Dear CACHE

Re. Support letter for qualification

I am writing to show continued support for the NCFE CACHE Level 3 Extended Diploma in Health and Social Care (601/8435/8).

As an employer, I believe this qualification is valuable because it will ensure the workforce is competent, skilled and confident.

This qualification will prepare learners for work and provide them with a foundation for progressing to a degree in Health and Social Care and possibly an access to nursing course.

Alternatively learners in suitable employment could progress to qualifications such as the Level 4 Diploma in Adult Social Care or the Level 5 Diploma in Leadership for Health and Social Care and Children and Young People's Services (England).

This qualification could also prepare for and lead to employment in a variety of job roles such as Carer, Support Workers in residential settings, Healthcare Assistants, Community-Based Support Workers, Care Support Workers in domiciliary services, various roles within the NHS.

Completing work placement as part of this qualification supports learning as well as providing potential employees with experiences in a real work environment.

Completion of this qualification would benefit our potential employees, by providing them with an overview of the health and social care sector and the underpinning principles of practice. A wide range of options are available in the qualification for employees and potential employees to pursue specific interests, progression pathways and acquire specialist knowledge. Potential employees also undertake work placements to support learning and gain some experience in services.

The content of this qualification is relevant because it provides employees with knowledge of the most up to date practices and protocols required for working in health and social care.

The application of this knowledge is vital for those working in the job roles listed above to ensure employees offer the highest standard of care and support to individuals accessing health and social care services.

Such qualifications will raise the status of health and social care work and this is to be encouraged as it will also attract more people to the sector.

Signed

Dear CACHE

Re. Support letter for qualification

I am writing to show continued support for the NCFE CACHE Level 3 Extended Diploma in Health and Social Care (601/8435/8).

As an employer, I believe this qualification is valuable because it will provide the knowledge and competence required for our competent and skilled workforce.

This qualification will prepare learners for work and provide them with a career pathway to meet the entry requirements to apply for the nurse degree apprenticeships.

Alternatively learners in our allied health profession support roles could progress to qualifications such as the Level 5 Diploma for Assistant Practitioners in Healthcare

This qualification could also prepare for and lead to employment in a variety of job roles such as Carer, Support Workers in residential settings, Healthcare Assistants, Community-Based Support Workers, Care Support Workers in domiciliary services, various roles within the NHS.

Completion of this qualification would benefit our employees as it meets the requirement of our Nursing Strategy to ensure our staff have access to current learning and development to support them to deliver first class care.

A wide range of options are available in the qualification for employees and potential employees to pursue specific interests, progression pathways and acquire specialist knowledge.

The content of this qualification is relevant because it provides employees with knowledge of the most up to date practices and protocols required for working in health and social care.

The application of this knowledge is vital for those working in the job roles listed above to ensure employees offer the highest standard of care and support to individuals accessing health services.

Re: Support letter for qualification

I am writing in support of the **NCFE CACHE Technical Level 3 Extended Diploma in Health and Social Care (601/8435/8)** qualification to be included in the 16-19 Performance Tables for 2018.

As an employer, I believe this qualification is valuable because it will ensure the workforce is competent, skilled and confident. Completing work placement as part of this qualification supports learning as well as providing potential employees with experiences in a real work environment. This qualification will provide them with a foundation for progressing to a degree in Health and Social Care and possibly an access to nursing course. Alternatively learners in suitable employment could progress to qualifications such as the Level 4 Diploma in Adult Social Care or the Level 5 Diploma in Leadership for Health and Social Care and Children and Young People's Services (England).

Dear CACHE

Re: Support letter for qualification

I would like to lend my support to the **NCFE CACHE Technical Level 3 Extended Diploma in Health and Social Care (601/8435/8)** qualification to be included in the 16-19 Performance tables for 2018.

We are a small charity delivering a range of care. I believe this qualification is valuable because it stretches and so develops each candidate's knowledge of health and social care. It also offers a wide range of options available to pursue specific interests, progression pathways and acquire specialist knowledge.

I also think that going on a work placement as part of this qualification, supports learning as well as providing our staff with experiences in a **real work** environment. It is actively demonstrating this knowledge which is vital for those working in the sector in order to ensure staff offer the highest standard of care and support to individuals accessing health and social care services. Qualifications such as these will inevitably raise the status of health and social care work. In turn this is to be encouraged as it will also attract more people to the sector.

This qualification will provide them with the best possible foundation for progressing to a degree in Health and Social Care. Alternatively learners could progress to qualifications such as the Level 4 Diploma in Adult Social Care or the Level 5 Diploma in Leadership for Health and Social Care and Children and Young People's Services (England).

At the moment most of our Care staff have a minimum of Level 3 and are asking for the opportunity to broaden their knowledge. This would also prepare our Senior Care staff to progress to the Level 4 Diploma in Adult Social Care.

This qualification could also prepare for and lead to employment in a variety of job roles within our own organisation such as Care Support Worker, Community Outreach/Rehabilitation Officer, Low Vision Clinic staff and specialist Escort staff.

We see our Care Staff as professional people who have chosen a difficult but rewarding career in the Care Sector. National qualifications such as this raises their sense of worth and increases motivation to excel.

I agree to this letter being published electronically on your website, in the public domain, in accordance with the Data Protection Act.

Yours faithfully

Lesley Shelley
Training Manager

Dear CACHE

Re: Support letter for qualification

I am writing in support of the **NCFE CACHE Technical Level 3 Extended Diploma in Health and Social Care (601/8435/8)** qualification to be included in the 16-19 Performance Tables for 2018.

As an employer, I believe this qualification is valuable because it offers a route to those learners who wish to enter the sector at a higher level, or progress to professional courses at an appropriate level and mix of sector related study modules. The application of this knowledge is vital for those working in the sector to ensure employees offer the highest standard of care and support to individuals accessing health and social care services. Qualifications within career pathways help to raise the status of health and social care work and this is to be encouraged as it will also attract more people to the sector.

Completion of this qualification would benefit our potential employees, by providing them with an overview of the health and social care sector and the underpinning principles of practice. A wide range of options are available in the qualification for employees and potential employees to pursue specific interests, progression pathways and acquire specialist knowledge. Potential employees also undertake work placements to support learning and gain some experience in services. This will provide them with a foundation for progressing to a degree in Health and Social Care, Health or Nursing related programmes and development opportunities, including progression to an Advanced Practitioner Foundation Degree/ Higher Apprenticeship. Alternatively learners in suitable employment could progress to qualifications such as the Level 4 Diploma in Adult Social Care or the Level 5 Diploma in Leadership for Health and Social Care and Children and Young People's Services (England).

This qualification could prepare for and lead to employment in a variety of job roles such as Carer or Support Workers in residential settings, Healthcare Assistants, Community-Based Support Workers, Care Support Workers in domiciliary services or various roles within the Health Trusts, both NHS and Private, Voluntary and Independent Sector Trusts.

I agree to this letter being published electronically on your website, in the public domain, in accordance with the Data Protection Act.

Yours faithfully,

Stephanie Pepperd
Training Manager
