Mark Scheme

This mark scheme has been written by the Assessment Writer and refined, alongside the relevant tasks, by a panel of subject experts through the external assessment writing process and at standardisation meetings.

The purpose of this mark scheme is to give you:

- information on how individual marks are to be awarded
- the allocated assessment objective(s) and total mark for each task.

Marking guidelines

General guidelines

You must apply the following marking guidelines to all marking undertaken throughout the marking period. This is to ensure fairness to all learners, who must receive the same treatment. You must mark the first learner in exactly the same way as you mark the last.

- The mark scheme must be referred to throughout the marking period and applied consistently. Do not change your approach to marking once you have been standardised.
- Reward learners positively, giving credit for what they have shown, rather than penalising them for what they might have omitted.
- Utilise the whole mark range and always award full marks when the response merits them.
- Be prepared to award zero marks if the learner's response has no creditworthy material.
- Do not credit irrelevant material that does not answer the task, no matter how impressive the response might be.
- The marks awarded for each response should be clearly and legibly recorded in the grid on the front of the task booklet.
- If you are in any doubt about the application of the mark scheme, you must consult with your Lead Examiners or the Chief Examiner.

Guidelines for using extended response marking grids

Extended response marking grids have been designed to award a learner's response holistically and should follow a best-fit approach. The grids are broken down into levels, with each level having an associated descriptor indicating the performance at that level. You should determine the level before determining the mark.

When determining a level, you should use a bottom up approach. If the response meets all the descriptors in the lowest level, you should move to the next one, and so on, until the response matches the level descriptor. Remember to look at the overall quality of the response and reward learners positively, rather than focussing on small omissions. If the response covers aspects at different levels, you should use a best-fit approach at this stage, and use the available marks within the level to credit the response appropriately.

When determining a mark, your decision should be based on the quality of the response in relation to the descriptors. Standardisation materials, marked by the Chief Examiner, will help you with determining a mark. You will be able to use exemplar learner responses to compare to live responses, to decide if they are the same, better or worse.

Assessment objectives

This external assessment requires learners to:

AO1	Recall knowledge and show understanding	40%
AO2	Apply knowledge and understanding	50%
AO3	Analyse and evaluate knowledge and understanding	10%

Project Brief

Language Buddy is an exciting educational resource that allows young people to practise and learn foreign languages.

The company hopes their classroom resources will encourage teachers in primary schools to make learning a new language fun and interactive!

Language Buddy want interactive media designers to present their ideas for their new resource packs for 2020. Ideas should be based on **one** language only.

Language Buddy has asked you to produce an interactive media product for your chosen language. This product will be used as a learning resource by teachers in classrooms.

You must:

- aim the product at the target audience of children aged 7 to 11
- use appropriate assets to engage the target audience (eg images, text, animations, interactive quizzes, games, video and audio)
- show how your chosen language could be represented in the new resource packs for 2020 (eg consistent style, colour schemes, photographs, flags, sounds, fonts etc).

You will need to refer to each of these three client requirements within your interactive media product.

You are not required to write any content for your product in your chosen language. Your chosen language is for the Language Buddy theme only.

You have a total of 15 hours to complete the brief.
