Section 1: General introduction

About this Qualification Specification

This Qualification Specification contains details of all the units and assessments you will be required to complete to gain this qualification. It also contains extra information for Tutors and/or Assessors.

How the qualification works

This qualification is made up of units each representing a small step of learning. This allows the qualification to be completed at your own pace.

All of the units achieved can be ‘banked’. This means that if you want to take another qualification which includes the same units you do not have to take them again.

Each unit has:

- a **level** – shows how difficult it is
- a **credit value** – one credit represents about 10 hours’ work
- a **unit aim** – explains what is covered in the unit
- **learning outcomes** – cover what you need to do (skills) or what you need to understand (knowledge)
- **assessment criteria** – what you need to show (evidence)

Each learning outcome is linked to a number of assessment criteria. Evidence must be provided for all the assessment criteria to gain the unit.

Learning outcomes The learner will:	Assessment criteria The learner can:	Evidence record e.g. page number & method	Assessor judgement achieved Initial and date
1. Know substances which are commonly misused.	1.1. List categories of substances which are commonly misused.		
	1.2. Identify substances which are commonly misused.		

Total Qualification Time/Guided Learning: Definitions

Total Qualification Time (TQT) is comprised of the following two elements:

- the number of hours which we have allocated to a qualification for Guided Learning
- an estimated number of hours a learner will reasonably be likely to spend in preparation, study, or any other form of participation in education or training, but not under the immediate supervision of a Tutor or Assessor.

Guided Learning (GL)

- Guided Learning (GL) and TQT apply to the qualification as a whole.
- We use GL to refer to the estimated guided learning hours at unit level.

Barred units, equivalencies and exemptions

This qualification may contain barred units, equivalencies or exemptions. These will be identified in the summary for each unit.

Recognition of Prior Learning (RPL)

Centres may recognise prior learning at their discretion if they are satisfied that the evidence provided meets the requirements of a qualification. Where RPL is to be used extensively (for a whole unit or more), advice must be given by your External Quality Advisor.

Credit transfer

Where a learner has already achieved a unit with credit, we will recognise that prior learning and will allow the credit to be transferred onto a new qualification, provided that the units have the same Ofqual reference number.

Understanding learning outcomes

There are two main types of learning outcome:

- **Skills** that can be performed
- **Knowledge** that can be learnt.

Sometimes they can cover a combination of the two.

Competence-/Skills-based learning outcomes:

- Begin with 'Be able to'. The assessment criteria usually show that the evidence could be observable within a real work environment. Other methods may be applied, please see chart in Assessment Guidance section. All evidence must be based on the learner's experience in a real work environment.

Knowledge-based learning outcomes:

- Begin with 'Know', 'Understand' or 'Know how to'.

For your convenience, knowledge-only units are indicated by a star in both the Unit Achievement Log and at the top of the units.

If a unit is not marked with a star, it is a skills unit or contains a mix of knowledge and skills.

Making use of our websites

The most recent version of our qualification specification and supporting documents can be found on the NCFE website. To ensure that you're using the most up-to-date version, please check the version number in the page footers against that of the qualification specification.

The website also contains information about all our qualification, including a qualification factsheet and other support materials.

The Public Website

Our public website address is: www.ncfe.org.uk. The website contains information about all our qualifications, including:

- Key Facts
- Qualification Specifications
- other support materials.

There are also some other key documents that can be referred to when required. For example:

- Complaints Procedure
- Appeals Process
- Diversity Statement.

It also contains regular news updates and case studies and links to websites from other organisations that might be of interest.

Support for Centres

There are a number of support documents available that you might find useful for delivery. These are available to download the NCFE website or can be requested by the customer support team on 0191 239 8000 or email customersupport@ncfe.org.uk

Our customer support team will support you with approvals, registrations, external quality assurance, external assessment, results and certification.

This qualification specification must be used alongside the mandatory support handbook which can be found on the NCFE website. This contains additional supporting information to help with planning, delivery and assessment.

This qualification specification contains all the qualification-specific information you will need that is not covered in the support handbook.

The Centre Secure Website

More specific information to support Centre delivery can be found on our secure website.

To access the secure website, click on the link on the NCFE website and log in using the details provided by the Centre administrator.

Plagiarism

Plagiarism means claiming work that has been copied from someone or somewhere else to be your own. All the work you submit must be your own and not copied from anyone else unless you clearly reference the source of your information. Your Tutor will explain how to provide a reference list that shows where you found your information. If your Centre discovers evidence that your work is copied from elsewhere, it will not be accepted and you may be subject to your Centre's disciplinary procedure or ours. If this happens you will have to submit an additional piece of work for assessment. We will be notified of any cases of plagiarism.

Buying and selling assignments

Offering to buy or sell assignments is not allowed. This includes using sites such as eBay. If this happens we reserve the right not to accept future entries from you.

Equal opportunities

We fully support the principle of equal opportunities and oppose all unlawful or unfair discrimination on the grounds of ability, age, colour, culture, disability, domestic circumstances, employment status, gender, marital status, nationality, political orientation, racial origin, religious beliefs, sexual orientation and social background. We aim to ensure that equality of opportunity is promoted and that unlawful or unfair discrimination, whether direct or indirect, is eliminated both in its own employment practices and in access to its qualifications. A copy of our Diversity and Equality policy is available on the NCFE website.

Diversity, access and inclusion

Our qualifications and associated assessments are designed to be accessible, inclusive and non-discriminatory. We regularly evaluate and monitor the 6 diversity strands (gender, age, race, disability, religion, sexual orientation) throughout the development process as well as delivery, external moderation and external assessment processes of live qualifications. This ensures that positive attitudes and good relations are promoted, discriminatory language is not used and our assessment procedures are fully inclusive.

Learners who require reasonable adjustments or special consideration should discuss their requirements with their Tutor, who should refer to our Reasonable Adjustments and Special Considerations policy for guidance. For more information on the Reasonable Adjustments and Special Considerations policy please see our dedicated qualifications website www.ncfe.org.uk.

**Explanation of terms used at Level 4:
(not all verbs are used in this qualification)**

Analyse	Break the subject or complex situations into separate parts and examine each part in detail. Identify the main issues and show how the main ideas are related to practice and why they are important. Reference to current research or theory may support the analysis.
Critically analyse	This is a development of 'analyse' which explores limitations as well as positive aspects of the main ideas in order to form a reasoned opinion.
Clarify	Explain the information in a clear, concise way showing depth of understanding.
Classify	Organise accurately according to specific criteria.
Collate	Collect and present information arranged in sequence or logical order which is suitable for purpose.
Compare	Examine the subjects in detail, consider and contrast similarities and differences.
Critically compare	This is a development of 'compare' where the learner considers and contrasts the positive aspects and limitations of the subject.
Consider	Think carefully and write about a problem, action or decision showing how views and opinions have been developed.
Demonstrate	Show an in-depth understanding by describing, explaining or illustrating using examples.
Describe	Provide a broad range of detailed information about the subject or item in a logical way.
Discuss	Write a detailed account which includes contrasting perspectives.
Draw conclusions (which...)	Make a final decision or judgment based on reasons.
Evaluate	Examine strengths and weaknesses, arguments for and against and/or similarities and differences. Judge the evidence from the different perspectives and make a valid conclusion or reasoned judgment. Apply current research or theories to support the evaluation.

Critically evaluate	This is a development of 'evaluate' where the learner debates the validity of claims from the opposing views and produces a convincing argument to support the conclusion or judgement.
Explain	Apply reasoning to account for how something is or to show understanding of underpinning concepts. Responses could include examples to support these reasons.
Identify	Apply an in-depth knowledge to give the main points accurately. (A description may also be necessary to gain higher marks when using compensatory marking).
Justify	Give a detailed explanation of the reasons for actions or decisions.
Reflect	Learners should consider their actions, experiences or learning and the implications of these in order to suggest significant developments for practice and professional development.
Review and revise	Look back over the subject and make corrections or changes based on additional knowledge or experience.
Summarise	Give the main ideas or facts in a concise way to develop key issues.

Specialisms Units

HSC S 32: Specialist areas of care

Unit reference	J/616/6324	Unit level	4
Credit value	5	GL	40
Unit aim	<p>Building on the mandatory content, this unit will develop the learner's knowledge, understanding and skills in relation to leading practice within own specialist area of care. Throughout the unit, the learner must apply each learning outcome and related assessment criteria to the specialist area of care within own service.</p> <p>The learner will consider the impact of a condition on the holistic needs and well-being of individuals within own service (e.g. dementia, physical disability, sensory loss, acquired brain injury, learning disability, autistic spectrum, substance misuse, profound and complex needs, multiple conditions, mental health, terminal illness).</p> <p>The learner will then explore the impact of the condition for the holistic care needs of individuals. In order to do this, the learner will be able combine more than one specialist area of care. For example, the learner may wish to focus their practice on supporting individuals with dementia, but also have the opportunity to show competence in end of life care; or the learner may wish to focus their practice on supporting individuals with a learning disability, but also show competence in positive behaviour support.</p> <p>The learner will then review current research, policy and guidance relating to own specialist area of care and reflect on how this informs their practice. This will require the learner to explore services and referral processes within own specialist area of care and will consider how to represent the rights and interests of individuals.</p> <p>Understanding and skills in relation to leading outcomes-based, person-centred practice must be evidenced to include reflecting, evaluating, reviewing and developing practice.</p> <p>Finally, the learner will be able to further develop their knowledge and skills within related specialist areas of care through contributing to a plan to improve outcomes-based person-centre practice within own specialist area of care.</p>

Section 4: Assessment and quality assurance information

Recommended assessment methods

A recommended range of assessment methods has been identified, which may be used for the units in this qualification. This gives the opportunity for different learning styles and individual needs of learners to be taken into account.

If you are proposing to use an assessment method that is not included within the recommended list you should contact your External Quality Advisor with full details of your proposed method. It will need formal approval from us before it can be used.

Please refer to the notes relating to **Expert Witness testimony** and **simulation** which follow this table.

Ref	Assessment Method	Assessing Competence/ Skills	Assessing Knowledge/ Understanding
A	Direct observation of learner by Assessor <ul style="list-style-type: none"> by an Assessor who meets the relevant Sector Skills Council's or other assessment strategy/principles and includes inference of knowledge from this direct observation of practice 	Yes	Yes
B	Professional discussion	Yes	Yes

D	Learner's own work products	Yes	Yes
E	Learner log or reflective diary	Yes	Yes
F	Activity plan or planned activity	Yes	Yes
G	Observation of children, young people or adults by the learner	Yes	Yes
H	Portfolio of evidence <ul style="list-style-type: none"> may include simulation** 	Yes	Yes
I	Recognition of prior learning	Yes	Yes
J	Reflection on own practice in real work environment	Yes	Yes

Ref	Assessment Method	Assessing Competence/ Skills	Assessing Knowledge/ Understanding
K	Written and pictorial information	No	Yes
L	Scenario or case study	No	Yes
M	Task set by CACHE (for knowledge learning outcomes)	No	Yes
N	Oral questions and answers	Yes	Yes

* **Expert Witness testimony** should be used in line with the relevant assessment strategy/principles. This method must be used with professional discretion, and only selected when observation would not be appropriate. Those providing an expert witness testimony must be lead practitioners with experience of making judgements around competence. The circumstances that may allow for an expert witness testimony include:

- when assessment may cause distress to an individual, such as supporting a child with a specific need
- a rarely occurring situation, such as dealing with an accident or illness
- confidential situations – such as safeguarding strategy meetings – where it would be inappropriate for an Assessor to observe the learner’s performance.

** **Simulation.** A learner’s Portfolio of Evidence may only include simulation of skills where simulation is permitted by the relevant assessment strategy/principles.

Assessment strategies and principles relevant to this qualification

The units we offer have been developed in line with the specific **assessment strategies or principles** of different Sector Skills Councils (SSCs) or by us where there is no SSC lead.

The key requirements of the assessment strategies or principles that relate to units in this qualification are **summarised** below. More detailed strategies or principles can be found in **Delivering our Qualifications – Assessment and Internal Quality Assurance Guidance**, which can be found on the CACHE website.

The Centre needs to ensure that individuals undertaking Assessor or Quality Assurer roles within your Centre conform to the SSC assessment requirements for the **unit** they are assessing or quality assuring.

Skills for Care and Development Assessment Principles

Knowledge learning outcomes

- **Assessors** will need to be both occupationally knowledgeable and qualified to make assessment decisions.
- **Internal Quality Assurers** will need to be both occupationally knowledgeable and qualified to make quality assurance decisions.

Competence / Skills learning outcomes

- **Assessors** will need to be both occupationally competent and qualified to make assessment decisions.
- **Internal Quality Assurers** will need to be both occupationally knowledgeable and qualified to make quality assurance decisions.

Skills for Health Assessment Principles

Knowledge learning outcomes

- **Assessors** will need to be both occupationally knowledgeable and qualified to make assessment decisions.
- **Internal Quality Assurers** will need to be both occupationally knowledgeable and qualified to make quality assurance decisions.

Competence / Skills learning outcomes

- **Assessors** will need to be both occupationally competent and qualified to make assessment decisions.
- **Internal Quality Assurers** will need to be both occupationally knowledgeable and qualified to make quality assurance decisions.

Staffing requirements

Centres delivering any of our qualifications must:

- have a sufficient number of appropriately qualified/experienced Assessors to assess the volume of learners they intend to register
- have a sufficient number of appropriately qualified/experienced Internal Quality Assurers to internally quality assure the anticipated number of Assessors and learners
- ensure that all staff involved in assessment and internal quality assurance are provided with appropriate training and undertake meaningful and relevant continuing professional development
- implement effective internal quality assurance systems and processes to ensure all assessment decisions are reliable, valid, authentic, sufficient and current. This should include standardisation to ensure consistency of assessment
- provide all staff involved in the assessment process with sufficient time and resources to carry out their roles effectively.

Assessors and Internal Quality Assurance

Staff involved in the Assessment and Internal Quality Assurance of this qualification must be able to demonstrate that they have (or are working towards) the relevant occupational knowledge and/or occupational competence, at the same level or higher as the units being assessed and internal quality assured. This may be gained through experience and/or qualifications.

Section 5: Documents and resources

Useful documents

This section refers to useful documents that can be found on the secure website, some of which may assist with the delivery of this qualification.

- Delivering Our Qualifications – Assessment and Internal Quality Assurance Guidance

Mandatory documents

The completion of an Evidence Record and Record of Assessment Cycle form is **mandatory**. We have devised these templates for your convenience; however, you may design your own forms which comply with the content of our templates.

- CACHE Evidence Record
- CACHE Record of Assessment Cycle

We have also provided notes to guide you when completing these forms:

- Completing the CACHE Evidence Record
- Completing the CACHE Record of Assessment Cycle

The forms and guidance documents are included within **Delivering Our Qualifications – Assessment and Internal Quality Assurance Guidance** on the secure website.

The following documents are available on the Qualifications page on the NCFE website and are mandatory reading for any centre involved in the delivery, assessment and administration of this qualification:

- Skills for Health Assessment Principles
- Skills for Care and Development Assessment Principles.

Resources

The resources and materials used in the delivery of this qualification must be age-appropriate and due consideration should be given to the well-being and safeguarding of learners in line with your institute's safeguarding policy when developing or selecting delivery materials.
