1. Introduction

This guidance has been produced in order to support the delivery of the Level 1/2 Technical Award in Food and Cookery Examined Assessment (EA) and the Non-Exam Assessment (NEA). It is not intended to replace the specification documents but should be used in conjunction with them to support the successful delivery and completion of the qualification and assessments.

The aim of the NEA is to provide learners with the opportunity to independently apply an appropriate selection of knowledge, understanding, skills and techniques, developed through the full course of study, in response to a real-world situation, to enable them to demonstrate an integrated connection and coherence between the different elements of the qualification.

NCFE provides instructions for each of the assessments, and these must be followed by centres. Centres should ensure that essential resources for the assessments must be purchased by providers prior to the assessments taking place. For further information on the required resources for the course please refer to the Qualification Specification.

2. Tutor overview

Tutors need to familiarise themselves with the content of the assessments to ensure that they have a full understanding of the requirements and that resources required for the assessments are available.

3. Scheme of assessment

The Level 1/2 Technical Award in Food and Cookery qualification is made up of two component parts: an EA and an NEA.

Assessments	Assessment time	% weighting	Raw marks	Scaling factor	Scaled marks*	Assessment conditions	Marking
NEA	16 hours 30 minutes (plus 2 hours to develop a resource pack)	60%	96	1.250	120	Supervised	Internal, with external moderation
EA	1 hour 30 minutes	40%	80	1.000	80	Invigilated	External
Assessment total	18 hours (plus 2 hours to develop a resource pack)	100%			200		

Although the resource pack is not assessed, it will assist learners when undertaking the 16 hours 30 minutes of NEA time. Therefore, centres should ensure that the full 2 hours are allocated.

The practical nature and purpose of the qualification means that it is necessary to assess understanding through two means of assessment: an external EA and an internal NEA. The variance in assessment methods used allows for a range of knowledge, understanding and skills that can be assessed using the most fit-for-purpose method.

4. Assessment objectives (AOs) definitions

The table below shows the definitions of the assessment objectives used for both EA and the NEA.

Assessment objective (AO)	
AO1	Recall knowledge and show understanding. The emphasis here is for learners to recall and communicate the fundamental elements of knowledge and understanding.
AO2	Apply knowledge and understanding. The emphasis here is for learners to apply their knowledge and understanding to real-world contexts and novel situations.
AO3	Analyse and evaluate knowledge and understanding. The emphasis here is for learners to develop analytical thinking skills to make reasoned judgements and reach conclusions.
AO4	Demonstrate and apply relevant technical skills, techniques and processes. The emphasis here is for learners to demonstrate the essential technical skills relevant to the vocational sector by applying the appropriate processes, tools, and techniques.
AO5	Analyse and evaluate the demonstration of relevant technical skills, techniques and processes. The emphasis here is for learners to analyse and evaluate the essential technical skills, processes, tools and techniques relevant to the vocational sector.

5. Accessibility and fairness

To promote accessibility and fairness for all learners and to ensure diversity and equality, we expect centres to be aware of and meet the requirements of relevant NCFE policies and government legislation. You must ensure that:

- all of your processes concerned with assessment are carried out in a fair and objective manner
- you continue to adhere to current equal opportunities legislation
- you continue to operate an effective Diversity and Equality Policy, with which learners are familiar and which applies to all learners using our products and services.

Plagiarism may result in the external assessment task being awarded zero marks. For further guidance, refer to the qualification page on our website.

6. Examined assessment (EA) command words

To support effective teaching and learning the following table provides centres with the command word taxonomy used for the EA. It illustrates the range of command words, associated assessment objective (AO) and their intended use. It is intended to support centres when creating assessment tools. Please note that these cover the full range of Level 1/2 Technical Award qualifications, and some may be more appropriate for certain subject areas.

AO1

Command word	Use / requires learners to...
Complete	Finish a task by adding to given information.
Give	Recall an answer.
Identify	Name or otherwise characterise.
Label	Provide appropriate names on a diagram.
List	Generate a record of words, sentences or comments.
Outline	Set out the main characteristics or features.
Name	Identify using a recognised technical term.
State	Express in clear, brief terms.
Define	Give a definition or specify meaning of an idea or concept.

AO2

Command word	Use / requires learners to...
Choose / select	Select from a range of possible solutions to address a specified problem, for example, choose the best / cheapest / most appropriate course of action in the given circumstances. Choose or pick from alternatives or choose for a specific purpose.
Complete	Finish a task by applying knowledge, skills and techniques.
Calculate	Work out the value of something, showing relevant working.
Estimate	Perform one or a set of steps or to arrive at an approximate answer / assign an approximate value. This should be a value (not decision / opinion).
Work out	Perform one or a set of steps or calculation to arrive at an answer.
Label	Label within a context, for example, within a process or based on application of knowledge and understanding. Apply understanding of a topic by correctly identifying and naming parts of a diagram, image, or model.
State (what / why)	Single or a series of succinct points of information that are applied to a context.
Suggest (what / why)	Present a possible cause or solution.

Command word	Use / requires learners to...
Describe	Give an account of or set out characteristics or features. Answers provide both cause and effect
Explain	Set out purposes or reasons or make something clear in relation to a particular situation. An explanation requires understanding to be demonstrated using a what and why approach with multiple linked statements and reasons. When part of a three- or four-mark question, we would expect the question to ask for a justified or reasoned conclusion.
Explain (how / why)	Give a detailed account of a process or way of doing something. When part of a three- or four-mark question, we would expect the question to ask for a justified or reasoned conclusion.

AO3

Command word	Use / requires learners to...
Discuss	Present key points about different ideas or strengths and weaknesses of an idea. There should be some element of balance, although not necessarily equal weighting. To consider or examine by means of argument for and against. An 'understanding-based' response with a similar level of detail and balance between information and opinion / reasoning. Three marks is more appropriate if a decision or conclusion is needed.
Justify	Make judgements, provide supporting reasons and reach conclusions to a given context.
Recommend	Answers should present a supported judgement about the value of a particular (presented) procedure / solution in context.
Suggest (what / why / how)	To suggest that someone or something would be good or suitable for a particular purpose with some rationale for AO3 which is not necessary at AO2.
Assess	Consider information in order to make decisions.
Analyse	Separate information into component parts. Make logical, evidence-based connections between the components.
Compare	Learners will use critical thinking skills such as analysis and evaluation and interpret the significance, make connections and form a judgement. Cannot be used on its own as two-mark AO3 verb as it would not elicit the conclusions and or judgements so learners should be directed to arrive at a conclusion or decision following the comparison for three marks at AO3.
Evaluate	Review information and bring it together to make a decision and come to a conclusion.

7. Non-exam assessment (NEA)

The purpose of the NEA is to ensure that learners can recall, apply, analyse and evaluate their knowledge and understanding. Additionally, the NEA provides learners the opportunity to demonstrate, analyse and evaluate their own skills to develop a substantial piece of work in response to a set brief. The brief and tasks are contextualised around the Food and Cookery vocational settings.

The NEA takes the form of a synoptic project as it requires learners to draw on their knowledge and understanding of the entire qualification content.

The NEA in Food and Cookery is comprised of a series of interconnected tasks. The table below shows the allocation of assessment objectives (AOs) and marks for each task. Please refer to section 4 of this document for a full definition of the AOs.

Centres are reminded that the marking of the NEA is to be carried out holistically, using the banded marking grids. The numerical weightings are for information purposes only and have been accounted for and integrated into the banded levels of response grids.

Assessment objective (AO)		Task marks								Total Marks (% weightings)
		1	2(a)	2(b)	3(a)	3(b)	3(c)	4(a)	4(b)	
AO1	Recall knowledge and show understanding	4			4					8 marks (8.3%)
AO2	Apply knowledge and understanding	4			8					12 marks (12.5%)
AO3	Analyse and evaluate knowledge and understanding	4		6			4		12	26 marks (27.1%)
AO4	Demonstrate and apply relevant technical skills, techniques and processes		12			12		12		36 marks (37.5%)
AO5	Analyse and evaluate the demonstration of relevant technical skills, techniques and processes			6			8			14 marks (14.6%)

Publication of the live NEA Brief

The NEA will be made available electronically by NCFE as a DRAFT version, at the start of September in the year of certification. A two-week window of clarification will then open for centres. The FINAL version of the NEA will be made available electronically by NCFE at the beginning of October. In the case where these are non-working days, the NEA version will be published the next working day. Centres can access the NEA materials from the Portal if they have learners with an associated booking. This is to support manageability and centre

planning. However, the following information is provided to learners in the NEA brief document and must be adhered to:

Learners should **not** start the NEA until teaching and learning of all the content has been delivered to learners. This will ensure that your learners are in the best position to complete the NEA successfully.

As a result, centres should be mindful when planning the provision and delivery of the qualification in terms of when to administer the NEA, ensuring that learners are suitably prepared for the requirements of the assessment. Section 8 provides an illustrative example of how the NEA tasks could be managed within centres.

Whilst the assessment is live, it will only be accessible by selecting the assessment window associated with the year of completion upon registration. All teaching must be complete prior to accessing the assessment and the learner must be booked onto the NEA associated with the year of completion. The live NEA cannot be used as a sample. Only the sample assessment materials (SAMs) on the qualification webpage on our website may be used for practice assessments. These will be updated annually on related qualification pages.

7.1 Developing a resource pack

Prior to commencing the formal 16 hours 30 minutes of NEA time, learners should be allocated 2 hours to find resources and develop a resource pack.

During this time learners may have access to the project brief but may not access the NEA tasks. This 2-hour time period is entirely open book where learners can access their teaching and learning materials, textbooks, internet and other published materials.

From this, they should develop a resource pack which can be used as their source of information when completing the NEA.

See the below table for resource pack guidance.

Developing a resource pack (max 2 hours)	
Resource pack format	
Up to 4 sides of A4	✓
Templates provided by centre	X
Paper margins required	X
Digital	✓ (font size 12 only)
Any colour font / writing accepted	✓
Handwritten	✓
Use of images	✓
Can include electronic links	✓ (task controls permitting)
When developing the resource pack, learners can have access to:	
Class notes / teaching materials / exemplar materials	✓
Textbooks	✓
Internet / intranet	✓
Published materials	✓
Images	✓
NEA brief (plus any specific documents referred to within the brief if applicable)	✓
Individual NEA tasks	X

Following completion of the NEA	
Resource pack is assessed	X
Resource pack is returned to NCFE for moderation	✓ (only if selected for sampling)
The resource pack should be retained until the moderation process is complete and the learner results are issued	✓

Learners should approach their resource pack on an individual basis. Templates should not be provided by the centre. This is the only support material that is permitted during the completion of NEA tasks (unless otherwise stated within each task instructions) and must be submitted to the tutor at the end of each session and kept secure (handwritten or electronic).

Material from the resource pack may not be submitted as assessment evidence as this will be considered malpractice. Text and images can be copied and pasted into the learner's resource pack; however, if used for reference in learner's work, text should then be in the learner's own words and the source used should be referenced.

It is also vital that learners cite sources of information within their NEA. As a minimum this should include the following:

- the use of quotation marks to clearly identify any passages not of their own words
- date accessed (website only)
- name of source / author.

The resource pack must be retained by the centre and uploaded with learner evidence to NCFE if selected for moderation.

The resource pack should be no more than four sides of A4 in font size 12. This can be handwritten or electronic. Where the resource pack is electronic the centre is responsible for ensuring this is only accessed within supervised sessions. The resource pack must be returned to the supervisor at the end of each task / session and retained with the completed NEA.

7.2 Maximum completion time

NCFE has set the assessment timings as maximum times for each task. The plan can be amended to allow for some flexibility for learners entitled to additional time as part of approved reasonable adjustment and supports centres in the planning and administration of tasks around any timetabling issues or to accommodate learners who may have missed previous sessions due to absence.

Tasks are permitted to be timetabled over multiple sessions where necessary.

The following table shows a summary of the NEA assessment times:

Task	Maximum task timing
Development of resource pack	2 hours
1	2 hours
2(a)	2 hours and 30 minutes
2(b)	1 hour and 30 minutes
3(a)	2 hours and 30 minutes
3(b)	3 hours and 30 minutes
3(c)	1 hour and 30 minutes
4(a)	2 hours
4(b)	1 hour

In addition to the above, a declaration of authenticity should also be provided.

The below guidance can be followed unless otherwise stated in the assessment-specific instructions sections of the NEA.

- Learners have been provided with a total of **16 hours 30 minutes** to complete this NEA. In addition, there are 2 hours allocated to develop a resource pack.
- Learners should start each individual task at the same time (with exception of reasonable adjustments).
- Learners may use some or all of the time provided for each task up to the maximum allowed time.
- To facilitate planning, individual maximum task times are provided. These should be applied to the cohort as a whole. To aid flexibility learners are allowed to use any remaining time allocated to one task to rework previous tasks. However, the maximum NEA time must not be exceeded.

The above guidance is also provided for learners in the learner information section in the NEA for Food and Cookery.

Centres will be required to keep a record of their assessment timetable and learner attendance and make it available to NCFE if requested.

8. Non-exam assessment (NEA) tasks

Tasks must be delivered in numerical order (Task 2 must follow Task 1 and so on). Learners must have access to the appropriate resources required to complete the NEA. The NEA has been designed to allow a fair opportunity for learners and centres (please refer to the Qualification Specification for a list of resources required for the qualification).

Some tasks within the NEA permit the use of internet access to support the completion of the task. Learners will be required to submit a copy of their internet browsing history to ensure that the controls around internet use are adhered to. Acceptable formats include a screenshot of the learner's history, an IT-based report or a typed / written list of websites accessed during the session.

Where the NEA allows for research requiring the use of the internet, learners must reference the sources in their work. Learners must cite sources of information within their NEA. As a minimum this should include the following:

- the use of quotation marks to clearly identify any passages **not** of their own words
- date accessed (website only)
- name of source / author.

NEA material must not be uploaded onto any website that would make the material available in the public domain; this includes social networking sites.

Learners and teachers must not discuss the assessment brief online or post any assessment material online until after the materials have been retired.

Each learner must produce evidence of their browsing history for each task which allows internet access.

It is the responsibility of the supervisor to make sure all learners begin each task and session with a clear browsing history.

At the end of the supervised session, internet browsing history should be obtained by selecting the relevant history tab in the browser toolbar.

A learner's browsing history should be clearly attributable to the individual learner who completed it. Acceptable formats include a screenshot of the learner's history, an IT-based report or a typed / written list of websites accessed during the session.

See an example of how this could be recorded below:

Record of internet browsing history:		
Learner name: XXXX XXXX		
Learner number: 106XXX		
Qualification: NCFE Level 1/2 Technical Award in XXXXX		
Assessment series: summer 20XX		
Website accessed	Task number	Date accessed

All records of browsing history should be retained with all other learner evidence for moderation purposes.

The table below shows which tasks permit the use of internet and require learners to have ingredients to complete the practical tasks. More detail on each task is provided later in this section.

Task	Ingredients required	Internet use permitted	Internet browsing history required
Development of resource pack	No	Yes	No
1	No	Yes	Yes
2(a)	Yes	No	No
2(b)	No	No	No
3(a)	No	Yes	Yes
3(b)	Yes	No	No
3(c)	No	No	No
4(a)	Yes	Yes	Yes
4(b)	No	No	No

Example of NEA tasks

As the Food and Cookery NEA requires learners to cook a range of dishes in response to a set brief, centres should ensure that the tasks are suitably planned to allow enough time for learners to complete the planning tasks (and therefore identify the types of ingredients they want to acquire), before then moving to complete the practical tasks. For example, the table below provides an example of how centres may choose to run the NEA over a 6-week period, to ensure learners can complete each task effectively and (where appropriate) source their ingredients. This is not a prescriptive model and is intended to illustrate a possible approach centres may take. Other approaches are acceptable as long as learners have sufficient time between planning and practical tasks to have the opportunity to source ingredients.

Week	Task	Total recommended time
1	1	2 hours
2	2 (a), 2 (b)	4 hours
3	3 (a)	2 hours 30 minutes
4	3 (b), 3 (c), 4 (a) (planning)*	5 hours 30 minutes
5	4(a) (practical), 4(b)	2 hours 30 minutes
6	Administration and start marking	N/A

*In this example, learners are provided with task 4(a) and allocated 30 minutes (of the overall 2 hours recommended for that task) to select the dish they want to cook (and then allowed time to acquire the ingredients), before cooking it in the next session.

Learners must complete the NEA tasks in order, to support their ability to meet the requirements of the task. Learners are permitted to revisit tasks within the NEA should they want to make an amendment or slight addition, providing they do not exceed the maximum time. However, practical tasks must **not** be repeated, as this may create an unfair advantage. Centres should ensure that learners understand their options to amend parts of the NEA.

It is also permitted for centres to make ingredients available to learners, though this should not be done in a manner that may guide the learner's response to a task. Centres may choose to do this to support fair access to the assessment for all learners, though this is not a requirement. Learners should be made aware that they may need to source their own ingredients for the purposes of the assessment, should centres choose not to provide learners with a suitable range of ingredients.

For the practical tasks within the Food and Cookery NEA, centres are also required to complete a Record of Learner Observation form to support their application of the mark scheme and the moderation process. The form is intended to provide validation that the learner completed the task themselves and to substantiate the placement within a band when applying the mark scheme.

Centres should use the form to record examples of the learner's demonstration and application of technical skills (preparation, cooking techniques and methods, and presentation). It does not need to be a full account of every action, step and process undertaken by the learner, and instead serve as both a prompt when deciding upon a placement within the bands (for teachers within the centre) and to provide context for the moderator when viewing the learner's submission. It should not include the specific mark awarded to the learner for the task. This serves two functions; firstly, it supports centres to apply the mark scheme as it is likely that the marking of learner's work will take place after the learner has completed the task. Secondly, it is used to validate the assessment of the learner's work and can be used to provide examples of how the learner met the assessment objectives. Observation forms alone are not sufficient evidence of task completion.

Development of resource pack

Prior to commencing the NEA tasks, all learners **must** have been provided with the opportunity to develop a resource pack using only the NEA brief as detailed in section 7.1.

Below is an example of each task's requirements for the Food and Cookery NEA. The inclusion of these tasks is to illustrate the proposed structure, maximum timings, required resources (in addition to the resource pack) and any additional requirements in terms of delivery and controls. Please note, that whilst the task timings are displayed as recommendations, it is strongly advised that centres adhere to the times. It is acknowledged that some tasks may require flexibility to support manageability, and so timings are shown as recommendations. However, the overall time allocated to the NEA must not be exceeded, both centres and learners will be required to sign a declaration form confirming this is the case.

Task 1: amending a recipe

Required resources:

- laptop or desktop computer (with internet access)
- NEA brief and tasks.

Delivery

Learners will be allocated a maximum time of 2 hours for this task.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task.

This task requires the learner to amend a set recipe for a stated reason, as detailed in the project brief. They must analyse the requirements of the brief and plan their suggested recipe amends. They are permitted to use the internet to research alternative ingredients, should they wish, but are not permitted to replicate a pre-existing recipe found online. A copy of their internet browsing history must be provided as part of the assessment evidence.

For this task the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guidance document.

Additional controls and information

Learners must submit their task evidence at the end of the session to their tutor.

The centre must ensure that responses to the task and any other assessment materials are not taken away by the learner at the end of the session. The only exception to this is an ingredients list, so that learners may source the ingredients required for the next task (if not provided by the centre).

Classroom-based learning materials and notes are not permitted during the supervised sessions for the NEA, but the resource pack is allowed.

Task 2 (a): preparing and cooking an amended recipe

Required resources:

- NEA brief and tasks
- materials from Task 1
- access to a suitable cooking environment with a range of equipment (please refer to the Qualification Specification for a more detailed list of the required resources for the course)
- digital camera.

Delivery

Learners will be allocated a maximum time of 2 hours 30 minutes for this task.

The maximum time includes reading the task instructions, preparing and cooking the amended recipe, capturing images as they complete the practical task and annotating their images (as per the instructions of the task) when they have completed their dish.

The learner will demonstrate their technical skills (preparation, cooking techniques and methods, and presentation) by cooking their amended recipe whilst also demonstrating they can work in a safe and hygienic manner. They will be required to capture images from the key stages of their practical task. There is no minimum or maximum requirement for the number of images, though learners should be guided so that they capture at least one example of all their technical skills that are fundamental to the success of the dish.

Learners should be informed that all their images submitted as evidence require annotations and they should therefore be mindful of the maximum time for the task when capturing their images, ensuring they have a range to select from, and annotate them according to the requirements of the task. It is acceptable for them to ask someone else in the session to take their images (such as a member of the class or tutor), though the annotations must be their own. The maximum cook time is 2 hours from the total task time; the remaining 30 minutes must be set aside for the annotation of images after the practical session.

Other learners in the session may be asked to take images of the learner completing a range of preparation, cooking (techniques and methods) and presentation skills. This is acceptable providing learners do not comment on others' work.

The tutor is required to complete a Record of Learner Observation form. This record needs to include qualitative statements describing the following:

- technical skills, preparation and cooking techniques
- application of hygienic and safe working practices
- accuracy, presentation and finishing techniques.

The descriptive language needs to align with and support the marking band awarded. This is particularly important where the learner lacks sufficient photographic evidence to support the marks being awarded.

Additional controls and information

Learners must submit their task evidence at the end of the session to their tutor. The centre must ensure that responses to the task and any other assessment materials are not taken away by the learner at the end of the session.

Classroom-based learning materials and notes are not permitted during the supervised sessions for the NEA, but the resource pack is allowed.

Task 2 (b): evaluating an amended recipe

Required resources:

- laptop or desktop computer (access to the internet should be disabled)
- NEA brief and tasks
- materials from Tasks 1 and 2 (a).

Delivery

Learners will be allocated a maximum time of 1 hour 30 minutes for this task.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task.

Learners are required to produce a word-processed response. They are required to analyse and evaluate their demonstration of technical skill (preparation, cooking techniques and methods, and presentation skills) used during the completion of the amended dish. They are also required to analyse and evaluate the outcome of their completed dish by annotating an image of the completed dish.

Access to the internet is not permitted for this task.

For this task the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guidance document.

Additional controls and information

If learners are using their own laptop then centres must ensure that internet access is disabled.

Learners must submit their task evidence at the end of the session to their tutor. The centre must ensure that responses to the task and any other assessment materials are not taken away by the learner at the end of the session.

Classroom-based learning materials and notes are not permitted during the supervised sessions for the NEA, but the resource pack is allowed

Task 3 (a): menu and action planning for a two-course menu

Required resources:

- laptop or desktop computer (with internet access)
- NEA brief and tasks.

Delivery

Learners will be allocated a maximum time of 2 hours 30 minutes for this task.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task.

Learners are required to plan a two-course menu that meets the requirements of the brief. They must consider the ingredients required, as they will go on to cook the dishes. They must also create an action plan for the two-course menu that they will use to help them cook the two dishes.

For this task the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guidance document.

Additional controls and information

Learners must submit their task evidence at the end of the session to their tutor. The centre must ensure that responses to the task and any other assessment materials are not taken away by the learner at the end of the session. The only exception to this is an ingredients list, so that learners may source the ingredients required for the next task (if not provided by the centre).

Classroom-based learning materials and notes are not permitted during the supervised sessions for the NEA, but the resource pack is allowed.

Task 3 (b): preparing and cooking a two-course menu

Required resources:

- laptop or desktop computer (access to the internet should be disabled)
- NEA brief and tasks
- materials from Task 3 (a)
- access to a suitable cooking environment with a range of equipment (please refer to the Qualification Specification for a more detailed list of the required resources for the course)
- digital camera.

Delivery

Learners will be allocated a set time of 2 hours 30 minutes for the practical requirements. Centres must ensure that learners do **not** exceed this time. After the completion of the practical task, there is an additional maximum time of 1 hour (to annotate images).

The set time includes reading the requirements of the brief, task instructions and responding to the task (cooking the two-course menu).

The maximum time includes reading the requirements of the brief, task instructions and responding to the task (annotating their images).

The learner will demonstrate their technical skills (preparation, cooking techniques and methods, and presentation) by cooking their two-course menu whilst also demonstrating they can work in a safe and hygienic manner. They will be required to capture images from the key stages of their practical task. There is no minimum or maximum requirement for the number of images though learners should be guided that they should capture examples of technical skills that are fundamental to the success of the dishes. Learners should be informed that all their images submitted as evidence require annotations and they should therefore be mindful of the maximum time for the task when capturing their images, ensuring they have a range to select from and annotate them according to the requirements of the task. It is acceptable for them to

ask someone else in the session to take their images (such as a member of the class or tutor), though the annotations must be their own.

Other learners in the session may be asked to take images of the learner completing a range of preparation, cooking (techniques and methods) and presentation skills. This is acceptable providing learners do not comment on others' work.

The tutor is required to complete a Record of Learner Observation form. This record needs to include qualitative statements describing the following:

- technical skills, preparation and cooking techniques
- application of hygienic and safe working practices
- accuracy, presentation and finishing techniques.

The descriptive language needs to align with and support the marking band awarded. This is particularly important where the learner lacks sufficient photographic evidence to support the marks being awarded.

Additional controls and information

If learners are using their own laptop then centres must ensure that internet access is disabled.

Learners must submit their task evidence at the end of the session to their tutor. The centre must ensure that responses to the task and any other assessment materials are not taken away by the learner at the end of the session.

Classroom-based learning materials and notes are not permitted during the supervised sessions for the NEA, but the resource pack is allowed.

Task 3 (c): evaluating a two-course menu

Required resources:

- laptop or desktop computer (access to the internet should be disabled)
- NEA brief and tasks
- materials from Tasks 3 (a) and 3 (b).

Delivery

Learners will be allocated a maximum time of 1 hour 30 minutes for this task.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task.

Learners are required to produce a word-processed response. They are required to analyse and evaluate their demonstration of technical skills (preparation, cooking techniques and methods, and presentation skills) used during the completion of the two-course menu. They are also required to analyse and evaluate the outcome of their completed dish by annotating an image of the completed dish.

Learners are not expected to submit an edited or amended version of their time plan but are expected to comment on what changes were made, if any, as they worked through the planned activities.

Access to the internet is not permitted for this task.

For this task the tutor (or other appropriate person within the centre) should supervise the session according to section 10 of this guidance document.

Additional controls and information

If learners are using their own laptop then centres must ensure that internet access is disabled.

Learners must submit their task evidence at the end of the session to their tutor. The centre must ensure that responses to the task and any other assessment materials are not taken away by the learner at the end of the session.

Classroom-based learning materials and notes are not permitted during the supervised sessions for the NEA, but the resource pack is allowed.

Task 4 (a): preparing and cooking a dish suitable for someone with a food-health related condition

Required resources:

- laptop or desktop computer (with internet access)
- NEA brief and tasks
- digital camera.

Delivery

Learners will be allocated a maximum time of 2 hours for this task. 30 minutes should be allocated to research and planning and 1 hour 30 minutes is for the preparation and cooking of the planned dish.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task.

Learners will develop a recipe that is suitable for someone with a food-health related condition. They will demonstrate their technical skills (preparation, cooking techniques and methods, and presentation) by cooking their dish whilst also demonstrating they can work in a safe and hygienic manner. They will be required to capture an image of the finished product only. It is acceptable for them to ask someone else in the session to take their image (such as a member of the class or tutor).

The tutor is required to complete a Record of Learner Observation form. This record needs to include qualitative statements describing the following:

- technical skills, preparation and cooking techniques
- application of hygienic and safe working practices
- accuracy, presentation and finishing techniques.

The descriptive language needs to align with and support the marking band awarded. This is particularly important where the learner lacks sufficient photographic evidence to support the marks being awarded.

Additional controls and information

It is permitted and advised that centres split this task into two smaller sessions. This will allow the learner sufficient time to research, choose and select their dish suitable for someone with a food-health related condition and then source their ingredients before completing the practical requirement of the task. Centres must ensure that the overall time for the NEA is not exceeded.

Learners must submit their task evidence at the end of the session to their tutor. The centre must ensure that responses to the task and any other assessment materials are not taken away by the learner at the end of the session. The only exception to this is an ingredients list,

so that learners may source the ingredients required for the next task (if not provided by the centre).

Classroom-based learning materials and notes are not permitted during the supervised sessions for the NEA, but the resource pack is allowed.

Task 4 (b): evaluating a dish suitable for someone with a food-health related condition

Required resources:

- laptop or desktop computer (access to the internet should be disabled)
- NEA brief and tasks
- materials from Task 4 (a).

Delivery

Learners will be allocated a maximum time of 1 hour for this task.

The maximum time includes reading the requirements of the brief, task instructions and responding to the task.

Learners are required to produce a word-processed response. They are required to analyse and evaluate their knowledge and understanding of the nutritional content of their chosen dish and its suitability for someone with a food-health related condition. They are also required to analyse and evaluate the outcome of their completed dish against the requirements of the brief.

For this task the tutor (or other appropriate person within the centre) should supervise the session according to section 4.4 of the NCFE Regulations for Conduct of NEA.

Additional controls and information

If learners are using their own laptop, then centres must ensure that internet access is disabled.

Learners must submit their task evidence at the end of the session to their tutor. The centre must ensure that responses to the task and any other assessment materials are not taken away by the learner at the end of the session.

Classroom-based learning materials and notes are not permitted during the supervised sessions for the NEA, but the resource pack is allowed.

As this is the last task, learners are permitted to revisit any of the written tasks to ensure they have completed the requirements. However, they are not permitted to undertake any more practical work, and centres must ensure that the overall NEA time is not exceeded.

9. Non-exam assessment (NEA) approach to mark schemes and marking

Application of extended-response marking grids

Centres will be provided with training opportunities for how to administer and assess the NEA (including the application of mark schemes). Additionally, the mark schemes provide the following marking guidelines:

‘When determining a band, you should use a bottom-up approach. If the response meets all the descriptors in the lowest band, you should move to the next one, and so on, until the response matches the band descriptor. Remember to look at the overall quality of the response and reward learners positively, rather than focusing on small omissions. If the response covers aspects at different bands, you should use a best-fit approach at this stage and use the available marks within the band to credit the response appropriately.

When determining a mark, your decision should be based on the quality of the response in relation to the descriptors.’

Although learners can submit their tasks in a range of formats the Mark Scheme should be applied equally, regardless of the method of presentation. You should apply the mark scheme to the content of the tasks, rather than the method of presentation.

Further guidance on standardisation of marking is available on the [Preparing for moderation](#) page on our website.

Marking deadline

The final submission deadline for learner marks to be submitted to NCFE via the Portal will be 30 April each session. We encourage centres to submit learner marks as soon as internal quality processes are complete.

Uploading of learner evidence deadline

On 1 May a sample list of learners will be available in the Portal (as long as all learner marks are entered by the deadline). This will be open for 3 working days to allow you to upload evidence for each learner. It is important that you use the checklist available in the assessment pack to ensure all required documents are uploaded as this can cause delays to moderation.

The [Preparing for moderation](#) page of our website contains useful information on accessing materials, submitting marks as well as how to prepare for the moderation process.

10. Regulations for the conduct of the non-exam assessment (NEA)

This section provides instructions on the correct administration of the internally assessed NEA. Failure to comply with these regulations will be addressed via JCQ Suspected Malpractice: Policies and Procedures.

Maladministration / malpractice

If at any time during the assessment there is a violation of these regulations, the supervisor or designated person has the right to void the assessment immediately. This decision must only be made in exceptional circumstances where malpractice is irrefutable. Once voided no allowance can be given retrospectively if the decision is deemed invalid. If they do so they must also inform NCFE immediately with a report of what occurred – please see our Notification of Malpractice forms available on our website.

If any of these regulations are breached by a learner, supervisor, or other persons involved in the conduct of the assessment, then NCFE may declare the assessment void.

In the event of a suspected or actual breach of these regulations by learners:

- the work completed by the learners concerned and any unauthorised materials (if applicable) must be confiscated from the learner and given to the designated person to return to NCFE
- all learners suspected of breaching these regulations should be instructed to leave the room immediately if appropriate to do so, causing the least amount of disruption to other learners
- the supervisor should report the incident to the designated person as soon as possible
- NCFE should be informed immediately of any irregularity
- the centre should conduct its own investigation into the incident and report the incident and their findings to our Provider Assurance team using the relevant Notification of Malpractice forms on our website.

NCFE reserves the right to investigate each case of alleged or actual maladministration / malpractice committed by a learner, supervisors, or other persons involved in the conduct of the assessment to establish all of the facts and circumstances surrounding the case. The investigation will be carried out in accordance with JCQ Suspected Malpractice: Policies and Procedures.

Reasonable adjustments and access arrangements

NCFE seeks to provide equal access to assessment for all learners registered for its qualifications. NCFE recognises that reasonable adjustments may be required. For internally assessed qualifications, centres do not need to notify NCFE and must make reasonable adjustments that reflect a learner's normal way of working, in line with their policy.

All reasonable adjustments made in relation to internal assessments must be recorded on JCQ Form VQ / IA and held on file within the centre for inspection by NCFE. This will be reviewed on your annual monitoring review (AMR).

Planning the NEA

NEAs cannot be adapted in any way by the centre; this is to ensure assessments remain fit for purpose and ensure learners are not disadvantaged or advantaged. It also allows us to standardise mark schemes and removes any inconsistencies across centres and learners as changes made may impact on the validity of the assessment.

Each subject-specific assessment contains a mandatory completion time which is outlined in the Qualification Specification.

Centres will need to plan the sessions to allow learners access to the full completion time available at the end of teaching and delivery. The assessment must not take place until the teaching and learning of all content has been delivered to learners.

Storing assessment materials

The designated person will be responsible for:

- the security and integrity of the assessment materials (for example, used / unused assessment materials, partially or fully completed learner work and the assessment documentation) at all times
- ensuring that assessment material is logged on receipt (when downloaded and printed); centres must be able to demonstrate documentation of receipt and secure movement and storage of assessment materials
- storing the assessment material in a secure online area or secure location – access to this storage must be restricted to authorised personnel only, ensuring that any unauthorised centre personnel do not have access to the assessment.

Preparing the learners for the assessment

Learners must be fully prepared for the assessment. The assessment must not take place until the teaching and learning of all content has been delivered to learners.

Centres must inform learners of:

- a full schedule of dates, times and locations, as the assessment will be delivered over multiple sessions; this schedule must clearly state the final submission date
- the conditions under which their NEA will be conducted
- the resources they are required to bring to the assessment and what will be supplied by the centre.

Accommodation

To ensure the assessment is administered correctly, the designated person is responsible for ensuring the allocated room is:

- suitable in terms of specialist facilities / resources (including computers, software, hardware and printers if applicable), where relevant
- as learners are only allowed to use teaching and learning materials to complete their 2-hour resource pack, any related wall displays must be removed prior to commencing the assessment task
- stocked with appropriate stationery and any specified items required by learners. Specific resource requirements may be discussed between the tutor and learner to ensure availability but the tutor may not offer advice on what resources to select
- suitably quiet, undisturbed, with adequate space, heating, lighting and ventilation.

All learners must be informed and aware of any relevant health and safety considerations that need to be complied with, to ensure they carry out their work in a safe manner.

Learners must be supervised at all times to ensure health and safety practices are observed. Where learners are seen to be working in an unsafe manner, at the discretion of the tutor, the learner may be removed from the assessment and the remaining time rescheduled.

Administering the resource pack

Prior to commencing the formal 16 hours and 30 minutes of NEA time, learners should be allocated 2 hours to develop a resource pack. During this time learners may have access to the project brief but may not access the NEA tasks. This 2-hour time period is entirely open book where learners can access their teaching and learning materials, textbooks, internet and other published materials. From this, they should develop a resource pack which can be used as their source of information when completing the NEA.

This is the only support material that is permitted during the completion of NEA tasks (unless otherwise stated within each task instructions) and must be submitted to the supervisor / tutor at the end of each session and kept secure. The material developed in the resource pack should not be submitted as assessment evidence as this will be considered malpractice. Additionally, this must be retained and made available to NCFE upon request.

It is also vital that learners cite sources of information within their NEA. As a minimum this should include the following:

- the use of quotation marks to clearly identify any passages not of their own words
- date accessed (website only)
- name of source / author.

The resource pack should be no more than four sides of A4 in font size 12. This can be handwritten or electronic. Where the resource pack is electronic, the centre is responsible for ensuring this is only accessed within the supervised session. The resource pack must be returned to the supervisor / tutor at the end of each task / session and retained with the completed NEA.

Issuing tasks

NEA tasks must be issued one at a time and in numerical order (Task 2 must follow Task 1 and so on) to appropriately meet the requirements of the task in terms of resources and organisation of the learning environment.

All learners should start each task at the same time to promote fairness, prevent unfair learner advantage and aid centre manageability. Some flexibility is permitted to accommodate learners who have missed sessions due to absence. Centres should ensure that learners understand their options to revisit and amend parts of the NEA should they have additional time left at the end of a scheduled session.

Requirements to administer the NEA

The person appointed to supervise the assessment must ensure the following points are adhered to:

Internet browsing history:

- Browsing history should be cleared, prior to commencing the NEA tasks.
- Where evidence of browsing history is required it can be presented in the following formats: printed, screenshot, an IT-based centre report or a handwritten / typed list of websites accessed (see section 8 for an example). A copy must be retained by the centre and uploaded with learner evidence to NCFE if selected for moderation.

Accessing materials during the NEA:

- Learners may access teaching and learning materials, including their own personal notes, to complete their resource pack **only**.

- Once the formal timetabled hours for the NEA commence, only access to the resource pack is allowed, unless otherwise stated within section 8 for the delivery of the specific assessment task.

Access to resources:

- Learners must have access to the appropriate resources required to complete the NEA tasks outlined in section 8.

Completing the assessment tasks:

- All work must be completed within supervised timetabled sessions and work must not be carried out at home.
- Learners can rework their evidence at any point during the supervised sessions as long as the maximum allowed time for the NEA is not exceeded.
- Supervisors / tutors cannot give the detail of what is missing or needs improving to learners. Learners should use the evidence requirements to decide themselves how to improve it.
- All submitted evidence must be authenticated and attributable to the learner. Learners must be made aware of the importance of this and how it may impact their overall grade if evidence is found not to be the learners' own work.

Safe storage of learner assessments:

- On completion of the assessment the supervisor / tutor must immediately ensure that completed and unused assessments are collected and stored securely (this includes the resource pack and work materials). Learners must hand in all evidence following each supervised session and will not be able to work on their assessment outside of the supervised assessment sessions.
- Materials cannot be reissued to learners until the beginning of the next supervised session.
- At the end of each supervised session the supervisor / tutor must check the number of tasks submitted by the learner is accurate and clearly labelled.
- Confidentiality of the materials must be maintained at all times. This process must be documented as part of your policy for safe storage of assessment materials. This policy will be checked as part of your AMR and any subsequent Assessment Audit Reviews. Any non-adherence or concerns will be documented in our report on completion of the review and actions will be set with an appropriate review date. Non-completion of actions may result in further investigations from our Provider Assurance team, who will investigate to ensure malpractice and maladministration policies are being followed.
- If a learner does not sit the NEA, you must securely destroy any assessment materials downloaded and withdraw the learner via the NCFE Portal before the assessment submission date of 30 April.

Declaration of Authenticity and GDPR consent:

- The learner and assessor must complete the **Declaration of Authenticity Form** at the end of the assessment before any marking takes place. **The form can be found at the end of the learner copy of the NEA brief.** Once completed, the declaration of authenticity must be stored securely within the centre. A copy of this declaration form must be made available to NCFE upon request.
- Where assessment requires images / videos of learners and / or participants, the GDPR consent form must be completed by the learner and any other participants. The assessor should check this has been completed fully and correctly. Where applicable, this form will be found at the end of the learner copy of the NEA.
- The learner must complete the **GDPR consent form**. NCFE may select learner work for use at teacher training or standardisation events. If so, the learner's work would be anonymised. **The form can be found at the end of the learner copy of the NEA brief.** The assessor must check this has been filled out fully and correctly. Section A is to be

completed by the learner and section B must be completed by any participants who feature in the work. The completed form must be retained within the centre and is not to be sent to the moderator or NCFE unless specifically requested.

Supervisors must:

- remain alert and be able to observe all learners at all times
- report immediately any issues that may occur during the assessment to the designated person.

Supervisors must **not**:

- leave the assessment room without another supervisor being present
- read or carry out any other activity unless stated within assessment brief
- comment or offer advice or feedback to the learner about how their work can be improved
- lead on any of the tasks
- direct learners
- provide templates or writing frames for learners to complete unless otherwise stated in the task
- take copies of learner work
- label or reference completed work on behalf of the learner.

Assessment and feedback

During the supervised sessions, supervisors can discuss the following with the learners:

- the conditions in which the assessment must be undertaken (see appendix A)
- where to save their electronic work and be able to access the secure storage medium
- time management of the hours available
- support with technical requirements, such as obtaining browser history.

Supervisors / tutors **must not** give any feedback to a learner on how a task or area can be improved. Learners must independently decide how to approach the assessment and associated tasks. If a learner asks for advice on the completion of their assessment the supervisor / tutor must remind them that they must work independently and the work must be their own.

Learners' work must not be assessed, marked or internally quality assured during supervised sessions.

On completion of the NEA, the assessor will summatively assess and mark all learner evidence for the NEA in line with the mark schemes provided by NCFE.

Assessors can mark work after each task, but feedback cannot be given to learners until the whole NEA has been completed. Learners cannot rework the task after feedback is provided.

You do not need to annotate the learners' work, although if this assists your marking please do so. A proforma is included in the assessment pack to use for assessor feedback and comments. This should be completed at task level to indicate how assessment decisions were made and marks awarded. The feedback form will be required for upload and used as part of the moderation process.

In line with JCQ guidance, centres should inform learners of their centre-assessed marks before marks are submitted to NCFE in order to allow for any internal centre appeals.

Centres should make it clear to learners that any centre-assessed marks are subject to change through the moderation process.

Internal quality assurance

As the NEA is moderated, the centre's internal quality assurance efforts need to be focussed on up-front standardisation. Standardisation will ensure assessor's judgements are in line with the Qualification Specification and grading criteria.

Centres need to apply their own internal quality assurance policy / process based on the outcome of standardisation activities they complete to satisfy their own internal quality assurance.

Internal quality assurance records will not be required to be uploaded for moderation; however, centres must maintain internal quality assurance records within the centre and make them available to NCFE on request.

Retaining assessment materials

All learner evidence which forms part of their assessment including the resource pack, should be retained until the moderation process is complete and the learner results are issued.

Assessment and internal quality assurance records should be retained for 3 years.

Submitting learner marks and evidence

The deadline for submission of the NEA is 30 April annually. All learner marks must be submitted no later than the submission date of 30 April. Any submissions made after this date will be classed as a late submission and will be moderated at NCFE's discretion. NCFE will investigate all late submissions.

Only in exceptional circumstances, and if appropriate to the qualification, will NCFE accept late submissions. In line with our Special Considerations Policy, a short extension of no more than 2 weeks may be applied. As soon as a centre is aware that they may miss the submission deadline they must submit a notification for a special consideration.

Failure to meet the deadline will result in delays to results for the full cohort and we cannot guarantee results for results day. This may impact your AMR risk rating and we may also refer the case to Provider Assurance for investigation.

11. Moderation

Our approach to moderation

The NEA assessment will be marked by assessors at your centre and these marks will be reviewed by an NCFE moderator remotely.

We highly recommend you attend annual NCFE training events to ensure assessors and internal quality assurers (IQAs) are making well-informed assessment decisions. Failure to attend this training may lead to inconsistencies between assessor and moderator marks which may delay moderation outcomes.

You will be asked to submit marks for each learner on the Portal, and we will use these marks to select learners to be sampled based on JCQ sampling strategy. You will be able to view learners selected for sampling on the Portal.

Learners selected for sampling will be visible on the Portal the day after the window closes. Centres will be required to view the sampling plan on the Portal and upload learner evidence for sampled learners within 3 working days of the final deadline (30 April). Guidance on how to do this can be found in the Portal user guide.

During moderation, the moderator will remotely review evidence submitted and apply a mark for each learner. The moderator's mark will be compared to the mark awarded by the centre and a final mark will be applied.

If the centre's mark and the moderator's mark are within tolerance, the centre's marks will be applied to all learners in the cohort. If the marks are outside of tolerance, we will apply a regressed mark to all learners' marks within the cohort. If marks are outside of tolerance and cannot be reliably adjusted, **we will request evidence for all learners in the cohort** and the moderator's mark or adjusted mark will be used.

We will provide a final moderation report in the Portal, with your results, on results release day with feedback on areas of good practice and areas of development.

Sample sizes

Learners selected for moderation will be selected using JCQ sampling guidelines and include assessments from across a range of centre marks. The sample selected will include the learner with the highest centre mark and the learner with the lowest non-zero centre mark. The sample size will be in line with the table below. Where an assessment has been carried out by more than one assessor, a range of assessors will be included in the sample, where possible.

Number of learners in cohort	Sample size
Up to 5	All
6-10	All
11-15	All
16-100	15
101-200	20
Over 200	25

Moderation will take place remotely and feedback will be provided on results day in a final moderation report accessed on the Portal.

Please refer to our user guide to remote moderation and preparing for moderation pages on our website for more information.

During moderation the moderator will assess the sample. You will receive a moderation report to explain the outcome of the moderation activity along with areas performed well and areas for development.

Enquiries about results and assessment decisions

The only form of enquiry allowed for NEAs is a review of moderator marks. We are unable to review marks for individual learners.

A review of moderator marks is a check on the original moderation to make sure the assessment criteria has been applied fairly, reliably and consistently. Please note this is not a remark and no specific feedback will be provided.

This service is not available for individual learners. Requests must be made by unit / component for all learners on a cohort. If centre marks were taken forward as final marks, this process is not available.

Any reviews of moderation will determine whether there was a moderation error. Should an error be identified, any adjustments made following moderation will be reviewed and revised to the extent necessary to correct the effect of the error and we will inform you of any changes to marks. No other changes will be made and where learners are entered for certification in the same series, only improvements to qualification grades will be implemented.

Further information is available on our Enquiries about results and assessment decisions page on our website.

Enquiries about results and assessment decisions

The only form of enquiry allowed for NEAs is a review of moderator marks. We are unable to review marks for individual learners.

A review of moderator marks is a check on the original moderation to make sure the assessment criteria has been applied fairly, reliably, and consistently. Please note this is not a remark and no specific feedback will be provided.

This service is not available for individual learners. Requests must be made by unit / component, for all learners on a cohort. If provider marks were taken forward as final marks, this process is not available.

Any reviews of moderation will determine whether there was a moderation error. Should an error be identified, any adjustments made following moderation will be reviewed and revised to the extent necessary to correct the effect of the error and we will inform you of any changes to marks. No other changes will be made and where learners are entered for certification in the same series, only improvements to qualification grades will be implemented.

Further information is available on our Enquiries about results and assessment decisions page on our website.

12. Training

Training is available to support the completion of the NEA and will provide all the information you need to deliver, assess and internally quality assure the NEA.

Administration training

Administration training is available for the NEA component to view on our [Preparing for moderation](#) page. The training consists of a series of videos supporting you through the administrative requirements associated with moderation including but not limited to accessing and uploading assessment materials. Confirmation that providers have watched the series of videos will be confirmed upon completion of standardisation training.

Standardisation training

This continuous professional development package is designed to bring your teams together to align assessment decisions and expectations for the NEA component.

It is mandatory for providers to complete the training within the given window. Once completed, a declaration must be signed and returned to NCFE to show it has been done. This declaration will confirm that administration training has also been completed.

The standardisation window will open from 1 October to 28 February, and the materials will be made available to providers on the Portal once students have been booked onto the NEA.

Benefits of this training

- **Consistency and marking** – the training will help you establish a unified understanding of the assessment criteria.
- **Fairness and equity** – achieving consistency in marking enhances fairness and equity. It will minimise the chances of subjective bias and ensure that all learners receive an impartial assessment.
- **Improved communication** – this training will allow and encourage an open dialogue amongst your staff. It will give opportunities to discuss challenges, clarify doubts and build collaboration.
- **Enhanced professional development** – the training allows staff to develop their professional growth. They should gain insight from colleagues and improve their understanding and execution of assessment.
- **Time saving** – by aligning the assessment decisions of your teams, you will reduce the time spent on recalibrating assessment decisions. This streamlined training approach ensures that your efforts are applied and focussed on providing valuable feedback and reliable assessment to your learners.

13. Appendices

Appendix A – Instructions for the supervisor to read out before starting supervised sessions

The following should be read out at the beginning of each supervised session:

- I am now in the role of supervisor for this assessment not your teacher.
- This NEA consists of supervised sessions. You have a list of dates and times when the supervised sessions will take place.
- You must work independently and decide yourself how to approach the assessment tasks.
- Read the 'instructions for learners' in the assessment brief and make sure that you understand them.
- I cannot provide you with feedback on what task or area could be improved, or how to improve it. You must work out how to improve it yourself.
- All the work produced for the assessment must be your own.
- All your evidence must be clearly labelled with your name and task number.
- You should not upload or share any work or evidence on any social media sites or discuss with anyone.
