You **must** work independently and all of the work in the external assessment task **must** be your own.

Any work that you have submitted for internal assessment **cannot** be submitted as part of your work for the external assessment task.

You can take any notes, materials, and research produced prior to the external assessment into the **first** supervised session. You can also access these in the remainder of the sessions.

After the **first** session, you are **not** permitted to bring in additional notes, materials, and research.

At the end of each supervised session, your supervisor will collect all external assessment materials, including notes, materials and research before you leave the room. You **must not** take any external assessment material out of the room.

This material will be securely stored between supervised sessions, and you **will not** have access to the material outside of these sessions.

You **must** hand in the external assessment task as a whole piece of work and not in separate sections.

You **must** organise your responses to the criteria logically and identify the criteria that you are responding to – for example D1, D2, C1, C2 – at the beginning of the section.

You **must** respond to each criteria individually. Do **not** combine criteria, as the external assessment task is not marked holistically. **If you combine criteria, you may be awarded a Not Yet Achieved (NYA) grade for the external assessment task.**

Read the criteria carefully, thinking about your personal experiences in settings and what you have been taught. A short explanation is given for each criteria to show what is required.

You should think about the key words within each criteria to make sure that your information covers all essential points.

References **must** support responses given in each grade and should **not** be submitted as a separate criteria.

All criteria for a grade must be completed for the grade to be awarded.

You should **not** include appendices. These will **not** be marked.

You **must** use references in this assessment to support your understanding or to justify your comments.

- You **must** clearly reference all sources used to support your own ideas and opinions, to make sure they are traceable.
- You **must** show quotations from websites in full, giving the date of access.
- Quotations **must not** be used to provide information in place of your own words.
- Quotations **must** be used within the text to support your own discussion and are **not** included in the word count.
