including all items below but not limited to: ability to organise objects by size, shape and colour 	 the flow of the activity demonstrating a positive attitude towards learning supporting metacognitive strategies to promote educational achievement giving ongoing encouragement and praise

PO1: Support and promote children's play, development and early education

owledge – What you need to teach	Skills – What you need to teach
 increasingly curious and asks questions to gather information 	(GEC6
 understands the concept of past and present 	As part of S1.21 the student must be able to:
 from 3, a child's brain enters a phase of 'synaptic pruning', where networks in the 	 listen actively to children's thoughts and ideas in order to incorporate these into the educational activity
 brain are refined 5 to 7 years, including all items below but not limited to: 	make relevant and constructive contributions to move the activity forward
 understands the concepts of space, time and 	ask and respond to children's questions to support clarification of the activity
dimensionscan carry out simple addition and subtraction	encourage contributions from all children during the activity
 beginning to reason and debate with others 	adopt appropriate tone of voice and pay attentio
speech, language and communication development:	to non-verbal cues
 0 to 12 months, including all items below but not limited to: 	S1.22 The student must be able to support non- cognitive skills of perseverance, self-reliance, resilience and curiosity within the areas of
 demonstrates needs through different cries 	learning and development, including all items
 turns towards sounds 	below but not limited to:
 beginning to smile and coo in response to stimulus 	 selecting resources that encourage independence
 babbles and vocalises to communicate with others 	 providing support and also knowing when to allow the child to take the lead
\circ 1 to 2 years, including all items below but not	ensuring stretch and challenge
limited to:babble begins to resemble words	 including children's interests to support enhance curiosity and perseverance
 first words are spoken 	S1.23 The student must be able to develop and
 understands between 200 and 500 words 	extend children's education and thinking, including all items below but not limited to:
 2 to 3 years, including all items below but not limited to: 	 creating opportunities for sustained shared thinking
 can understand simple 'who' 'what' and 'where' questions 	incorporating scaffolding
 starting to use action words as well as nouns 	ensuring differentiation
 can put 4 or 5 words together to form short sentences 	using open-ended questioningencouraging group discussion

Knowledge – What you need to teach	Skills – What you need to teach
 3 to 5 years, including all items below but not limited to: 	creating opportunities for collaborative problem solving
 can take turns in longer conversations 	S1.24 The student must be able to select resources and equipment that:
 understands words that describe sequences including 'first, next, last' 	support children's holistic development
 more interested in the meaning of words 	• relate to children's individual needs and interests
 5 to 7 years, including all items below but not limited to: 	are age- and stage-appropriate
 using knowledge and skills to read, write and 	enhance experiences and opportunities and widen children's cultural capital
 spell understands that the same word can mean two different things son use lenguage for a range of purposes in a 	S1.25 The student must be able to support and promote children's speech, language and communication, including all items below but not limited to:
 can use language for a range of purposes in a range of social situations 	 using visual aids and signs in the environment
physical development:	using bilingual resources
 0 to 12 months, including all items below but not limited to: 	modelling language
 reflex grasp 	 using appropriate questioning techniques for age and stage
 rolls over 	instigating high-quality, adult-child verbal
 uses first finger to point at objects 	interactions
 1 to 2 years, including all items below but not limited to: 	using songs, rhymes and storytellingfollowing children's leads and giving children time
 can build a tower using three bricks 	to respond
 can run and stop without knocking into objects 	using an interpreter
in the environment	1:1 support
 walks down steps one step at a time 	S1.26 The student must be able to promote
 2 to 3 years, including all items below but not limited to: 	equality of opportunity and anti-discriminatory practice, including all items below but not limited
 draws circles and horizontal and vertical lines walks up and down steps and can jump from the lowest steps 	 to: ensuring individual needs and interests are considered in planning and provision celebrating diversity of culture and family
 can stand and walk on tiptoe 	backgrounds within the setting
 3 to 5 years, including all items below but not limited to: 	 partnership working with parents/carers and other professionals

Knowledge – What you need to teach	Skills – What you need to teach
 can use scissors to cut across a line 	modelling appropriate behaviour
 can balance on one foot 	providing appropriate resources and adapting as
 uses alternate feet when walking up and 	necessary
 down steps 5 to 7 years, including all items below but not limited to: 	S1.27 The student must be able to promote children's enjoyment of literature through, including all items below but not limited to:
 can colour within the lines of a picture 	story time
 can walk backwards quickly 	giving opportunities to read and write poetry
 uses co-ordinated movements for climbing, 	 assisting on visits to the library
swimming and riding a bike	The student must be able to promote children's
• personal, social and emotional development:	enjoyment of mathematics, including all items below but not limited to:
 0 to 12 months, including all items below but not limited to: 	making mathematics accessible and engaging
 starts to focus on familiar faces and smile 	using gamification/puzzles/problems
 begins to cry when play ceases 	 sharing familiar rhymes and songs
 may self-soothe by sucking fingers or rocking 	S1.28 The student must be able to present stories, rhymes and books in ways that are engaging for
 1 to 2 years, including all items below but not limited to: 	young children, including all items below but not limited to:
 beginning to empathise with another person's distress by showing own distress 	 using props when presenting stories, books and rhymes
 shows affection to familiar family members and friends 	 selecting books appropriate to age, stage and interests
 starting to experience anxiety when separate 	 sharing familiar rhymes and songs
from primary carers	using expressive language and/or actions
 2 to 3 years, including all items below but not limited to: 	giving children choice
 engages in parallel play 	contributing to an enabling environment
 shows kindness and compassion 	 stimulating imagination and anticipation
spontaneously towards others	S1.29 The student must be able to implement a
 shows increasing independence 	range of pedagogical strategies to support children's early literacy skills, including all items
 3 to 5 years, including all items below but not limited to: 	below but not limited to:
 starting to verbalise a range of feelings 	 story writing – introducing new words into the vocabulary, comprehension skills within a creative context

Knowledge – What you need to teach	Skills – What you need to teach
 separates from primary carers more easily expresses likes and dislikes 5 to 7 years, including all items below but not 	 guided reading – scaffolding new words, practising existing words, breaking down words and sounding them out, recognising tone
 limited to: beginning to feel self-conscious and embarrassed can co-operate in deciding rules to games ability to communicate with others freely and without prompts from adults K1.2 The student must understand how a range of biological and environmental factors may impact on children's learning and development: biological factors, including all items below but not 	 role play – devising role play themes and selecting appropriate resources to engage children in literacy development during play home reading journals – providing reading journals and following up to check the reading has taken place systemic synthetic phonics – encouraging sound recognition and linking sounds with letters songs and nursery rhymes – leading on songs to expose children to new words and rhyme to consolidate the use of words
 limited to: physical and mental health SEND stage of development 	S1.30 The student must be able to demonstrate flexibility during planned activities by acting on unplanned opportunities to develop children's mathematical understanding, including all items below but not limited to:
 environmental factors, including all items below but not limited to: access to play spaces and the outdoor environment 	 making links to previous learning consolidating understanding developing and extending knowledge
 financial parental/guardian/family support care status interpersonal relationships 	S1.31 The student must be able to use observational assessments to identify children's mathematical skills and foster these skills through play and structured opportunities, including all items below but not limited to:
 early attachment SEND K1.3 The student must understand how the following 	 explaining and emphasising the correct use of mathematical vocabulary supporting children to understand and follow instructions
 areas of children's development can impact on holistic development within play and early education: speech, language and communication, including all items below but not limited to: 	 questioning and prompting children supporting children to select and use appropriate mathematical resources consolidating children's learning by providing extension tasks

Knowledge – What you need to teach	Skills – What you need to teach
 how this enables children to form bonds and build relationships with others how this enables children to express their needs and interests and have them met 	 using differentiation and personalised learning S1.32 The student must be able to analyse and evaluate the key aspects of the theoretical and philosophical approaches that relate to current
 how verbal communication supports children's early writing skills personal, social and emotional development, including all items below but not limited to: how this supports children to regulate own emotions and behaviour to effectively adapt to settings' rules and routines how this supports children's confidence and selfesteem to co-operate and play with others 	 play provision. Theoretical and philosophical approaches, including all items below but not limited to: Janet Moyles – Spiral of Play Elinor Goldschmied – Heuristic play Tina Bruce – Features of free-flow play Maria Montessori – Self-directed play Forest schools – Risk and challenge
 how social and emotional skills impact on children's school readiness physical development, including all items below but not limited to: 	 High scope – active learning in the natural environment Margaret McMillan – Outdoor play for health and wellbeing
 how physical abilities can impact on increased motivation in children's play, learning and development 	Rudolf Steiner – Creativity and expression (GEC5)
 how the development of fine and gross motor skills impacts on children's ability to access the environment and activities and supports natural curiosity 	As part of S1.32 the student must be able to read, understand and synthesise information from different theoretical and philosophical approaches to inform play provision.
 how self-efficacy in dressing and feeding supports children's confidence and self-esteem through personal achievement 	S1.33 The student must be able to provide prompts and cues to stimulate play and extend children's learning experiences, including all items below but not limited to:
 cognitive development, including all items below but not limited to: 	directed questioninginvolvement of the adult where appropriate (for
 how children's cognitive abilities can impact on mastery and competence in speech, language and communication 	 involvement of the addit where appropriate (for example, understanding when to intervene to extend learning) inviting other children into the play
 how problem-solving skills support children in developing physical self-care skills how understanding concepts enables children to establish and maintain emotional intelligence 	 Inviting other children into the play providing suggestions and ideas to move the play along

Knowledge – What you need to teach	Skills – What you need to teach
K1.4 The student must understand the difference between speech and language as follows:	S1.34 The student must be able to facilitate care, education and play outside of the setting, including all items below but not limited to:
 speech refers to: accurately forming and saying sounds 	 providing learning and play opportunities in line
 putting the correct sounds in the correct place 	with the learning and development requirements of the early years curriculum
 within a word speaking with expression using clear pitch, tone 	 providing supervision in line with setting policies and procedures
and intonation	carrying out risk assessments
 language refers to: communicating meaning through words 	 ensuring children have appropriate clothing for the outdoor conditions
 joining words together in the correct order to build sentences and have conversations 	selecting appropriate resources and equipment
 understanding how words are made and changed to convey plurals/past tenses 	S1.35 The student must be able to support children to appreciate the natural environment, including all items below but not limited to:
The student must understand how children develop speech, including all items below but not limited to:	 incorporating the natural environment into planning
 leading conversations and taking part in group conversations 	using natural resources in activities
 speaking confidently, appreciating the significance of oracy 	 ensuring frequent access to the natural environment
 participating in role play with others 	 encouraging discussion on the natural environment
 speaking about ideas and feelings 	
The student must understand how children develop language, including all items below but not limited to:	
 listening to and understanding instructions 	
 asking 'how' and 'why' questions 	
 using joining words when writing and telling stories 	
 using pronouns appropriately 	
K1.5 The student must understand the expected stages of language acquisition between 0 and 3 years and the features of each stage, including all items below but not limited to:	
pre-linguistic stage:	

Knowledge – What you need to teach	Skills – What you need to teach
 babies experimenting with sound, known as babbling 	
holophrastic stage:	
 infants using one-word sentences to make their needs known 	
two-word stage:	
 infants connecting two words together 	
telegraphic stage:	
 sentences containing enough words and structure to make sense 	
The student must understand how a range of biological and environmental factors can affect the speed of acquisition:	
 biological factors, including all items below but not limited to: 	
 hearing/speech or language impairment 	
○ age and stage	
 cognitive abilities and difficulties 	
\circ the child's temperament and personality	
 ear, nose and throat infections 	
 environmental factors, including all items below but not limited to: 	
o use of dummies	
 parental influence/role modelling 	
 language-rich environment/stimulation 	
 home life and support 	
 early stimulation and engagement in talking 	
 bonding/attachment and relationships with others 	
\circ older siblings speaking for the child	
o bilingualism	

Knowledge – What you need to teach	Skills – What you need to teach
K1.6 The student must understand how daily exposure to stories and rhymes supports communication and vocabulary, including all items below but not limited to:	
 introducing sounds and words 	
allowing opportunities for recall	
expanding vocabulary	
K1.7 The student must understand the potential effects and long-term impact on a child's holistic development if atypical development is not recognised. This must include the following areas of development:	
 cognitive development may impact on, including all items below but not limited to: 	
 difficulty in following instructions and participation in group tasks 	
 lack of ability to group and categorise objects required for reading and writing 	
 speech, language and communication development may impact on, including all items below but not limited to: 	
 concentration skills 	
 feelings of and expressions of frustration 	
 personal, social and emotional development may impact on, including all items below but not limited to: 	
 self-regulation and the ability to engage in educational activities 	
 lack of social co-operation required for engagement in play opportunities 	
 physical development may impact on, including all items below but not limited to: 	
 mobility difficulties hindering a child's ability to access educational opportunities 	
 slower or faster rate of physical development affecting a child's self-confidence and self-image 	

Knowledge – What you need to teach	Skills – What you need to teach
The student must understand why practitioners must recognise atypical development as early as possible, including all items below but not limited to:	
 support the best outcomes for children 	
 support a child's individual needs 	
provide early intervention	
ensure tailored planning	
ensure differentiation	
 involve relevant external agencies 	
K1.8 The student must understand the current statutory requirements for the early years foundation stage (EYFS):	
the guiding principles:	
 the learning and development requirements: 	
 the seven areas of learning and development that must be incorporated into a setting's educational provision 	
 the difference between the prime and specific areas of learning 	
 the three characteristics of teaching and learning that must be incorporated into practice: 	
 playing and exploring 	
 active learning 	
 creating and thinking critically 	
 the early learning goals linked to the seven areas of learning and development, which children must meet by the end of reception 	
the assessment requirements:	
\circ the progress check at age 2	
 EYFS profile 	
 the information may be provided to the local authority if requested and should be shared with parents 	
 the legal requirements for safeguarding and welfare: 	

Knowledge – What you need to teach	Skills – What you need to teach
 child protection 	
 suitable people 	
\circ staff qualifications, training, support and skills	
o key person	
 staff:child ratios 	
o health	
 managing behaviour 	
 safety and suitability of premises, environment and equipment 	
 special educational needs (SEN) 	
 information and records 	
The student must understand the statutory requirements for the current key stage 1 national curriculum:	
statutory requirements:	
∘ subjects	
o standards	
tests and assessments:	
o teacher assessments	
 year 1 phonics screening check 	
\circ assessment at the end of the key stage	
The student must understand why practitioners promote diversity, equality and inclusion in early education, including all items below but not limited to:	
 support and include every child to ensure equal opportunities, inclusion and recognising diversity 	
 fulfil legal responsibilities under the Equality Act 2010 (for example, the provisions on reasonable adjustments) 	
 fulfil professional responsibilities and protect the reputation of the early years setting 	
 develop trust and effective partnerships with parents and carers 	

Knowledge – What you need to teach	Skills – What you need to teach
K1.9 The student must understand the links between the early years foundation stage (EYFS) and key stage 1 national curriculum, including all items below but not limited to:	
how play-based learning continues into key stage 1	
 how the areas of learning and development feed into the subjects taught in key stage 1 	
 how the characteristics of learning link to the creative curriculum in key stage 1 	
 the information that is shared with key stage 1 teachers 	
The student must understand what information is shared with key stage 1 teachers, including all items below but not limited to:	
the EYFS profile	
 children's individual development needs and ways of learning 	
K1.10 The student must understand the purpose of a range of pedagogical strategies to support children's development of early literacy, including all items below but not limited to:	
story writing	
guided reading	
 role play and quiet areas with books and writing resources 	
 songs and nursery rhymes 	
 parents/carers should be encouraged to nurture a love of books at home 	
The student must understand the purpose of systematic synthetic phonics to support the teaching of reading.	
K1.11 The student must understand the purpose of a range of strategies to support children's development of early writing skills, including all items below but not limited to:	
 providing equipment and opportunities to encourage early mark making 	

Kn	owledge – What you need to teach	Skills – What you need to teach
•	activities and equipment to develop fine motor skills	
•	involving parents/carers in approaches to support early writing skills	
•	modelling and demonstrating writing	
•	incorporating a range of media (for example, chalks, sand and finger paints)	
•	planning opportunities for shared writing	
•	valuing children's personal/spontaneous attempts at early writing	
rou	12 The student must understand how daily tines, games and stories can be used to support Idren's learning and mathematical understanding:	
•	daily routines can support children to explore concepts of:	
	\circ time – when routine events take place	
	\circ sequencing – the order that routines take	
	 sorting – matching and grouping objects 	
	 prediction – what routine comes next 	
•	games can support children to explore concepts of:	
	 numbers and counting 	
	\circ shape, size and pattern	
	 positional language 	
	\circ weight, volume and capacity	
	 matching and sorting 	
•	stories and rhymes can support children to explore concepts of:	
	 mathematical language 	
	 counting and numerical order 	
	o subtraction	
	o size	
	o spatial awareness	
	◦ capacity	

Knowledge – What you need to teach	Skills – What you need to teach
K1.13 The student must understand the purpose of a range of strategies to promote mathematical thinking and approaches that encourage early reasoning, including all items below but not limited to:	
 using real-world examples and incidental learning to highlight mathematical concepts 	
 using practical everyday tasks to reinforce these concepts 	
 having a language-rich environment that includes mathematical vocabulary 	
 involving parents and carers in mathematical learning 	
 providing appropriate resources and equipment 	
 using a scaffolded approach to the use of mathematical learning 	
K1.14 The student must understand how number enables children to develop mathematical skills, including all items below but not limited to:	
counting confidently	
 developing a deep understanding of the numbers to 10 	
 verbally count beyond 20, recognising the pattern of the counting system 	
 relationships and patterns between numbers 	
K1.15 The student must understand stages of play:	
 unoccupied play (0 to 12 months), including all items below but not limited to: 	
 random movements and gestures 	
 remains in one place 	
 foundation for future play 	
 solitary play (0 to 2 years), including all items below but not limited to: 	
 playing alone 	
 entertaining themselves during play 	

Knowledge – What you need to teach	Skills – What you need to teach
 exploring the environment 	
 onlooker play (18 months to 2.5 years), including all items below but not limited to: 	
 interested in other children's play 	
 observing other children in play 	
\circ playing closely to other children but not joining in	
 parallel play (2 to 3 years), including all items below but not limited to: 	
 choosing similar toys or activities to other children 	
 playing alongside other children 	
 watching and listening to other children's play 	
 associative play (3 to 4 years), including all items below but not limited to: 	
 playing with other children in pairs or groups 	
 choosing the same toys or activities as other children 	
 beginning to engage with others 	
 co-operative play (4 to 5 years plus), including all items below but not limited to: 	
 playing with other children in groups 	
 defining rules of play 	
 beginning to work together and have shared goals 	
Children's holistic development and sense of agency are promoted through the different types of play.	
The student must understand a range of activities associated with different types of play in promoting children's development and sense of agency:	
physical, including all items below but not limited to:	
o hopscotch	
 ball games 	
 bean bags and hoops 	

Knowledge – What you need to teach	Skills – What you need to teach
\circ bead threading	
 large and small block play 	
• creative, including all items below but not limited to:	
o sewing	
∘ collage	
 painting and drawing 	
 imaginative, including all items below but not limited to: 	
∘ role play	
 puppet play 	
 small-world play 	
 sensory, including all items below but not limited to: 	
 slime or foam messy play 	
∘ dough	
\circ sand and water play	
heuristic, including all items below but not limited to:	
 household objects 	
 natural objects 	
 general purpose or recycled objects 	
The student must understand how different types of play activities promote children's areas of development and sense of agency:	
 physical play promotes, including all items below but not limited to: 	
 social and emotional development – by building confidence and improving social skills, allowing for independence and decision making 	
 physical development – by developing gross motor skills, helping to develop co-ordination 	
 creative play promotes, including all items below but not limited to: 	

Г

Knowledge – What you need to teach	Skills – What you need to teach
 cognitive development – by encouraging children to use their imagination as well as promoting memory and concentration skills 	
 social and emotional development – by giving children choices, helping them identify their areas of interest and independently explore 	
 speech and language – by supporting the use of communication and expressive vocabulary 	
• imaginative play promotes, including all items below but not limited to:	
 social and emotional development – by allowing children to experiment with social roles and test boundaries, developing empathy for others and nurturing the imagination 	
 cognitive development – by encouraging problem-solving skills and nurturing the imagination 	
 sensory play, including all items below but not limited to: 	
 cognitive development – by stimulating the senses 	
 physical development – by supporting the development of fine motor skills such as scooping, moulding and shaping 	
 cognitive development – by encouraging children's exploration and investigation 	
 heuristic play, including all items below but not limited to: 	
 cognitive development – by stimulating the senses through sound, touch, smell, colour and shape, promoting early mathematical learning such as size, shape and weight 	
 physical development – by supporting co- ordination and motor skills 	

Knowledge – What you need to teach	Skills – What you need to teach
K1.16 The student must understand what to consider when planning and selecting resources and equipment to support children's play and education, both indoors and outdoors, including all items below but not limited to:	
age- and stage-appropriate	
 health and safety/risk assessments 	
manufacturer's instructions	
weather conditions	
 opportunities for both indoor and outdoor play 	
 resources in good working order, safe and clean 	
diversity and equality	
 needs and interests of individual children 	
The student must understand how the appropriateness of resources will depend on the type of indoor or outdoor play being planned:	
 physical play resources, including all items below but not limited to: 	
 bats and balls 	
o hoops	
 sand and water trays 	
 creative play resources, including all items below but not limited to: 	
 paints, brushes and sponges 	
 modelling clay 	
\circ coloured thread and embroidery material	
 imaginary play resources, including all items below but not limited to: 	
◦ role play props	
o puppets	
o dressing-up clothes	
 sensory play resources, including all items below but not limited to: 	

Knowledge – What you need to teach	Skills – What you need to teach
o messy play	
\circ natural objects form the environment	
 treasure boxes 	
 o foam or bubbles 	
 heuristic play resources, including all items below but not limited to: 	
 range of cardboard boxes 	
 range of brushes 	
 use of the outdoors 	
 range of metal objects 	
K1.17 The student must understand the difference between adult-led and child-initiated play:	
 child-initiated play – play in which children are able to make their own decisions about what and how to play and who to play with 	
 adult-led play – play opportunities and activities that are planned and provided by the adult 	
The student must understand how adults can lead and promote play, including all items below but not limited to:	
 creating a safe and stimulating environment that stimulates imagination 	
 providing play prompts and cues 	
 intervening in play when necessary 	
 providing time, space and resources for play 	
 encouraging children's engagement in play 	
K1.18 The student must understand the benefits of adult-led and child-initiated play:	
 adult-led play, including all items below but not limited to the ability to: 	
$_{\odot}$ target specific areas of children's development	
 introduce new concepts 	
 prompt conversations 	

Knowledge – What you need to teach	Skills – What you need to teach
 create a stimulating and engaging learning environment 	
 respond to children's cues, questions, interests and ideas 	
 to engage in sustained shared thinking to extend children's knowledge and skills 	
\circ extend children's learning through scaffolding	
 child-initiated play, including all items below but not limited to the ability to: 	
 promote choice and agency 	
 allow children to develop and explore own interests 	
 promote control and time management 	
 allow children to practise new skills and develop new understanding 	
 how to offer an appropriate balance of adult-led and child-initiated play, including all items below but not limited to: 	
 ensuring that both adult-led activities and child- initiated play are planned for within the learning environment 	
 ensuring that children have access to resources and equipment that provoke their interest in child- initiated play 	
 offering the appropriate level of support for children to apply their knowledge and skills to different situations and knowing when to step in 	
K1.19 The student must understand how learning outside of the setting, including outdoor education, positively enhances children's education and development, including all items below but not limited to:	
 physical exercise – contributes to overall physical and mental wellbeing 	

Knowledge – What you need to teach	Skills – What you need to teach
 scientific development – contributes to respect for the environment and the natural world, and increases knowledge of animal, plants and lifecycles 	
 improved life skills – contributes to awareness of safety, hazards, risks and challenges and develops a pupil's cognitive, social and emotional skills 	
 independence – opportunities to develop independence, self-confidence and perseverance by overcoming challenges and fears 	
The student must understand where learning outside of the setting may take place, including all items below but not limited to:	
 school grounds and immediate surroundings 	
creative spaces	
the built environment	
heritage sites	
the natural environment	
• farms	
sacred spaces	
K1.20 The student must understand the distinctive qualities offered by the outdoors as an educational environment compared to traditional classroom environments, including all items below but not limited to:	
 greater opportunity for risk and challenge 	
• space	
 animals, plants and lifecycles 	
changing seasons	
changing weather	

Knowledge – What you need to teach	Skills – What you need to teach
 K2.1 The student must understand the different forms of attachment: primary attachments – the close individual with whom the child develops a strong emotional bond, 	 S2.11 The student must be able to develop professional relationships with children, including all items below but not limited to: communicating with children in a positive and
which is usually with the child's main carerssignificant attachments – the wider individuals with	appropriate waymaintaining professional boundaries to foster
whom the child develops a strong bond, which is usually the key person in the setting, siblings, grandparents or family friends	fairness, trust and respectfollowing a setting's policies and procedures in relation to:
 the student must analyse and evaluate the key aspects of attachment theories related to current practice and the key person's role 	 maintaining confidentiality ensuring inclusion and diversity
K2.2 The student must understand the features of secure attachment in children, including all items below but not limited to:	 maintaining health, safety and wellbeing S2.12 The student must be able to promote secure attachments with children, including all items
ability to settle	below but not limited to:
 expresses anxiety when away from primary caregiver 	providing consistent careconsidering the attachment styles children display
returns to primary caregiver for comfort and safety	 being responsive and sensitive to the child's likes,
 ability to show and receive affection 	dislikes, interests, needs
 has trust in others The student must understand how secure attachment 	 considering the age and stage of development related to attachment
	meeting individual needs through care routines
and behaviour, including all items below but not limited to:	appropriate information sharing with parents/carers
 forming and maintaining future relationships 	S2.13 The student must be able to support children's group learning and socialisation,
developing empathy for others	including all items below but not limited to:
 developing the ability to self-regulate 	 providing educational and play opportunities that facilitate paired and group acciplication
 ensuring social and emotional development and security 	facilitate paired and group socialisation, as appropriate to the child's stage of development
 promoting short- and long-term mental health 	modelling positive social skills
ability to take risks	 incorporating the individual needs and backgrounds of children in planning
ability to learn and develop more effectively	

PO2: Develop relationships with children to facilitate their development

Knowledge – What you need to teach	Skills – What you need to teach
K2.3 The student must understand the potential positive and negative effects of a range of transitions and significant events that children may experience, including all items below but are not	S2.14 The student must be able to apply a range of strategies to prepare and support children during transitions and significant life events, including all items below but not limited to:
Imited to:moving to school	 providing information and giving opportunities to ask questions
 moving between settings and carers 	using school-readiness strategies
 starting and moving through day care 	 following settling-in policies and procedures
 birth of a sibling 	 using targeted activities and resources
 moving home 	 implementing a buddy system
 living outside of the home 	 liaising with parents/carers and other professionals
 family breakdown 	S2.15 The student must be able to apply a range of
 loss of significant people/bereavement 	strategies to alleviate separation anxiety, including all items below but not limited to:
• illness	 responding to children's feelings and offering
Potential positive and negative effects include all items	appropriate support
below but are not limited to:anxious, insecure or clingy	 helping the child familiarise themselves with new surroundings
motivated or confident	using distraction and play activities
 regress and demonstrate behaviour that is atypical against the age and stage of development 	 contributing to consistency of care for children during the settling-in process
excited about the new experience or challenge	• working with parents/carers to support children and
 not wanting to engage in education or activities 	families during the settling-in process
K2.4 The student must understand typical behaviours for age and stage of development, to	 contributing during activities that help support the attachment between a key person and a child
inform practice when developing relationships with children:	S2.16 The student must be able to apply a range of strategies to support children to develop self-
 0 to 1-year-olds, typical behaviour includes all items below but is not limited to: 	regulation, including all items below but not limited to:
 inquisitive and starting to explore their environment 	providing a calm, soothing spaceencouraging self-reflection
 developing bonds and trusting relationships with those around them 	using appropriate resources
 prone to clinginess with primary carers, particularly when tired or unwell 	using games (for example, sharing and turn taking)modelling positive behaviour

Knc	wledge – What you need to teach	Skills – What you need to teach
•	1- to 2-year-olds, typical behaviour includes all items below but is not limited to:	 clearly defined boundaries negotiating
	 becoming more self-aware 	using praise
	 becoming more independent from primary carers 	S2.17 The student must be able to encourage children's participation by ensuring a balance
	 exploring the wider environment, including new objects or people 	between adult-led and child-initiated activities, including all items below but not limited to:
	 beginning to show resistant behaviour, particularly when encouraged to do something that they do not want to do 	 ensuring that both adult-led activities and child- initiated play are planned for within the learning environment
	\circ imitating the behaviour of others around them	providing children with easy access to resources
	\circ can be soothed when unhappy or upset	and equipment to provoke their interest in child- initiated play
•	2- to 3-year-olds, typical behaviour includes all items below but is not limited to:	 offering the appropriate level of support for children to apply their knowledge and skills to different
	 pushing more boundaries to explore their autonomy and independence 	situations and knowing when to step back S2.18 The student must be able to encourage
	\circ ability to self-soothe when unhappy or upset	positive behaviours, including independence and
	\circ beginning to control own feelings and impulses	confidence, including all items below but not limited to:
	 more prone to a range of mood changes as they explore feelings 	setting reasonable expectations for age and stage
	o often frustrated when unable to achieve desired	praising perseverance
	goals	 encouraging children to try new things
	 struggling to self-regulate 	• giving children freedom to make their own choices
•	3- to 5-year-olds, typical behaviour includes all items below but is not limited to:	S2.19 The student must be able to model and promote positive behaviours expected of children,
	 growing in independence 	including all items below but not limited to:
	 growing in ability to recognise own feelings and emotions 	 role modelling positive behaviours including respect and courtesy
	\circ better able to regulate/control own feelings and	actively listening
	emotions	encouraging turn taking
	 asking questions to learn more about their environment 	 having plans and routines for the day, including free play
	 showing affection and forming bonds with individuals outside of the family 	planning the environment and available resources

Knowledge – What you need to teach	Skills – What you need to teach
 5- to 7-year-olds, typical behaviour includes all items below but is not limited to: 	S2.20 The student must be able to support children to manage their own behaviour in relation to others, including all items below but not limited to:
 ability to express their thoughts, feelings and desires clearly and with meaning (for example, foods that they like, activities that they do not like) 	 supporting children to deal with conflict effectively and taking time to understand how others may feel actively listening and asking questions to help the
 developing wider social networks during school and outside activities increasing in independence from family members 	child verbalise feelingshelping children to find strategies to manage their emotions and behaviour
 enjoying forming friendships and being accepted by others increasingly able to understand own emotions and aware of the feelings of others around them 	 reassuring children that you are there to support them to manage their own behaviour when needed giving children opportunities to practise sharing and turn taking interacting with children in a way that makes them
 enjoying achievements and the sense of pride that they bring sometimes prone to being self-critical, particularly if they get something wrong or lose 	feel valued and capable S2.21 The student must be able to support children's development of a positive self-concept, including all items below but not limited to:
in a group activity K2.5 The student must understand the implications of the following behavioural signs that a child may display, including all items below but not limited to:	 maintaining realistic expectations of children reacting to children fairly and consistently reacting to children in supportive and encouraging ways
 regression withdrawal 	 celebrating the diversity and individuality of all children
attention seeking	 implementing praise and reward strategies in the setting
antisocial behaviourself-damaging behaviourdistress	 acknowledging the child's age, stage and ability to express themselves and communicate own needs and feelings
acting out of characterdepression and anxiety	
The student must understand approaches to the management of inappropriate behaviour, including all items below but not limited to:	
 involving children in setting rules and boundaries 	

Know	vledge – What you need to teach	Skills – What you need to teach
• (collaborative problem solving	
• ۴	praise, encouragement and use of incentives	
	applying rules fairly and consistently in line with the setting's policies	
• r	nodelling and reinforcing positive behaviour	
• 0	clarifying expectations on an ongoing basis	
	puilding positive relationships and maintaining effective communication	
• €	encouraging self-regulation and co-regulation	
self-r	The student must understand the concept of regulation in children, including all items below not limited to:	
	he ability to manage own thoughts, emotions and behaviour	
• t	he ability to adjust to changing situations	
regul	student must understand the stages of self- ation in babies and children linked to brain ration, including all items below but not limited to:	
• t	pabies:	
C	may suck a dummy or their fingers to self- soothe	
• t	oddlers:	
C	are beginning to understand that they may have to wait to have certain needs met	
• F	pre-school:	
C	begin to recognise what behaviour is required in certain situations (for example, whispering in a library)	
• 5	school-aged children:	
c	are growing in ability to control their own wants and understand the needs that others may have	
• (older school-aged children:	
c	are able to express their emotions and feelings related to situations	

Knowledge – What you need to teach	Skills – What you need to teach
The student must understand how self-regulation supports children's holistic development, including all items below but not limited to:	
 behaviour – children who can self-regulate are able to: 	
 apply reasoning 	
 respond to reasoning 	
 regulate own feelings through a sense of self- worth and increasing confidence 	
 appreciate rules and boundaries and how these apply to games and activities 	
 relationships with others – children who can self- regulate are able to: 	
\circ work well in small or large group activities	
 co-operate effectively with others 	
 education – children who can self-regulate are able to: 	
\circ transition successfully to the early years setting	
 concentrate well during learning experiences and tasks 	
 block out or ignore distractions 	
 retain information in order to carry out instructions and complete a task 	
K2.7 The student must understand factors affecting children's behaviour, including all items below but not limited to:	
• tiredness	
• hunger	
• stress	
changes to routine	
attachment and emotional security	
planned or unplanned transition	
safeguarding needs	

Kn	owledge – What you need to teach	Skills – What you need to teach
ef	2.8 The student must understand how children's fective and ineffective communication skills may apact on relationships with others:	
•	a child who can communicate effectively can, including all items below but not limited to:	
	 express own needs, interests and opinions 	
	 feel heard and understood by others 	
	 develop a rapport with peers and adults 	
	 know what is expected of them and co-operate with others 	
•	a child who has ineffective communication skills may, including all items below but not limited to:	
	o feel unheard or misunderstood	
	\circ $$ experience frustration with self and others	
	\circ have difficulty bonding with peers and adults	
	 display behaviour that could be interpreted as inappropriate 	
and	e student must understand how a range of biological d environmental factors can affect the development communication and speech:	
•	biological factors, including all items below but not limited to:	
	 health – illness 	
	 personality traits – motivation 	
	• SEND	
•	environmental factors, including all items below but not limited to:	
	 physical – stimulation, language-rich environment, parental engagement 	
	 cognitive ability – development of early speech 	
	 bilingualism – dual language 	

Knowledge – What you need to teach
K2.9 The student must understand how a range of factors can affect children's self-concept, including all items below but not limited to:
 age – how we see ourselves change through different life stages
 gender – stereotyping and gender roles
 education – quality and encouragement within education
 adults – the expectations, reactions and support from adults
 abuse – the impact of low self-esteem and mental health
 media – constructs and representations of the ideal self
 culture – how individuals inherit their beliefs and values and discrimination
 socio-economic background – poverty and life chances
K2.10 The student must understand effective practice to develop self-efficacy in children in order to promote their independence, skills and wellbeing during educational activities and care routines, including all items below but not limited to:
 providing opportunities for choice
 providing opportunities for exploration
encouraging perseverance
 setting realistic and attainable goals
praising effort regardless of outcome

PO3: Plan, provide and review care, play and educational opportunities to enable children to progress

Knowledge – What you need to teach	Skills – What you need to teach
K3.1 The student must understand how well- considered planning and provision supports children's educational and developmental progress, including all items below but not limited	S3.6 The student must be able to identify the needs, interests and stages of development of individual children through, including all items below but not limited to:
to:	 observation of babies and children
meeting the individual needs and circumstances of children	feedback from parents
targeting specific support that children require	 collaboration with the child's key person and external practitioners
 increasing participation through incorporating children's interests 	 records and progress trackers
 including ongoing assessment to support the learning and development process including 	 communicating directly with children individually and in group settings
opportunities for stretch and challenge	S3.7 The student must be able to plan educational
adapting activities to ensure differentiation	opportunities that:
K3.2 The student must understand the purpose of	enable children to progress
observation, assessment and planning to support children's progress:	 support the seven areas of learning and development within the current early education curriculum:
 observation – to see and gather information on a child 	 communication and language (for example,
 assessment – to identify a child's needs, interests and current stage of learning and development 	extending vocabulary, language structure and dialogue)
 planning – to utilise information collected during 	 physical development
observation to plan appropriate provision and	 personal, social and emotional development
support developmental progress	∘ literacy
The student must understand different approaches towards the assessment of children, including all items	 mathematics
below but not limited to:	 understanding the world
observations	\circ expressive arts and design
question and answer	 prepare them for the next stage of development
group activities	• fully reflect the stage of development, individual
 partnerships with parents, carers and other professionals 	needs and circumstances of children, including those with additional needs
standardised testing	

Knowledge – What you need to teach	Skills – What you need to teach
The student must understand different approaches towards planning and how they are used in practice, including all items below but not limited to:	S3.8 The student must be able to provide and lead care, educational experiences, environments and purposeful play opportunities in accordance with
 the planning cycle – plan, do, review process short – daily/weekly planning, used to review the effectiveness of the planned experiences/opportunities and feeds into the medium-term plans, these may need to be adjusted to incorporate 'in-the-moment' opportunities medium – termly planning, taking into consideration the daily/weekly observations, children's needs/wants long – longer-term planning for the year ensures coverage of the full curriculum is incorporated into the plans; long-term plans are often reviewed and developed over the year, they can also include the strategies that will be used throughout the year in-the-moment planning/child-led planning – planning in the moment allows practitioners to capture children's current interests at a particular 	 plans that: are appropriate to the age, stage and needs of individual and groups of children meet additional needs, working in partnership with parents and/or carers and other professionals where appropriate are flexible in order to make best use of spontaneous learning opportunities incorporate children's ideas and interests enhance learning through meaningful questioning or modelling include enough time for children to complete tasks S3.9 The student must be able to recognise indicators that may suggest there are causes for concern regarding a child's development, including all items below but not limited to: carrying out ongoing assessment
point in time and build on what the child is already doing to help move their learning on	 comparing children's progress to developmental milestones
 K3.3 The student must understand a range of developmental indicators that may suggest a child is in need of additional support: cognitive, including all items below but not limited to: not meet the student must be able to take active causes for concern regarding a child's including all items below but not limited to: 	The student must be able to take action when there are causes for concern regarding a child's development, including all items below but not limited to:following policies and procedures for reporting
 not meeting developmental milestones limited understanding short attention span 	 implementing appropriate interventions: a specific SEND support plan
 speech, language and communication development, including all items below but not limited to: 	 adapting planning and provision to meet individual needs partnership working with relevant external agencies
 delayed speech and language physical development, including all items below but not limited to: 	 S3.10 The student must be able to use formal and informal monitoring and observation techniques: formal – planned observational assessment

Knowledge – What you need to teach	Skills – What you need to teach
 Knowledge – What you need to teach failure to thrive ongoing health problems personal, social and emotional development, including all items below but not limited to: lacking in confidence withdrawing or isolating themselves increased dependence on adults K3.4 The student must understand different types of assessment and their purpose: formative assessment, in line with statutory requirements, to identify any gaps in learning and development summative assessment, in line with statutory requirements 	 Skills – What you need to teach informal – in-the-moment/unplanned observational assessment S3.11 The student must be able to apply assessment techniques to make assessments within the current early education curriculum framework using: observations with children during day-to-day interactions observations shared by parents and/or carers S3.12 The student must be able to carry out and record observational assessments and draw conclusions from them through: relevant observation methods, including all items below but not limited to: narrative, running/written records
K3.5 The student must understand practitioner responsibilities to undertake continuing professional development (CPD), including all items below but not limited to:	 time sample child tracker online learning platform
 maintaining up-to-date early years knowledge and practice adhering to framework/curriculum requirements supporting curriculum development supporting reflective practice for assessment, planning and provision promoting best outcomes for children and families keeping up to date with legislation changes to inform policies and procedures unifying and making meaningful contribution to the team improving own skills and quality of practice improving opportunities for progression and promotion in own role 	 checklist jottings/sticky notes reliable recording of the observation drawing conclusions S3.13 The student must be able to assess babies and young children's development against the expected milestones. Development areas must include all items below but not limited to: physical development language development emotional and social development cognition, including the acquisition of concepts

Knowledge – What you need to teach	Skills – What you need to teach
 feedback from others self-directed learning shadowing other professionals 	S3.14 The student must be able to make use of formative and summative assessment to inform next steps and shape educational opportunities, including all items below but not limited to:
 internal and external training courses observing other practitioners researching or reading 	 formative assessment – assessment for learning to: o inform effective day-to-day planning
 researching of reading focused reflection visits to other settings 	 provide appropriate provision consolidate and check retention of previous learning work with others, parents and other practitioners and plan next steps for learning
	 summative assessment – assessment of learning to: support with transitions into new settings share records of achievement and concerns
	 with parents and carers inform longer-term planning demonstrate achievement linked to the early years foundation stage (EYFS) profile
	S3.15 The student must be able to reflect on the effectiveness of the planned educational experiences/activities and play opportunities, including all items below but not limited to:
	 using the reflective cycle referring to activity plans considering children's participation
	 discussing own practice with colleagues identifying areas for improvement
	S3.16 The student must be able to use the reflective cycle to evaluate own strengths and weaknesses and others' practice.
	S3.17 The student must be able to engage in activities that contribute to continuing professional development (CPD).

Knowledge – What you need to teach	Skills – What you need to teach
 K4.1 The student must understand the key principles of safeguarding: the paramountcy principle – the welfare of the child comes first 	S4.12 The student must be able to identify and act upon own responsibilities in relation to health and safety, security, confidentiality of information, safeguarding and promoting the welfare of children
 early intervention is crucial to protect children safeguarding is the responsibility of all practitioners in a setting the guiding principles from the early years foundation stage (EYFS) that shape practice K4.2 The student must understand different types of abuse: physical abuse – when a baby or child is physically hurt or harmed 	 by: following the policies and procedures of the setting following accurate lines of reporting S4.13 The student must be able to follow the safeguarding policies and procedures of the setting, including all items below but not limited to: safeguarding children policy child protection health and safety policy
 emotional abuse – when a baby or child is continually emotionally mistreated sexual abuse – when sexual activity is forced upon a baby or child neglect – when a baby's or child's basic needs 	 risk assessment policy administering medicine policy whistleblowing policy accident and emergency procedure
 are persistently not met domestic abuse (Domestic Abuse Act 2021) – a victim of domestic abuse is a child who sees or hears, or experiences the effects of the abuse The student must understand a range of associated 	 illness/infection disease and exclusion complaints procedure S4.14 The student must be able to carry out a risk assessment to support children's safety and
 signs of abuse, including all items below but not limited to: physical abuse: repeated illnesses and/or medical investigations bruising, bites, burns non-accidental injury fractures or broken bones reluctance to remove clothes 	 security, and effectively manage the risk, in line with the setting's policies and procedures: step 1: identifying the hazards – where and what the hazard is, such as fire, personal safety, physical, security or food safety step 2: identifying who is at risk – education and early years staff, children, parents/carers step 3: evaluating the risk and selecting control measures step 4: recording the findings and implementing them
 flinching and cowering 	 step 5: monitoring and reviewing risk management

PO4: Safeguard and promote the health, safety and wellbeing of children

Knowledge – What you need to teach	Skills – What you need to teach
 emotional abuse: withdrawal 	S4.15 The student must be able to contribute to the effective supervision of babies and children, including all items below but not limited to:
 changes in behaviour, such as behaviour associated with comfort seeking toileting problems developmental regression poor concentration difficulty making friends indiscriminately affectionate sexual abuse: sexual abuse: sexualised behaviour or language sexually transmitted diseases (STDs), infections, swelling, soreness, discharge neglect: 	 maintaining all items below but not limited to: maintaining accurate registers knowing the abilities of the children establishing safety ground rules with the children continuously scanning the environment for potential hazards standing in a position that enables clear view of children within the environment reminding children of the safety rules explaining why certain behaviours may be hazardous explaining the safe use of equipment responding quickly to alerts regarding children's
 failure to thrive health problems 	safety (GMC3)
 hungry/thirsty failure to attend setting housing issues 	As part of S4.16 the student must be able to recognise how changes in staffing numbers will impact on staff:child ratios in order to effectively supervise babies and children.
 domestic abuse (Domestic Abuse Act 2021) – a victim of domestic abuse is a child who sees or hears, or experiences the effects of the abuse: aggression 	S4.16 The student must be able to maintain accurate and coherent records and reports and share information, only when appropriate, to ensure the needs of all children are met, by ensuring legibility and data protection of information.
o antisocial behaviouro depression or anxiety	Records and reports, including all items below but not limited to:
 problems in the setting The student must be made aware that the above list is not exhaustive and that there may be other signs of abuse. 	medication requirementsspecial dietary needsplanning
K4.3 The student must understand how health and wellbeing supports babies and children's:resilience	observation and assessmenthealth, safety and securityaccidents

Knowledge – What you need to teach	Skills – What you need to teach
curiosity and independence	daily registers
brain development	S4.17 The student must be able to recognise causes
 play opportunities and learning experiences 	for concern in children, including all items below but not limited to:
holistic development	 physical appearance of the child
K4.4 The student must understand how a range of	 changes in behaviour
factors can contribute to children's wellbeing, including all items below but not limited to:	 behaviour that is out of character
 sleep and rest 	 withdrawal and self-isolation
 physical activity 	obvious distress
 health and nutrition 	The student must be able to act upon causes of concern
 stability and safe environments 	regarding a child's safety and wellbeing, including all
adult care	items below but not limited to:
secure attachments	 following policies and procedures of the setting
 opportunities for indoor/outdoor play 	 knowing who to report concerns to, such as designated safeguarding lead
friendships	 knowing when to take concerns outside of the
The student must understand the relevance of a range of signs that may indicate a child needs support, including all items below but not limited to:	setting S4.18 The student must be able to apply a range of strategies to support children to make and maintain
 lack of personal hygiene 	friendships, including all items below but not limited
 recurring health problems 	to:
 not meeting developmental milestones 	 role modelling co-operation and collaboration
 isolated from friendship groups 	 practising sharing
K4.5 The student must understand how meeting basic care needs impacts on children's self-	 using encouragement and praise when they recognise good behaviour towards other children
actualisation, in accordance with Maslow's	 small-world play and role play opportunities
hierarchy of needs.	time and space for interaction and negotiation
The student must understand how practitioners	 paired or group activities or projects
routinely provide physical care for babies and children appropriate to the age and stage of development,	team sports
including all items below but not limited to:	S4.19 The student must be able to plan a range of
nutrition	daily care routines, taking into account:
hydration	the age/stage of development
• rest/sleep	the child's individual needs

Knowledge – What you need to teach	Skills – What you need to teach
 nappy changing/toileting 	• the care routines being followed in the home
 personal hygiene, including oral health 	timings for the care routines
 physical activity, including access to the outdoors suitable clothing for activities	 any health and safety requirements/infection control/latest government guidelines/policies and procedures of the setting
safety needsconsideration for medical conditions	S4.20 The student must be able to carry out a range of care routines in ways that:
 K4.6 The student must understand how practitioners use a range of strategies to support children to develop self-care skills, including all items below but not limited to: promoting hygiene – including toileting, handwashing, bathing and hair care 	 maintain children's dignity – where possible, it is good practice for the key person to be involved in carrying out the physical care routines, to promote their development – talking through the care routine and why you are doing it can promote a child's development
 giving children opportunities and time to complete self-care tasks 	 maintain a child's privacy, such as during nappy changing, toileting
encouraging self-dressing	 promote choices for the child, such as giving children a choice at mealtimes, snacks
 providing healthy food options and promoting choice 	S4.21 The student must be able to promote healthy lifestyles by:
encouraging care of belongings and facilities	 providing healthy snacks and drinks
encouraging self-feeding	 role modelling healthy behaviour
scaffolding tasks to support children's progression	 giving information and advice to parents
practising self-serving food and drinksproviding size-appropriate facilities	 activities, such as physical activities, cooking activities, growing food, role play
The student must understand how self-care skills impact on children's health, safety and wellbeing, including all items below but not limited to:	 using books to help educate children and parents/carers
 privacy and dignity 	S4.22 The student must be able to respond
 independence and self-efficacy 	appropriately to a child showing signs of a common illness, including all items below but not limited to:
confidence and resilience	 following setting's policies and procedures
 personal hygiene and prevention of infection 	 knowing who to contact, such as first aider to assess the child, parents/carers
	isolating the child
	reassuring the child
	 monitoring the child (temperature)

Knowledge – What you need to teach	Skills – What you need to teach
 K4.7 The student must understand how sleep and rest enhances babies and children's holistic development, including all items below but not limited to: brain function and mental health levels of concentration the ability to retain information and learn new things energy levels bodily growth and repair mood levels The student must understand the current NHS guidance regarding sleep requirements for babies and children aged: newborn 3 to 6 months 6 to 12 months 12 months + 2 years 	Skills – What you need to teach • keeping the child hydrated • referring to the child's medical records • administering medicine, if parental consent has been given • recording the illness • knowing when to escalate concerns (GMC1) As part of S4.23 the student must be able to administer medicine to children with accuracy and precision. S4.23 The student must be able to undertake tasks, ensuring the prevention and control of infection by: • handwashing • personal hygiene, such as tying back long hair, washing uniform • food hygiene • clearing up waste/spillages and disposing of them safely • use of correct equipment • decontamination of equipment, such as sterilisation and disinfection
3 to 4 years The student must understand safe sleeping procedures for babies to reduce the risk of sudden is fast leaft as a large in additional to the statement.	and disinfectionup-to-date immunisation scheduleisolation and exclusion
 infant death syndrome in relation to: sleeping positions room temperature safe cot safety mattress K4.8 The student must understand the concept of a balanced diet for babies and children aged 0 to 7, including all items below but not limited to the following requirements: macronutrients micronutrients 	 S4.24 The student must be able to respond appropriately to emergencies, including fire, by: following evacuation procedures, including knowledge of how to raise the alarm, where the closest fire exits are and correct assembly points staying calm ensuring safety of self and others communicating emergency to relevant people accurately recording what has happened

Knowledge – What you need to teach	Skills – What you need to teach
hydration	
salt and sugar intake	
The student must understand a range of special diets that children may have and provision to meets these needs, including all items below but not limited to:	
intolerances:	
 dairy-free options 	
allergies:	
 nut-free environments 	
religious or cultural:	
 halal options 	
lifestyle choices:	
 vegetarian and vegan options 	
The student must understand the potential consequences of not meeting special dietary needs.	
The student must understand a range of short- and long-term impacts of an unbalanced diet, including all items below but not limited to:	
 short-term – lack of concentration and energy, anxiety, behavioural problems, headache, tiredness, problems sleeping, stomach pains, mood and tantrums 	
 long-term – dental health problems, obesity, chronic diseases, high blood pressure, diabetes, bone growth, negatively impacts on cognitive development 	
The student must understand how oral health can be promoted in the setting, including all items below but not limited to:	
 incorporating oral health into planned activities and care routines 	
 communications on oral health promotion in the setting 	
 inviting dental practitioners to talk to children and demonstrate effective dental care 	

Knowledge – What you need to teach	Skills – What you need to teach
 providing information to parents and carers about good oral health 	
K4.9 The student must understand the observable signs of common illnesses and infections and the associated symptoms, including all items below but not limited to:	
 chickenpox signs and symptoms: 	
 rash (spots) 	
o fever	
measles signs and symptoms:	
 appearance of bad cold 	
∘ cough	
 sore watery eyes 	
∘ fever	
 rash (raised spots) 	
 mumps signs and symptoms: 	
o fever	
\circ pain and swelling under the chin	
 discomfort when chewing 	
 slapped cheek disease signs and symptoms: 	
∘ fever	
 nasal discharge 	
 bright red rash on cheeks/body 	
 rubella signs and symptoms: 	
o mild cold	
 rash (flat spots) 	
o swollen glands	
 whooping cough signs and symptoms: 	
 similar to cough and cold gradually getting worse 	
 coughing fits 	
 difficulty in breathing 	

Knowledge – What you need to teach	Skills – What you need to teach
 possible choking and vomit 	
 may experience a whooping noise when breathing in 	
 cold signs and symptoms: 	
o runny nose	
∘ cough	
 raised temperature 	
 sore throat 	
 conjunctivitis signs and symptoms: 	
 red, sticky eyes 	
 yellow discharge 	
 ear infection signs and symptoms: 	
o ear pain	
 difficulty hearing 	
 viral infection signs and symptoms: 	
o diarrhoea	
o constipation	
 stomach pain 	
∘ sickness	
 loss of appetite 	
 head lice signs and symptoms: 	
 o itchy scalp 	
 eggs on hair shaft 	
∘ lice	
 hand, foot and mouth disease signs and symptoms: 	
 sore throat 	
 high temperature 	
 lack of appetite 	
 mouth ulcers 	
\circ blisters and rash on hands and feet	

Knowledge – What you need to teach	Skills – What you need to teach
meningitis signs and symptoms:	
o fever	
 pale blotchy skin 	
 stiff neck 	
 cold hands and feet 	
o confusion	
o muscle pain	
 severe headache 	
The student must understand the signs that require immediate medical intervention, including all items below but not limited to:	
raised temperature	
• rash	
unresponsive	
difficulty breathing	
K4.10 The student must understand how illnesses and infections are spread, including all items below but not limited to:	
close contact with individuals who have an illness or infection	
no or incomplete vaccinations	
 lack of hygiene processes and procedures, or processes not being followed 	
The student must understand effective practice to prevent and control infection:	
 promoting immunisation – according to the immunisation schedule 	
 removing unwell children or staff members from the setting – by adhering to the exclusion policy 	
following hygiene processes and procedures	
 referring on where medical intervention is necessary 	

Knowledge – What you need to teach	Skills – What you need to teach
K4.11 The student must understand the difference between an accident and an emergency situation:	
 an accident is an unintended incident that may cause physical injury to a child or member of staff 	
 an emergency is a situation that poses an immediate risk. Common emergency situations include all items below but not limited to: 	
o fire	
 breaches of security 	
 missing child 	
 extreme weather (including floods) 	
 hazardous substance release 	
 bomb threats 	
 criminal activity 	
The student must understand effective practice to prevent accidents occurring, including all items below but not limited to:	
 observations and supervision of children – including staff:child ratios 	
health and safety procedures	
 knowing when and how to carry out risk assessments 	
 removing hazards and reporting these to a supervisor 	
 using age- and stage-appropriate equipment 	
 carrying out safety checks on equipment and using the equipment in accordance with the manufacturer's instructions 	
The student must understand the responsibilities and limitations of their role when responding to accidents and emergencies, including all items below but not limited to:	
 following the policies and procedures of the setting 	

Knowledge – What you need to teach	Skills – What you need to teach
 who to report the accident/emergency to, such as designated fire warden, safeguarding lead and first aider 	
remaining calm and professional	
 maintaining accurate and coherent records and reports 	
 sharing information only when required 	
maintaining confidentiality	
The student must understand a range of fire safety precautions, including all items below but not limited to:	
fire safety officer/warden within the setting	
fire exits signs	
fire extinguishers	
fire doors closed at all times	
smoke detectors	
evacuation procedure displays	
clear assembly points	

PO5: Work in partnership with colleagues, parents, carers and other professionals to support children's development

Knowledge – What you need to teach	Skills – What you need to teach
K5.1 The basis of positive partnership working includes respecting a child's family as the primary caregivers and recognising the rights and responsibilities that parents, carers and families have in a child's life. The student must understand the definition of a parent:	S5.5 The student must be able to contribute to developing and maintaining professional relationships with parents and carers, including all items below but not limited to: • using appropriate language
all biological parents, whether they are married or	 maintaining appropriate professional boundaries
not	 adhering to rules around confidentiality
• any person who, although not a biological parent,	 communicating in a positive way
has parental responsibility for a child or young person – this could be an adoptive parent, foster parent, step-parent, guardian or other relative	 monitoring impact of own values and behaviour on others
any person who, although not a biological parent	fulfilling obligations and commitments
and does not have parental responsibility, has care of a child or young person	S5.6 The student must be able to work in partnership with parents/carers to help them
The student must understand the legal rights of parents and carers to:	recognise and value the significant contributions they make to the child's health, wellbeing, education and development, including all items below but not
receive information about their child	limited to:
 participate in statutory activities – such as voting in elections for parent governors (for example, in maintained nurseries) 	 providing up-to-date information on their child's progress
 be asked to give consent – such as to the child 	 sharing outcomes from observations
taking part in school trips	 involving them in assessments
 be informed about meetings involving the child – such as a governors' meeting on the child's 	 providing support to help them extend their child's development at home
exclusion	S5.7 The student must be able to encourage parents
The student must understand the responsibilities of parents and carers for:	and carers to take an active role in their child's play, learning and development, including all items below but not limited to:
 providing a home for the child 	
 protecting and maintaining the child 	 sending books nome to share together holding parents' evening or open days
disciplining the child	 maintaining an open-door policy
choosing and providing for the child's education	 maintaining an open-door policy providing information and ideas for indoor and
agreeing to the child's medical treatment	 providing information and ideas for indoor and outdoor play activities
 looking after the child's property 	

Knowledge – What you need to teach	Skills – What you need to teach
 K5.2 In order to work in partnership with parents and carers and effectively support children's development, the student must understand how a range of family contexts may impact on parenting, including all items below but not limited to: family structure: how the number of parents in a household may affect time available to engage in children's education parenting style: how this impacts on the types of boundaries and interactions parents have with children income: how this may positively or negatively impact on stress within families and opportunities for children education: how this impacts on parental expectations and engagement with their children's education 	 encouraging parents to volunteer for outings or activities including parents in decisions about their child's learning and development consulting parents regarding the child's needs and interests signposting resources and sources of support S5.8 The student must be able to signpost appropriate resources and sources of support to parents and carers, including all items below but not limited to: English language lessons parenting classes financial aid where to take children on educational/recreational visits health care S5.9 The student must be able to work collaboratively with other professionals to meet the needs of babies and children and enable them to progress, including all items below but not limited
 stress and mental health: how this impacts on family interactions inside and outside of the home K5.3 The student must understand the roles and responsibilities of external agencies that may work in partnership with early years settings, including all items below but not limited to: children's services: child protection agencies if abuse or harm is suspected family hubs offer co-ordinated support for families within the local area 	 maintaining effective and ongoing communication to discuss child's progress sharing knowledge, expertise and experience arranging and attending regular meetings to review and revise progress fulfilling own professional responsibilities (GDC3) As part of S5.9 the student must be able to verbally and digitally communicate and collaborate with other professionals to meet the needs of babies and children and enable them to progress.

Knowledge – What you need to teach	Skills – What you need to teach
 team around the child (TAC)/team around the family (TAF) brings together a team of specialised practitioners to meet identified needs of the child and family 	As part of S5.9 the student must be able to alter the style of communication to suit the intended purpose and audience – for example, report, observation, minutes of meetings – including providing the appropriate level of detail as required.
healthcare services:	(GEC4)
 speech and language therapists work closely with other health and education professionals to support children with speech, language and communication issues 	As part of S5.9 the student must be able to listen actively to other professionals and record information about babies and children accurately, factually and concisely, requesting clarification where appropriate.
 physiotherapists/occupational therapists work with children who have a physical disability or require special support or treatment 	S5.10 The student must be able to discuss children's progress and plan next stages in their
 counselling and therapeutic agencies offer support where trauma or transition is experienced 	 education with the key person, colleagues, parents and carers. This can take place: when parents drop off/collect children
 child psychologists provide support or assessment for children with social or 	 after carrying out planned/spontaneous observations
emotional issues and possible learning difficulties	ahead of parent meetings
 nurse specialist or school nurse monitor children's health, carry out health assessments 	 during planning meetings with colleagues and other practitioners, including multi-disciplinary teams
and immunisations, support families where children have specific health needs, and advise families on making lifestyle choices	S5.11 The student must be able to deliver education, health and care plans (EHCPs), and strategies in consultation with the children's families, colleagues
 health visitors support and educate on 	and external services, including all items below but not limited to:
preventative services such as immunisation, behavioural issues, nutritional needs and developmental milestones	 understanding the required adjustments, interventions and support with parent/carers and
K5.4 The student must understand circumstances in which working with other professionals would be appropriate if, including all items below but not	other professionalsdiscussing the expected impact on development, progress or behaviour
limited to:	 working towards the desired outcomes for the child
abuse was suspected, such as neglect	 delivering agreed interventions
a child was at risk from harm	 providing feedback to the teacher, parents/carers
 a child has special educational needs (SEN) 	and other professionals where appropriate
• the child requires an EHCP	

Knowledge – What you need to teach	Skills – What you need to teach
 the progress of the child requires discussion in order to plan next stages in their education 	
• the child is 'cared for'	
trauma is experienced	
The student must understand the purpose and benefits of working with other professionals, including all items below but not limited to:	
access to a range of professionals and services	
early identification and intervention	
 targeted support to meet specific needs of parents/carers and children 	
 improved support and outcomes for children and families 	
 improved communication between professionals and services to safeguard individuals 	

Occupational specialism (OS) – Assisting Teaching

Knowledge and skills are set out side-by-side within their themed sections. The numbering is sequential throughout the performance outcome (PO), from the first knowledge statement, following on through the skills statements. The 'K' and 'S' indicate whether the statement belongs to knowledge or skills.

Mandatory content

PO1: Support the class teacher to enhance children's education, individually and in groups

PO2: Plan, provide and review educational opportunities in collaboration with teachers and other adults

PO3: Safeguard and promote the health, safety and wellbeing of children and young people

PO4: Recognise, adapt and respond to individual children's needs, including those with SEND, to support development and access to the curriculum

PO1: Support the class teacher to enhance children's education, individually and in groups

Knowledge – What you need to teach	Skills – What you need to teach
K1.1 The student must understand the intent, implementation and intended impact of each key stage of the school curriculum:	S1.8 The student must be able to work closely with teachers to ensure own contribution aligns with the teaching, including all items below but not limited
• key stages 1 and 2:	to:
 compulsory national curriculum subjects 	 clarifying own role within lessons and the teacher's expectations
\circ provision of religious education (RE)	 understanding the lesson plan and the learning
$\circ~$ relationships and sex education (RSE) and	objectives
health education	identifying the individuals or groups to support
o other subjects that may be taughtassessments:	 knowing general and specific behaviour management strategies
 year 1 phonics screening check 	understanding the specific needs of pupils such as
$\circ~$ key stage 1 tests and what they cover	arrangements for an education, health and care plan (EHCP) and targeted interventions
$\circ~$ end of key stage 2 tests and what they cover	S1.9 The student must be able to ensure regular
 key stages 3 and 4: 	communication with teachers to provide clarity and
 compulsory national curriculum subjects 	consistency of role within lessons, including all items below but not limited to:
\circ core and foundation subjects	
 English Baccalaureate (EBacc) 	working within boundaries of own role
 rules around provision of RE and sex and 	adaptability in approach to support individual needs providing feedback on pupil responses
relationships education	providing feedback on pupil responsessharing ideas to plan next steps
 assessment, to include national qualifications, such as GCSEs 	 sharing ideas to plan next steps S1.10 The student must be able to provide clear and
post-16 provision:	accurate explanations of instructions, processes
 GCSE achievement in English and mathematics 	and concepts, including all items below but not limited to:
 full-time education 	 drawing on pupils' prior knowledge
 apprenticeships 	clarifying purpose and expectations
o traineeships	breaking down and rewording complex ideas
	demonstrating processes and concepts in action

Knowledge – What you need to teach	Skills – What you need to teach
K1.2 The student must understand a range of teacher- and student-led pedagogical strategies and how they are used to deliver learning activities and interventions:	S1.11 The student must be able to use appropriately varied vocabulary for age and developmental stage to ensure pupils' understanding, including all items below but not limited to:
 teacher-led, including all items below but not limited to: 	 introducing and using the correct terminology for the subject area or topic
 lecture/presentation 	using appropriate strategies to check understanding
o rote learning	contextualising
 call-and-response questioning 	using prompts
 open questioning 	(GEC1)
 scaffolding 	As part of S1.11 the student must be able to take into
\circ the learning, assessment and feedback cycle	account the level and experience of the pupils when giving explanations. The student must be clear and
 technology to support learning 	unambiguous and use appropriate grammar for the
 modelling 	subject area or topic.
 student-led, including all items below but not limited to: 	S1.12 The student must be able to embed a range of strategies for effectively managing behaviour in line with the schedule ratio including all items below.
 collaborative learning 	with the school's policy, including all items below but not limited to:
 enquiry-based learning 	setting ground rules and boundaries for behaviour
 discussions/debates 	supporting children to learn that their actions have
 practical tasks 	consequences
 self-assessment 	ensuring fairness and consistency
 peer assessment 	reinforcing good behaviour
 sustained shared thinking 	 understanding children's trigger points and how to manage them
 digital learning communities 	manage them
∘ MOOCs	(GEC2)
 virtual reality aids 	As part of S1.12 the student must be able to interpret and respond to non-verbal cues when managing
 discussion forums 	behaviour with pupils. They must be able to use the
 social networks 	appropriate tone, register and choice of words when talking to pupils.
 video sharing websites 	
The student must understand the advantages and disadvantages of teacher- and student-led pedagogical strategies.	

Knowledge – What you need to teach	Skills – What you need to teach
The student must understand how theoretical approaches underpin teacher- and student-led pedagogical strategies, including all items below but	S1.13 The student must be able to use school computer systems, including specialist software, including all items below but not limited to:
not limited to: • behaviourist	 recording and reporting on attendance, retention and achievement data
cognitive constructivist	 recording outcomes of intervention programmes
 social constructivist 	 supporting teaching and learning
 humanist 	(GDC1)
connectivist	As part of S1.13 the student must be able use school
K1.3 The student must understand the benefits of individual and group work and the strategies that	computer systems to select and manage individual pupil data in line with their own responsibility.
support this:	S1.14 The student must be able to use different
individual work:	types of technology to support educational development, including all items below but not
 benefits, including all items below but not limited to: 	limited to:
 easier to concentrate 	interactive white boards
 learning can be tailored and adapted 	computers and accessories
 empowers pupils to take control of their 	specialist equipment, software and applications
own learning	 websites, video calls and virtual learning environments (VLE)
 easier to assess individual work 	(GDC2)
 strategies, including all items below but not limited to: 	As part of S1.14 the student must be able to use different types of technology and media to enhance
 lecture/presentation 	pupils' educational development by, for example
 rote learning 	creating interactive presentations/activities.
 call-and-response questioning 	S1.15 The student must be able to facilitate learning
 scaffolded differentiation 	outside of the classroom, including all items below but not limited to:
• group work:	 providing a rich learning environment
 benefits, including all items below but not limited to: 	providing appropriate challenge
 share knowledge 	 checking for and making pupils aware of health and safety
 develop social and communication skills 	 looking at practical considerations
 share diverse perspectives 	 considering the needs of all pupils
 peer support 	

Knowledge – What you need to teach	Skills – What you need to teach
 strategies, including all items below but not limited to: 	
 collaborative learning 	
 enquiry-based learning 	
 discussions/debates 	
K1.4 The student must understand how ongoing feedback to pupils supports and facilitates independent learning, including all items below but not limited to:	
encourages self-reflection	
gives pupils appropriate information to improve	
 clarifies achievement of learning aims and objectives 	
K1.5 The student must understand how to select and use appropriate resources in order to identify and help address weaknesses, consolidate strengths and develop individualised expectations, by considering:	
 pupils' age, emotional and social development 	
the range of available resources	
 pupils' individual ability levels 	
stretch and challenge	
curriculum needs	
 adaptability for a variety of pupils, including those with EAL or SEND 	
 diverse in terms of race, culture, gender, identity and disability 	
pupils' interests	
K1.6 The student must understand the impact of enrichment activities on children's education and development, including all items below but not limited to:	
 improved physical exercise – contributing to overall physical and mental wellbeing 	

Knowledge – What you need to teach	Skills – What you need to teach
 improved scientific development – contributing to respect for the environment and the natural world and increasing knowledge of animal, plants and lifecycles 	
 improved life skills – contributing to awareness of safety, hazards, risk and challenge and development of a pupil's cognitive, social and emotional skills 	
 increased independence – opportunities to develop independence, self-confidence and perseverance by overcoming challenges and fears 	
The student must understand where learning outside the classroom may take place, including all items below but not limited to:	
 school grounds and immediate surroundings 	
creative spaces	
the built environment	
heritage sites	
the natural environment	
• farms	
sacred spaces	
The student must understand the key aspects of different theoretical and philosophical approaches that relate to outdoor education, including all items below but not limited to:	
Forest Schools – risk and challenge	
 Margaret McMillan – outdoor play for health and wellbeing 	
K1.7 The student must understand what distinctive qualities are offered by the outdoors as an educational environment compared to traditional classroom environments, including all items below but not limited to:	
greater opportunity for risk and challenge	
• space	

Knowledge – What you need to teach	Skills – What you need to teach
animals, plants and lifecycles	
changing seasons	
changing weather	
individuals' wellbeing	

PO2: Plan, provide and review educational opportunities in collaboration with teachers and other adults

Knowledge – What you need to teach	Skills – What you need to teach
K2.1 The student must understand different approaches to planning for learning and how they are used in practice, including all items below but	S2.7 The student must be able to deliver appropriate interventions to support progress for identified pupils, including all items below but not limited to:
not limited to:planning cycle	 following training given, which may be specialist- based or teacher-given
 short-, medium- and long-term planning: 	appropriate to the pupils
\circ short-term – lesson plan, daily plan	using a flexible approach
 medium-term – weekly, half termly, termly plans 	 in whole-group/small-group/one-to-one situations as appropriate
 long-term – scheme of learning, annual plan, curriculum intent for the setting 	S2.8 The student must be able to apply pedagogical understanding to deliver/lead small-group teaching
 planning according to the needs of the pupils: 	within clearly defined/planned parameters, including all items below but not limited to:
 class, group, individual, setting 	 following the lesson plan
The student must understand a range of formative assessment methods used in the classroom, their purpose and the strengths and weaknesses of each,	 planning and preparing resources as directed by the teacher
including all items below but not limited to:	ensuring the learning objectives are understood
observation	 using a mixture of individual and group teaching where expression
question and answer	where appropriate
group tasks	 considering theories of learning, such as constructivist, behaviourist, social learning
practical problem solving	 ensuring pupils' motivation and interest is
tests	maintained
written exam	supporting and challenging pupils whilst
K2.2 The student must understand different types	understanding their needs
of assessment, their purpose, and methods of observing, recording and reporting, including all	 observing and recording pupils' progress and achievements
items below but not limited to:	ensuring all pupils are included
diagnostic	 managing the behaviour of the group, in line with
formative	school policy
benchmark (interim)	
summative	

Knowledge – What you need to teach	Skills – What you need to teach
• statutory K2.3 The student must understand how biological and external/environmental factors may impact on children's learning and development:	S2.9 The student must be able to contribute to the assessment process and use information effectively, including all items below but not limited to:
 biological factors, including all items below but not limited to: 	 monitoring and recording pupils' responses to learning activities
 physical and mental health 	 understanding the scheme of work in order to make judgements on pupils' progress
 SEND (for example, a condition present at birth) 	 providing feedback to others on pupils' achievements/progress
 stages of development from birth to 19 years 	 updating pupil records as appropriate
 atypical development 	S2.10 The student must be able to make use of
 external/environmental factors, including all items below but not limited to: 	formative and summative assessment to monitor children's progress to plan next steps and shape
 physical environment (for example, temperature, light) 	educational opportunities by:consolidating and checking retention of previous
 social, cultural and emotional environment (for example, a welcoming environment) 	learningproviding feedback to both pupils and staff
\circ access to play spaces and the outdoor	 updating student records
environment	 linking assessment to relevant curriculum
o financial	 working with others to plan next steps for learning
 parental/guardian/family support acute illness, injury or trauma 	S2.11 The student must be able to apply relevant
	subject knowledge to support accurate assessment through, including all items below but not limited to:
 care status interpersonal relationships and attachments 	 researching the topic or content prior to lesson to
K2.4 The student must understand the pastoral	ensure subject knowledge is sufficient
and academic behaviours pupils may display and	 engaging and maintaining pupils' interest
factors that may indicate a pupil is in need of additional support, including all items below but not limited to:	 addressing misunderstandings and answering questions
behaviours:	 using questioning skills to clarify pupils' understanding
∘ refusal	S2.12 The student must be able to help pupils make
 withdrawal 	progress and plan next steps, including all items
o demotivation	below but not limited to:
 disengagement 	 providing individual support as pupils are working

Knowledge – What you need to teach	Skills – What you need to teach
o anxiety	ensuring there are opportunities for peer
o disruptiveness	assessment
• indicators of potential need of additional support:	encouraging pupils to reflect on their work
 delayed speech and language skills 	S2.13 The student must be able to use appropriate strategies to enable pupils to access and engage in
 medical needs (for example, as identified in a medical management plan) 	learning, including all items below but not limited to:
 not meeting academic milestones or finding work more challenging than others 	 scaffolding pupils' learning using open questioning skills, supportive language and modelling
 social, emotional and mental health factors, 	 prompting pupils to stay on task
such as lack of confidence and difficulty self- regulating or staying focused	 translating or explaining words or phrases
$_{\odot}~$ sensory and/or physical factors, such as	provide clear and accurate instructions
hearing loss or visual impairment	reinforcing instructions and checking understanding
K2.5 The student must understand how a range of strategies are used to promote mathematical thinking, including all items below but not limited to:	 helping students to use practical equipment or resources using an appropriate level of language and varied vocabulary
 real-world examples and incidental learning to highlight mathematical concepts practical everyday tasks to reinforce concepts a language-rich environment that includes 	S2.14 The student must be able to support pupils in developing ownership of their learning and education through student-led approaches, including all items below but not limited to:
mathematical vocabulary	 supporting pupils to independently set targets and
appropriate resources and equipment	action plans
 scaffolding mathematical learning 	giving pupils choices
repetition to reinforce concepts	using enquiry-based learning
 questioning and prompting pupils to check learning 	S2.15 The student must be able to support the development of literacy using appropriate strategies
 praise and feedback to promote pupils' self- esteem in relation to mathematical skills 	for the context, including all items below but not limited to:
K2.6 The student must understand how a range of	the use of systematic synthetic phonics:
strategies are used to promote literacy, including all items below but not limited to:	 teaching letter sounds before pupils are introduced to books
the use of systematic synthetic phonics	developing reading for meaning:
developing reading for meaning	 reviewing key vocabulary and preview text before reading

Knowledge – What you need to teach	Skills – What you need to teach
 encouraging reading for enjoyment providing specific feedback on the accurate use of spelling, punctuation and grammar widening pupils' vocabulary improving pupils' confidence in reading and writing 	 asking pupils to make predictions about what they are reading asking pupils to summarise the text in their own words asking questions to check understanding encouraging reading for enjoyment: involving parents and carers in reading at home providing specific feedback on the accurate use of spelling, punctuation and grammar helping pupils to select and use appropriate resources, such as dictionaries widening pupils' vocabulary: maintaining a language-rich environment improving pupils' confidence in reading and writing: using praise and feedback encouraging pupils to rehearse through talking about what they are going to write S2.16 The student must be able to use appropriate strategies and approaches to develop mathematical understanding, including procedural fluency and conceptual understanding, including all items below but not limited to: reinforcing teaching points explaining and emphasising the correct use of mathematical vocabulary supporting pupils to select and use appropriate mathematical resources using appropriate rewards to encourage pupils to stay on task consolidating pupils' learning by providing follow-on tasks

Knowledge – What you need to teach	Skills – What you need to teach
	 providing effective feedback to pupils
	 using differentiation and personalised learning
	S2.17 The student must be able to identify and use unplanned opportunities to develop mathematical understanding as they arise, including all items below but not limited to:
	 making links to previous learning
	consolidating understanding
	 developing and extending knowledge
	S2.18 The student must be able to build professional relationships in order to work collaboratively as part of their role, including all items below but not limited to:
	using appropriate language
	maintaining appropriate professional boundaries
	 adhering to rules around confidentiality
	 communicating in a positive way
	 monitoring impact of own behaviour on others
	being consistent and fair
	 keeping promises and commitments
	S2.19 The student must be able to work collaboratively with other professionals as part of a multi-agency approach, including all items below but not limited to:
	 physiotherapist/occupational therapist – working with pupils who have a physical disability or require special support or treatment. Interventions could include:
	 adaptations to the environment
	∘ activities
	∘ resources
	 assistive technology

Knowledge – What you need to teach	Skills – What you need to teach
	 psychologist – supporting or assessing pupils with social or emotional issues and possible learning difficulties. Interventions could include:
	o resources
	 coping strategies
	o activities
	 access to external services
	 speech and language therapists – supporting pupils with speech, language and communication issues. Interventions could include:
	∘ activities
	 assistive technology
	 social worker – intervening when there are concerns about a pupil's welfare or social needs. Interventions could include:
	 access to external services
	o resources
	 youth justice worker – supporting pupils who have offended or who are at risk of offending. Interventions could include:
	 access to external services
	∘ resources
	(GDC3)
	As part of S2.19 the student must be able to verbally and digitally communicate and collaborate with other professionals to meet the needs of pupils in order to safeguard and promote their health, safety and wellbeing.
	(GEC3)
	As part of S2.19 the student must be able to alter the style of communication to suit the intended purpose and audience – for example, report, observation, minutes of meetings – including providing the appropriate level of detail as required.
	(GEC4)

Knowledge – What you need to teach	Skills – What you need to teach
	As part of S2.19 the student must be able to listen actively to other professionals and record information about pupils accurately, factually and concisely, requesting clarification where appropriate.

PO3: Safeguard and promote the health, safety and wellbeing of children and young people

Knowledge – What you need to teach	Skills – What you need to teach
K3.1 The student must understand how different factors can contribute to a pupil becoming physically or psychologically at risk, including all items below but not limited to:	S3.23 The student must be able to comply with policies and procedures for sharing confidential information appropriately, for example: with parents and carers
family risk factors:	with parents and carerswith professionals from other agencies
o family breakdown	 know when and where to seek advice
 harmful relationships 	S3.24 The student must be able to recognise and act
 physical or psychological abuse 	when there are causes of concern regarding a
 mental health issues 	pupil's wellbeing by:
o criminality	acting on the concern immediately, no matter how
 substance addiction 	small
 bereavement 	 reporting concerns with the safeguarding lead in a timely manner and in accordance with the setting's
o domestic abuse	policies and procedures
 hereditary conditions 	S3.25 The student must be able to implement their
environmental risk factors:	legal obligations in day-to-day practice in relation to:
 unsuitable housing 	Keeping children safe in education Part 1
 employment issues 	safeguarding policies
o low income	prevent strategy
o care status	S3.26 The student must be able to participate in
individual factors:	digital safety and cyber-bullying initiatives, in order
◦ SEND	 ensure compliance with legislation and school
 young carer 	 ensure compliance with legislation and school policy
 health and wellbeing issues 	keep knowledge up to date to be able to identify
 mental health issues 	potential online risks
societal risk factors:	contribute to the safeguarding of pupils
 female genital mutilation 	S3.27 The student must be able to maintain accurate
 forced marriage 	and coherent records and reports that conform to data protection requirements, including all items
 honour killings 	below but not limited to:
 social isolation 	• writing down all the information as soon as possible

 peer pressure 	
	• ensuring written records are legible, factual,
 county lines 	accurate and up to date
 gender inequalities 	storing records for as long as required
o bullying	Records and reports:
 antisocial behaviour 	medication requirements
 use of social media 	special dietary needs
he student must be made aware that this list is not	planning
xhaustive and that there may be other factors. The	observation and assessment
tudent must also understand that the presence of a actor does not necessarily constitute a pupil being at	 health, safety and security
sk.	accidents
he student must understand a range of associated	daily registers
igns of abuse, including all items below but not mited to:	 safeguarding reporting/recording
 physical abuse: repeated illnesses and/or medical 	S3.28 The student must be able to ensure pupils us technology safely, including all items below but no limited to:
investigations	training students to use equipment correctly
 bruising, bites, burns 	only using school devices, as they will have
 non-accidental injury 	appropriate filters applied
 fractures or broken bones 	Iimiting pupils' screen time
 reluctance to remove clothes 	drawing pupils' awareness to risks as they arise
 flinching and cowering 	 monitoring pupils' online activity
emotional abuse:	using according to manufacturer's instructions
 withdrawal 	(GDC
 changes in behaviour, such as behaviour associated with comfort seeking 	As part of S3.28 the student must be able to safely and responsibly support pupils to use online technology.
 toileting problems 	S3.29 The student must be able to carry out a risk
 developmental regression 	assessment to support pupils' safety and security, including all items below but not limited to:
 poor concentration 	 identifying the hazard – where the hazard is and
 difficulty making friends 	what the hazard is, such as fire, personal safety,
 indiscriminately affectionate 	security or food safety
sexual abuse:	 identifying who is at risk – teachers, pupils,
 sexualised behaviour or language 	parents/carers

Knowledge – What you need to teach	Skills – What you need to teach
 sexually transmitted diseases (STDs), infections, swelling, soreness, discharge neglect: failure to thrive health problems hungry/thirsty failure to attend setting housing issues domestic abuse (Domestic Abuse Act 2021) – a victim of domestic abuse is a child who sees or hears, or experiences the effects of the abuse: aggression antisocial behaviour 	 evaluating the risk and selecting control measures recording the findings and implementing them checking actions have been carried out monitoring and reviewing risk management S3.30 The student must be able to respond appropriately to a pupil showing signs of a common illness, including all items below but not limited to: contacting the first aider to assess the pupil contacting parents isolating the pupil reassuring the pupil monitoring the pupil (temperature) keeping the pupil hydrated, if appropriate
 depression or anxiety problems in the setting The student must be made aware that the above list is not exhaustive and that there may be other signs of abuse. The student must understand Prevent and safeguarding legislation, guidance and procedures, including all items below but not limited to:	 recording the illness knowing when to escalate It is important that students are aware of the boundaries of their own role, for example, in administering medicine. The student must also understand what notifiable diseases must be reported to the local authority so that these can be monitored in case of local outbreaks and immunisation exclusion periods.
 who to report concerns to following policies and procedures in the setting knowing when to take concerns outside of the setting K3.2 The student must understand why it is important to communicate and share relevant information in a timely and appropriate manner with the safeguarding lead and other parties, including all items below but not limited to: 	 S3.31 The student must be able to respond appropriately to emergencies such as fire, including all items below but not limited to: following the school's relevant policies and procedures staying calm ensuring safety of self and others calling for assistance if required
 ensuring that pupils are kept safe and free from harm ensuring effective identification and appropriate provision is put in place 	 communicating the accident, injury or emergency to relevant people following evacuation procedures, including knowing where the fire exits and correct assembly points are located

Knowledge – What you need to teach	Skills – What you need to teach
complying with policies, procedures and legislation	S3.32 The student must be able to recognise the difference between pastoral and academic issues in order to implement the most appropriate strategy.
 adapting communication strategies to suit the audience and context 	 academic issues relate to educational progress and
K3.3 The student must understand how to promote the safe use of technology and the web, including all items below but not limited to:	 achievement pastoral issues relate to personal, social, emotional and behavioural problems
discussing appropriate online behaviour	S3.33 The student must be able to foster and
reporting concerns	encourage positive, effective, nurturing and safe environments, inspiring pupils to take pride in and
identifying trustworthy sources	develop from their individual achievements,
 explaining online security, such as privacy settings, software, secure URLs 	including all items below but not limited to:supporting learning and development to take place
sharing appropriate search techniques	according to the needs of the pupils
 explaining copyright infringement 	 addressing behavioural issues immediately and fairly.
 recognising techniques used for persuasion, such as phishing and how online apps encourage 	fairlycarrying out risk assessments as appropriate
users to stay on longer	 giving praise and encouragement
discussing online risks when sharing personal information	 giving pupils opportunities to be independent and take ownership of their learning
The student must understand the three areas of risk pupils can fall into online:	S3.34 The student must be able to use appropriate strategies to prepare and support pupils during
 content: being exposed to illegal, inappropriate or harmful material (for example, pornography, fake 	transitions and significant life events, including all items below but not limited to:
news, racist or radical and extremist views)contact: being subjected to harmful online	 providing information and giving opportunities to ask questions
interaction with other users (for example,	 moving-up days or visits to new settings
commercial advertising, as well as adults posing as children or young adults)	assemblies
 conduct: personal online behaviour that increases the likelihood of, or causes, harm (for example, 	 personal, social, health and economic (PSHE) education lessons
making, sending and receiving explicit images or online bullying)	 using targeted activities and resources
The student must understand the difference between	 implementing a buddy system
cyber-bullying and cyber-grooming:	 liaising with parents/carers
	 referring pupils to appropriate support

Knowledge – What you need to teach	Skills – What you need to teach
 cyber-bullying – when someone bullies others using electronic means, it can follow the pupil wherever they go, is usually repeated and can be subtle, including all items below but not limited to: 	S3.35 The student must be able to provide a calm and accepting environment that allows pupils to experience and express their feelings safely, including all items below but not limited to:
 threats and intimidation 	celebrating differences as well as similarities
 harassment and stalking 	having quiet areas for pupils to use
o defamation	modelling positive behaviour and relationships
 rejection and exclusion 	actively listening to pupils
◦ identify theft	modelling organisational skills
 publicly posting personal information about other people 	S3.36 The student must be able to use appropriate strategies to support pupils in managing failure and
o manipulation	disappointment, including all items below but not limited to:
 cyber-grooming – when someone builds a relationship with a pupil online so they can abuse, exploit or traffic them 	 developing an environment where pupils are not afraid to fail
The students must understand the signs of cyber-	praising pupils' best efforts
bullying and cyber-grooming, including all items below but not limited to the pupil:	 highlighting own mistakes and modelling how to deal appropriately with failure
spending more or less time online	knowing when to step back and allow the pupils to
acting out of character	fail
changes in appearance	supporting pupils to learn from their experience
 having lots of new phone numbers, texts or email addresses on their devices 	S3.37 The student must be able to help pupils choose realistic goals that are challenging but achievable by working with pupils to create targets
having unexplained gifts, possessions or wealth	that are specific, measurable, achievable, realist
 being secretive about what they are doing online and who they are talking to 	and time-bound (SMART). S3.38 The student must be able to support the
• seeming distant, angry or upset after being online	development of perseverance, self-reliance and
K3.4 The student must understand a range of	curiosity, including all items below but not limited to:
signs of common illnesses/infections and the associated symptoms, so that they are able to respond appropriately should a pupil display any,	 helping pupils develop strategies to overcome challenges
including all items below but not limited to:	creating an enabling learning environment
chickenpox:	using pupils' interests to develop learning activities
 rash (spots) 	to promote enhanced curiosity and perseverance
	providing activities that encourage independence

nowledge – What you need to teach	Skills – What you need to teach
o fever	ensuring stretch and challenge
measles:	S3.39 The student must be able to encourage pupil
 appearance of bad cold 	to take decisions and make informed choices, including all items below but not limited to:
o cough	 providing opportunities to make choices and
 sore watery eyes 	decisions
o fever	 helping pupils to consider all the information available
 rash (raised spots) 	 using coaching techniques for older pupils
mumps:	 involving pupils in voting and debates
o fever	 letting older pupils run clubs or interest groups
 pain and swelling under the chin 	S3.40 The student must be able to model good
 discomfort when chewing 	behaviour, including all items below but not limited
slapped cheek disease:	to:
o fever	being punctual
o nasal discharge	dressing appropriately
 bright red rash on cheeks/body 	demonstrating good manners
rubella:	acting responsibly
o mild cold	remaining calm
 rash (flat spots) 	 not interrupting when others are speaking
o swollen glands	 treating others with respect
whooping cough:	S3.41 The student must be able to support pupils t
 similar to cough and cold, gradually getting worse 	develop strategies to manage their own behaviour, including all items below but not limited to:
 coughing fits 	supporting pupils to deal with conflict effectively ar
o difficulty in breathing	taking time to understand how others may feel
 possible choking and vomit 	 actively listening and asking questions to help pupils verbalise feelings
 may experience a whooping noise when breathing in 	managing their emotions and behaviour
colds:	reassuring pupils that you are there to support the
 runny nose 	 giving pupils opportunities to practise socialisation skills such as sharing and turn taking
∘ cough	 responding to challenges appropriately
 raised temperature 	

Knowledge – What you need to teach	Skills – What you need to teach
 sore throat 	S3.42 The student must be able to recognise
conjunctivitis:	patterns and triggers to avoid inappropriate behavioural responses, including all items below
 o red, sticky eyes 	but not limited to:
 yellow discharge 	observing the pupil to identify early warning signs
ear infection:	 taking note of what is going on around the pupil
o ear pain	when the behaviour begins
 difficulty hearing 	 working with parents/carers and other professionals to identify potential triggers
viral infection:	The student must be able to take appropriate actions
o diarrhoea	and pre-empt problems:
 constipation 	updating pupil records regarding triggers for
 stomach pain 	challenging behaviour
o sickness	 being aware of how to deal with inappropriate behaviours
 loss of appetite 	
head lice:	 planning activities and learning opportunities that take into account individual pupils' needs and peer
 o itchy scalp 	relationships
 eggs on hair shaft 	 responding quickly to warning signs
∘ lice	
 hand, foot and mouth disease: 	
 sore throat 	
 high temperature 	
 lack of appetite 	
o mouth ulcers	
\circ blisters and rash on hands and feet	
meningitis:	
∘ fever	
 pale blotchy skin 	
 stiff neck 	
 cold hands and feet 	
o confusion	
o muscle pain	

Knowledge – What you need to teach	Skills – What you need to teach
o severe headache	
The student must understand the signs that require immediate medical intervention, including all items below but not limited to:	
raised temperature	
• rash	
unresponsive	
difficulty breathing	
K3.5 The student must understand how illnesses and infections are spread, including all items below but not limited to:	
 close contact with individuals who have an illness or infection 	
no or incomplete vaccinations	
 lack of hygiene processes and procedures, or processes not being followed 	
The student must understand how to prevent and control infection, including all items below but not limited to:	
 modelling and encouraging effective hygiene practice to pupils 	
promoting immunisation	
 removing unwell children or staff members from the setting 	
following hygiene processes and procedures	
• being aware of the required exclusion periods	
report notifiable diseases to the local authority	
K3.6 The student must understand the difference between accidents, injuries or emergency situations, including all items below but not limited to:	
 accidents – such as a spillage or breakage, a trip, slip or fall 	
 injuries – such as a graze, cut, bump or broken bone 	

Kn	owledge – What you need to teach	Skills – What you need to teach
•	emergency situations – such as endangering life (for example, fire, threat of harm or violence, gas leak, lockdown)	
acc	e student must understand how to respond to idents, injuries or emergency situations, including tems below but not limited to:	
•	following the policies and procedures for dealing with the situations within the setting	
•	acting within the responsibilities and limitations of their role	
•	recording and reporting appropriately	
fac	7 The student must understand how a range of tors can contribute to pupils' wellbeing, luding all items below but not limited to:	
•	physical:	
	○ sleep and rest	
	○ physical activity	
	\circ health and nutrition	
•	emotional:	
	 stable and safe environments 	
	o adult care	
	o secure attachments	
	 interpersonal relationships 	
ma	e student must understand how the following signs y indicate a lack of one or more of the above ors:	
•	poor appearance and hygiene	
•	recurring health problems	
•	not meeting developmental milestones	
•	negative self-concept	
•	changes in behaviour	
•	inappropriate behaviour such as attention seeking, stealing or emotional instability	

Knowledge – What you need to teach	Skills – What you need to teach
K3.8 The student must understand a range of transitions that a pupil will likely experience through school, the subsequent positive and negative impacts to wellbeing and strategies to support them, including all items below but not limited to:	
 starting and leaving school 	
transition between schools	
moving between key stages	
puberty	
undertaking significant tests or assessments	
Possible positive and negative impacts, including all items below but not limited to:	
changes in:	
 motivation or confidence 	
 excitement about the new experience or challenge 	
\circ levels of resilience and self-reliance	
 levels of independence 	
 development of maturity 	
 anxiety levels 	
o behaviour	
 engagement in education or activities 	
 concentration levels 	
 eating or sleeping patterns 	
 levels of self-care 	
The student must understand that there are a range of services and professionals to support children and young people's mental health and pastoral needs, including all items below but not limited to:	
 Children and Young People's Mental Health Services (CYPMHS) 	
 Children and Adolescent Mental Health Services (CAMHS) 	

Knowledge – What you need to teach	Skills – What you need to teach
youth workers	
playworkers	
play therapists	
K3.9 The student must understand why stable adult and peer relationships are important and the impact of disruption, including placement disruption, on a pupil's development and behaviour, including all items below but not limited to:	
insecurity and withdrawn behaviour	
frustration and aggressive behaviour	
 lack of self-esteem and confidence 	
 not meeting academic milestones 	
K3.10 The student must understand how a range of factors, in relation to family context, may impact on parenting:	
 family structure, including all items below but not limited to: 	
 how the number of parents in a household may affect time available to engage in children's education 	
 parenting style, including all items below but not limited to: 	
 how this impacts on the types of boundaries and interactions parents have with children 	
 income, including all items below but not limited to: 	
 how this may positively or negatively impact on stress within families and opportunities for children 	
 education, including all items below but not limited to: 	
 how this impacts on parental expectations and engagement with their children's education 	
 culture, including all items below but not limited to: 	

Knowledge – What you need to teach	Skills – What you need to teach
 how this impacts on parental values, norms and traditions 	
 stress and mental health, including all items below but not limited to: 	
 how this impacts on family interactions inside and outside of the home 	
K3.11 The student must understand why physical care needs of pupils are important and the impact they may have on health and development, in accordance with Maslow's hierarchy of needs.	
The student must understand how adults can support physical care for pupils appropriate to the age and stage of development, including all items below but not limited to:	
nutrition	
hydration	
• rest/sleep	
physical activity, including access to the outdoors	
suitable clothing for activities	
safety needs	
consideration for medical conditions	
K3.12 The student must understand the positive impact of helping pupils to develop self-care skills and the strategies that can be used to support this, including all items below but not limited to:	
 promoting good hygiene routines – such as using the toilet, handwashing, encouraging bathing and hair care 	
encouraging self-care and independence	
 promoting healthy food choices 	
encouraging care of belongings	
 understanding how to keep themselves safe 	

Kno	wledge – What you need to teach	Skills – What you need to teach
conr their this	3 The student must understand the nection between pupils relating to others and remotional resilience and wellbeing, and how affects a pupil's ability to, including all items w but not limited to:	
•	resolve problems	
•	develop empathy	
•	communicate their needs	
•	develop a support network	
	understand the difference between right and wrong	
•	listen to feedback and advice	
impa	4 The student must understand the possible act of inappropriate behaviours, including all s below but not limited to:	
•	regression	
•	withdrawal	
•	attention seeking	
•	antisocial behaviour	
•	self-damaging behaviour	
mana	student must understand the approaches to the agement of negative behaviours, including all s below but not limited to:	
•	establishing the cause of the behaviours	
•	involving pupils in setting rules and boundaries	
	applying rules fairly and consistently in line with the setting's policies	
•	modelling and reinforcing positive behaviour	
•	clarifying expectations on an ongoing basis	
•	building positive relationships	
•	collaborative problem solving	
•	praise, encouragement and use of incentives	
•	encouraging self-regulation	

Knowledge – What you need to teach	Skills – What you need to teach
K3.15 The student must understand the strategies to help pupils understand, express and manage their feelings, including all items below but not limited to:	
creating an enabling environment	
 teaching pupils strategies to manage their feelings 	
modelling appropriate behaviours	
 providing a safe place for pupils to talk 	
 developing an awareness of the 'language to express feelings' 	
 using targeted activities and resources 	
The student must understand the benefits of pupils being able to understand, express and manage their feelings, including all items below but not limited to:	
helping prepare them for adult life	
have fewer behavioural issues	
 have more positive and stable relationships 	
have a positive self-concept	
 have good mental health and wellbeing 	
 being able to contextualise experiences 	
K3.16 The student must understand the positive effects of encouraging pupils to challenge and test their abilities, including all items below but not limited to:	
 increasing motivation and interest 	
experiencing regular success	
making effective progress	
developing emotional resilience	
learning from mistakes	
increasing confidence	
The student must understand how the above effects can impact on pupils' self-esteem and progress.	

Knowledge – What you need to teach	Skills – What you need to teach
K3.17 The student must understand why the following policies and procedures are important within a school:	
• first aid:	
o preserves life	
 prevents the condition worsening 	
 promotes recovery 	
\circ knowing the appropriate actions to take	
health and safety:	
$\circ~$ protects the wellbeing of pupils and staff	
 knowing the requirements and boundaries of own role 	
\circ knowing the appropriate actions to take	
 knowing who to report to and lines of responsibility 	
recording and reporting incidents:	
 complies with legislation 	
 helps complete future risk assessments 	
 helps develop solutions to potential risks 	
K3.18 The student must understand the link between Henri Tajfel and John Turner's social identity theory and a pupil's self-concept.	
The student must understand how a range of factors can affect a pupil's self-concept, including all items below but not limited to:	
 the expectations and reactions of adults and peers 	
• age	
• media	
• culture	
• abuse	
relationships	
identity	

Knowledge – What you need to teach	Skills – What you need to teach
socio-economic background	
environment	
The student must understand how to support the development of a positive self-concept, including all items below but not limited to:	
 celebrating the diversity and individuality of all pupils 	
role modelling	
 implementing praise and reward strategies in the setting, such as star/helper of the day 	
The student must understand opportunities to support a pupil's self-efficacy through:	
mastery experiences	
vicarious experiences	
modelling experiences	
emotional and physical experiences	
K3.19 The student must understand why it is important to give pupils independence and control, including all items below but not limited to:	
increases pupils' self-esteem	
 prepares pupils to manage failure and disappointment 	
gives pupils freedom to make informed choices	
 encourages pupils to take responsibility for their own learning 	
 provides opportunities for challenge 	
improves academic performance	
engages pupils' curiosity in learning	
develops new skills	
begins to assess risks	
develops a sense of achievement	
increases motivation	

Knowledge – What you need to teach	Skills – What you need to teach
increases confidence	
 increases pupils' understanding of own strengths and limitations 	
K3.20 The student must understand how a range of factors impact on pupils' behaviour, including all items below but not limited to:	
lack of secure attachments	
 planned or unplanned transition 	
safeguarding needs	
short-term factors:	
∘ tiredness	
∘ hunger	
○ stress	
 changes to routine 	
The student must understand the link between the factors and the following changes in behaviour that a pupil may display, including all items below but not limited to:	
distress	
acting out of character	
regression	
withdrawal	
attention seeking	
antisocial behaviour	
self-damaging behaviour	
depression and anxiety	
K3.21 The student must understand why it is important to recognise and reward positive behaviour with reference to behaviourist approaches, including all items below but not limited to:	
operant conditioning:	
o Skinner	

Knowledge – What you need to teach	Skills – What you need to teach
o Thorndike	
classical conditioning:	
o Watson	
social learning theory:	
o Bandura	
The student must understand how to reward positive behaviour in an age- and stage-appropriate way, including all items below but not limited to:	
verbal praise	
reward charts	
merit certificates	
• assemblies	
house/class points	
agreed enrichment activities	
 feeding back to pupils/parents/carers 	
K3.22 The student must understand the expected levels of self-reliance and social behaviour at different ages and developmental stages, including all items below but not limited to:	
• pupils aged 5 to 7 will typically:	
 start to understand what it means to be embarrassed 	
 have preferred friends 	
o take turns and share	
 understand the purpose of rules 	
 seek approval from adults 	
\circ respond well to being given responsibilities	
• pupils aged 7 to 12 will typically:	
 be more settled and predictable 	
 have a wider circle of friends 	
$\circ~$ form close friendships with same-sex peers	

Knowledge – What you need to teach	Skills – What you need to teach
 pupils aged 12 to 16 will typically: o experience a range of emotional changes with 	
pubertyenjoy the feeling of maturity	
 still require adult support and guidance value friends' and others' opinions more 	
 pupils aged 16 to 19 will typically: still need guidance as they develop in 	
emotional maturity	

PO4: Recognise, adapt and respond to individual children's needs, including those with SEND, to support development and access to the curriculum

Knowledge – What you need to teach	Skills – What you need to teach	
K4.1 The student must understand theories of language acquisition and how speech and language may impact on pupils' development, including all items below but not limited to:	S4.9 The student must be able to recognise and act when there are causes for concern regarding a pupil's development, including all items below but not limited to:	
 cognition and learning ability to verbalise and express thoughts	 collecting and assessing evidence to support concerns 	
ability to reason and discuss	 using information from formal and informal observations and assessments 	
 ability to socialise and interact with adults and peers 	 sharing the information with teachers, parents/carers and SENDCO 	
Theories of language acquisition, including all items below but not limited to:	 following the setting's policies and procedures 	
ChomskyPiaget	S4.10 The student must be able to plan and provide activities to meet pupils' additional needs, including all items below but not limited to:	
BrunerVygotsky	 using all available information about a pupil to plan the activities 	
 BF Skinner The student must understand how a range of factors 	 working in partnership with parents and/or carers and other professionals, where appropriate 	
may affect communication and speech development, including all items below but not limited to:environment	S4.11 The student must be able to differentiate work provided by the teacher, depending on the individual needs, including all items below but not limited to:	
sensory and physical impairmentsEAL	 providing resources as needed to meet the individual learning needs of the pupil 	
 long-term medical conditions communication and language delays and disorders 	 allowing a differentiated amount of time to complete activities using appropriate technology 	
autistic spectrum disorder	 modifying or simplifying tasks 	
The student must understand how to adapt communication strategies to suit the pupil and the context.	 talking through the activity with the pupil to ensure understanding 	

Knowledge – What you need to teach	Skills – What you need to teach		
K4.2 The student must understand a range of cognitive difficulties and how they may impact on language development, communication, behaviour and education, including all items below but not	S4.12 The student must be able to support in the delivery of education, health and care plans (EHCPs), including all items below but not limited to:		
imited to:cognitive difficulties:	 understanding the required adjustments, interventions and support 		
 dyslexia – difficulty in learning to read or interpret words, letters and other symbols 	 discussing the expected impact on development, progress or behaviour 		
 dyscalculia – difficulty in learning and understanding mathematics 	 working in partnership towards the desired outcomes for the child 		
 dysgraphia – difficulty with basic writing skills 	delivering and feeding back on agreed interventions		
 like handwriting, typing and spelling dyspraxia – condition affecting physical co- ordination 	 developing further actions with the teacher, parents/carers and other professionals where appropriate 		
 attention deficit hyperactivity disorder (ADHD) behavioural disorder that includes symptoms that may include inattentiveness, hyperactivity and impulsiveness 	S4.13 The student must be able to recognise and differentiate approaches to meet pupils' individual needs to support them in accessing the curriculum by:		
 impacts, including all items below but not limited to: 	 using different communication methods when working with pupils with SEND, including all items below but not limited to: 		
 difficulties communicating 	 visual supports 		
 difficulties accessing the curriculum 	 o sign language or British Sign Language 		
 low self-esteem difficulties interacting with poors 	 technologies such as augmentative and 		
 difficulties interacting with peers poor organisational skills 	alternative communication (AAC)		
 poor organisational skills behavioural problems 	 using a range of strategies to communicate when working with pupils with different needs, including 		
 withdrawal 	all items below but not limited to:		
o anxiety	 visual prompts and cues including non-verbal 		
 reduced academic performance 	communication		
	 communication through pictures 		
	 developing vocabulary developing social skills to support 		
	 developing social skills to support communication 		
	 having a flexible approach in order to respond and adapt to pupils' needs and the situation 		

Knowledge – What you need to teach	Skills – What you need to teach
K4.3 The student must understand the relationship between pupil self-esteem and self-management and how this can impact on their education, both positively and negatively, including all items below but not limited to:	(GDC2) As part of S4.13 the student must be able to use a range of technology to effectively support pupils with specific needs such as dyslexia, dyscalculia or English as an additional language (EAL). This may include audio,
 pupils with low self-esteem may struggle with their own self-concept, believe they are not good enough, be less organised in their approach to their learning, and be less likely to ask for help 	visual, animated, virtual or augmented technologies. S4.14 The student must be able to encourage pupils to actively participate in educational tasks and activities consistent with their developmental level,
 pupils with high self-esteem, however, will feel a greater sense of efficacy and self-worth, and be more motivated to effectively manage their own learning. This could also result in a pupil becoming over confident 	 physical abilities and any medical conditions, including all items below but not limited to: using praise giving effective feedback
K4.4 The student must understand how a range of services can support pupils who have been abused, bullied or persecuted, or who are at risk of harm or danger, or becoming involved in offending behaviour, including all items below but not limited to:	 getting to know your pupils' strengths and weaknesses setting meaningful goals providing optimal challenges setting participation targets with the pupils
 charities (NSPCC, Barnardo's, Child Exploitation Online Protection (CEOP) Centre – work with children and young people to ensure they are not put at risk of harm) 	 consistent with their developmental, physical and medical needs adapting tasks to meet pupils' needs and abilities identifying and providing additional support required
 healthcare professionals – may be involved in discussions about a pupil's physical and emotional wellbeing 	S4.15 The student must be able to support pupils' social inclusion, including all items below but not limited to:
 Local Safeguarding Partnerships (LSPs) – ensure that organisations work together to protect children or young people Children and Young Deeple's Mantal Health 	 understanding the individual needs of pupils delivering intervention sessions that focus on addressing areas for development, such as turn
 Children and Young People's Mental Health Services (CYPMHS) – working with pupils who may be suffering from mental health issues or learning difficulties 	taking, communication skills, proximity and wider friendship skillssupporting lesson activities with the wider class to
 school or college – should identify signs of abuse or bullying and refer any concerns to appropriate professionals 	 encourage the active participation of all pupils contribute to school initiatives that focus on social inclusion, such as anti-bullying campaigns
 children's services – intervene when concerns have been raised about a pupil's welfare 	 encouraging understanding and interactions from peers

Knowledge – What you need to teach	Skills – What you need to teach		
 youth offending team – works with pupils who have offended or are at risk of offending/re- offending 	S4.16 The student must be able to provide opportunities that allow pupils to experience a sense of achievement and encourage independence,		
K4.5 The student must understand the definition	including all items below but not limited to:		
of a parent and carer as:	working with pupils to create SMART targets		
 all biological parents, whether they are married or not 	celebrating success		
 any person who, although not a biological parent, 	diversifying the school curriculum, such as in sport		
has parental responsibility for a child or young	providing social skills		
person – this could be an adoptive parent, a step-	devising appropriate learning activities		
parent, a guardian or other relative	S4.17 The student must be able to support pupils with disabilities or special educational needs (SEN)		
 any person who, although not a biological parent and does not have parental responsibility, has care of a child or young person 	by providing care and encouragement, including all items below but not limited to:		
The student must understand the responsibilities parents and carers have in their children's lives:	 listening to pupils and talking with them when needed 		
 providing a home for the child or young person 	providing support and any medical care		
and meeting their emotional needs	enabling the support of other pupils		
 protecting and maintaining the child or young 	 providing encouragement on a day-to-day basis 		
person	S4.18 The student must be able to support pupils		
disciplining the child or young person	confidence and self-esteem in order to help them		
 choosing and providing for the child's or young person's education 	manage their own learning, including all items below but not limited to:		
 agreeing to the child's or young person's medical treatment 	 using positive language to reframe how pupils see themselves 		
 looking after the child's or young person's 	 listening to pupils and giving them a voice 		
property	providing praise and encouragement when pupils		
The student must understand the legal rights of	are making an effort and trying hard		
parents and carers in relation to the education system to:	 supporting pupils in organising their learning and talking through their approach 		
 receive information from the school, such as pupil reports 	 encouraging a level of challenge that gives pupils opportunities to succeed 		
 participate in statutory activities, such as voting in elections for parent governors 	working with experienced staff to support pupils		
 be asked to give consent, such as to the child taking part in school trips 			

Knowledge – What you need to teach	Skills – What you need to teach
 be informed about meetings involving the child such as parents' evenings and educational reviews 	S4.19 The student must be able to support the development of a positive self-concept through, including all items below but not limited to:
 K4.6 The student must understand the possible practical and emotional impacts that having a child with a disability or special educational need may have on a family, including all items below but not limited to: practical: practicalities of the disability or special education need itself (equipment, toileting needs, relationships with others, managing hospital appointments and taking medication on time) coping with everyday challenges (attitudes of others, decision making, knowing the best course of action) increased demands on time cost of equipment, training, specific foods or 	 establishing a welcoming environment focusing on the pupils' needs facilitating self-praise promoting individual responsibility and accountability for choices helping pupils to set realistic goals praising positive attitudes and behaviours helping pupils to reframe negative thinking S4.20 The student must be able to provide social and physical support, including all items below but not limited to: working one-to-one in a wider classroom environment to support pupils with their social skills providing appropriate interventions for pupils'
 medicines emotional: impact on other children in the family (less time/money for them, jealousy, possible influences on behaviour) 	 individual needs understanding the roles and responsibilities of a teaching assistant in providing physical support for identified pupils working within the boundaries of own role
 impact on parents and carers (tiredness, stress, relationship difficulties, emotional concerns about child) 	S4.21 The student must be able to promote equality of opportunity and anti-discriminatory practice, including all items below but not limited to:
 K4.7 The student must understand the potential barriers pupils may face in the learning environment: environment, including all items below but not 	 challenging discrimination celebrating diversity of culture and family background within the setting modelling appropriate behaviour
 limited to: accessibility suitability teaching and learning, including all items below but not limited to: 	 partnership working with parents/carers and other professionals ensuring individual needs and interests are considered in planning and provision providing appropriate resources and adapting as necessary

Knowledge – What you need to teach	Skills – What you need to teach
 teaching quality lack of support poorly planned and organised teaching limited or no differentiation the pupil, including all items below but not limited 	 S4.22 The student must be able to provide support to bilingual pupils or those with EAL to ensure they are able to access the full curriculum, using appropriate strategies, including all items below but not limited to: understanding and developing a basic vocabulary in pupils' first language
 learning or behavioural difficulties peer pressure 	 using pictures and photographs to help pupils make sense of new information using tables or grids to help pupils organise their
 low ability The student must understand how to support pupils to vercome potential barriers, including all items below out not limited to: 	 thinking thinking about the language demands of the curriculum in advance and planning useful resources
 environment: ensuring that lighting and noise levels are appropriate making adjustments to the physical space to accommodate disabilities 	 using drama and role play to make learning memorable and encourage empathy getting pupils to work with partners or in small groups using the language for a specific purpose rather than out of context
 ensuring availability of appropriate resources teaching and learning: clarifying learning objectives for pupils 	 maintaining and developing pupils' first language alongside improving their English providing opportunities to talk before writing and using drills to help pupils memorise new language
 adapting learning activities to pupils' individual needs, including using AAC providing bilingual resources to pupils with EAL ensuring resources are prepared in advance 	 supporting language development through key phrases and structures rather than key words S4.23 The students must be able to value a pupil's home language and support them to acquire English, including all items below but not limited to
 preparing and understanding resources in advance providing appropriate feedback to support 	 incorporating a variety of languages into the classroom environment involving parents and carers in school events
 progression include all pupils in the activity, and consider their needs and interests 	 using audio texts in the first language to enhance comprehension of English texts using bilingual resources such as books and
 the pupil: intervening to manage disruptive behaviour 	dictionaries

Knowledge – What you need to teach	Skills – What you need to teach
 Knowledge – What you need to teach keeping pupils focused on tasks encouraging pupils to participate breaking down learning into smaller steps as needed following a pupil's education, health and care plan (EHCP) where appropriate referring any concerns to appropriate colleagues or professionals developing confidence and self-esteem K4.8 The student must understand a range of strategies and interventions that support pupils to access the curriculum, including all items below but not limited to: 	 Skills - What you need to teach pairing pupils, where possible, to work initially in language groups and feed back in English using culturally relevant resources celebrating different cultures and languages through the wider curriculum building relationships with pupils, teachers, other professionals and stakeholders
 modifying or adapting learning activities using targeted interventions using resources that are accessible to all in order 	
 to support learning providing individual attention or support when needed providing motivation and encouragement 	
 use of specific equipment, materials and resources and skills including communication systems such as AAC, use of technology, hearing loops 	
 setting targets and supporting pupils towards their next steps in learning 	

Section 5: technical qualification (TQ) glossary

Technical Qualification (TQ) Specification

Student

The person studying the technical qualification (TQ) ('The student must...').

Tutor

The individual delivering the TQ.

Provider

The centre delivering the TQ.

Core

Child and young person

The individual in the setting.

Practitioner

The qualified individual with whom the student will work in the setting.

Student

The person studying the TQ ('The student must ...').

Assessor

The person assessing the student's performance/relevant knowledge against standards and requirements.

Early Years Educator

Child and young person

The individual in the setting.

Practitioner

The qualified individual with whom the student will work in the setting.

Student

The person studying the TQ ('The student must ...').

Assisting Teaching

Pupil

The individual in the setting.

Teacher

The qualified individual with whom the student will work in the setting.

Student

The person studying the TQ ('The student must ...').

Tutor

The qualified individual with whom the student will work in the setting.

Series

Assessments that must be attempted in the same assessment window, such as paper A and paper B of the core examination.

Assessment mode

The assessment mode is how an assessment is made available and/or administered to students. For example, a written examination can be administered to students via an on-screen platform or via a traditional paper-based document.

Section 6: additional information

Annual monitoring visits

Our Quality Assurance team will monitor all approved technical qualification (TQ) providers on an ongoing basis. All providers delivering the TQ will be quality assured at least once a year to ensure that they are delivering in line with required standards. Annual monitoring reviews will be carried out either face-to-face or remotely by quality assurers appointed, trained and monitored by us. Providers will be allocated a quality assurer upon approval. Our quality assurers will complete a report following each annual review to record and share their findings.

Guided learning hours (GLH)

Guided learning is the activity of a student being taught or instructed by - or otherwise participating in education or training under the immediate guidance or supervision of - a lecturer, supervisor, tutor or other appropriate provider of education or training.

For these purposes, the activity of 'participating in education or training' shall be treated as including the activity of being assessed, if the assessment takes place under the immediate guidance or supervision of a lecturer, supervisor, tutor or other appropriate provider of education or training.

Total qualification time (TQT)

Total qualification time (TQT) is an estimate of the minimum number of hours that an average student would require in order to complete a qualification.

TQT comprises:

- the GLH for the qualification
- an estimate of the number of hours a student will likely spend in preparation, study or any other form of
 participation in education or training, including assessment, which takes place as directed by but not under
 the immediate guidance or supervision of a lecturer, supervisor, tutor or other appropriate provider of
 education or training

Registration periods

This qualification will incur late and very late registration fees for any registrations made outside of the standard registration period per academic session as outlined below:

- standard registration period:
 - o 01 September to 01 November
- late registration period:
 - o 02 November to 23 December
- very late registration period:
 - 24 December to 31 July

Providers are encouraged to register students at the start of the academic year in which delivery begins, and before the standard registration cut-off date to avoid incurring late registration fees. This applies even in cases where the provider does not intend to book students on to assessments until the second year of delivery.

Essential skills

Whilst completing this qualification, students have an opportunity to develop the knowledge, understanding and essential skills employers look for in employees. These range from familiar 'key skills', such as team working, independent learning and problem solving, to more tricky-to-measure skills, such as:

- appropriate workplace behaviour and dress
- appropriate interpersonal skills
- · communicating with professional colleagues/peers and/or hierarchical seniors
- supporting other aspiring employees
- personal manners
- understanding work practices and how different roles and departments function within an organisation

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) may be applied to the core component only.

Providers may, at their discretion, recognise prior learning if they are satisfied that the evidence provided meets the qualification's requirements.

For more information, please refer to the Recognition of Prior Learning (RPL) Credit Accumulation and Transfer (CAT) Policy on the NCFE website.

Qualification dates

We review qualifications regularly, working with sector representatives, vocational experts and stakeholders to make any changes necessary to meet sector needs and to reflect recent developments.

If a decision is made to withdraw a qualification, we will set an operational end date and provide reasonable notice to our providers. We will also take all reasonable steps to protect students' interests.

An operational end date will only show on the regulator's qualification database and on our website if a decision has been made to withdraw a qualification. After this date, we can no longer accept student registrations.

This qualification has external assessments, which can only be taken up to the last assessment date set by us. No external assessments must be permitted after this date, so students must be entered in sufficient time. Please visit the NCFE website for more information.

Staffing requirements

Providers delivering any of our qualifications must:

- have a sufficient number of appropriately qualified/experienced tutors to deliver the TQ to the volume of students they intend to register
- ensure that all staff involved in delivery are provided with appropriate training and undertake meaningful and relevant continuing professional development (CPD)
- implement effective processes to ensure all delivery is sufficient and current; this should include standardisation to ensure consistency of delivery
- provide all staff involved in the delivery process with sufficient time and resources to carry out their roles
 effectively

Core staffing requirements

Staff involved in the delivery of the core component must be able to demonstrate that they have (or are working towards) the relevant occupational knowledge and/or occupational competence in education and early years, at the same level as or higher than the qualification being delivered. This may be gained through experience and/or qualifications.

Occupational specialism (OS) staffing requirements

Staff involved in the delivery of the occupational specialism (OS) content must be able to demonstrate that they have (or are working towards) the relevant occupational knowledge and/or occupational competence in the relevant OS area, at the same level as or higher than the qualification being delivered. This may be gained through experience and/or qualifications.

Resource requirements

Providers must ensure that the student has access to the necessary materials, resources and workspaces for delivery and assessment. The following list is not exhaustive. Please refer to the qualification content for a more detailed indication of the required resources.

- computer
- internet access
- audio/visual recording equipment

Customer Support team

Our Customer Support team will support you with approvals, registrations, moderation, external assessment, results and general queries.

Fees and pricing

Fees will be made available to eligible and approved providers.

Training and support for providers

Our Provider Development team's primary purpose is to support providers and teaching teams in the delivery of this qualification. There are a number of ways in which we can do this, which include:

- · providing bespoke one-to-one support with the delivery staff
- delivering face-to-face events at numerous locations throughout the country
- facilitating delivery and CPD webinars
- signposting you to teaching and learning resources
- providing you with delivery updates on the TQ

The variety of support available includes:

- content structure
- teaching strategies
- SEN guidance
- quality assurance
- assessment preparation and blended learning

Should you wish to discuss your teaching and delivery requirements, please email: provider.development@ncfe.org.uk

Learning resources

We offer a wide range of bespoke learning resources and materials to support the delivery of this qualification, including:

- scheme of work
- session plans
- classroom activities
- blended learning activities (e-learning)
- tutor delivery guides
- home study tasks

Please check the qualifications page on the NCFE website for more information on the resources available for this qualification.

Equal opportunities

We fully support the principle of equal opportunities and oppose all unlawful or unfair discrimination on the grounds of ability, age, colour, culture, disability, domestic circumstances, employment status, gender, marital status, nationality, political orientation, racial origin, religious beliefs, sexual orientation and social background. We aim to ensure that equality of opportunity is promoted and that unlawful or unfair discrimination, whether direct or indirect, is eliminated both in our employment practices and in access to qualifications. A copy of our Diversity and Equality Policy is available on request.

Diversity, access and inclusion

Our qualifications and associated assessments are designed to be accessible, inclusive and non-discriminatory. We regularly evaluate and monitor the six diversity strands (gender, age, race, disability, religion, sexual orientation) throughout the development process as well as throughout the delivery, external quality assurance and external assessment processes of live qualifications. This ensures that positive attitudes and good relations are promoted, discriminatory language is not used and our assessment procedures are fully inclusive.

Access Arrangements and Reasonable Adjustments Policy

This policy is aimed at anyone who uses our products and services and who submits requests for access arrangements and reasonable adjustments. Students who require access arrangements and reasonable adjustments should discuss their requirements with their tutor.

The most up-to-date version of the policy can be found on the NCFE website where providers can find details of how to request an access arrangement and reasonable adjustment.
