About the employer set project

The purpose of the employer set project is to ensure that you have the opportunity to apply core knowledge and skills to develop a substantial piece of work in response to an employer set brief. The brief and tasks are contextualised around an occupational area and are chosen by you ahead of the assessment window.

Throughout this project, you are acting in role as a student dental nurse within a multi-disciplinary care team. This project follows one individual's healthcare journey, and you will research their conditions, plan for their care, share proposed actions, collaborate with other healthcare professionals, and reflect on your own performance.

You can choose any 1 of the 3 briefs which can be found in the project brief insert.

Aims

Having selected an appropriate contextualised version of the employer set project you will:

- plan and complete tasks within the employer set project
- review and reflect on how you have approached the tasks in relation to meeting the brief
- use appropriate English, mathematics and digital skills
- use mathematical competencies in relation to observations and assessment
- use written communication skills to submit an extended piece of writing, using the correct terminology and accurate spelling, punctuation and grammar
- demonstrate how to use appropriate verbal communication skills and present information to an appropriate audience

Your tutor will already have:

- shared and practised the core skills with you
- taught you appropriate referencing and academic writing skills

Your tutor will supervise you when completing this assessment but will not be able to give you further guidance or feedback.

Your tutor will inform you of the following relevant health and safety considerations:

- all students must be informed and aware of any relevant health and safety considerations that need to be complied with to ensure they carry out their work in a safe manner
- students must be supervised at all times to ensure health and safety practices are observed
- where students are seen to be working in an unsafe manner, at the discretion of the tutor, the student may be removed from the assessment and the remaining time be rescheduled

Assessment

You are not permitted to work in groups, except if explicitly stated, and all work must be your own.

You will have 14 hours 30 minutes to complete the employer set project and 2 hours for preparation research, totalling 16 hours 30 minutes. Recommended and maximum timings, where applicable, are provided for each task under the heading 'Conditions of the assessment'.

Assessment objectives

The employer set project is a formal assessment that accounts for 30% of the overall core component grade, therefore it is important that you produce work to the highest standard. You will be assessed against the core knowledge and skills that you have learnt throughout your course of study, in response to a brief set in a real-world situation and validated by employers within the specific specialism. The evidence generated for the employer set project will be assessed holistically against 5 integrated assessment objectives. These assessment objectives and their weightings are shown in the tables below:

Assessment objectives		Weighting
AO1	Plan their approach to meeting the project brief	12%
AO2	Apply core knowledge as appropriate, and the core skills: <ul style="list-style-type: none"> • person-centred care • communication • team working • reflective evaluation • researching • presenting 	56%
AO3	Select relevant techniques and resources to meet the brief	12%
AO4	Use English, mathematics and digital skills as appropriate	8%
AO5	Realise a project outcome and review how well the outcome meets the brief	12%

AO marks per task

Task	AO1	AO2	AO3	AO4	AO5	Marks per task
Task 1	3	12	3	2		20
Task 2 (a)	3	12	3	2		20
Task 2 (b)	3	12	3	2		20
Task 3 (a)						
Task 3 (b)	3	8	3	2	4	20
Task 4		12			8	20
Total marks	12	56	12	8	12	100
Total % of marks per AO	12%	56%	12%	8%	12%	100%

Core skills

To achieve the assessment objectives and meet the brief you must demonstrate the following core skills (CS):

- CS1 Demonstrate person-centred care skills: when planning, developing and providing care to ensure the needs of individuals are met
- CS2 Communicating: be able to communicate effectively with patients, carers, service-users and other health and social care professionals using a range of techniques to overcome communication barriers

- CS3 Team working: be able to work collaboratively with a range of healthcare professionals within and outside a specific team, as well as with other individuals such as carers
- CS4 Reflective evaluation: be able to reflect on own practice and make improvements to own practice
- CS5 Researching: be able to contribute to research and innovation within a specific area of practice, working from independently sourced material, and analysing results of research to draw conclusions
- CS6 Presenting: be able to present the outcomes of the project in a range of formats, to a variety of stakeholders

Core skills by task

	Core skill 1	Core skill 2	Core skill 3	Core skill 4	Core skill 5	Core skill 6
Task 1	CS1.1				CS5.1 CS5.2	
Task 2 (a)	CS1.2	CS2.1 CS2.2 CS2.3				
Task 2 (b)	CS1.1	CS2.2	CS3.1			
Task 3 (a)		CS2.1 CS2.2 CS2.3	CS3.1 CS3.2	CS4.1		CS6.1 CS6.2 CS6.3
Task 3 (b)		CS2.1 CS2.2 CS2.3	CS3.2	CS4.2		CS6.1 CS6.2 CS6.3
Task 4				CS4.1 CS4.2		

Guidance for students

Student instructions

- in the pre-release activity you will be presented with 1 brief outlining the health contexts of 3 individuals - you must choose 1 of the 3 briefs to research
- the purpose of the pre-release activity (preparation research task) is for you to research the situations and conditions of the individual that you have chosen from the case study with access to your own notes from your learning, and also access to the internet - your research **must**:
 - be contained within 4 pages (single sided), excluding references
 - be in black, Arial font 12pt, within standard border sizes
 - clearly show where sources have been used to support your own ideas and opinions
 - clearly reference all sources used to support your own ideas and opinions
 - reference any quotations taken from websites
- throughout the employer set project, you will not have access to any resources other than the research you compile in the pre-release activity
- all notes made for task 1 and task 2 (a) must be copied and handed over to your tutor at the end of the supervised sessions - further supervised sessions will require you to use the copies of your notes
- read the project brief carefully before starting your work
- read the assessment objectives grid, as part of the marks given for this assessment will be based on your ability to plan how you will meet the requirements of the brief, you should therefore keep brief planning notes as you work through the tasks for this assessment
- you **must** work independently and make your own decisions as to how to approach the tasks within the employer set project
- you **must** clearly name and date all of the work that you produce during each supervised session
- you **must** hand over all of your work to your tutor at the end of each supervised session
- you **must** not work on the assessment in between supervised sessions
- copies of previously generated evidence for a subsequent task is not an opportunity to amend or improve previously submitted evidence, and any additional notes that you wish to include must be made separately from copies of previously submitted evidence

Student information

- this employer set project will assess your knowledge, understanding and skills from across the core content of the qualification
- in order to achieve a grade for the core component, you must attempt both of the external examinations and the employer set project
- the combined marks from these assessments will be aggregated to form the overall core component grade (A* to E and U), if you do not attempt one of the assessments, or fail to reach the minimum standard across all assessments, you will receive a U grade

- the maximum time you will have to complete the preparation is 2 hours; the maximum time you will have to complete all tasks for this employer set project is 14 hours 30 minutes (this is a total of 16 hours 30 minutes)
- your tutor will explain how this time is broken down, over the number of sessions, if some are chosen by your provider to be on the same day
- at the end of each supervised session, your tutor will collect all employer set project assessment materials before you leave the room - you must not take any assessment materials outside of the room, for example via a physical memory device
- you must not upload any work produced to any platform that will allow you to access materials outside of the supervised sessions (including email)
- you can fail to achieve marks if you do not fully meet the requirements of the task, or equally if you are not able to efficiently meet the requirements of the task

Plagiarism

Copying may result in the external assessment task being awarded a U grade. For further guidance, refer to your student handbook - plagiarism guidance and maladministration and malpractice policy located on the NCFE website.

Presentation of work

- all of your work should be completed electronically using black font, Arial 12pt unless otherwise specified
- any work not produced electronically must be agreed with your tutor, in which case the evidence you produce should be scanned and submitted as an electronic piece of evidence
- all of your work should be clearly labelled with the relevant task number and your student details, and be legible, for example front page and headers
- electronic files should be given a clear file name for identification purposes, see tasks for any relevant naming conventions
- all pages of your work should be numbered in the format 'page X of Y', where X is the page number and Y is the total number of pages
- you must complete and sign the external assessment cover sheet (EACS) and include it at the front of your assessment task evidence
- you must submit your evidence to the supervisor at the end of each session

Pre-release activity

You should thoroughly read the briefs in the attached document ahead of the employer set project tasks that will be provided to you under supervised conditions. You have 3 briefs outlining the general and oral health contexts of 3 individuals. **You must choose 1 of the 3 to research and discard the others.** The purpose of the pre-release activity is for you to research the situations and conditions of the individual that you have chosen from the case study with access to your own notes from your learning, supporting resources, such as textbooks, and access to the internet.

Throughout the employer set project, you will not have access to any resources other than the research you compile in the pre-release activity (therefore, it is imperative that all your research is completed at this stage).

Preparation research task

You have been asked to work with a multi-disciplinary care team to help support the individual's healthcare goals, whilst taking a holistic approach. You are therefore required to undertake research that will inform your practice to effectively support this aim.

Your research must:

- be contained within 4 pages, excluding references
- be in black, Arial font 12pt, within standard border sizes
- clearly show where sources have been used to support your own ideas and opinions
- clearly reference all sources used to support your own ideas and opinions
- reference any quotations taken from websites

Ensure you have sufficient detail and clarity in your research as you will not have access to any resources other than the research you compile in the pre-release activity.

Conditions of the assessment

- the preparation task must be completed under supervised conditions
- you will have access to the internet, your own learning notes and other relevant resources, such as textbooks and notes that you have taken throughout the year in class
- you will have a maximum of 2 hours to complete the task
- you must clearly name and date all of the work that you produce during each supervised session
- you must hand over all of your work to your tutor at the end of each task
- you must not work on the assessment in breaks in between tasks

Evidence requirements

Word processed document

Submission

The following file name conventions should be used for all materials produced:

- (provider_number)_(student registration number)_(Surname)_(First name)_prereleasetask_(additional detail of document content if multiple documents are produced per task)

Note: please request your provider and student number from your tutor.

Specimen

Assessment tasks

The employer set project has been designed as an opportunity for you to demonstrate how you respond to a current need that has been identified in your sector and is validated by employers and subject experts.

You should consider how you will approach each task and plan your time to ensure you give yourself the best opportunity to meet the needs outlined in the brief. You should keep short notes on how you approach this, as this can be used to support the completion of a reflection task required at the end of the project. Any notes you make are treated as assessment materials and must be handed over to your tutor at the end of each supervised session.

Task 1

(20 marks)

You have researched the individual, and now you need to use the information from the case study and your research from the pre-release activity (preparation research task). Write a report that identifies how to best support the individual you have chosen in their outlined situation.

You should explain the support you propose for the individual, justifying your points with evidence.

Assessment objectives

- AO1 Plan their approach to meeting the project brief
- AO2 Apply core knowledge as appropriate, and the core skills
- AO3 Select relevant techniques and resources to meet the brief
- AO4 Use English, mathematics and digital skills as appropriate

Core skills

- CS1 Demonstrate person-centred care skills
- CS5 Researching

Signposting to GDC learning outcomes

Although this assessment does not contribute to the Dental Nursing occupational specialism, the following GDC learning outcomes (LOs) are partially evidenced:

- S 2.1 Explain the principles of an evidence-based approach and evaluate an evidence base
- I 2.2 Explain the role and professional responsibilities associated with appraisal; training and review of colleagues; provision of and receipt of effective feedback in the context of developing members of the dental team
- P (B)2 Support patients to make informed decisions about their care, making their interests your first concern
- P (B)12 Act with integrity and ensure your actions maintain the trust of colleagues, patients and the public in you, your team, and the profession across all environments and media
- I (B)5 Take a patient-centred approach to working with the dental and wider healthcare team
- I (B)2 Respect the roles of dental and other healthcare professionals in the context of learning and working in a dental and wider healthcare team

Conditions of the assessment

- task 1 must be completed under supervised conditions
- you will have access to your research materials compiled in the pre-release preparation research task
- you will not have access to the internet or any other additional resource materials when completing your work for this task
- you will have a maximum of 2 hours to complete the task

Evidence requirements

Word processed outline of report and any further research material evidence.

Submission

These tasks should be saved separately.

The following file name conventions should be used for all materials produced:

- (provider_number)_(student registration number)_(Surname)_(First name)_Task1_(additional detail of document content if multiple documents are produced per task)

Note: please request your provider and student number from your tutor.

Task 2 (a)

(20 marks)

For this task you will undertake a practical role play focusing on your chosen individual.

You will take the role of a student dental nurse, and you have been asked by a dentist to conduct a discussion with the individual you have chosen.

You will discuss their case with them and ask questions to clarify points in the brief and to inform next steps for their care.

You will have time to prepare, time for the discussion and time to reflect.

In your preparation you should prepare questions and notes for the discussion, considering:

- individual consent
- maintaining confidentiality
- plans for person-centred care:
 - the individual's choices
 - the individual's needs and the individual's goals

You should also consider:

- communication techniques/skills you will need to use
- what information you need to gather from them and how you will gather it

You will be required to make notes in the discussion that you will use for the next task to develop a healthcare plan for the individual. You will receive written feedback on your conduct and communication in the discussion following this activity. You will have time to write your reflection on the feedback where you should consider both the task and your own performance.

Assessment objectives

AO1 Plan their approach to meeting the project brief

AO2 Apply core knowledge as appropriate, and the core skills

AO3 Select relevant techniques and resources to meet the brief

AO4 Use English, mathematics and digital skills as appropriate

Core skills

CS1 Demonstrate person-centred care skills

CS2 Communicating

Signposting to GDC learning outcomes

Although this assessment does not contribute to the Dental Nursing occupational specialism, the following GDC learning outcomes (LOs) are partially evidenced:

S 2.1 Explain the principles of an evidence-based approach and evaluate an evidence base

C 1.16 Explain the principles of obtaining valid patient consent

C 1.23 Identify the signs of abuse, neglect or emotional trauma, explain local and national systems that safeguard the welfare of children and adults and understand how to raise concerns and act accordingly

C 1.7 Describe psychological and sociological concepts and theoretical frameworks of health, illness, behavioural change and disease and how these can be applied in clinical practice

I 1.4 Communicate effectively and sensitively by spoken, written and electronic means with the public

I (B)1 Communicate with care, compassion, empathy and respect in all professional interactions with patients, their representatives, the public and colleagues

I 1.5 Communicate effectively by spoken, written and electronic means with colleagues from dental and other healthcare professions in relation to: the direct care of individual patients; oral health promotion; and raising concerns when problems arise, including where patients cause distress to staff

I 1.3 Communicate effectively and sensitively, tailoring to context, by spoken, written and/or electronic means with all patients, including patients whose first language is not English (using representatives or interpreters where necessary), in relation to: patients with anxious or challenging behaviour or special considerations such as emotional trauma; and difficult circumstances, such as breaking bad news or discussing issues such as alcohol consumption, smoking or diet

P (B)2 Support patients to make informed decisions about their care, making their interests your first concern

P (B)12 Act with integrity and ensure your actions maintain the trust of colleagues, patients and the public in you, your team, and the profession across all environments and media

I (B)5 Take a patient-centred approach to working with the dental and wider healthcare team

Conditions of the assessment

- task 2 (a) must be completed under supervised conditions
- you will have access to your research materials compiled in the pre-release time when writing your questions
- you will have access to your report from task 1 for reference only

- you will have access to your questions in the discussion
- you will not have access to the internet or any other additional resource materials when completing your work for this task
- you will have a maximum of 2 hours:
 - 30 minutes maximum preparing questions
 - 30 minutes maximum with the individual
 - 1 hour maximum to clarify and expand your notes, read your feedback, and write your reflection

Evidence requirements

- the written questions and notes
- pro-forma: task 2 (a) - feedback form
- a video recording

Submission

The following file name conventions should be used for all materials produced:

- (provider_number)_(student registration number)_(Surname)_(First name)_Task2a_(additional detail of document content if multiple documents are produced per task)

Note: please request your provider and student number from your tutor.

Task 2 (b)

(20 marks)

Contribute to a healthcare plan for your chosen individual using your notes from task 2 (a) and your research from the preparation research. You should use the pro-forma: task 2 (b) template provided.

You should consider:

- evidence-based practice
- underpinning theory, concepts and national policy
- person-centred care concepts

Assessment objectives

AO1 Plan their approach to meeting the project brief

AO2 Apply core knowledge as appropriate, and the core skills

AO3 Select relevant techniques and resources to meet the brief

AO4 Use English, mathematics and digital skills as appropriate

Core skills

CS1 Demonstrate person-centred care skills

CS2 Communicating

Signposting to GDC learning outcomes

Although this assessment does not contribute to the Dental Nursing occupational specialism, the following GDC learning outcomes (LOs) are partially evidenced:

S 2.1 Explain the principles of an evidence-based approach and evaluate an evidence base

C 1.44 Explain the importance and components of a comprehensive and contemporaneous patient history

C 1.23 Identify the signs of abuse, neglect or emotional trauma, explain local and national systems that safeguard the welfare of children and adults and understand how to raise concerns and act accordingly

P 3.3 Describe and evaluate the role of health promotion in terms of the changing environment, community and individual behaviours to deliver health gain

I 1.3 Communicate effectively and sensitively, tailoring to context, by spoken, written and/or electronic means with all patients, including patients whose first language is not English (using representatives or interpreters where necessary), in relation to: patients with anxious or challenging behaviour or special considerations such as emotional trauma; and difficult circumstances, such as breaking bad news or discussing issues such as alcohol consumption, smoking or diet

P (B)2 Support patients to make informed decisions about their care, making their interests your first concern

I (B)4 Contribute to your team in providing dental care for patients

I (B)5 Take a patient-centred approach to working with the dental and wider healthcare team

I (B)2 Respect the roles of dental and other healthcare professionals in the context of learning and working in a dental and wider healthcare team

Conditions of the assessment

- task 2 (b) must be completed under supervised conditions
- you will have access to your research materials you compiled in the pre-release time in task 1 and your notes from task 2 (a)
- you will not have access to the internet or any other additional resource materials when completing your work for this task
- you will have a maximum of 2 hours 30 minutes to complete this task

Evidence requirements

Completed healthcare plan template.

Submission

The following file name conventions should be used for all materials produced:

- (provider_number)_(student registration number)_(Surname)_(First name)_Task2b_(additional detail of document content if multiple documents are produced per task)

Note: please request your provider and student number from your tutor.

Task 3 (a)

(0 marks)

This part of the task is not credited.

Formative reflection task: peer feedback.

You must discuss your proposed holistic healthcare plan with your peers to gain and offer feedback. Your tutor will put you into your peer discussion groups.

You should follow this process:

- read the healthcare plans you have been given by your tutor and complete a 'provide peer discussion feedback form' for each healthcare plan that you will then discuss with the group
- hand in your peer discussion feedback form to your tutor
- in your peer discussion groups, you will be given a copy of your own holistic healthcare plan, and the feedback forms your peers completed on your healthcare plan - the maximum timings and order of tasks are as follows:
 - you will have 1 hour to read your peers' plans and complete the peer discussion form for each plan
 - you will have a maximum of 30 minutes to re-familiarise yourself with your own healthcare plan and your peer discussion feedback forms you have completed about the other plans before beginning the group discussion
 - each group member will take it in turns to receive feedback from all peers - when you give feedback on other students' healthcare plans, you must use the feedback forms to support your verbal feedback - this discussion will last a maximum of 30 minutes per plan (1 hour 30 minutes total)
 - you must complete handwritten notes that reflect on the feedback you receive from each group member on the feedback form - you will have a maximum of 30 minutes to complete the feedback form

Assessment objectives

Uncredited.

Core skills

CS2 Communicating

CS3 Team working

CS4 Reflective evaluation

CS6 Presenting

Signposting to GDC learning outcomes

Although this assessment does not contribute to the Dental Nursing occupational specialism, the following GDC learning outcomes (LOs) are partially evidenced:

C 2.1.12 Record an accurate and contemporaneous patient history

I 1.4 Communicate effectively and sensitively by spoken, written and electronic means with the public

I (B)1 Communicate with care, compassion, empathy and respect in all professional interactions with patients, their representatives, the public and colleagues

I 1.5 Communicate effectively by spoken, written and electronic means with colleagues from dental and other healthcare professions in relation to: the direct care of individual patients; oral health promotion; and raising concerns when problems arise, including where patients cause distress to staff

I 1.8 Give and receive feedback effectively to and from other members of the team.

I 1.3 Communicate effectively and sensitively, tailoring to context, by spoken, written and/or electronic means with all patients, including patients whose first language is not English (using representatives or interpreters where necessary), in relation to: patients with anxious or challenging behaviour or special considerations such as emotional trauma; and difficult circumstances, such as breaking bad news or discussing issues such as alcohol consumption, smoking or diet

I 1.1 Describe the use of a range of communication methods and technologies and their appropriate application in support of clinical practice

S (B)4 Demonstrate own professional responsibility in the development of self

S 2.6 Utilise the receipt of effective feedback in the professional development of self

S (B)5 Develop and maintain professional knowledge and competence

S (B)1 Accurately assess own capabilities and limitations in the interest of high-quality patient care and seek advice from supervisors or colleagues where appropriate

S 2.4 Explain the importance of assessment, feedback, critical reflection, identification of learning needs and appraisal in personal development planning

S (B)6 Demonstrate appropriate continuous improvement activities

I (B)2 Respect the roles of dental and other healthcare professionals in the context of learning and working in a dental and wider healthcare team

Conditions of the assessment

There is an overall time limit of 3 hours 30 minutes to complete all elements of this task. Your tutor will advise you of timings for each section before you begin. In this time, you will:

- be asked to read members of the peer discussion group your healthcare plans and provide feedback in the group, both verbally and on the provided peer discussion feedback form
- be given your healthcare plan you produced for task 2 (b), as well as time to re-familiarise yourself with the plan
- discuss your healthcare plan
- receive and provide verbal feedback
- complete the reflection on peer discussion feedback form

All work must be handed in to the tutor, who needs to sign all peer discussion forms.

Evidence requirements

- completed peer discussion feedback pro-forma: task 3 (a) feedback forms
- handwritten notes on the reflect on peer discussion feedback pro-forma
- a photograph or scan of the form should be stored digitally

Submission

The following file name conventions should be used for all materials produced:

- (provider_number)_(student registration number)_(Surname)_(First name)_Task3a_(additional detail of document content if multiple documents are produced per task)

Note: please request your provider and student number from your tutor.

Task 3 (b)

(20 marks)

Produce and conduct a presentation for your tutor, who will assume the role of a senior colleague in the healthcare dental team that would be involved in your chosen individual's care.

You must include details of your proposed changes to your healthcare plan in response to feedback in the peer discussion. After your presentation, your tutor will ask you questions based on your presentation, care appointment role play and healthcare plan, that you will respond to drawing on your knowledge, skills and experience. You should use your research to support your planning and preparation for this presentation. Your tutor will give you copies of your:

- healthcare plan
- feedback sheet from 2 (a)
- feedback sheets from 2 (b)

Your presentation **must** demonstrate use of digital presentation aids such as PowerPoint slides.

Assessment objectives

AO1 Plan their approach to meeting the project brief

AO2 Apply core knowledge as appropriate, and the core skills

AO3 Select relevant techniques and resources to meet the brief

AO4 Use English, mathematics and digital skills as appropriate

AO5 Realise a project outcome and review how well the outcome meets the brief

Core skills

CS2 Communicating

CS3 Team working

CS4 Reflective evaluation

CS6 Presenting

Signposting to GDC learning outcomes

Although this assessment does not contribute to the Dental Nursing occupational specialism, the following GDC learning outcomes (LOs) are partially evidenced:

I 1.4 Communicate effectively and sensitively by spoken, written and electronic means with the public

I (B)1 Communicate with care, compassion, empathy and respect in all professional interactions with patients, their representatives, the public and colleagues

I 1.5 Communicate effectively by spoken, written and electronic means with colleagues from dental and other healthcare professions in relation to: the direct care of individual patients; oral health promotion; and raising concerns when problems arise, including where patients cause distress to staff

I 1.8 Give feedback effectively to other members of the team

I 1.1 Describe the use of a range of communication methods and technologies and their appropriate application in support of clinical practice

S (B)4 Demonstrate own professional responsibility in the development of self

S 2.6 Utilise the receipt of effective feedback in the professional development of self

S (B)5 Develop and maintain professional knowledge and competence

S (B)1 Accurately assess own capabilities and limitations in the interest of high-quality patient care and seek advice from supervisors or colleagues where appropriate

S 2.4 Explain the importance of assessment, feedback, critical reflection, identification of learning needs and appraisal in personal development planning

S (B)6 Demonstrate appropriate continuous improvement activities

Conditions of the assessment

- you will have a maximum of 2 hours to prepare your presentation
- you will have 15 minutes maximum to present
- the question portion of the presentation will be 15 minutes maximum
- total allocated time is 2 hours 30 minutes

Evidence requirements

- presentation slides/word processed materials (completed)
- video recording of the presentation

Submission

The following file name conventions should be used for all materials produced:

- (provider_number)_(student registration number)_(Surname)_(First name)_Task3b_(additional detail of document content if multiple documents are produced per task)

Note: please request your provider and student number from your tutor

Task 4

(20 marks)

You must now complete a reflective account that considers your approach to the overall project, including how well you feel you have achieved the expected outcomes.

You will need to provide evidence of reflection, analysis and evaluation of your performance in your reflective account. A pro-forma has been provided for you to complete, that will support your reflective account.

Please use this pro-forma to structure your response.

Assessment objectives

AO2 Apply core knowledge as appropriate, and the core skills

AO5 Realise a project outcome and review how well the outcome meets the brief

Core skills

CS4 Reflective evaluation

Signposting to GDC learning outcomes

Although this assessment does not contribute to the Dental Nursing occupational specialism, the following GDC learning outcomes (LOs) are partially evidenced:

I 1.8 Give and receive feedback effectively to and from other members of the team.

S (B)4 Demonstrate own professional responsibility in the development of self

S 2.6 Utilise the receipt of effective feedback in the professional development of self

S (B)5 Develop and maintain professional knowledge and competence

S (B)1 Accurately assess own capabilities and limitations in the interest of high-quality patient care and seek advice from supervisors or colleagues where appropriate

S 2.4 Explain the importance of assessment, feedback, critical reflection, identification of learning needs and appraisal in personal development planning

S (B)6 Demonstrate appropriate continuous improvement activities

Conditions of the assessment

You will have a maximum of 2 hours to complete your reflective account, with access to the feedback and all your previous work that you have carried out in your supervised sessions

Evidence requirements

- completed pro-forma: task 4 - reflective account

Submission

The following file name conventions should be used for all materials produced:

- (provider_number)_(student registration number)_(Surname)_(First name)_Task4_(additional detail of document content if multiple documents are produced per task)

Note: please request your provider and student number from your tutor

Pro-forma: task 2 (a) - feedback form

The following form is for use in task 2 (a).

Note: The spaces provided below are not indicative of length of response required. However, you should consider how you will approach this task with your response.

Person-centred care

Patient consent was gained			
1 Entirely disagree	2 Mostly disagree	3 Mostly agree	4 Entirely agree
Please provide examples:			

The care goals for the chosen individual were established			
1 Entirely disagree	2 Mostly disagree	3 Mostly agree	4 Entirely agree
Please provide examples:			

The approach was safe, compassionate and respectful			
1 Entirely disagree	2 Mostly disagree	3 Mostly agree	4 Entirely agree
Please provide examples:			

Communication

The communication was clear and effective with the chosen individual			
1 Entirely disagree	2 Mostly disagree	3 Mostly agree	4 Entirely agree

There was evidence of appropriate techniques to overcome communication barriers			
1 Entirely disagree	2 Mostly disagree	3 Mostly agree	4 Entirely agree

Non-verbal communication was appropriate and effective			
1 Entirely disagree	2 Mostly disagree	3 Mostly agree	4 Entirely agree

Other feedback

The tutor must sign this piece of work for the purposes of validation:

Student number	Provider number
Student name	Tutor name
Student signature	Tutor signature

Pro-forma: task 2 (b) - healthcare plan template

The following template is for use in task 2 (b).

Note: The spaces provided below are not indicative of length of response required. However, you should consider how you will approach this task with your response.

Patient name	Student dental nurse name	Date completed

Individual's goals

Individual's preferences

Individual's values

Any other information

Healthcare/support needs	Healthcare/support approach	People and teams involved in healthcare/support	Recommendations and future actions

Pro-forma: task 3 (a) - provide peer discussion feedback

Copy this table to provide individual feedback for each student within your group.

Student name	
Activity plan	
Date	

State one aspect of the student's healthcare plan that you thought would work well and why
Prepare one question to ask about the student's healthcare plan Your question should be about how and why they have designed the plan the way it is
Provide one example of how you feel the student's healthcare plan could be improved

The tutor must sign this piece of work for the purposes of validation:

Student number	Provider number
Student name	Tutor name
Student signature	Tutor signature

Pro-forma: task 3 (a) - reflect on peer discussion feedback

Print out this form to allow completion of handwritten notes of the peer discussion. Please ensure that your writing is legible and that the document is suitable for scanning so it can be made available as an electronic piece of evidence. If you wish to expand the space to cover multiple pages before printing, feel free to do so.

Questions you were asked by your peers
<p>Specimen</p>

What your peers felt would work well in your healthcare plan and why
<p>Specimen</p>

Examples of how your peers think that your healthcare plan could be improved
<p>Specimen</p>

Pro-forma: task 4 - reflective account

The spaces provided below are not indicative of length of response required. Consideration should be given to the time limit stated in the 'conditions of the assessment' section of the task.

You should consider the following areas when completing this task:

- how you feel you approached the overall project and how you achieved the tasks individually?
- evaluate your performance and experience, reflecting on what did and did not go well and focusing on your strengths and weaknesses in both performance and knowledge
- outline conclusions you can draw from this experience
- identify areas you would approach differently or improve if you were to be faced with a similar project

Overall approach to the project
Strengths
Areas for development
Performance on each task
Task 1
Task 2 (a)

Performance on each task
Task 2 (b)
Task 3 (a)
Task 3 (b)
Task 4

Evaluation of how your overall project outcomes meet the brief

What are your areas for improvement, and what would you do differently in the future?

Conclusions drawn from the project
