

FAQs following provider standardisation training – April 2023

T Level Technical Qualification in Science (Level 3) 603/6989/9 - Laboratory Sciences

Are there any further examples to use for practice apart from those on your website?

All the sample assessments and past papers that are available can be found on our website.

Will you provide us with a list of what to photograph and what to film?

The provider guides for each assessment will give guidance on the types of evidence that need to be captured for each task.

Which tasks will need to be recorded?

The provider guides for each assessment will give guidance on the types of evidence that need to be captured for each task.

T Level Technical Qualification in Science (Level 3) 603/6989/9 - Food Sciences

Is audio-visual evidence required for the processes being undertaken by the student, or only still photographs?

The provider guides for each assessment will give guidance on the types of evidence that need to be captured for each task.

Do we need to film assessments taking place?

The provider guides for each assessment will give guidance on the types of evidence that need to be captured for each task.

T Level Technical Qualification in Health (Level 3) 603/7066/X - Supporting the Midwifery Team

How will moderation work?

Information on moderation and how it works can be found on the [preparing for moderation](#) page.

If we use external clinical staff to mark, will they need any training from NCFE?

There is no requirement for external clinical staff to attend NCFE training prior to marking. However, you (the provider) should attend the [prepare to assess training](#) to support you to run your own standardisation sessions. Any staff involved in making assessment decisions must be occupational competent as per the qualification specification and all staff involved in marking must be standardised.

T Level Technical Qualification in Health (Level 3) 603/7066/X - Supporting the Mental Health Team

Does the whole session need to be recorded?

The provider guides for each assessment will give guidance on the types of evidence that need to be captured for each task.

Are all the videos uploaded to NCFE for moderation?

The upload checklist, which is provided within the assessment materials pack, states that audio-video recordings are required for all students for all tasks.

Where are Practical Assessment Activities (PAA) materials found?

PAA assessment materials for the occupational specialism can be found in the Portal. All assessment materials for both part 1 (core) and part 2 are contained within the same zip folder under the A2B section. For further guidance on accessing assessment materials watch our short [video](#).

T Level Technical Qualification in Health (Level 3) 603/7066/X - Supporting the Adult Nursing Team

When applying the 'best-fit' approach where a student's performance may fluctuate across grade descriptors, is there any additional guidance on using the 'best-fit approach' or is this down to professional judgement?

Professional judgement should be used to determine the student's most appropriate band. Marks are checked through the standardisation and moderation processes. Marks can be adjusted through that process if required.
